WHEREAS:

- A. On September 13, 2012, Pacific Northern Gas (N.E.) Ltd. [PNG(N.E.)] applied to the British Columbia Utilities Commission (Commission) for approval under sections 44.2(1)(b) and 52 of the *Utilities Commission Act* (Act) to:
- (i) construct a new Dawson Creek Operations Centre on vacant property presently owned by PNG(N.E.) at 1805 – 98th Avenue, Dawson Creek for an estimated cost of \$1,017,000 (New Operations Centre), and
 - (ii) dispose of the facilities comprising the existing Dawson Creek office building and land at 1208 – 102nd Avenue, Dawson Creek (Existing Operations Centre) (Application);
- B. PNG(N.E.) states that the Existing Operations Centre's building design and location are no longer suitable for its operational needs;
- C. PNG(N.E.) states that it has received and conditionally accepted an offer from a third party to purchase the Existing Operations Centre for an amount that approximates the market value of the assets. The offer also permits PNG(N.E.) to lease back the office space while the New Operations Centre is under construction;
- D. The accounting and income tax gain on the proposed sale of the Existing Operations Centre is estimated to be \$64,000 on the building and \$92,000 on the land, which together create a total gain of \$156,000. PNG(N.E.) also proposes to attribute the entire gain to the ratepayers;
