ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application No. 1610299 registered on February 3, 2014, filed an application with the Alberta Utilities Commission (AUC or the Commission) under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* to add an existing operating pipeline to Permit and Licence No. 3861 (Line 86 – 0.07 kilometres of 60.3-millimetre outside-diameter pipeline) in Township 53, Range 26, west of the Fourth Meridian. The proposed amendment is an addition to facilities previously constructed and operating in accordance with approvals granted in Permit and Licence No. 3861.

ATCO stated that upon review of its records it discovered that a 70-metre lateral to a meter station was not on the license. This application is to correct the license to reflect the unlicensed line segment.

ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

The Commission approves the application. The amended permit and licence is attached.
