Proceeding No. 3207**Record amendment application**

ATCO Gas and Pipelines Ltd. (South) (ATCO), by Application No. 1610547 registered on May 6, 2014, filed an application with the Alberta Utilities Commission (AUC or the Commission) under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following in Township 51, Ranges 26 and 27, west of the Fourth Meridian:

- stress level amendment of Line 4 from zero to 56
- mapping amendment of Line 4

The proposed amendment is related to facilities previously constructed and operating in accordance with approvals granted in Permit and Licence No. 799.

ATCO stated that upon review of its records, it was determined that the stress level was incorrectly recorded on the licence and that there was a mapping error on the base map. This application was filed to correct these errors.

ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.

Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendment.

The Commission approves the application. The amended permit and licence is attached.
