Project Engineer, Pipeline Integrity Projects

Mapping Amendment in the Blackfalds Area
Licence 2792
Proceeding 21239
Application 21239-A001

Record amendment application

1. ATCO Gas and Pipelines Ltd. (South) (ATCO) , by Application 21239-A001 registered on January 6, 2016, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for a mapping amendment of Line 1 in the Blackfalds area. The proposed amendment is related to facilities previously constructed and operating in accordance with approvals granted in Licence 2792.
2. ATCO stated that an incorrect representation of Line 1 of Licence 2792 was discovered on the base map as part of a routine maintenance project. In 2010, ATCO replaced a section of 42.2-mm pipeline, Line 1 of Licence 2792; and a 60.3-mm pipeline, Line 9 of Licence 7029, with a single 88.9-mm pipeline, Line 33 of Licence 7029, to accommodate road widening in the area.
3. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.
4. Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

5. The Commission approves the application. The base map will be updated; however, no amendment to the licence is required.
