Decision 23215-D01-2017

ATCO Gas and Pipelines Ltd.
7210 - 42 Street N.W.
Edmonton, Alta. T6B 3H1

Attention: Jason Cunha
Engineer, Pipelines Engineering

Edgemont Branch Pipeline in Calgary
Licence 15456
Proceeding 23215
Application 23215-A001

Record amendment application

1. ATCO Gas and Pipelines Ltd. (ATCO), by Application 23215-A001 registered on December 18, 2017, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following in the city of Calgary:

- H₂S content amendment of line 1 from 0.10 mol/kmol to 0.01 mol/kmol
- pipe status amendment of line 1 from abandoned to removed

2. The proposed amendments are related to facilities previously constructed and operated in accordance with approvals granted in Licence 15456.

3. ATCO stated that, upon review of its records, it became apparent that the 88.9-millimetre Edgemont Branch Line, line 1, was installed as a temporary line in 1978 and removed in 1980 and that the H₂S content should have been specified as 0.01 mol/kmol instead of 0.10 mol/kmol.

4. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

5. Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

6. The Commission approves the application. In approving the application, however, the Commission makes no determination regarding the regulatory treatment of the costs of the assets to be removed, retired or abandoned pursuant to the application, the costs incurred in carrying out these activities, or the associated rate implications. The amended licence is attached.
