ARTICLE 1

State Game Commission

17-1-1. [Declaration of policy.]

It is the purpose of this act and the policy of the state of New Mexico to provide an adequate and flexible system for the protection of the game and fish of New Mexico and for their use and development for public recreation and food supply, and to provide for their propagation, planting, protection, regulation and conservation to the extent necessary to provide and maintain an adequate supply of game and fish within the state of New Mexico.

History: Laws 1921, ch. 35, § 1; C.S. 1929, § 57-101; Laws 1931, ch. 117, § 1; 1941 Comp., § 43-101; 1953 Comp., § 53-1-1.

ANNOTATIONS

Compiler's notes. — The words "this act" were substituted by the 1931 amendment to this section for the words "this bill", which appeared in the 1921 act. If referring to the 1921 act, they would refer to 17-1-1 to 17-1-4, 17-1-14, 17-1-27 and 17-2-6 NMSA 1978. If referring to the 1931 act, they would refer to 17-1-1, 17-1-5, 17-1-15, 17-1-26, 17-2-1, 17-2-5, 17-2-7, 17-2-9 and 17-2-10 NMSA 1978.

Wild game elk. — The game and fish laws in Chapter 17 are expressly intended to cover free-roaming, wild game elk; the animal statutes in Article 18 of Chapter 30 of the Criminal Code do not apply. *State v. Parson*, 2005-NMCA-083, 137 N.M. 773, 115 P.3d 236.

Allocation of licenses based on residency, impermissible discrimination. — The allocation of licenses for bighorn, oryx and ibex by the state game commission on the basis of residency discriminates impermissibly against nonresidents under the federal constitution. *Terk v. Gordon*, No. 74-387-M (D.N.M., filed Aug. 25, 1977), *aff'd*, 436 U.S. 850, 98 S. Ct. 3063, 56 L. Ed. 2d 751 (1978).

Fee structure, although discriminatory, not offensive. — The present fee structure in 17-3-13 NMSA 1978, which discriminates against nonresidents, is not offensive to either the privileges and immunities clause, U.S. Const., art. IV, § 2, or the U.S. Const., amend. XIV. *Terk v. Gordon*, No. 74-387-M (D.N.M., filed Aug. 25, 1977), *aff'd*, 436 U.S. 850, 98 S. Ct. 3063, 56 L. Ed. 2d 751 (1978).

The state's power over public waters is plenary. *State ex rel. State Game Comm'n v. Red River Valley Co.*, 1945-NMSC-034, 51 N.M. 207, 182 P.2d 421.

State's powers are dedicated to fishing and recreation. — Since public waters of the state by legislative enactment are dedicated to public uses of fishing and recreation, Conchas Lake is covered by these provisions. *State ex rel. State Game Comm'n v. Red River Valley Co.*, 1945-NMSC-034, 51 N.M. 207, 182 P.2d 421.

Enclosing public waters cannot prevent fishing or hunting. — Fact that an adjoining landowner encloses waters which belong to the public does not make thereof a privately owned enclosure, and its treatment as such by the state would involve granting of a special "right" or "privilege" which is prohibited by the constitution, so that a license holder could not be prevented from fishing or hunting on the enclosure. *State ex rel. State Game Comm'n v. Red River Valley Co.*, 1945-NMSC-034, 51 N.M. 207, 182 P.2d 421.

Carrying firearms before hunting season opens may be prohibited. — Powers granted to state game commission include authority to prohibit the carrying of firearms in hunting areas for specified periods of time before opening of the big game season. 1948 Op. Att'y Gen. No. 48-5135.

E. district five: Bernalillo county.

The remaining two members shall be appointed at-large. At least one member of the commission shall manage and operate a farm or ranch that contains at least two species of wildlife on that part which is deeded land requiring licensing prior to legal pursuit under the provisions of Section 17-3-2 NMSA 1978. At least one member shall have a demonstrated history of involvement in wildlife and habitat protection issues and whose activities or occupation are not in conflict with wildlife and habitat advocacy. The state game commission as provided in Chapter 17 NMSA 1978 shall have the same authority, powers and duties as now vested in the state game commission by law, and each member of the state game commission shall serve until his successor has been appointed and qualified.

ANNOTATIONS

The 1991 amendment, effective April 2, 1991, substituted "seven members" for "five members" and "four of whom" for "three of whom" in the first sentence; substituted "four years" for "five years" at the end of the third sentence; deleted "and five" preceding "years" and substituted "no more than two commissioners" for "one commissioner" and

made a related stylistic change in the fourth sentence; and, following Subsection E, substituted the next three sentences for "provided that each existing member of the commission on the effective date of this 1985 act shall complete the term for which he was appointed, and, upon completion of such term, appointment shall be made in such manner so as to comply with the provisions of this section."

A district judge may serve as a member of the state game commission. 1945 Op. Att'y Gen. No. 45-4735.

17-1-3. Members to serve without compensation; per diem and mileage.

The members of the state game commission shall receive no pay for their services as members of the commission, but shall be allowed per diem and mileage pursuant to the provisions of the Per Diem and Mileage Act [10-8-1 to 10-8-8 NMSA 1978]. All salaries, per diem and contingent expenses incurred by the department of game and fish or the state game commission shall be paid upon warrants of the secretary of finance and administration, supported by vouchers of the director of the department of game and fish.

ANNOTATIONS

Instruction but not classroom school is required. — The statute does not require the "school" to be of the classroom type; the "school" of experience can ensure qualified reserve conservation officers as well as a classroom. If the persons in question have actual instruction as employees of the department in the subject areas of procedures and techniques of wildlife management, law enforcement, public relations and other subjects deemed desirable by the department, those persons have attended "school" in those subjects, an on-the-job training school conducted by the department. officer's average weekly wages shall be deemed to be the base wage of a wildlife management officer II as classified by the personnel board.

(14) permit, regulate or prohibit the commercial taking or capturing of native, free-ranging amphibians or reptiles not specifically protected by law, except for rattlesnake roundups, collection of fish bait and lizard races;

(15) adopt rules to control, eradicate or prevent the spread of a contagious disease, pest or parasite, including chronic wasting disease, to or among game animals. The rules shall include provisions for:

(a) notification to the department of game and fish of the diagnosis or suspected presence of a contagious disease;

(b) examination by the state veterinarian or the state veterinarian's designee of suspected infected game animals;

(c) quarantine, treatment or destruction of an infected game animal;

(d) disinfection and isolation of a licensed private park where an infected game animal has been; and

(18) adopt rules to recruit, train and accept the services of volunteers for education and outreach activities, hunter and angler services and wildlife conservation activities administered by the department of game and fish; provided that a volunteer:

(a) shall comply with all policies and procedures of the director of the department of game and fish; and

Allocation of licenses based on residency, impermissible discrimination. — The allocation of licenses for bighorn, oryx and ibex by the state game commission on the basis of residency discriminates impermissibly against nonresidents under the federal constitution. *Terk v. Gordon*, No. 74-387-M (D.N.M., filed Aug. 25, 1977), *aff'd*, 436 U.S. 850, 98 S. Ct. 3063, 56 L. Ed. 2d 751 (1978).

Fee structure, although discriminatory, is not offensive. — The present fee structure in 17-3-13 NMSA 1978, which discriminates against nonresidents, is not offensive to either the privileges and immunities clause, U.S. Const., art. IV, § 2, or the U.S. Const., amend. XIV. *Terk v. Gordon*, No. 74-387-M (D.N.M., filed Aug. 25, 1977), *aff'd*, 436 U.S. 850, 98 S. Ct. 3063, 56 L. Ed. 2d 751 (1978).

Money in the game protection fund may be used only for the purposes provided in the game and fish laws. 1975 Op. Att'y Gen. No. 75-38.

Game and fish department funds may not be legally spent for out-of-state travel by state game and fish department personnel for purposes of advertising New Mexico's game and fish resources. 1958 Op. Att'y Gen. No. 58-216.

There are no provisions for reimbursement of license fees in any circumstances; therefore, persons who have purchased a second license illegally are not entitled to reimbursement for the second license. 1975 Op. Att'y Gen. No. 75-38.

Interest credited to game protection fund, not general fund. — Any interest earned on the investment of money in the game protection fund must be credited to that fund, not the state general fund. 1982 Op. Att'y Gen. No. 82-01.

Use of fire suppression fund appropriated to game and fish department. — A fire suppression fund appropriated to the department of game and fish was not to actually be transferred to the forest conservation commission (now abolished). The department of game and fish was simply authorized to contract with the forest conservation commission to perform fire suppression activities reasonably necessary for the protection of game and fish. The formula to be utilized in providing and paying for such services was a contractual matter between these two agencies. 1961 Op. Att'y Gen. No. 61-54.

"Public waters" are all unappropriated waters from natural streams. — The term "public waters" as used in this section is synonymous with the definition of public waters given by the New Mexico supreme court in the case of *State ex rel. State Game Comm'n v. Red River Valley Co.*, 1945-NMSC-034, 51 N.M. 207, 182 P.2d 421 where the court stated: "All of our unappropriated waters from 'every natural stream, perennial or torrential, within the state of New Mexico,' Article 16, Section 2, New Mexico Constitution, are public waters. These waters belong to the public until beneficially appropriated. And since the right to fish in public waters, by the test of any rule, is universally recognized, it cannot be said that the right to fish and to use the unappropriated public waters in question is less secure in the public because we determine their character as public by immemorial custom, and Spanish or Mexican law which we have adopted and follow in this respect. . . ." 1959 Op. Att'y Gen. No. 59-57.

Public waters may be stocked. — The waters of our streams, whether perennial or torrential in nature, are public waters such as may be stocked by the fish and game commission. 1961 Op. Att'y Gen. No. 61-38.

Municipal reservoirs and waters on Indian and military reservations where fishing fee is charged may not be stocked. — It is not legally proper for the department of game and fish to consider as public waters within the meaning of this section municipal reservoirs and waters on Indian and military reservations where public fishing is permitted, but only on condition of payment of a fee(s) in addition to possession of a valid fishing license. 1957 Op. Att'y Gen. No. 57-319.

Indian and military reservations are not instrumentalities of the state of New Mexico, and the lands adjacent thereto are not subject to state control as are the lands of the municipalities. This is true even though the waters running through such property are "public waters" as declared in *State ex rel. State Game Comm'n v. Red River Valley Co.*, 1945-NMSC-034, 51 N.M. 207, 182 P.2d 421. In such instance, the general public would be trespassing upon land not open to the free access of the public. 1959 Op. Att'y Gen. No. 59-57.

Small municipal charge for use of lake does not prevent stocking. — A small charge by a municipality sufficient to cover sanitation and maintenance expense for recreational purposes does not change the character of a lake from that of "public waters," and it may be stocked by the state game commission at state expense. 1959 Op. Att'y Gen. No. 59-57.

Private waters may be stocked. — If stocking in private, lawfully posted water would not be to such an extent as to deprive the citizenry of a source of public recreation, it may be done. 1957 Op. Att'y Gen. No. 57-246.

Private waters may be stocked only with fry and fingerlings and for consideration. — By use of the terms "fry" and "fingerlings," the legislature thereby excluded the stocking of any fish larger than fry or fingerlings in private waters. Hence, the authorization to stock fish in private waters is limited to fry or fingerlings, and then for a consideration. 1957 Op. Att'y Gen. No. 57-246.

Section lists purposes for which waters may be closed to fishing. — The three purposes for which a public stream or lake or portion thereof may be closed to fishing are set forth in Subsection G (now Subsection B(8)) of this section. These purposes are when it is necessary to protect recently stocked water, to protect spawning waters or to prevent undue depletion of fish. 1958 Op. Att'y Gen. No. 58-119.

