**ATCO GAS AND PIPELINES LTD. (SOUTH)
PIPELINE SPLIT AND NEW CONSTRUCTION
AMENDMENT/ADDITION TO ALLOW
CONVERSION OF SERVICE TO THE NEW
SOUTHERN EXTENSION PIPELINE**

**Decision 2010-320
Application No. 1606324
Proceeding ID. 705**

1 INTRODUCTION

1. ATCO Gas and Pipelines Ltd. (South) (Applicant) filed an application with the Alberta Utilities Commission (AUC or Commission) seeking approval for an amendment/addition to Permit/Licence 2526 for the following:

- Split Line 64 into Lines 64 and 102; and
- Addition of newly constructed pipeline (Line 103 – 0.12 km of 88.9 mm OD pipe)

(Project).

2 BACKGROUND

2. The application was registered on June 29, 2010 as Application 1606324 (Application).

3. The Applicant stated that the amendment/addition was necessary to allow for the conversion of service to the new Southern Extension Pipeline and future abandonment of the vintage Southern Extension Pipeline. The proposed 88 mm pipeline will tie in to the new Southern Extension Pipeline and connect to an existing lateral. The new pipeline must be installed and tied in to prevent loss of customers when the existing vintage Southern Extension Pipeline is decommissioned and abandoned.

4. The Application stated that a participant involvement program has been conducted by the Applicant and that there are no outstanding public or industry objections or concerns.

5. ATCO Pipelines has also completed consultation with the local municipalities including Lacombe County. The proposed pipeline alignments were determined through consultation with stakeholders as well as the affected landowners.

6. ATCO Pipelines proposed to install a new above-ground valve assembly for the 88 mm lateral from the new 219 mm Southern Extension Transmission (Licence 2526). ATCO Pipelines has notified affected landowners of the above-ground valve assembly, received non-objection letters from the landowners and obtained the necessary surface lease for the valve assembly.

7. Traditional Land Use Consultation meetings with the four First Nations in the Hobbema area were held in October and November of 2009. Letters of support were received from Samson Cree Nation on January 19, 2010, Montana First Nation on December 15, 2009, Louis Bull Tribe on December 14, 2009, and Ermineskin Cree Nation on November 18, 2009.

3 DISCUSSION

8. The Commission has reviewed the Application and has determined that it meets the requirements as stipulated in *AUC Rule 020*.

9. Since no parties objected to the Application and the Project is necessary to allow conversion of service to the new Southern Extension Pipeline, the Commission considers the Project to be in the public interest.

4 DECISION

10. Pursuant to section 11 of the *Pipeline Act* and section 4.1 of the *Gas Utilities Act*, the Commission approves the amendment/addition to Permit/Licence 2526 for the Project and grants the Applicant the amended Permit/Licence as set out in Appendix 1 – Gas Utility Pipeline – New Construction – Permit/Licence No. 2526 – July 7, 2010 (Appendix 1 will be distributed separately).

Dated on July 7, 2010.
