

**EB-2013-0205**

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Sched. B);

**AND IN THE MATTER OF** an Application by Natural Resource Gas Limited, pursuant to section 36(1) of the *Ontario Energy Board Act, 1998*, for an order or orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission, and storage of gas as of April 1, 2013; and

**AND IN THE MATTER OF** the quarterly rate adjustment mechanism.

By delegation, before: Pascale Duguay

## **DECISION AND ORDER**

**June 20, 2013**

Natural Resource Gas Limited (“NRG”) filed an application dated June 7, 2013, with the Ontario Energy Board (the “Board”) for an order or orders approving or fixing just and reasonable rates and other charges for the sale and distribution of gas commencing July 1, 2013 (the “Application”). The Application was made pursuant to NRG’s approved Quarterly Rate Adjustment Mechanism (“QRAM”).

NRG provided written evidence in support of the proposed changes outlined in the Application. The Application and pre-filed evidence was provided by NRG to all parties of record in NRG’s rates proceeding, EB-2010-0018. The Application also set out the dates for filing comments and the company’s reply to those comments.

On June 12, 2013, Board staff submitted comments on NRG’s QRAM Application. Board staff sought reasons for the higher commodity cost in September of 2012. NRG

replied on June 13, 2013 indicating that it had to shed excess gas in order to remain within its contract parameters with Union Gas and avoid any penalties. Accordingly, NRG sold 35,700 GJ of gas delivered to Parkway at a price of \$2.926/GJ for a total offset to gas costs of \$104,444.

No comments were received from any other party.

I have considered the evidence and find that it is appropriate to adjust NRG's rates effective July 1, 2013 to reflect the projected changes in gas costs and prospective recovery of the projected twelve-month balances of the gas supply deferral accounts for the period ending June 2013. I also find that it is appropriate to adjust NRG's reference prices to reflect the projected changes in gas costs.

**IT IS ORDERED THAT:**

1. The rates approved for Natural Resource Gas Limited as part of Decision and Order EB-2013-0052 dated March 20, 2013 shall be superseded by the rates as provided in Appendix "A" and attached to this Rate Order.
2. The rates shall be effective July 1, 2013 and shall be implemented in Natural Resource Gas Limited's first billing cycle commencing in July 2013.
3. The reference price for use in determining the amounts to be recorded in the PGCVA (Account No. 179-27) shall increase by \$0.005927 per m<sup>3</sup> from the Board approved level of \$0.194355 per m<sup>3</sup> to \$0.200282 per m<sup>3</sup> as shown in Schedule "A" of Appendix "A" attached to this Rate Order.
4. The balance in the Gas Purchase Rebalancing Account be prospectively cleared. The resulting gas supply charge will increase from the Board approved level of \$0.194287 per m<sup>3</sup> to \$0.200853 per m<sup>3</sup> as noted in Schedule "A" of Appendix "A" attached to this Rate Order.
5. The appropriate form of customer notice as set out in Appendix "C" shall accompany each customer's first bill or invoice following the implementation of this Order.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or

Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.1530 cents per m<sup>3</sup> for firm gas and 5.4412 cents per m<sup>3</sup> for interruptible gas.

4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 5.7163 cents per m<sup>3</sup> and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

**APPENDIX "C" TO  
DECISION AND ORDER  
BOARD FILE NO. EB-2013-0052  
DATED: June 20, 2013**

## **IMPORTANT INFORMATION ABOUT YOUR GAS BILL**

On all bills rendered by NRG on or after July 1, 2013, the price we charge for the gas commodity and transportation portion of your bill will be increasing by \$0.006566 per cubic meter to \$0.200853 per cubic meter. The Ontario Energy Board (OEB) has approved this change to reflect the prices that NRG expects that it will be paying to its gas suppliers through to the end of June, 2014. On your gas bill this cost is on the line entitled "Gas Commodity".

As a regulated utility, NRG is permitted to recover what it pays for the purchase of gas plus any costs reasonably associated with this purchase but with no mark up or 'profit'. The price the utility charges you is based on the forecasted gas and transportation costs to NRG, which are periodically reviewed by the OEB and reconciled with actual costs. The gas commodity portion gets adjusted regularly throughout the year as the price of the gas commodity changes.

How will this price change impact you? That will depend on the amount of gas that you use. For a typical residential customer who consumes approximately 2,009 cubic meters of gas annually, this price change will cause your annual heating costs to increase by approximately \$13 per year. For customers who have arranged to have their gas supplied by a gas marketer/broker, the price may or may not change depending on the terms of the contract the customer has with the gas marketer/broker.

If you have any questions about this rate change, please do not hesitate to contact us at 519-773-5321. We thank you for continuing to make natural gas your fuel of choice.
