Dear Mr. Murray:

**Re: Union Gas Limited (Union)
2016 Dawn Parkway System Expansion Project
Change Requests
Board File Number: EB-2014-0261**

The Ontario Energy Board (OEB) is in receipt of your letter dated May 11, 2016 in which you informed the OEB of two changes to the 2016 Dawn Parkway System Expansion Project.

The first change is that Union requires two additional 110 m x 45 m parcels of temporary land use to facilitate the construction of the pipeline. The second change is that Union requires additional irregular temporary land use to facilitate the construction of the pipeline and also requires additional temporary land use for a temporary access lane to the construction site.

As the Manager, Natural Gas Applications, I have been delegated the authority of the OEB under Section 6 of the *Ontario Energy Board Act, 1998* to determine whether Union's proposals will result in material changes to the leave to construct granted by the OEB in the EB-2014-0261 proceeding. I have been further granted the authority to approve any changes that I have concluded are not material.

For both changes, you indicated that there are no proposed changes to the construction

of the facilities, there are no new environmental mitigation measures required, and there will be no additional costs to the project. In addition, all of the necessary temporary land rights were acquired and no issues have been raised by the directly affected landowners.

Based on my review of the information provided, I find that the described changes do not materially impact the leave granted by the OEB to construct the pipeline. I hereby approve the two proposed changes.

Yours truly,

Original Signed By