Purpose for which waters may be closed are exclusive. — The state game commission is not authorized under this section to close any public stream or lake or portion thereof to fishing, when such action is not for the purpose of protecting a recently stocked water or to protect spawning waters, or to prevent undue depletion of the fish in such waters. 1958 Op. Att'y Gen. No. 58-119.

Dictates of experience and local regulations govern handling of explosives. — The department of game and fish in transporting and storing explosives about the state and through cities and towns must adopt precautionary measures following the dictates of good judgment, based on experience in handling explosives, and local regulations. 1957 Op. Att'y Gen. No. 57-42.

17-1-15. Disbursement of money; limitation on expenditures.

All disbursements of moneys, including salaries, by the state game commission shall be by warrant of the secretary of finance and administration, supported by itemized voucher, certified to be correct by the state game director, and shall be paid out of moneys in the game protection fund.

Expenditures by the state game commission shall be limited to funds available in the game protection fund, and neither the state game commission nor any employee thereof shall incur or authorize any obligation for the payment of which sufficient funds are not then available in the game protection fund.

The state shall not be liable for any obligation created by the state game commission or any employee thereof, except to the extent of such game protection fund.

Neither the state game commission nor any employee thereof shall issue any voucher, nor shall the secretary of finance and administration approve any such voucher, for the payment of which moneys are not then available in the game protection fund.

C. Bonds issued under the Game and Fish Bond Act are payable solely from the game and fish bond retirement fund, and they are not general obligations of the state.

D. The state game commission shall continue to place in the game and fish bond retirement fund the sum of one dollar (\$1.00) from each of the licenses enumerated in Subsection A of this section, even after the fund is sufficient to pay the principal and interest of the outstanding bonds and after all bonds issued have been retired.

ARTICLE 2

Hunting and Fishing Regulations

PART 1

GENERAL PROVISIONS

17-2-1. Commission powers.

The state game commission, in addition to the powers now vested in it and not as a limitation of those powers, is expressly authorized and empowered by regulation adopted and promulgated in the manner provided in Chapter 17 NMSA 1978 to:

- A. define game birds, game animals and game fish;
- B. establish open and closed seasons for the killing or taking of all kinds of game animals, game birds and game fish and to change such open seasons from year to year and to fix different seasons for different parts of the state;
- C. establish bag limits covering all kinds of game animals, game birds and game fish and the numbers thereof which may be killed or taken by any one person during any one day or during any one open season;
- D. authorize or prohibit the killing or taking of any game animals, game birds or game fish of any kind or sex;
- E. prescribe the manner, methods and devices that may be used in hunting, taking or killing game animals, game birds and game fish;
- F. prescribe rules to prohibit any vehicle or vehicles used in transporting persons engaged in hunting, taking or killing game animals, game birds and game fish from leaving established roadways;
- G. prescribe rules that embody the principles of fair chase, which rules may include prohibitions on the use of certain technologies for hunting or fishing and specific wildlife location data that is collected by the department of game and fish or its contractors; and
- H. appoint one or more advisory committees to furnish advice, evaluations and recommendations for wildlife management projects utilizing revenue derived from the sale of public land management stamps. The advisory committees shall be created pursuant to the procedures of Section 9-1-9 NMSA 1978, provided that the restrictions on the life of advisory committees contained in Subsection F of that section shall not apply.

History: Laws 1931, ch. 117, § 3; 1941 Comp., § 43-201; 1953 Comp., § 53-2-1; Laws 1983, ch. 224, § 1; 2005, ch. 332, § 1; 2019, ch. 99, § 1.

ANNOTATIONS

Cross references. — For establishing open season for fur-bearing animals, see 17-5-3 NMSA 1978.

The 2019 amendment, effective June 14, 2019, authorized the state game commission to prescribe rules that embody the principles of fair chase; and added a new Subsection G and redesignated former Subsection G as Subsection H.

The 2005 amendment, effective June 17, 2005, adds Subsection G to provide that the commission is authorized to appoint advisory committees for wildlife management projects using revenue derived from the sale of public land management stamps, that the advisory committees shall be created pursuant to Section 9-1-9 NMSA 1978, and that the restrictions on the life of committees in Section 9-1-9F NMSA 1978 shall not be applicable.

Indian reservations. — Where an Indian tribe working with the federal government exercises its authority to develop and manage the reservation's resources for the benefit of its members and the exercise of concurrent jurisdiction by the state would nullify the tribe's authority to regulate the use of its resources by tribal members and non-members, and would interfere with the comprehensive tribal regulatory scheme and threaten congress' commitment to tribal self-sufficiency and economic development, and in the absence of state interests which would justify assertion of concurrent authority, the application of the state's hunting and fishing laws to the reservation are preempted. *Mescalero Apache Tribe v. State of New Mexico*, 677 Fed.2d 55 (10th Cir. 1982), *aff'd*, 462 U.S. 324, 103 S.Ct. 2378, 76 L. Ed. 2d 611 (1983).

Return of game or proceeds after wrongful confiscation. — Where the department of game and fish confiscated an elk from a person charged with a hunting misdemeanor, and the magistrate court dismissed the case because the game officer failed to identify the defendant at the hearing as the person charged, the department was not required to return the elk, or the proceeds from the sale of the elk, to that person. 1988 Op. Att'y Gen. No. 88-43.

Commission's authority to fix open season on game animals is constitutional. — Authority given to the state game commission to promulgate rules and regulations is not an unconstitutional delegation of legislative power; the rule fixing an open season on hunting bear is validated by the statute defining bears as game animals. *State ex rel. Sofeico v. Heffernan*, 1936-NMSC-069, 41 N.M. 219, 67 P.2d 240.

Power to define game animals is unconstitutional. — Laws 1931, ch. 117, is a proper exercise of the police power of the state. It is not an unconstitutional delegation of legislative power, except as to Subdivision A of this section. *State ex rel. Sofeico v. Heffernan*, 1936-NMSC-069, 41 N.M. 219, 67 P.2d 240.

Authority over wild horses. — Although the Wildlife Conservation Act defines the term "wildlife" as any nondomestic animal, wild horses on the White Sands Missile Range do not fall within the classification. Because the authority of the State Game Commission is limited by statute, the Game Commission lacks jurisdiction over these wild horses. 1994 Op. Att'y Gen. No. 94-06.

Wild elk. — Defendant could be convicted only under the game and fish laws, and not under Section 30-18-6 NMSA 1978, for transporting heads of free-roaming, wild elk, since wild elk were among protected species of family Cervidae. *State v Parson*, 2005-NMCA-083, 137 N.M. 773, 115 P.3d 236.

Authority over wild horses. — Although the Wildlife Conservation Act defines the term "wildlife" as any nondomestic animal, wild horses on the White Sands Missile Range do not fall within the classification. ANNOTATIONS

C. If the state game commission determines that it will offer permits to take or capture native, free-ranging amphibians or reptiles, the commission shall adopt a rule listing protected native, free-ranging amphibians and reptiles that may be taken or captured after taking into consideration any criteria that can be shown to have an effect from commercial takings on the viability of the species population in the state.

D. Unlawful taking of a native, free-ranging amphibian or reptile consists of intentionally taking or capturing, for commercial purposes, a regulated native, free-ranging amphibian or reptile without a valid permit from the state game commission.

Plain view exception to search warrant requirement. — Plain view exception did not apply to warrantless search of defendant's home for violation of game and fish laws under Section 17-2-7 NMSA 1978, because incriminating nature of hunting trophies would not have been immediately apparent to any lawfully positioned officer. *State v. Indian reservations. — Where an Indian tribe working with the federal government exercises its authority to develop and manage the reservation's resources for the benefit of its members and the exercise of concurrent jurisdiction by the state would nullify the tribe's authority to regulate the use of its resources by tribal members and non-members, and would interfere with the comprehensive tribal regulatory scheme and threaten congress' commitment to tribal self-sufficiency and economic development, and in the absence of state interests which would justify assertion of concurrent authority, the application of the state's hunting and fishing laws to the reservation are preempted. *Mescalero Apache Tribe v. B. A person who commits a:

(1) first offense of interference is guilty of a petty misdemeanor and shall be sentenced pursuant to the provisions of Section 31-19-1 NMSA 1978; and

(2) provide for various departmental interventions, depending upon the type of animal and depredation;

(3) require the department to offer at least three different interventions, if practical;

(5) permit the landowner or lessee to reject for good cause the interventions offered by the department;

(6) require a landowner or lessee to demonstrate that the property depredation is greater in value than the value of any wildlife-related income or fee collected by the landowner or lessee for permission to take or kill an animal of the same species, on the private property or portion of the private property identified in the complaint as the location where the depredation occurred; and

(7) permit the landowner, lessee or employee, when interventions by the department have not been successful and after one year from the date of the filing of the initial complaint, to kill or take an animal believed responsible for property depredation.

C. For purposes of this section:

(2) "department" means the department of game and fish; and

(3) "intervention" means a solution proposed by the department to eliminate the depredation.

ANNOTATIONS

Relation to cruelty to animal prohibitions. — Even if the legislature had intended to protect wild animals in Section 30-18-1 NMSA 1978, the legislature, having dealt with the subject of the hunting of game animals more particularly in the game and fish laws, intended to create an exception from the cruelty-to-animals statute for hunting and fishing activity contemplated by game and fish laws. *State v. Cleve*, 1999-NMSC-017, 127 N.M. 240, 980 P.2d 23.

(2) who wounds or may have wounded any game mammal designated in Paragraphs (2), (3) or (4) of Subsection A of Section 17-2-3 NMSA 1978 to fail to go to the place where the mammal sustained or may have sustained the wound and make a reasonable attempt to track the mammal and reduce it to possession; or

(3) to take or kill a bighorn sheep, ibex, oryx, Barbary sheep, elk, deer or pronghorn antelope outside of the legal season or without a valid license, which taking or killing results in waste of the animal. Waste of the animal consists of removing from the animal only the head, antlers or horns or abandoning any of the four quarters, backstraps or tenderloins of the carcass. A violation of the provisions of this paragraph is intended to be separate from and cumulative to any other violation of Chapter 17 NMSA 1978.

B. Violation of Paragraph (3) of Subsection A of this section is a fourth degree felony pursuant to Section 31-18-15 NMSA 1978, and violation of Paragraph (1) or (2) of Subsection A of this section is a misdemeanor pursuant to Section 17-2-10 NMSA 1978.

History: 1953 Comp., § 53-2-7.1, enacted by Laws 1977, ch. 70, § 1; 2017, ch. 38, § 1.

ANNOTATIONS

The 2017 amendment, effective June 16, 2017, made it a fourth degree felony to wastefully take or kill certain big game, defined "waste of the animal", and made it a

misdemeanor to hunt or fish certain game animals and fail to provide for its consumption or to wound a game mammal and fail to make a reasonable attempt to track the mammal; in the catchline, added "Unlawful taking of big game"; designated the previously undesignated introductory clause as Subsection A and redesignated former Subsections A and B as Paragraphs A(1) and A(2), respectively; and added a new Subsection B.

"Emergency" defined. — There are three elements to an "emergency" as that term is used in subsection C(2): (1) the gravity of the threatened harm; (2) the likelihood of the harm occurring; and (3) the lack of time in which action can be taken to avert the harm, especially whether it was feasible to summon a regular law enforcement officer. These factors must be considered from the conservation officer's point of view. *State v. Creech*, 1991-NMCA-012, 111 N.M. 490, 806 P.2d 1080.

