Gas Charge – August 2012  
Application No. 1608683**

1. AltaGas Utilities Inc. (AltaGas) submitted a revised monthly filing<sup>1</sup> on July 27, 2012 with the Alberta Utilities Commission (the AUC or the Commission) for its proposed gas cost recovery rate (GCRR)<sup>2</sup> for the month of August 2012. The proposed GCRR was \$2.220 per gigajoule (GJ).
2. The AUC has reviewed the filing and accepts that the proposed GCRR was calculated on a monthly flow-through basis in accordance with Section 3(5) of the *Default Gas Supply Regulation*, AR 184/2003, as amended, and in accordance with the directions previously issued to gas utilities by the Alberta Energy and Utilities Board, predecessor to the AUC, in Decision 2001-75<sup>3</sup> and, more specifically to AltaGas, in Decision 2002-036.<sup>4</sup> Consequently, the AUC acknowledges for AltaGas the GCRR of \$2.220/GJ, as set out in Rate Rider “D”, which is to be applied to the energy sold to all sales service rates unless otherwise specified by specific contracts during the month of August 2012.
