**Record Amendments for Northwest Edmonton Transportation Utility Corridor
Relocations
Licence 30475
Proceeding 20153
Application 20153-A001**

Record amendment application

1. ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application 20153-A001 registered on February 11, 2015, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following in Township 54, Ranges 23 and 24, west of the Fourth Meridian:

- pipe status amendment of Line 22 from operating to abandoned
- length amendment of Line 22 from 0.17 kilometres (km) to the revised length of 0.20 km
- length amendment of Line 27 from 1.03 km to the revised length of 1.05 km

The proposed amendment is related to facilities previously constructed and operating in accordance with approvals granted in Licence 30475.

2. ATCO stated that it received approval from the Commission to complete pipeline relocations of the high-pressure pipelines in the Edmonton Transportation Utility Corridor to accommodate the construction of the Northwest Edmonton Ring Road under Application 1604861. After reviewing its records ATCO determined that the abandonment of Line 22 was not applied for within the 90 day notification period allowed by the Commission. It also became apparent that length amendments to the records would be required.

3. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

4. Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.
5. The Commission approves the application. The amended licence is attached.