All game and fish seized under the game laws shall without unnecessary delay be sold by the officer making such seizure, or by the state warden [director of the department of game and fish], except when such sale is impracticable or likely to incur expenses exceeding the proceeds, in which case the same shall be donated to some charitable institution or needy person not concerned in the unlawful killing, or possession thereof. The officer making such seizure shall sign and give to each purchaser or donee an invoice stating the time and place of disposition, the kind and weight as near as may be of the game or fish disposed of and the name of the purchaser or donee. 17-2-22. Sale of evidence in cases of appeal.

B. The evidence shall be sold for the highest cash price offered and the proceeds of the sale forwarded to the main office of the department of game and fish at Santa Fe to be deposited in the game protection fund. A copy of the receipt of sale shall be delivered to the court and shall be attached to the papers forwarded to the higher court on appeal.

C. If the higher court finds the defendant to be not guilty of the charge he shall be reimbursed within ten days after such decision by the department of game and fish for the full amount of the proceeds from the sale of evidence.

17-2-24. [Officer's right to use animal or vehicle transporting seized game or fish; public conveyances excepted.]

Where game or fish while being transported is seized under this chapter, the officer making such seizure shall have authority upon payment of reasonable compensation therefor, to also take possession of and use any animals and vehicles used in such transportation for the purpose of conveying the game or fish seized to a convenient railroad station or place of safekeeping or sale, and also for conveying any person arrested for the unlawful possession of such game or fish to a place of hearing or trial, and no liability shall attach to such officer by reason thereof, but this section shall not apply to any animal or vehicle while being used as a public conveyance for passengers or mails, or any railroad car.

17-2-26. Civil liability.

A. The director of the department of game and fish, or any other officer charged with enforcement of the laws relating to game and fish if so directed by the director, may bring a civil action in the name of the state against any person unlawfully wounding or killing, or unlawfully in possession of, any game quadruped, bird or fish, or part thereof and recover judgment for the following minimum sums as damages for the taking, killing or injuring:

for each elk	\$ 500.00
for each deer	250.00
for each antelope	250.00
for each mountain sheep	1,000.00
for each Barbary sheep	250.00
for each black bear	500.00
for each cougar	500.00
for each bison	600.00
for each ibex	1,000.00
for each oryx	1,000.00
for each javelina	100.00
for each beaver	65.00
for each bird	20.00
for each fish	5.00
for each endangered species	500.00
for each raptor	200.00
for each turkey	150.00
for each jaguar	2,000.00.

B. Notwithstanding the provisions of Subsection A of this section, the state game commission shall establish damages recoverable by civil judgment on a game animal, bird or fish designated to be a trophy animal by commission rule.

C. Damages recovered pursuant to this section are intended to compensate the state for the loss of unique public resources and shall not be limited or reduced by the extent of fines assessed pursuant to any criminal statute. The department of game and fish shall not award or issue a license, permit or certificate to a debtor owing damages pursuant to this section until the judgment has been paid in full to the department.

D. No verdict or judgment recovered by the state in an action shall be for less than the sum fixed in this section. The action for damages may be joined with an action for possession, and recovery may be had for the possession as well as the damages.

E. The pendency or determination of an action for damages or payment of a judgment, or the pendency or determination of a criminal prosecution for the same taking, wounding, killing or possession, is not a bar to the other, nor does either affect the right of seizure under any other provision of the laws relating to game and fish.

F. The provisions of this section shall not be interpreted to prevent, constrain or penalize a Native American for engaging in activities for religious purposes, as provided in Section 17-2-14 or 17-2-41 NMSA 1978.

G. The provisions of this section shall not apply to a landowner or lessee, or employee of either, who kills an animal, on private land in which the person has an ownership or leasehold interest, that is threatening human life or damaging or destroying property, including crops; provided, however, that the killing is reported to the department of game and fish within twenty-four hours and before the removal of the carcass of the animal killed; and provided further that all actions authorized in this subsection are carried out according to rules of the department.

ANNOTATIONS

The 2006 amendment, effective May 17, 2006, adds Subsection B to provide that the commission shall establish damages recoverable by civil judgment on a game animal, bird or fish designated as trophy animal and adds Subsection C to provide that damages are intended to compensate the state for loss of unique public resources and shall not be modified by the extent fines are assessed and that the department shall not issue licenses or permits to a debtor owing damages pursuant to this section until the judgment for damages has been paid.

The 1999 amendment, effective June 18, 1999, added the judgment amount with regard to jaguars at the end of Subsection A and inserted "of game and fish" in Subsection E.

The 1997 amendment, effective July 1, 1997, revised the schedule of fees in Subsection A, added Subsections D and E and made minor stylistic changes.

Civil and criminal prosecution. — A district attorney has the authority and duty to prosecute civil as well as criminal cases in which the state is a party and which arise in his or her district under the game and fish laws. Double jeopardy prohibitions do not inhibit the district attorney from bringing a civil action for damages pursuant to Section 17-2-26 NMSA 1978 against a person previously convicted and sentenced for a criminal offense arising out of the same conduct in violation of the game and fish laws, because the damages authorized by Section 17-2-26 NMSA 1978 are remedial rather than

punitive and serve to compensate the state for the loss of unique public resources. 2008 Op. Att'y Gen. No. 08-04.

Sums of money listed constitute minimum amount of money in a civil liability suit. 1968 Op. Att'y Gen. No. 68-07.

Officer bringing action has discretion in requesting amount. — This section vests discretion in the director or other officer bringing the action to set the request for the defendant's liability at any level consonant with the statutory minimum. 1968 Op. Att'y Gen. No. 68-07.

Officer bringing action may ask for sum within jurisdiction of magistrate. — If, in the exercise of his discretion, the officer bringing the suit on behalf of the state should determine that the suit should ask for no more than the statutory jurisdictional maximum amount, then the suit may be heard by a justice of the peace (now magistrate). 1968 Op. Att'y Gen. No. 68-07.

17-2-27. [District attorneys to prosecute and defend actions under fish and game laws.]

It shall be the duty of each of the district attorneys in this state to prosecute and defend for the state in all courts of the county or counties in their respective districts, all causes, criminal and civil, arising under the provisions of this chapter, in which the state may be a party or interested or concerned.

17-2-28. [Indians hunting off reservations; hunting on reservations; application of laws.]

The provisions of this chapter shall apply to all Indians off the reservation within this state, or coming into this state from adjoining states, and to all persons hunting on any Indian reservation within this state; provided, however, that no Indian shall be required to have a license to hunt or fish within the limits of the reservation where said Indian resides.

Preemption. — The application on the Mescalero Apache tribe reservation, of New Mexico's hunting and fishing laws to nonmembers of the tribe is preempted by the operation of federal law. *New Mexico v. Mescalero Apache Tribe*, 462 U.S. 324, 103 S. Ct. 2378, 76 L. Ed. 2d 611 (1983).

In absence of treaty Indian outside Indian country is subject to state laws. — As a general rule, if there is no treaty or agreement between the United States and the Indian tribe recognizing or granting rights to Indians to hunt and fish outside the Indian country, an Indian hunting or fishing in New Mexico outside the Indian country is subject to the laws of the state of New Mexico the same as any other person. 1953-54 Op. Att'y Gen. No. 6041.

An Indian may be assessed a license fee and regulated off the reservation for hunting and fishing the same as any other person of the state, except the Navajos must be permitted to hunt free of charge off the reservation. 1954 Op. Att'y Gen. No. 54-6041.

Indian is exempt in Indian country even if off his reservation. — An Indian hunting or fishing on a reservation not his own is still an Indian in Indian country and is exempt from the game laws of the state. 1954 Op. Att'y Gen. No. 54-6041.

Non-Indian may be prosecuted for violation in Indian country. — The state of New Mexico has jurisdiction to prosecute non-Indians violating the hunting and fishing laws of this state even though such violation occurs on an Indian reservation. 1973 Op. Att'y Gen. No. 73-18; 1954 Op. Att'y Gen. No. 54-6041.

Jurisdiction in Indian country. — Section 2 of N.M. Const., art. XXI, provides that until the title of Indians shall have been extinguished, the lands shall be under the absolute jurisdiction and control of the congress of the United States, but this clearly does not deprive the state of jurisdiction over offenses committed by a non-Indian against a non-Indian in Indian country, nor does it prevent the enforcement of the game laws against non-Indians in the Indian country. 1954 Op. Att'y Gen. No. 54-6041.

State has jurisdiction of hides, etc., taken on Indian reservation only if taken by non-Indian. — So far as possession of hides, skins, pelts, heads and game animals, birds or fish, or parts thereof, taken by a non-Indian on an Indian reservation, the state would have jurisdiction the same as though taken anywhere else in the state; but in the case of such items taken by an Indian on an Indian reservation and transported elsewhere, the state would have absolutely no jurisdiction whatsoever. 1954 Op. It is unlawful for a person or a group of persons together in possession or control of a firearm or other implement to throw or cast the rays of a spotlight or other artificial light into any field, pasture, woodland, forest or prairie where big game or domestic livestock may be, or are reasonably expected to be, whereby any big game animal or domestic animal could be killed by aid of an artificial light. Absence of criminal intent element does not violate due process. — Given the public interest concerned and the difficulties involved in the protection of big game animals and livestock, together with the apparent general public attitude, it appears that the legislature intended to eliminate the element of criminal intent in hunting by means of artificial light so that it is the doing on the act alone which is prohibited, and this does not violate due process. *State v. Absence of criminal intent element does not violate due process. — Given the public interest concerned and the difficulties involved in the protection of big game animals and livestock, together with the apparent general public attitude, it appears that the legislature intended to eliminate the element of criminal intent so that it is the doing of the act alone which is prohibited, and this does not violate due process. *State v. 17-2-38. Definitions.

As used in the Wildlife Conservation Act [17-2-33 to 17-2-36 NMSA 1978]:

- A. "commission" means the state game commission;
- B. "director" means the director of the department of game and fish;
- C. "ecosystem" means a system of living organisms and their environment;
- D. "endangered species" means any species of fish or wildlife whose prospects of survival or recruitment within the state are in jeopardy due to any of the following factors:
 - (1) the present or threatened destruction, modification or curtailment of its habitat;
 - (2) overutilization for scientific, commercial or sporting purposes;
 - (3) the effect of disease or predation;

(4) other natural or man-made factors affecting its prospects of survival or recruitment within the state; or

(5) any combination of the foregoing factors.

