Record amendment application

1. ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application 21749-A001 registered on June 24, 2016, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* to amend the pipe status of line 1, near Ryley, from operating to abandoned. The proposed amendment is related to facilities previously constructed in accordance with approvals granted in Licence 6369.
2. ATCO stated that line 1 is an 88.9 millimetre pipeline that extends from a previously removed valve assembly to a compressor station which was also removed. Approval to remove the compressor station was granted in Decision 2012-125.¹ Line 1 was purged with air, capped and abandoned outside the 90 day application window allowed by the AUC.
3. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.
4. Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.
