ATCO GAS AND PIPELINES LTD. (SOUTH) RECORD CORRECTION AMENDMENT TO REFLECT THE MOST ACCURATE INFORMATION ON THE PIPELINE LICENCE

Decision 2010-328
Application No. 1606344
Proceeding ID. 719

1 INTRODUCTION

1. ATCO Gas and Pipelines Ltd. (South) (Applicant) filed an application with the Alberta Utilities Commission (AUC or Commission) seeking approval for an amendment to Permit/Licence 2469 for the following:

- Delete Line No. 2 from the Licence

(Project).

2 BACKGROUND

2. The application was registered on July 7, 2010 as Application 1606344 (Application).

3. The Applicant stated that the Project was necessary to reflect the most accurate information on the pipeline licence. The line has been converted to low pressure and is therefore no longer required to be permitted. The MOP of the existing line was 1450 kPa, but has been lowered to 550 kPa which no longer requires licensing by the AUC. ATCO Gas has completed tying this pipeline into its distribution system; therefore, the line no longer has a high-pressure feed. ATCO Pipelines will permanently abandon the HP Tap and Riser, and remove all above-ground appurtenances from the ATCO Pipelines right-of-way.

3 DISCUSSION

4. The Commission has reviewed the Application and has determined that it meets the requirements as stipulated in *AUC Rule 020*.

5. Since the Project is necessary to reflect the most accurate information on the pipeline licence, the Commission considers the Project to be in the public interest.

4 DECISION

6. Pursuant to section 11 of the *Pipeline Act* and section 4.1 of the *Gas Utilities Act*, the Commission approves the amendment to Permit/Licence 2469 for the Project and grants the Applicant the amended Permit/Licence as set out in Appendix 1 – Gas Utility Pipeline – Record Correction – Permit/Licence No. 2469 – July 12, 2010 (Appendix 1 will be distributed separately).

Dated on July 12, 2010.