The term may also include any species of fish or wildlife appearing on the United States list of endangered native and foreign fish and wildlife as set forth in Section 4 of the Endangered Species Act of 1973 as endangered species, provided that the commission adopts those lists in whole or in part. The term shall not include any species covered by the provisions of 16 U.S.C. 1331 through 1340 (1971) and shall not include any species of the class insecta determined by the director to constitute a pest whose protection under the Wildlife Conservation Act would present an overwhelming and overriding risk to man;

E. "investigation" means a process pursuant to Subsections B through L of Section 17-2-40 NMSA 1978 undertaken whenever the director suspects that a species may be threatened or endangered and which consists of a formal review of existing data and studies and may include additional field research to determine whether a species is threatened or endangered;

F. "land or aquatic habitat interests" means interests in real property or water rights consisting of fee simple title, easements in perpetuity, time certain easements, long-term leases and short-term leases;

G. "management" means the collection and application of biological information for the purposes of establishing and maintaining a congruous relationship between individuals within species and populations of wildlife and the carrying capacity of their habitat. The term includes the entire range of activities that constitutes a full scientific resource program of, including but not limited to, research, census, law enforcement, propagation, acquisition or maintenance of land or aquatic habitat interests appropriate for recovery of the species, improvement and maintenance, education and related activities or protection and regulated taking;

H. "recovery plan" means a designated program or methodology reasonably expected to lead to restoration and maintenance of a species and its habitat;

I. "peer review panel" means an advisory panel of scientists, each of whom possesses expertise relevant to the proposed investigation and at least one of whom is a wildlife biologist, convened to review the scientific methodology for collection and analysis of data by a researcher based on commonly accepted scientific peer review;

J. "species" means any species or subspecies;

K. "substantial public interest" means a nonfrivolous claim indicated by a broad-based expression of public concern;

L. "take" or "taking" means to harass, hunt, capture or kill any wildlife or attempt to do so;

M. "threatened species" means any species that is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range in New Mexico; the term may also include any species of fish or wildlife appearing on the United States list of endangered native and foreign fish and wildlife as set forth in Section 4 of the Endangered Species Act of 1973 as threatened species, provided that the commission adopts the list in whole or in part; and

N. "wildlife" means any nondomestic mammal, bird, reptile, amphibian, fish, mollusk or crustacean or any part, egg or offspring, or the dead body or parts thereof.

History: 1953 Comp., § 53-2-51, enacted by Laws 1974, ch. 83, § 2; 1995, ch. 145, § 2.

ANNOTATIONS

The 1995 amendment, in Subsection D, deleted "or are likely within the foreseeable future to become so" following "jeopardy" in the introductory language, deleted "or subspecies" following "species" and "or threatened" following "endangered" in the next to last sentence and added the language beginning "and shall not include" at the end of the last sentence; added Subsections E and F; redesignated former Subsection E as Subsection G and substituted "acquisition or maintenance of land or aquatic habitat interests appropriate for recovery of the species" for "acquisition" therein; added Subsections H through K and M; redesignated former Subsections F and G as Subsections L and N; inserted "or 'taking'" in Subsection L; and made minor stylistic changes.

Compiler's notes. — Section 4 of the federal Endangered Species Act of 1973 is compiled as 16 U.S.C. § 1533.

Authority over wild horses. — The definition of wildlife in this section does not encompass the wild horses on the White Sands Missile Range. Therefore, because the authority of the State Game Commission is limited by statute, and a state agency has no powers not delegated to it by statute, the Game Commission lacks jurisdiction over these wild horses. 1994 Op. Att'y Gen. No. 94-06.

17-2-39. Findings and declarations.

The legislature finds and declares that:

A. species of wildlife indigenous to the state that may be found to be threatened or endangered should be managed to maintain and, to the extent possible, enhance their numbers within the carrying capacity of the habitat;

B. the state should assist in the management of species of wildlife that are deemed to be endangered elsewhere by prohibiting the taking, possession, transportation, exportation, processing, sale or offering for sale or shipment within this state of species of wildlife listed on the United States lists of endangered fish and wildlife, unless such actions will assist in preserving or propagating the species;

C. adequate funding should be made available to the department of game and fish by annual appropriations from the general fund or from other sources separate and apart from the game protection fund for management of threatened or endangered species; and

D. because the management and recovery of threatened or endangered species are the responsibility of and a benefit to all of society, the costs of management and recovery should be the responsibility of all sectors of society, and those costs should be minimized and should be borne by federal, state and local governments with contributions from the private sector.

17-2-40. Biennial review; investigations; recommendations of the director; procedures.

A. The director shall conduct a biennial review of all species of wildlife named on the list required by Section 17-2-41 NMSA 1978. The director may conduct investigations at any time of those other species of wildlife indigenous to the state that are suspected of being threatened or endangered in order to develop information relating to population, distribution, habitat needs, limiting factors and other biological and ecological data to determine his recommendations for listing or not listing a species and management measures and requirements necessary for their survival. The director shall also conduct, within a reasonable time, an investigation to support listing or delisting of a species based upon new evidence or, with the advice and consent of the commission, based upon substantial public interest. Upon completion of an investigation or investigations, he shall make written recommendations to the commission to list or

not list any unlisted species or to delist any listed species investigated. In conducting any investigation for new listing or delisting required or undertaken pursuant to this subsection, the director shall comply with the procedures established in Subsections B through L of this section. Species listed as threatened or endangered on the state list through adoption of the United States list pursuant to Subsections D and M of Section 17-2-38 NMSA 1978 shall not be subject at the time of adoption to the listing procedures established in Subsections B through K of this section.

B. The director shall select a researcher to conduct an investigation pursuant to Subsection A of this section and request the appointment of a peer review panel composed of one qualified individual from each of the four-year state universities to be appointed by the presidents of the respective universities. The peer review panel shall be requested to submit comments according to a schedule determined by the director. The researcher shall submit his research design to the peer review panel.

C. When additional field research is undertaken as part of an investigation, the peer review panel shall examine the proposed research design for methodology for collection and analysis of data. Upon receipt of the peer review panel's submitted comments, the researcher shall initiate the field research regarding the designated species.

D. To the extent practicable, as part of his investigation the researcher shall meet and consult with private landowners, lessees and land and resource managers who are or may be affected by or have information pertinent to the investigation.

E. When the researcher initiates his investigation, the director shall:

(1) create a public repository file in which copies of all documents filed with the director pertaining to the investigation or a potential recovery plan, to be developed pursuant to Section 17-2-40.1 NMSA 1978, including all peer review comments, shall be maintained;

(2) mail a notice of the initiation of the investigation to federal and state agencies, local and tribal governments that are or may be affected by the results of the investigation and individuals and organizations that have requested notification of department actions regarding threatened or endangered species;

(3) notify the general public of the initiation of the investigation by information releases to the media in the area of the state affected;

(4) indicate, in all notices and information releases, where and until what date information may be submitted for inclusion in the public repository file;

(5) accept data, views or information about the biological or ecological status of the species for use in both the investigation and the development of the potential recovery plan; and

(6) accept data, views and information on the potential economic or social impacts or opportunities of a change in the legal status of the species for inclusion in the recovery plan.

F. The director shall file all written comments, data, views and information furnished pursuant to Subsection D of this section in the public repository file and shall preserve that file for use in connection with the listing process and development of any recovery plan developed pursuant to the provisions of Section 17-2-40.1 NMSA 1978. The director shall file in the public repository file all records indicating contact by the director, the researcher, employees or contractors with land owners or public or private resource managers affected by the potential action.

G. Information from the public repository file relating to social and economic impacts shall not be considered by the director in making his recommendation or the commission in making its decision to list, delist, not list, continue to list, upgrade or downgrade a species, but shall be considered only in the development of any recovery plan for the species.

H. The commission shall adopt, notwithstanding the provisions of Section 14-2-1 NMSA 1978, regulations by January 1, 1996 governing the confidentiality of data from an investigation.

I. The researcher shall prepare and submit draft reports to the peer review panel and to the public repository file. The peer review panel will be requested to examine and comment on the draft report in a timely manner.

J. After consideration of the peer review panel's submitted comments on the draft reports, the researcher shall prepare final reports and file them and all peer review panel comments with the director and in the public repository file. The peer review panel shall not be compelled to attend any hearing before the commission.

K. Upon receipt of the researcher's final reports, the director shall make recommendations to the commission to list, not list or delist the species based upon criteria listed in Subsection L of this section. The commission shall establish dates and locations for public hearings on the recommended actions and give notice of the public hearings in the same manner and to the same persons as notice was given of the initiation of the investigation and, in addition, publish legal notice in a newspaper of general circulation in the area affected at least ninety days before the date set for the hearing. Public hearings shall be held at a place within any quadrant of the state affected by the recommended actions when the director determines that there is substantial public interest indicated in holding a hearing in that quadrant. All hearings on the recommended actions shall be held within six months of the date the director makes his recommendations. The notice shall:

(1) include the date, time and location of all hearings on the matter;

- (2) include a statement of the recommended action;
- (3) include an indication of the location and availability of the public repository file;
- (4) indicate where and by what date written comments and testimony to be included in the hearing record may be filed;
- (5) indicate that views, data and comments pertaining to the final report may be presented orally at or in writing to the hearing;
- (6) specify that notice of intent to present technical and scientific testimony and a written copy of the testimony to be presented shall be submitted to the commission not less than thirty days prior to the initial hearing; and
- (7) specify that the public record shall remain open for comments for thirty days after the date of the final hearing.

L. The commission shall make its decisions and take action based upon relevant and reliable evidence to list, not list or delist a species at its next regularly scheduled meeting within no more than thirty days after the close of the hearing record. The commission shall:

- (1) list or maintain a species as endangered and shall not delist a species if it finds that the species' prospects for survival or recruitment within the state are in jeopardy based upon the biological and ecological evidence in the public repository file and based upon biological and ecological evidence received in the public hearings; and
- (2) list or maintain a species as threatened and shall not delist a species if it finds that the species' prospects for survival or recruitment within the state are likely within the foreseeable future to be in jeopardy based upon the biological and ecological evidence in the public repository file and biological and ecological evidence received in public hearings.

M. Whenever the director finds that there is an emergency posing a significant risk to the well-being of any species and that risk is likely to jeopardize the continued survival or recruitment of the species within the state, the director shall recommend to the commission that the species should be listed as endangered. The commission shall act upon the director's recommendation immediately and shall either list or not list the species by regulation based upon the evidence supporting the recommendation if it finds that the continued survival of the species is in jeopardy. If the commission lists the species as endangered, it shall waive the requirements of Subsections A through L of this section. Whenever the commission adopts a regulation listing a species as endangered pursuant to this subsection, it shall give notice of the listing in the same manner and to the same persons as notice is given in the initiation of investigations and in addition shall publish legal notice in a newspaper of general circulation in the area

affected. The emergency listing shall cease to have force and effect at the close of a three-year period following the date of the finding unless, during the three year period, the procedures for listing pursuant to Subsections B through L of this section or continuing to list pursuant to commission regulations for the biennial review are completed.

History: 1953 Comp., § 53-2-53, enacted by Laws 1974, ch. 83, § 4; 1995, ch. 145, § 4.

ANNOTATIONS

The 1995 amendment rewrote the section heading which read "Investigation"; designated the existing provisions as Subsection A and rewrote the subsection and added Subsections B through M.

17-2-40.1. Recovery plans; procedures.

A. To the extent practicable, a recovery plan shall be developed pursuant to Subsections B through G of this section for any species listed as threatened or endangered. If indicated, the director shall conduct a social and economic analysis and, if adverse impacts are found, develop a social or economic mitigation plan.

B. To the extent practicable, the director shall develop recovery plans that include several threatened or endangered species that utilize similar habitats or share a common threat or both. A multiple-species recovery plan shall be designed to accomplish recovery of the shared habitat or reduce a common threat or both.

C. As the initial action in the development of a recovery plan, the director shall, within one year of listing, schedule a public information meeting in each of the quadrants of the state determined by the director to be affected by the development of a recovery plan. These meetings shall be held in a manner calculated to provide a reasonable opportunity for individuals and private and public entities to participate and express their views about the development of a recovery plan for one or more species and the attendant adverse social or economic impacts, if any, that may result from implementation of a recovery plan. At these meetings the director shall present background information about the basis of the listing, an explanation of the process to develop a recovery plan and the probable content in general terms, if known, of the recovery plan and if needed, the process to develop a social and economic mitigation plan.

