AND WHEREAS under the Mutual Reliance Review System for Exemptive Relief Applications (the "System"), the Ontario Securities Commission is the principal regulator for this application;

AND WHEREAS, unless otherwise defined, the terms herein have the meanings set out in National Instrument 14-101 Definitions;

AND WHEREAS the Applicants have represented to the Decision Makers that:

1. JDCI primarily finances sales and leases by John Deere dealers of new and used agricultural, commercial and consumer, and construction and forestry equipment.
2. JDCI is the result of the amalgamation under the *Canada Business Corporations Act* on October 28, 1996 of Canadian Equipment Finance Corporation and John Deere Finance Limited. JDCI is an indirect, wholly-owned subsidiary of Deere & Company ("Deere"), a reporting company under the *Securities Exchange Act of 1934*, as amended (the "1934 Act").
3. JDCI became a reporting issuer or the equivalent in the Jurisdictions by virtue of it filing a short form shelf prospectus dated July 22, 1999 with the Decision Makers in connection with the establishment in Canada of a medium term note program (the "1999 MTN Program") under the provisions of former National Policy Statement No. 47 and former National Policy Statement No. 44. JDCI "renewed" the 1999 MTN Program on August 2, 2001 (the "2001 MTN Program") pursuant to a short form shelf prospectus dated July 31, 2001.
4. JDCC was incorporated under the laws of Delaware on June 18, 1958, and is not a reporting issuer or the equivalent in any of the Jurisdictions. JDCC is an indirect, wholly-owned subsidiary of Deere. Deere is party to an agreement with JDCC pursuant to which Deere has agreed to continue to own at least 51% of the voting shares of capital stock of JDCC. JDCC and its subsidiaries (collectively, "John Deere Capital") provide and administer financing for retail purchases of new equipment manufactured by Deere's agricultural equipment, commercial and consumer equipment, and construction and forestry divisions and used equipment taken in trade for this equipment. John Deere Capital purchases retail installment sales and loan contracts (retail notes) from Deere and its subsidiaries (collectively, "John Deere"). John Deere acquires these retail notes through John Deere retail dealers. John Deere Capital also purchases and finances a limited amount of non-Deere retail notes and continues to service a small portfolio of recreational products and other retail notes. In addition, John Deere Capital leases John Deere equipment and a limited amount of non-Deere equipment to retail customers (financing and operating leases). John Deere Capital also finances and services revolving charge accounts, in most cases acquired from and offered through merchants in the agricultural, commercial and consumer, and construction and forestry markets (revolving charge accounts). Further, John Deere Capital finances and services operating loans, in most cases acquired from and offered through farm input providers, and provides insured international export financing generally involving John Deere products (operating loans). John Deere Capital also provides wholesale financing for inventories of John Deere engines and John Deere agricultural, commercial and consumer and construction and forestry equipment owned by dealers of those products (wholesale receivables). In addition, John Deere Capital purchases and administers a significant portion of the trade receivables originated by John Deere, which are included in wholesale receivables.

5. JDCC has been a reporting company under the 1934 Act since at least 1961. JDCC has filed annual reports on Form 10-K and quarterly reports on Form 10-Q since it first became a reporting company, in accordance with the filing obligations set out in sections 13 and 15(d) of the 1934 Act. JDCC has filed with the United States Securities and Exchange Commission (the "SEC") all filings required to be made with the SEC under the 1934 Act during the last 12 months.

6. Pursuant to each of the 1999 MTN Program and the 2001 MTN Program, JDCI was entitled to issue up to Cdn.\$1,000,000,000 (or the equivalent thereof in lawful money of the United States of America) of non-convertible medium term notes which were fully and unconditionally guaranteed by Deere in respect of the payment of principal, premium (if any), interest and certain other amounts that could become due under the notes. As at July 31, 2003, JDCI had issued and outstanding under the 1999 MTN Program a total of Cdn.\$150,000,000 in principal amount of notes and under the 2001 MTN Program a total of Cdn.\$990,000,000 in principal amount of notes (collectively, the "Existing Notes"). JDCI and Deere will continue to satisfy the conditions of the 1999 decision document and the 2001 decision document (the "2001 Decision Document") previously obtained in connection with the 1999 MTN Program and the 2001 MTN Program, respectively, except to the extent that such conditions are amended by this decision document, so long as the Existing Notes remain outstanding.

7. As at July 31, 2003, JDCC and its consolidated subsidiaries had approximately US\$6,841.8 million in senior long-term debt outstanding (excluding current maturities). JDCC's senior long-term debt is rated "A-" by Standard & Poor's, "A3" by Moody's Investors Service and "A" by Fitch Investors Service.

8. JDCI proposes to file a short form shelf prospectus in each of the Jurisdictions pursuant to National Instrument 44-101 ("NI 44-101") and National Instrument 44-102 ("NI 44-102", and together with NI 44-101, the "Shelf Requirements") in order to issue medium term notes in an aggregate principal amount of up to Cdn.\$1,000,000,000 (or the equivalent thereof in lawful money of the United States of America) (the "Proposed Offering") and may in the future file additional short form shelf prospectuses in each of the Jurisdictions in respect of the issuance by JDCI of additional medium term notes from time to time (the "Future Offerings" and together with the Proposed Offering, the "Offerings" and each an "Offering"). All medium term notes issued by JDCI pursuant to the Proposed Offering and Future Offerings (collectively, the "Notes") will have an approved rating (as defined in NI 44-101) and will be rated by a recognized security evaluation agency in one of the categories determined by the Commission des valeurs mobilières du Québec (an "Approved Rating").

9. In connection with the Proposed Offering and any Future Offerings:

(b) JDCC will fully and unconditionally guarantee payment of the principal, premium (if any), interest and certain other amounts that could become payable under any provisions of the trust indenture relating to the particular Notes;
