The proposed amendments are related to the facilities previously constructed and operating in accordance with approvals granted in Licence Nos. 1818, 2171, 4286, 4459, 4707, 4950, 5372, 6733, 7256, 7524, 7776, 9193, 11208, 14856, 16585 and 19856.

ATCO stated that upon reviewing these pipeline segments, as part of the Alberta System Integration Agreement pipeline facility transfer between ATCO and NOVA Gas Transmission Ltd., a stress level of zero was found in all of these segments although all of them are operating. Additionally, pipe grade, wall thickness, pipe type, location and environmental code errors were identified for correction.

ATCO provided information respecting the need, nature and extent of the pipeline record amendments. Since the record amendments do not involve a ground disturbance, there will be no environmental impact.

Based upon the information provided, ATCO has demonstrated that the proposal is of a minor nature, no other person will be directly affected by the proposal and no adverse environmental impact will be caused by the proposed record amendments.

The Commission approves the application. The amended licences are attached.