D. Upon completion of the public information meeting or meetings on a recovery plan, the director shall consult and cooperate with other states or countries when appropriate and shall solicit interest from representatives of affected local governments, tribal governments, landowners, state and federal agencies and other interested individuals and organizations to serve on an advisory committee. He shall appoint to the advisory committee all of those who are willing to participate in the development of the

recovery plan. When necessary, he may appoint from the membership of the advisory committee a working group reflecting the diversity of the advisory committee.

E. With the assistance of the advisory committee, the director shall develop a draft recovery plan to achieve the following objectives:

(1) restoration and maintenance of a viable population of the threatened or endangered species and its habitat reasonably expected to lead to the delisting of the species;

(2) avoidance or mitigation of adverse social or economic impacts;

(3) identification of social or economic benefits and opportunities; and

(4) use of volunteer resources and existing economic recovery and assistance programs and funding available from public and private sources to implement the plan.

F. The director shall mail the draft recovery plan to federal and state agencies, local and tribal governments that are or may be affected by the recovery plan and individuals and organizations that have requested notification of department actions regarding threatened or endangered species.

G. The final recovery plan shall be presented to the commission for its consideration not later than two years from the date the species was listed. If the commission determines that the proposed plan has achieved the objectives set forth in Subsection E of this section, it shall approve the recovery plan or approve with conditions. After approval of the plan, the director shall seek cooperation with other states and countries, when appropriate, and landowners, state and federal agencies and local and tribal governments for implementation of the recovery plan and when appropriate submit the recovery plan to the secretary of the interior for approval pursuant to the federal Endangered Species Act of 1973.

On the basis of investigations concerning wildlife, other available scientific and commercial data and after consultation with wildlife agencies in other states, appropriate federal agencies, local and tribal governments and other interested persons and organizations, the commission shall by regulation develop a list of those species of

wildlife indigenous to the state that are determined to be threatened or endangered within the state, giving their common and scientific names by species and subspecies.

B. The director shall conduct a review of the state list of threatened or endangered species and shall present biennially to the commission his recommendations for appropriate action. The commission shall act on the director's biennial recommendations at its next regularly scheduled meeting. The commission shall adopt, no later than January 1, 1996, regulations providing procedures for commission actions on the director's recommendations to continue to list or to upgrade or downgrade a species.

C. Except as otherwise provided in the Wildlife Conservation Act [17-2-33 to 17-2-36 NMSA 1978], it is unlawful for any person to take, possess, transport, export, process, sell or offer for sale or ship any species of wildlife appearing on any of the following lists:

(1) the list of wildlife indigenous to the state determined to be endangered within the state as set forth by regulations of the commission; and

(2) the United States lists of endangered native and foreign fish and wildlife as set forth in Section 4 of the Endangered Species Act of 1973 as endangered or threatened species, but only to the extent that those lists are adopted for this purpose by regulations of the commission; provided that any species of wildlife appearing on any of the lists set forth in this subsection, transported into the state from another state or from a point outside the territorial limits of the United States and which is destined for a point beyond the state, may be transported across the state without restriction in accordance with the terms of any federal permit or permit issued under the laws or regulations of another state or otherwise in accordance with the laws of another state.

D. The provisions of Subsection C of this section shall not apply to a taking of wildlife by a Native American for religious purposes, unless it materially and negatively affects an endangered species or threatened species.

B. In carrying out programs authorized by the Wildlife Conservation Act [17-2-33 to 17-2-36 NMSA 1978], the director may enter into agreements with federal agencies, political subdivisions of the state or with private persons for administration and management of any program established under this section or utilized for management of endangered species.

C. The director may authorize by permit the taking, possession, transportation, exportation or shipment of species or subspecies which have been deemed by the commission to be in need of management as provided in the Wildlife Conservation Act, so long as such use is for scientific, zoological or educational purposes, for propagation in captivity of such wildlife or to protect private property.

D. Endangered species may be removed, captured or destroyed where necessary to alleviate or prevent damage to property or to protect human health. Such removal, capture or destruction may be carried out only by prior authorization by permit from the director, unless otherwise provided by law; provided, that endangered species may be removed, captured or destroyed without permit by any person in emergency situations involving an immediate threat to human life or private property. "Effective date of the Wildlife Conservation Act". — The phrase "effective date of the Wildlife Conservation Act" means February 26, 1974, the effective date of Laws 1974, Chapter 83.

County ordinances conflicting with Wildlife Conservation Act are invalid. — County land use ordinances attempting to restrict traditional federal and state regulatory

authority conflict with, and thus are preempted by, the state Wildlife Conservation Act. These ordinances cannot lawfully grant to the counties the option of taking over the state's designated role in planning for the recovery and management of threatened or endangered species. 1994 Op. Att'y Gen. No. 94-01.

17-2-43. Commission; power to regulate.

The commission is authorized and directed to establish such regulations as it may deem necessary to carry out all the provisions and purposes of the Wildlife Conservation Act [17-2-33 to 17-2-36 NMSA 1978].

C. Upon appeal, the court of appeals shall set aside the regulation only if it is found to be:

- (1) arbitrary, capricious or an abuse of discretion;
- (2) not supported by substantial evidence in the record; or
- (3) otherwise not in accordance with law.

D. After a hearing and a showing of good cause by the appellant, a stay of the regulation being appealed may be granted:

- (1) by the commission; or
- (2) by the court of appeals if the commission denies a stay or fails to act upon an application for a stay within sixty days after receipt of the application.

E. The appellant shall pay all costs for any appeal found to be frivolous by the court of appeals.

History: Laws 1995, ch. 145, § 8; 1999, ch. 265, § 26.

ANNOTATIONS

The 1999 amendment, effective July 1, 1999, added Subsection A; redesignated former Subsection A as Subsection B, and in that subsection, substituted "a regulation adopted by the commission" for "an administrative action taken by the commission" in the first sentence, and substituted the language beginning "filing of the regulation" for "action" in the second sentence; and deleted former Subsection B, which read "For appeals of regulations, the date of the action shall be the date of the filing of the regulation by the commission pursuant to the provisions of the State Rules Act".

ANNOTATIONS

The 1995 amendment rewrote the section heading which read "Commission; land acquisition; state plan studies"; in Subsection A, substituted "land or aquatic habitat interests" for "lands, waters or interests therein" and inserted "threatened or"; deleted former Subsection B, relating to public hearings on a state plan for endangered species; and redesignated former Subsection C as Subsection B and inserted "threatened or" therein.

17-2-45. Penalty.

A. Any person who fails to procure any permit required by Subsection C or D of Section 17-2-42 NMSA 1978 or who fails to abide by the terms of such permit, is guilty of a misdemeanor and upon conviction shall be fined not less than fifty dollars (\$50.00) nor more than three hundred dollars (\$300) or be imprisoned for not more than ninety days, or both.

B. Any warrant for the arrest of a person shall be issued upon sworn complaint, the same as in other criminal cases, and any search warrant shall issue upon a written showing of probable cause, supported by oath or affirmation, describing the places to be searched or the persons or things to be seized.

ARTICLE 2A

Statewide System for Hunting Activities

17-2A-1. Definitions.

For the purposes of Chapter 17 NMSA 1978:

A. "hunt code" means a description used to identify and define the species, weapon type and time frame authorized for a specific hunt;

B. "outfitter" or "guide" means a person who advertises or holds himself out to the public for hire or is employed or accepts compensation for providing, within the unit where a hunt occurs, facilities, equipment or services for hunting activities; provided, however, that "outfitter" or "guide" does not include a person who only cooks, cuts wood or performs other comparable or incidental duties not directly related to hunting activities; and

C. "unit" means a geographically bound area in the state that is used to manage game species.

History: Laws 1996, ch. 89, § 3.

ANNOTATIONS

Compiler's notes. — Laws 1997, ch. 119, § 4B repealed Laws 1996, ch. 89, § 6, which provided for the repeal of this section on June 30, 1999.

Application of "hunt code" to rule regulating the hunt of bighorn sheep. — Where the current population levels of rocky mountain and desert bighorn sheep made it impossible for the New Mexico state game commission (commission) and the department of game and fish to assign a single hunt code to each hunt area during each hunt window for the bighorn sheep hunting season without running afoul of the statutory allocation requirements for resident and nonresident hunters dictated by NMSA 1978, § 17-3-16(B), the commission's application of the term "hunt code" that combines the rocky mountain bighorn sheep by sex and weapon type in several hunt areas and over several hunt windows under one hunt code, and, similarly, that groups the hunting season for desert bighorn rams in several hunt areas and over several hunt windows under one hunt code does not violate this section. The commission's application of the term "hunt code" to its rules regulating the bighorn sheep hunting season is lawful, in that it incorporates the elements [species, weapon type, time frame, specific hunt] that make up the definition of "hunt code," while also giving effect to the requirements of § 17-3-16(B). *New Mexico State Game Comm'n's Application of the term "Hunt Code"* (4/5/22), [Att'y Gen. Adv. Ltr. 2022-01](#).

17-2A-2. Statewide system for hunting activities.

The state game commission shall develop a statewide system for hunting activities that increases participation by New Mexico residents and considers hunter safety, quality hunts, high demand areas, guides and outfitters, quotas and local and financial interests.

History: Laws 1996, ch. 89, § 4.

ANNOTATIONS

Compiler's notes. — Laws 1997, ch. 119, § 4B repealed Laws 1996, ch. 89, § 6, which provided for the repeal of this section on June 30, 1999.

17-2A-3. Hunting guides and outfitters.

A. Effective April 1, 1997, it is unlawful to be a hunting guide or outfitter in New Mexico without being registered, except for a private landowner or his authorized agent who outfits or guides pursuant to a landowner permit issued by the department of game and fish for the landowner's property or for the landowner's shared private and public unit.

B. The state game commission shall adopt regulations by September 1, 1997 to govern the granting of non-interim registration, permits and certificates to hunting guides and outfitters and to regulate the operations and professional conduct of registered hunting guides and outfitters. Regulations shall be adopted in accordance with the following procedures and standards:

(1) the commission shall establish dates and locations for a public hearing and provide reasonable prior public notice of a hearing. A public hearing shall be held at a place within any quadrant of the state affected by the proposed regulation when the commission determines there is substantial public interest in holding a hearing in that quadrant;

(2) a hearing shall be held within six months of the date a proposed regulation is issued;

(3) notice of a hearing shall:

(a) include the date, time and location of the hearing;

(b) include a statement of the recommended action;

(c) include an indication of the location and availability of the public file on the regulation;

(d) indicate where and by what date written and oral comments and testimony may be received; and

(e) specify that the public record shall remain open for comments for thirty days after the date of the final hearing; and

(4) the commission shall make its decision and take action based upon relevant and reliable evidence.

C. No person shall be allowed to work as a registered hunting guide or outfitter in New Mexico:

- (1) without being registered by the state game commission;
- (2) if the person has had a guide or outfitter license, registration, permit or certificate revoked in another state;
- (3) if the person has had a guide or outfitter license, registration, permit or certificate suspended in another state and it has not been reinstated; or
- (4) if the person has been convicted of a felony.

D. The state game commission shall develop a point system for the suspension or revocation of a guide or outfitter registration. The point system shall be similar to the point system that governs individual hunting and fishing license privileges.

E. To be granted a registration to be a guide, an applicant shall, in addition to any other reasonable criteria adopted by the state game commission, and except as provided for persons granted an interim registration:

- (1) be at least eighteen years of age; and
- (2) pass a written or oral examination approved by the department of game and fish at a date and time approved by the department.

