**Pipeline within Parkland County**  
**Licence 28593**  
**Proceeding 24309**  
**Application 24309-A001**

**Record amendment**

1. ATCO Gas and Pipelines Ltd. (ATCO), by Application 24309-A001 registered on February 6, 2019, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following:

- pipe status amendment of line 2 from operating to abandoned
- wall thickness amendment of line 2 from 4.8 millimetres to 5.6 millimetres

2. The proposed amendment is related to facilities previously constructed in accordance with approvals granted in Licence 28593.

3. ATCO stated that line 2 was previously abandoned; however, the pipe status was not updated to reflect the abandoned status. ATCO also stated that it discovered that during the initial licencing of line 2, an incorrect wall thickness was recorded for the licence. Therefore, ATCO has applied to amend the pipeline licence to accurately reflect the record of this pipeline.

4. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

5. Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

6. The Commission approves the application. The amended licence is attached.
