Pipelines Engineering Clerk**Permit and Licence No. 4393**  
**Application No. 1609339**  
**Proceeding ID No. 2459****Record amendment application**

ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application No. 1609339 registered on February 26, 2013, filed an application with the Alberta Utilities Commission (AUC or the Commission) under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following in Township 49, Range 8 west of the Fourth Meridian:

- Deletion of Line 1 from Permit and Licence No. 4393.
- Pipe grade amendment of Line 1.

The proposed amendment is related to facilities previously constructed and operating in accordance with approvals granted in Permit and Licence No. 4393.

ATCO stated that upon review of their records they discovered that Line 1 on Permit and Licence No. 4393 had been converted to a low pressure pipeline. An amendment to pipeline Permit and Licence No. 4393 is required to reflect the change to a low pressure pipeline with a maximum operating pressure (MOP) of 550 kilopascals (kPa), because a low pressure pipeline with an MOP of less than 700 kPa does not require licensing by the AUC.

ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

The Commission approves the application. The amended permit and licence is attached.

A handwritten signature in black ink, appearing to read "D. Popowich".

Don Popowich, P. Eng.  
Director, Electric Facilities  
On behalf of the Alberta Utilities Commission