F. A registered or interim registered guide shall work only under the supervision of a New Mexico registered or interim registered outfitter and in an area designated by the registered or interim registered outfitter.

G. The department of game and fish may provide a registration for a temporary emergency guide, provided the registration is limited to a maximum seven-day period and is granted only in emergency circumstances as determined by the department. The fee for a temporary emergency guide registration is ten dollars (\$10.00).

H. To be granted a registration to be an outfitter, an applicant shall, in addition to any other reasonable criteria adopted by the state game commission, and except as provided for persons granted an interim registration:

- (1) be at least twenty-one years of age;
- (2) have operated as a New Mexico registered guide for at least three years or have been granted an interim outfitter's registration;

(3) not be a convicted felon or have a history of violation of federal or state game and fish laws or regulations or federal or state guide or outfitter licensing or registration laws or regulations; and

(4) pass a written or oral examination approved by the department of game and fish at a date and time determined by the department.

I. A registered outfitter shall:

(1) provide proof of commercial liability insurance of at least five hundred thousand dollars (\$500,000);

(2) responsibly supervise each registered guide working under his direction;

(3) provide a written contract for outfitting services, signed by the registered outfitter and identifying the outfitter's registration number, to each resident and nonresident who seeks to use the services of a registered outfitter;

(4) register with the taxation and revenue department and provide proof of that registration to the department of game and fish; and

(5) provide at least one registered guide or outfitter for every four or fewer resident or nonresident hunters who have contracted for an outfitter's guided services.

J. The department of game and fish shall provide to the taxation and revenue department a copy of each outfitter registration that is granted.

K. Except as provided in this subsection, no person shall be allowed to charge a processing or other fee to obtain for a resident or nonresident a license that is granted from a special drawing for a hunt on public lands pursuant to the provisions of Section 17-3-16 NMSA 1978, except that nothing in this subsection shall prohibit the department of game and fish from collecting an application fee. Persons involved in licensing services, booking agencies or license brokering that do not provide direct guide and outfitter services shall not be required to register with the department of game and fish and may charge a fee, other than the application fee for a license, for their services.

L. A New Mexico resident registered outfitter shall be a registered outfitter who is a resident as defined in Section 17-3-4 NMSA 1978. The state game commission shall adopt regulations that set forth additional requirements and that shall include at a minimum that a resident registered outfitter shall maintain a business address in New Mexico and, except as provided in Subsection Q of this section, derive at least fifty percent of his guiding or outfitting income from guiding or outfitting in New Mexico, as determined by gross receipts or corporate or individual income tax returns for the immediately preceding three years.

M. The department of game and fish shall maintain for public distribution a list of New Mexico registered outfitters.

N. The annual registration fee for a registered guide in New Mexico is fifty dollars (\$50.00) for a resident and one hundred dollars (\$100) for a nonresident.

O. The annual registration fee to be a registered outfitter in New Mexico is five hundred dollars (\$500) for either a resident or a nonresident.

P. Annual registration fees for guides and outfitters shall be deposited in the game protection fund.

Q. A resident interim registered or registered outfitter may apply for inactive status of his registration for any period in which he does not operate as an outfitter. The state game commission shall reactivate an outfitter registration at the request of the outfitter and upon proof that the outfitter complies with the provisions of this section and upon payment of the annual registration fee for the year the registration is being reinstated and payment of a reinstatement fee of not to exceed fifty dollars (\$50.00).

R. The state game commission shall adopt by September 1, 1996 interim regulations, consistent to the greatest extent practicable with the provisions of this section, to provide for the granting of interim registrations to guides and outfitters. The commission shall issue interim registrations prior to mailing applications for 1997 licensed hunts to persons who qualify for interim registration and submit applications to the department of game and fish.

S. A person adversely affected by an action, other than a regulation, taken pursuant to the provisions of this section, including the denial, suspension or revocation of a registration, license, permit or certificate, may seek review of the action pursuant to the provisions of the Uniform Licensing Act [61-1-1 to 61-1-31 NMSA 1978].

T. A person adversely affected by a regulation adopted by the state game commission pursuant to this section may appeal to the court of appeals. All appeals shall be made upon the record at the hearing and shall be taken to the court of appeals within thirty days following the date of the action. The date of the action shall be the date of the filing of the regulation by the commission, pursuant to the provisions of the State Rules Act [Chapter 14, Article 4 NMSA 1978].

U. Upon appeal, the court of appeals shall set aside a regulation only if it is found to be:

- (1) arbitrary, capricious or an abuse of discretion;
- (2) not supported by substantial evidence in the record; or
- (3) otherwise not in accordance with law.

V. After a hearing and a showing of good cause by the appellant, a stay of a regulation being appealed may be granted:

(1) by the state game commission; or

(2) by the court of appeals if the state game commission denies a stay or fails to act upon an application for a stay within sixty days after receipt of the application.

W. The appellant shall pay all costs for any appeal found to be frivolous by the court of appeals.

History: Laws 1996, ch. 89, § 5; 1997, ch. 119, § 2; 2001, ch. 63, § 1.

ANNOTATIONS

"Revocation" and "suspension" construed. — Where the New Mexico department of game and fish (department) denied respondent's application for a New Mexico outfitter's license pursuant to 17-2A-3(C)(2) NMSA 1978, which precludes an individual from working as a registered outfitter if the person has had a guide or outfitter license revoked in another state, and where the district court reversed the decision of the department, finding that the department applied an inapplicable section of 17-2A-3 NMSA 1978 and violated the Interstate Wildlife Violator Compact, 11-16-1 to -12 NMSA 1978, the district court did not err in reversing the department's decision, because the evidence in this case established that the actions of the Arizona commission on which the department relied to deny respondent a license are akin to a suspension, rather than a revocation, and therefore the department erroneously applied 17-2A-3(C)(2) NMSA 1978. An applicant whose license has been taken away for a specified period of time or until the applicant comes into compliance with the requirements established by game and fish is subject to the provision of 17-2A-3(C)(3) NMSA 1978. *N.M. Dep't of Game & Fish v. Rawlings*, 2019-NMCA-018.

Compiler's notes. — Laws 1997, ch. 119, § 4B repealed Laws 1996, ch. 89, § 6, which provided for the repeal of this section on June 30, 1999.

Laws 1997, ch. 119, § 6 provided that in the event the act was not enacted with the emergency clause, its provisions shall be made retroactive in operation to April 1, 1997. Although the act was enacted with the emergency clause, it was not signed by the governor until April 9, 1997.

The 2001 amendment, effective June 15, 2001, in Subsection K, inserted "Except as provided in this subsection" and inserted the last sentence, which begins "Persons involved in licensing services".

The 1997 amendment, effective April 9, 1997, deleted former Paragraphs E(3) and H(5) relating to being endorsed by a registered outfitter; rewrote Paragraphs I(3) and (5); inserted "resident or" preceding "nonresident" and added the clause beginning with

"except" in Subsection K; deleted former Subsection L, relating to a point system to provide preferences to registered outfitters who are New Mexico residents; added Subsection Q; and redesignated Subsections M through Q as Subsections L through P.

Licenses and Permits

PART 1

GENERAL PROVISIONS

17-3-1. Current license required.

Each license issued under Chapter 17 NMSA 1978, runs from April 1 through March 31 of the following calendar year. No person shall shoot, hunt, kill, injure or take, in any manner, any game animal, game bird or game fish without paying for, and having in his possession, the proper license required by law for the year in which the shooting, hunting, fishing or taking is done. No nonresident shall shoot, hunt, kill or take, in any manner, any nongame animal or nongame bird without paying for, and having in his possession, any one of the nonresident hunting licenses listed in Section 17-3-13 NMSA 1978 required by law for the year in which the shooting, hunting or taking is done.

Bear as game animal. — A statute denominating bear as a game animal could not validate a previous unauthorized regulation of the game commission classifying bear as a game animal, especially as the statute did not purport to be a validating statute; but where a previous statute had specified the closed season for bear, it sufficiently showed the statutory intent to define bear as a game animal. *State ex rel. The 2005 amendment, effective April 1, 2006, increases fees for all classes of fishing and hunting licenses.

The 2003 amendment, effective July 1, 2003 for trout water anglers and April 1, 2004 for warm water anglers, added the last entry of the table in Subsection B.

The 1998 amendment, effective July 1, 1998, added a fee for a temporary small game license at the end of the section.

The 1996 amendment, effective April 1, 1997, in Subsection B, changed the general hunting and fishing fee from \$23.00 to \$20.00; changed the resident elk cow fee from \$45.00 to \$37.00; changed the resident elk bull or either sex fee from \$75.00 to \$60.00; changed the nonresident bison fee from \$200.00 to \$1,000.00; and changed the resident junior-senior handicapped fishing fee from \$10.50 to \$5.00.

Fee structure, although discriminatory, not offensive. — The present fee structure in this section, which discriminates against nonresidents, is not offensive to either the

privileges and immunities clause, U.S. Const., art. IV, § 2, or the U.S. Const., amend. XIV. *Terk v. Gordon*, No. 74-387-M (D.N.M., filed Aug. 25, 1977), *aff'd*, 436 U.S. 850, 98 S. Ct. 3063, 56 L. Ed. 2d 751 (1978).

1964 act was not retroactive. — Laws 1964 (1st S.S.), ch. 17, which enacted or amended certain statutes dealing with hunting and fishing licenses, was not retroactive in operation, since it operated prospectively from May 25, 1964. 1964 Op. Att'y Gen. No. 64-91.

Increasing fees is not impermissibly discriminatory. — Where an act of the legislature increases hunting or fishing license fees as of a certain date, any discrimination between persons on the basis of when they purchase a license is permissible, rational and unavoidable. 1964 Op. Att'y Gen. No. 64-91.

There is no discrimination in an act which increases hunting or fishing license fees as of a certain effective date except that which may result from an individual's own action or inaction. 1964 Op. Att'y Gen. No. 64-91.

17-3-15. Additional deer license.

A. It is a misdemeanor for any person to procure or use more than one license to hunt big game in one year, except as provided in this section, or to use any tag after it has been used once.

B. For the purpose of effectuating better game management and control, the state game commission may by regulation authorize the sale of not more than one additional deer license each year to any person holding a license that entitled the person to hunt deer during that year. The fee for an additional deer license shall be the resident or nonresident deer license fee pursuant to Section 17-3-13 NMSA 1978.

C. It is a misdemeanor for any person to take or attempt to take a deer with an additional deer license unless the person has the additional deer license and the other license that entitled the person to hunt deer for that year in the person's possession. Possession of an additional deer license without the other license that entitled the person to hunt deer for that year is prima facie evidence of violation of this section.

History: 1953 Comp., § 53-3-6.3, enacted by Laws 1964 (1st S.S.), ch. 17, § 6; 1983, ch. 117, § 3; 2007, ch. 142, § 1.

ANNOTATIONS

Cross references. — For the resident and nonresident deer license fees, see 17-3-13 NMSA 1978.

The 2007 amendment, effective June 15, 2007, provided that the fee for an additional deer license is the resident or nonresident deer license fee.

17-3-16. Funds; special drawings for licenses.

A. The director of the department of game and fish may provide special envelopes and application blanks when a special drawing is to be held to determine the persons to receive licenses. Money required to be submitted with these applications, if enclosed in the special envelopes, need not be deposited with the state treasurer but may be held by the director until the successful applicants are determined. At that time, the fees of the successful applicants shall be deposited with the state treasurer and the fees submitted by the unsuccessful applicants shall be returned to them.

