Default Rate Tariff
Gas Charge – June 2012
Application No. 1608480**

1. AltaGas Utilities Inc. (AltaGas) submitted its monthly filing on May 25, 2012, to the Alberta Utilities Commission (the AUC or the Commission) for its proposed gas cost recovery rate (GCCR)¹ for the month of June 2012. The proposed GCCR was \$2.140 per gigajoule (GJ).
2. The AUC has reviewed the filing and accepts that the proposed GCCR was calculated on a monthly flow-through basis in accordance with Section 3(5) of the *Default Gas Supply Regulation*, AR 184/2003, as amended, and in accordance with the directions previously issued to gas utilities by the Alberta Energy and Utilities Board, predecessor to the AUC, in Decision 2001-75² and, more specifically to AltaGas, in Decision 2002-036.³ Consequently, the AUC acknowledges for AltaGas the GCCR of \$2.140/GJ, as set out in Rate Rider “D”, which is to be applied to the energy sold to all sales service rates unless otherwise specified by specific contracts during the month of June 2012.
3. As directed in Decision 2001-75, interested parties will be provided with a 30-day review period following the filing of each monthly GCCR in which to raise any concerns with the GCCR, price and volume forecasts, and prior period reconciliations.
