- E. FEW seeks approval for the discontinuation, continuation, and creation of deferral accounts and the amortization and disposition of balances in deferral accounts;
- F. On December 17, 2013, the British Columbia Pensioners and Seniors Organization filed a letter that supports a simplified review process for the Application, requesting that if the Commission approves the deferral account treatment that it explicitly state that it is not granting final approval of the estimates and these amounts will be subject to a future process; and
- G. The Commission reviewed and considered the remainder of the Deferral/RSAM Application and determines that maintaining the current 2013 delivery rates and the requested changes should be approved.

NOW THEREFORE pursuant to sections 59 to 61 and 89 of the *Utilities Commission Act* the Commission approves for FortisBC Energy (Whistler) Inc.:

1. The continuation of current delivery rates effective January 1, 2014 at the same level as 2013 rates.

The discontinuance, modification, and creation of deferral accounts, and the amortization and disposition of balances of deferral accounts, all as set out in Section 1 of the Deferral/RSAM Application. This approval is subject to an examination of the 2014 actual results that are added to the deferral accounts, and the cost recovery in the next revenue requirements proceeding.
3. The adoption of the accounting changes and shared and corporate services allocations that are approved for FortisBC Energy Inc. in its Application for Approval of a Multi-Year Performance Based Ratemaking Plan for 2014-2018 as set out in the Deferral/RSAM Application.
