Permit and Licence No. 30454
Application No. 1610401
Proceeding No. 3128

Record amendment application

ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application No. 1610401 registered on March 20, 2014, filed an application with the Alberta Utilities Commission (AUC or the Commission) under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* to add an existing compressor station to Permit and Licence No. 30454 in Township 20, Range 28, west of the Fourth Meridian. The proposed amendment is an addition to facilities previously constructed and operating in accordance with approvals granted under Alberta Energy and Utilities Board (EUB) Approval No. 1997-1298.

ATCO stated that this compressor station was installed in 1997 by ATCO (formerly Canadian Western Natural Gas Company Limited) subsequent to EUB Approval No. 1997-1298. A recent review of license records indicated that no installation number exists for this compressor station. This application is to correct this omission and re-license this compressor station as Installation No. 1 under Permit and Licence No. 30454.

ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

The Commission approves the application. The amended permit and licence is attached.

Brian Shand, P. Eng.
Director, Gas Facilities
On behalf of the Alberta Utilities Commission
