Pipelines Engineering Clerk**Amendment to Permit and Licence No. 92**
Application No. 1609368
Proceeding ID No. 2491**Record amendment application**

ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application No. 1609368 registered on March 7, 2013, filed an application with the Alberta Utilities Commission (AUC or the Commission) under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following in Township 35, Range 5, west of the Fourth Meridian:

- Stress level amendment of Line 1 from 0 to 19.
- Pipe outside diameter amendment of Line 1 from 31.8 millimetres to 42.2 millimetres.
- Pipe grade amendment of Line 1 from unknown to BW1.

The proposed amendment is related to facilities previously constructed and operating in accordance with approvals granted in Permit and Licence No. 92.

ATCO stated that after reviewing its records it was determined that the outside diameter for Line 1 should be reflected as 42.2 millimetres and that the pipe grade should be reflected on the permit and licence as BW1. It was also determined that the stress level was not shown on the permit and licence.

ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

The Commission approves the application. The amended permit and licence is attached.

A handwritten signature in black ink, appearing to read "B. Shand". The signature is written in a cursive, somewhat stylized font.

Brian Shand, P. Eng.
Director, Gas Facilities
On behalf of the Alberta Utilities Commission
