Proceeding 23959
Application 23959-A001

Record amendment application

1. ATCO Gas and Pipelines Ltd. (ATCO), by Application 23959-A001 registered on October 5, 2018, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* to amend the maximum operating pressure of lines 18, 22, 36 and 39. The proposed amendment is related to facilities previously constructed in accordance with approvals granted in Licence 7029.
2. ATCO determined upon review of its records that the maximum operating pressure for the line segments applied for were not reflective of a removed status. This application is to correct the maximum operating pressure of the removed lines to “0”.
3. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.
4. Based upon the information provided, the Commission is satisfied that the proposal is of a minor nature, no person will be directly and adversely affected by the proposal, and no significant adverse environmental impact will be caused by the proposed record amendment.
5. The Commission approves the application. The amended licence is attached.
