**Default Rate Tariff**  
**Gas Charge – September 2013**  
**Application No. 1609875**

1. AltaGas Utilities Inc. (AltaGas) submitted its monthly filing on August 26, 2013, with the Alberta Utilities Commission (the AUC or the Commission) for its proposed gas cost recovery rate (GCCR)<sup>1</sup> for the month of September 2013. The proposed GCCR was \$2.349 per gigajoule (GJ).
2. The AUC has reviewed the filing and accepts that the proposed GCCR was calculated on a monthly flow-through basis in accordance with Section 3(5) of the *Default Gas Supply Regulation*, AR 184/2003, as amended, and in accordance with the directions previously issued to gas utilities by the Alberta Energy and Utilities Board, predecessor to the AUC, in Decision 2001-75<sup>2</sup> and, more specifically to AltaGas, in Decision 2002-036.<sup>3</sup> Consequently, the AUC acknowledges for AltaGas the GCCR of \$2.349/GJ, as set out in Rate Rider D, which is to be applied to the energy sold to all sales service rates unless otherwise specified by specific contracts during the month of September 2013.
3. As directed in Decision 2001-75, interested parties will be provided with a 30-day review period following the filing of each monthly GCCR in which to raise any concerns with the GCCR, price and volume forecasts, and prior period reconciliations.
