Attention: Jennifer Coleman, CMA
Senior Regulatory Specialist

AltaGas Utilities Inc.
Third-Party Transportation Rate – September 2015
Proceeding 20776

1. AltaGas Utilities Inc. (AltaGas) submitted its monthly filing on August 25, 2015, to the Alberta Utilities Commission for its proposed third-party transportation rate (TPTR) for the month of September 2015. The proposed TPTR was \$0.673 per gigajoule (GJ).
2. The AUC has reviewed the filing and considers that the proposed TPTR was determined in accordance with the method approved in Decision [2007-079](#),¹ as issued by the Alberta Energy and Utilities Board, predecessor to the AUC. Consequently, the AUC acknowledges for AltaGas the TPTR of \$0.673/GJ, which, as set out in Rate Rider G, is to be applied to the energy delivered to default supply and retail supply distribution service customers during the month of September 2015.
3. Upstream transportation costs that are currently recovered through the TPTR were previously recovered through AltaGas' gas cost recovery rate (GCRR). Therefore, the Commission considers that, similar to the direction provided to gas utilities for GCRR applications in Decision [2001-75](#),² interested parties shall be provided with a 30-day review period following the filing of each monthly TPTR in which to raise any concerns with the determination of the TPTR.
