**Record amendment to pipelines within the Sylvan Lake area
Licence 2595
Proceeding 20149
Application 20149-A001**

Record amendment application

1. ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application 20149-A001 registered on February 9, 2015, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* to amend the maximum operating pressure (MOP) of lines 19, 27, 30 and 31 from 4,960 kilopascals (kPa) to 4,690 kPa in Township 38, Range 28, west of the Fourth Meridian and Township 38, Range 1, west of the Fifth Meridian. The proposed amendment is related to facilities previously constructed and operating in accordance with approvals granted in Licence 2595.
2. ATCO stated that after reviewing its records, it was determined that the licence did not reflect the correct MOP of lines 19, 27, 30 and 31. Therefore, ATCO has applied to amend the pipeline licence to accurately reflect the record of these pipelines.
3. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.
4. Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

5. The Commission approves the application. The amended licence is attached.