B. Beginning with the licenses issued from a special drawing for a hunt code that commences on or after April 1, 2012:

(1) licenses shall be issued as follows:

(a) ten percent of the licenses to be drawn by nonresidents and residents who will be contracted with a New Mexico outfitter prior to application; and

(b) six percent of the licenses to be drawn by nonresidents who are not required to be contracted with an outfitter; and

(2) a minimum of eighty-four percent of the licenses shall be issued to residents of New Mexico.

C. If the number of applicants who apply for licenses pursuant to the provisions of Paragraphs (1) and (2) of Subsection B of this section does not constitute the allocated licenses for either category, then the additional licenses available may be granted to another category of applicants. The director shall offer first choice of undersubscribed hunts to residents, whenever practicable.

D. If the determination of the percentages in Subsection B of this section yields a fraction of:

(1) five-tenths or greater, the number of licenses to be issued shall be rounded up to the next whole number; and

(2) less than five-tenths, the number of licenses shall be rounded down to the next whole number.

E. The fee for a nonresident license for a special drawing in a high-demand hunt covered in Subsection B of this section shall be assessed at the same rate as a license for nonresident quality elk or quality deer. As used in this subsection, "high-demand hunt" means:

(1) a hunt where the total number of nonresident applicants for a hunt code in each unit exceeds twenty-two percent of the total applicants and where the total applicants for a hunt exceeds the number of licenses available based on application data indicating that this criteria occurred in each of the two immediately preceding years; or

(2) an additional hunt code designated by the department of game and fish as a quality hunt.

F. All antlerless elk hunts pursuant to this section shall be exclusively for New Mexico residents.

G. Hunts on all state wildlife management areas shall be allocated exclusively to New Mexico residents.

H. As used in this section, "New Mexico outfitter" means a person who has a business:

(1) with a valid New Mexico state, county or municipal business registration and a valid outfitter license issued by the department of game and fish;

(2) that is authorized to do and is doing outfitting business under the laws of this state;

(3) that has paid property taxes or rent on real property in New Mexico, paid gross receipts taxes and paid at least one other tax administered by the taxation and revenue department in each of the three years immediately preceding the submission of an affidavit to the department of game and fish;

(4) the majority of which is owned by the person who has resided in New Mexico during the three-year period immediately preceding the submission of an affidavit to the department of game and fish;

(5) that employs at least eighty percent of the total personnel of the business who are New Mexico residents; and

(6) that has either leased property for ten years or purchased property greater than fifty thousand dollars (\$50,000) in value in New Mexico;

(7) that, if it has changed its name from that of a previously certified business, the business is identical in every way to the previously certified business that meets all criteria;

(8) that possesses all required federal or state land use permits for the hunt; and

(9) that operates as a hunting guide service during which at least two days are accompanied with the client in the area where the license is valid.

History: 1953 Comp., § 53-3-7, enacted by Laws 1964 (1st S.S.), ch. 17, § 7; 1996, ch. 89, § 1; 1997, ch. 119, § 3; 2011, ch. 186, § 5.

ANNOTATIONS

Repeals and reenactments. — Laws 1964 (1st S.S.), ch. 17, § 7, repealed former 53-3-7, 1953 Comp., relating to nonresident temporary fishing licenses, and enacted a new 17-3-16 NMSA 1978. The attorney general had ruled that Laws 1949, ch. 13, amending 17-3-13 NMSA 1978, had repealed by implication former 53-3-7, 1953 Comp. See 1949 Op. Att'y Gen. No. 49-5200.

Laws 1997, ch. 119, § 4 repealed 17-3-16 NMSA 1978, as enacted by Laws 1996, ch. 89, § 2, effective April 9, 1997. Laws 1996, ch. 89, § 2 provided for the repeal and reenactment of this section, and was to become effective on June 30, 1999.

Compiler's notes. — Laws 1997, ch. 119, § 6 provided that in the event the act is not enacted with the emergency clause, its provisions shall be made retroactive in operation

to April 1, 1997. Although the act was enacted with the emergency clause, it was not signed by the governor until April 9, 1997.

The 2011 amendment, effective April 1, 2012, increased the percentage of licenses issued to residents from seventy-eight percent to eighty-four percent; lowered the number of licenses issued to nonresidents who use a New Mexico outfitter from twelve percent to ten percent and to nonresidents who do not use an outfitter from ten percent to six percent; required the director to offer unsubscribed licenses to residents; added Subsection F to restrict antlerless elk hunts to residents; added Subsection G to restrict hunts on state wildlife management areas to residents; and added Subsection H to define "New Mexico outfitter".

The 1997 amendment, effective April 9, 1997, rewrote Paragraph B(1); deleted former Paragraph B(2) providing for 3% of licenses issued to applications listing residents and nonresidents; redesignated Paragraph B(3) as B(2) and substituted "seventy-eight" for "eighty"; rewrote Subsection C; substituted "the percentages in" for "seventeen percent or three percent in Paragraphs (1) and (2)" in Subsection D; and substituted the phrase beginning with "and where" for "based on data for the two immediately preceding years; or" following "applicants" in Paragraph E(1); and inserted "of game and fish" following "department" in Paragraph E(2).

The 1996 amendment, effective July 1, 1996, designated the existing language as Subsection A; and added Subsections B through E.

Administrative regulations inconsistent with this section. – As applied to the issuance of licenses for bull elk hunting in the Valles Caldera Preserve, the regulations found in 19.31.8.24 NMAC are inconsistent with this section, which specifies how licenses issued through a special drawing must be allocated among state residents and non-residents. 2003 Op. Att'y Gen. No. 03-06.

Valles Caldera Preserve Act does not supersede this section. – The legislature did not intend that this section's requirements could be avoided by simply having the federal Valles Caldera Preserve Trust conduct a special drawing, given Congress' express intent that the Valles Caldera Preserve Act not supercede New Mexico's laws pertaining to the issuance of hunting licenses; thus, the trust cannot use its authority to regulate access to the preserve in a manner that interferes with the application of this section. 2003 Op. Att'y Gen. No. 03-06.

Application of "hunt code" to rule regulating the hunt of bighorn sheep. — Where the current population levels of rocky mountain and desert bighorn sheep made it impossible for the New Mexico state game commission (commission) and the department of game and fish to assign a single hunt code to each hunt area during each hunt window for the bighorn sheep hunting season without running afoul of the statutory allocation requirements for resident and nonresident hunters dictated by NMSA 1978, § 17-3-16(B), the commission's application of the term "hunt code" that combines the rocky mountain bighorn sheep by sex and weapon type in several hunt areas and over

several hunt windows under one hunt code, and, similarly, that groups the hunting season for desert bighorn rams in several hunt areas and over several hunt windows under one hunt code does not violate this section. The commission's application of the term "hunt code" to its rules regulating the bighorn sheep hunting season is lawful, in that it incorporates the elements [species, weapon type, time frame, specific hunt] that make up the definition of "hunt code," while also giving effect to the requirements of § 17-3-16(B). *New Mexico State Game Comm'n's Application of the term "Hunt Code"* (4/5/22), [Att'y Gen. Adv. Ltr. 2022-01](#).

17-3-16.1. Bighorn sheep enhancement permits; issuance; use.

A. The state game commission shall direct the department of game and fish to authorize not more than four of the permits available for issuance in the license year for the taking of four bighorn rams for the purpose of raising funds for programs and projects to benefit bighorn sheep.

B. The state game commission shall prescribe by regulation the form, design and manner of issuance of the bighorn sheep enhancement permits. The issuance of two permits shall be subject to auction by the department or by an incorporated nonprofit organization dedicated to conservation of wildlife, as determined by the commission, and shall be sold to the highest bidder. The issuance of the other two permits shall be subject to a lottery by the department or by an incorporated nonprofit organization dedicated to conservation of wildlife, as determined by the commission.

C. All money collected from the issuance and sale of the bighorn sheep enhancement permits shall be credited to the game protection fund to be used exclusively for bighorn sheep preservation, restoration and management.

History: Laws 1989, ch. 384, § 1; 1999, ch. 81, § 1; 2012, ch. 34, § 1.

ANNOTATIONS

The 2012 amendment, effective May 16, 2012, authorized additional bighorn sheep enhancement permits; in Subsection A, after "not more than", deleted "two" and added "four" and after "for the taking of", deleted "two" and added "four"; and in Subsection B, in the second sentence, after "The issuance of" deleted "one permit" and added "two permits" and in the third sentence, after "issuance of the other", deleted "permit" and added "two permits".

The 1999 amendment, effective June 18, 1999, substituted "two" for "one" in two places in Subsection A; and, in Subsection B, substituted "one" for "such" in the next-to-last sentence, added the last sentence, and made minor stylistic changes.

17-3-16.2. Elk enhancement permit; issuance; use.

A. The state game commission shall direct the department of game and fish to authorize two elk enhancement permits each license year for the taking of two elk bulls to raise funds for programs and projects to better manage elk.

B. The state game commission shall prescribe by rule the form, design and manner of issuance of the two elk enhancement permits. The issuance of one permit shall be subject to auction by the department or by an incorporated nonprofit organization dedicated to conservation of wildlife, as determined by the commission, and shall be sold to the highest bidder. The issuance of the other permit shall be subject to a lottery by the department or by an incorporated nonprofit organization dedicated to conservation of wildlife, as determined by the commission.

C. All money collected from the issuance and sale of the elk enhancement permits shall be credited to the game protection fund to be used exclusively for elk restoration and management.

History: Laws 1999, ch. 69, § 1.

17-3-16.3. Lieutenant governor's deer enhancement permits; issuance; use.

A. The state game commission shall direct the department of game and fish to authorize two deer enhancement permits each license year for the taking of two deer to raise funds for programs and projects to better manage deer.

B. The state game commission shall prescribe by rule the form, design and manner of issuance of the two deer enhancement permits. The issuance of one permit shall be subject to auction by the department or by an incorporated nonprofit organization dedicated to conservation of wildlife, as determined by the commission, and shall be sold to the highest bidder. The issuance of the other permit shall be subject to a lottery by the department or by an incorporated nonprofit organization dedicated to conservation of wildlife, as determined by the commission.

C. All money collected from the issuance and sale of the lieutenant governor's deer enhancement permits shall be credited to the game protection fund to be used exclusively for deer restoration and management.

17-3-16.4. Gould's turkey enhancement permits; issuance; use.

A. The state game commission may direct the department of game and fish to authorize Gould's turkey enhancement permits for the taking of Gould's turkeys, *Meleagris gallopavo mexicana*, to raise funds for programs and projects to better manage the Gould's turkey population in New Mexico.

B. The state game commission shall prescribe by rule the form, design and manner of issuance of the Gould's turkey enhancement permits. The issuance of the permits shall be subject to a lottery or auction. Such allotment of the permits may be conducted by an incorporated nonprofit organization dedicated to conservation of wildlife, in cooperation with and overseen by the commission and the department of game and fish.

C. The state game commission shall direct the department of game and fish to authorize Gould's turkey enhancement permits only after the department has documented that the issuance of each enhancement permit will not jeopardize the prospects for the survival and recruitment of the Gould's turkey within New Mexico.

D. Gould's turkey enhancement permits shall be authorized only when doing so does not conflict with the Wildlife Conservation Act [17-2-33 to 17-2-36 NMSA 1978] or any rules implementing that act.

E. Money collected from the issuance and sale of the Gould's turkey enhancement permits shall be credited to the game protection fund to be used exclusively for the restoration and management of Gould's turkeys and Gould's turkey habitats, which support a variety of other unique and rare wildlife of southwestern New Mexico.

