1 Introduction

1. ATCO Gas and Pipelines Ltd. (South) (ATCO) filed an application with the Alberta Utilities Commission (AUC or the Commission) seeking approval for an amendment to Permit and Licence No. 17893 pursuant to Section 11 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following:

- decrease the maximum operating pressure (MOP) for Line 1 from 8890 kilopascals (kPa) to 7310 kPa

(the amendment).

2. The application was registered on April 26, 2011, as Application No. 1607238.

3. ATCO stated that a difference greater than five per cent has been identified in the licensed MOP between Line 1 of Licence 17893 and the connecting pipeline (ATCO Licence 4464 - Line 1), which is in the process of being lowered to an MOP of 7310 kPa. A decrease in MOP for Line 1 of Licence 17893 is required to meet the requirements under Section 22(2) of the *Pipeline Regulation*. No other companies would be directly or adversely affected by the decrease in MOP on this pipeline.

2 Findings

4. The Commission finds that decreasing the MOP of the connected pipelines to the lower MOP is an acceptable means of meeting the requirements under Section 22(2) of the *Pipeline Regulation*.

5. The Commission has reviewed the application and determined that it meets the requirements as stipulated in AUC Rule 020: *Rules Respecting Gas Utility Pipelines*.

6. Based on the foregoing, the Commission considers the amendment to be in the public interest in accordance with Section 17 of the *Alberta Utilities Commission Act*.

3 Decision

7. Pursuant to Section 11 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act*, the Commission approves the amendment to Permit and Licence No. 17893 and grants the applicant the amended permit and licence as set out in Appendix 1 – Permit and Licence No. 17893 – May 3, 2011 (Appendix 1 will be distributed separately).

Dated on May 3, 2011.