17-3-16.5. Hunting and fishing authorizations; governor's special events.

The director of the department of game and fish may annually make available to the governor no more than twelve big game special authorizations and twelve game bird or trophy fish special authorizations. The authorizations shall be allocated by auction in conjunction with special events called by the governor to raise money for fish and wildlife conservation. Any auction used to allocate an authorization shall comply with rules adopted by the state game commission. Each authorization shall allow the holder to purchase a license to hunt or fish for the species indicated on the authorization during dates and times at locations specified by the state game commission. The director may designate the species allowable for each authorization, but no more than three authorizations shall be issued for any one species each year. Money collected pursuant

to the special authorizations of the governor shall be deposited in the game protection fund.

History: Laws 2007, ch. 105, § 1.

ANNOTATIONS

Effective dates. — Laws 2007, ch. 105, contained no effective date provision, but, pursuant to N.M. Const., art. IV, § 23, was effective June 15, 2007, 90 days after the adjournment of the legislature.

17-3-16.6. Enhancement authorization packages; habitat enhancement.

The state game commission shall adopt rules for the department of game and fish to issue enhancement authorization packages each license year for the taking of one each of elk, deer, oryx, ibex and pronghorn antelope. Each enhancement authorization package shall be auctioned by the department of game and fish or by an incorporated nonprofit organization dedicated to the conservation of wildlife and sold to the highest bidder. Money collected from the enhancement authorization packages shall be deposited in the game protection fund and shall be used exclusively for big game habitat enhancement, conservation and protection.

17-3-17. Fishing without license; exceptions.

A. It is a misdemeanor for any person, except children who have not reached their twelfth birthday, to take or attempt to take any game fish from any public stream or water in this state without carrying a proper fishing license as provided by law. The presence of any person, except children who have not reached their twelfth birthday, along any public stream or water in this state with fishing rod, hook or line, without carrying a proper fishing license, is prima facie evidence of the violation of this section. The director of the department of game and fish or any conservation officer may require any person along any public stream or water in this state with fishing rod, hook or line to exhibit the person's license.

B. The director, with the approval of the state game commission, may designate no more than two nonconsecutive Saturdays in each year as free fishing days. During the free fishing days, residents and nonresidents may exercise the privileges of holders of

proper fishing licenses without having proper fishing licenses and without payment of any license fees, subject to all limitations, restrictions, conditions, laws, rules and regulations applicable to holders of proper fishing licenses.

C. The director may designate, by special permit, fishing events during which the requirement for a fishing license or permit pursuant to Chapter 17 NMSA 1978 is waived exclusively for designated event participants. During the special permitted events, residents and nonresidents may exercise only the privileges as allowed by the director. The director's special permit shall substitute for the requirement of any license or permit pursuant to Chapter 17 NMSA 1978, and no payment of any license fee is required. The director's special permit shall be for a period of no longer than three days, and all other laws and rules shall apply.

The 2013 amendment, effective June 14, 2013, provided for special fishing event permits; and added Subsection C.

The 1991 amendment, effective July 1, 1991, substituted "Exceptions" for "Exception" in the catchline; redesignated the formerly undesignated provision as Subsection A and inserted "of the department of game and fish" following "director" in the final sentence thereof and added Subsection B.

This section applies to non-Indians on Indian lands. 1973 Op. Att'y Gen. No. 73-18.

Application is constitutional. — This section is constitutional if, in application, Indian lands are brought into its scope via non-Indian action. 1973 Op. Att'y Gen. No. 73-18.

Requirement of possession of license is mandatory. — Neither the state game commission, the state game warden (now director) nor any other person may waive the provision that persons over 14 (now 11) years of age must have fishing license in their possession when fishing since the statutory requirement is mandatory. 1947 Op. Att'y Gen. No. 47-5017.

17-3-19. Special license; minors fishing on scout property.

Every citizen of the United States who is a resident or nonresident of the state of New Mexico and under the age of eighteen years shall, upon the payment of two dollars (\$2.00), be issued a special temporary license to fish for ten days during the proper open season in any waters or streams located on the property owned and operated by the boy scouts of America in Colfax county, New Mexico. Such temporary license shall not authorize fishing in any other waters of this state.

17-3-25. Patients at Carrie Tingley crippled children's hospital; fishing on hospital lands by patients; supervision.

Any person between the age of fourteen and the age of majority, who is a patient in the Carrie Tingley crippled children's hospital, may fish without a license in waters

located on the property of the Carrie Tingley crippled children's hospital at Truth or Consequences. Fishing shall be done only under the supervision of the officials of the Carrie Tingley crippled children's hospital, and in conformity with seasons and bag limits established by the state game commission.

17-3-26. Taking minnows and nongame fish to sell as bait; license required; exception.

It is unlawful for any person, except children under the age of twelve years, to take from the streams or public waters of this state minnows and nongame fish for the purpose of sale to fishermen or others for bait without having first procured from the state game commission a license therefor as provided in Sections 17-3-26 through 17-3-28 NMSA 1978.

History: Laws 1939, ch. 27, § 1; 1941 Comp., § 43-313; 1953 Comp., § 53-3-19; Laws 1955, ch. 60, § 1; 1979, ch. 340, § 9.

ANNOTATIONS

License and bond are required of sellers or takers of bait fish. — This section would seem to point to the conclusion that only those who take minnows and nongame fish from public waters are required to be licensed. However, the first sentence of 17-3-27 NMSA 1978 is phrased in the disjunctive, and the application of that statute is to those engaged in the business of selling minnows and nongame fish or to those who take the minnows and nongame fish from the streams of the state. Thus, not only those who take minnows from the streams are to be licensed and bonded, but also those who otherwise engage in the business of selling them irrespective of where they were originally secured. And if one taking minnows or other nongame fish from private waters sells them, it would appear that he is engaging in a business for which a license and bond are required. 1957 Op. Att'y Gen. No. 57-150.

Including those employed on commission basis. — Whereas this section and 17-3-27 NMSA 1978 do not apply to persons hired on salary basis for nongame fishing on behalf of a licensee, persons employed by a licensee on a "split the profit" or commission basis are required to be licensed. 1947 Op. Att'y Gen. No. 47-5119.

17-3-27. Bait license; bond; fee; issuance.

Any person desiring to procure a license for the purpose of engaging in the business of selling minnows and nongame fish for bait or taking minnows and nongame fish from the streams of this state for the purpose of sale to others shall apply to the state game commission for a license. The application shall be upon forms provided by the commission and shall set forth the public streams or waters out of which the applicant

intends to take the minnows and nongame fish and the place at which they are to be sold. The application shall be accompanied by a just and reasonable fee as determined by regulation of the state game commission. Upon receipt of the application, it shall be the duty of the state game commission or, when it is not in session, the director of the department of game and fish to pass upon the application and to issue a license authorizing the taking and the manner of taking of the minnows and nongame fish by the applicant from those waters in the state as in the opinion of the state game commission or director will not be detrimental to the public or injurious to protected fish. The license when so issued shall specify the manner of taking and the waters from which the applicant is permitted to take minnows and nongame fish for sale for bait.

ANNOTATIONS

The 1992 amendment, effective April 1, 1992, added the present section catchline; in the text, substituted the present third sentence for the former third and fourth sentences, relating to a fee of \$20 and a bond of \$1,000, in the present fourth sentence, deleted "and bond" following "the application" and inserted "of the department of game and fish"; and made stylistic changes.

This license fee is a regulatory measure rather than a revenue gathering device. 1965 Op. Att'y Gen. No. 65-18.

County or municipal licenses are not precluded. — The licensing of bait sellers, under this section, is not a preemption of the field so as to preclude licensing by the county or a municipality of the same business enterprise. 1959 Op. Att'y Gen. No. 59-32.

17-3-28. [Exceptions from 17-3-26, 17-3-27; taking bait for own use; persons under 15; unlawful to place nongame fish in certain waters.]

Nothing in this act [17-3-26 to 17-3-28 NMSA 1978] shall be construed to prevent licensed fishermen from taking minnows and other nongame fish for his [their] own use for bait; or to any minor under fifteen (15) years of age taking minnows not for resale; provided, however, that it shall be unlawful for licensed fishermen or any other person using nongame fish for bait to place any of such nongame fish which are not used for bait in any waters stocked or reserved for game fish by the state game commission of the state of New Mexico.

17-3-29. Permit to take game, birds or fish as specimens or for scientific or propagating purposes; eligibility; issuance; contents; nonassignable; sale for food purposes prohibited.

The state director may issue permits to any person to take, capture, kill, transport within or out of the state any game, birds or fish mentioned in this chapter at any time when satisfied that such person desires the same exclusively as specimens or for scientific or propagating purposes. Such permit shall be in writing and shall state the kind and number to be taken and the manner of taking, the name of the person to whom issued, the name of the place to which the same is to be transported and the name of the persons shipping such game, birds or fish, and shall be signed by him. Such permit shall not be transferable nor shall it be lawful to sell or barter any of the animals, birds or fish taken or exported under such permit for food purposes, and the holder of such permit shall be liable to the penalties provided in this chapter if he violates any of its provisions.

The state game and fish warden [director of the department of game and fish] may grant permits to owners or lessees of land and for the capture or destruction on their lands of any protected game doing damage to their cultivated crops or property; provided, that on said permit or permits so issued as aforesaid, the state game and fish warden shall fix the numerical limit of any protected game so to be captured or destroyed and shall also therein fix the time limit within which any such protected game shall be so captured.

The state game and fish warden shall also grant permits, preferably to owners or lessees of land, for the capture of such beaver as interfere with the operation of any lawful canal, ditch or dam, or cause or threaten the destruction of private property and for the capture of beaver to be transferred from one stream to another; provided, however, that all skins of beaver taken under the provisions of this section shall be turned in to the state game and fish warden, to be by him sold and one-half of the proceeds therefor to be by said state game and fish warden conveyed into the game protection fund and the other one-half of the proceeds to be by said state game and fish warden turned over to the holder of said permit.

17-3-32. Importing game animals; permits.

In order to protect game animals, birds and fish against importation of undesirable species and introduction of infectious or contagious diseases, it is a misdemeanor to import any live animals, birds or fish into this state, except domesticated animals or domesticated fowl or fish from government hatcheries, without first obtaining a permit from the department of game and fish.

ANNOTATIONS

Fertile eggs come within the classification of live birds. 1955 Op. Att'y Gen. No. 55-6154.

Burden is on importer to prove game birds were domesticated. — This section requires the person importing any live animals, birds or fish into this state to obtain a permit from the director. It exempts domesticated animals or domesticated fowl, and the burden of proving that any such birds, if within the birds declared to be game birds, were domesticated would fall upon the person desiring to import them without a permit. 1955 Op. Att'y Gen. No. 55-6154.

17-3-32.1. Exceptions from certain permits.

The provisions of Sections 17-2-14 and 17-3-32 NMSA 1978 shall not apply to any raptor belonging to and used by a nonresident under a valid falconer's license or permit from another state, providing that the importation into and possession within New Mexico is only for purposes of transit or to hunt mammals or birds during legal falconry or nongame seasons; except that any nonresident who uses a raptor to hunt any mammal or bird in New Mexico shall otherwise abide by regulations established with reference to hunting by nonresident falconers in the state.

17-3-33. Presumption from possession of game or fish without license; showing license to officer.

The possession of game or fish at any time unaccompanied by a proper and valid license, game tag, certificate or permit or invoice, as provided in Chapter 17 NMSA 1978, shall be prima facie evidence that such game or fish was unlawfully taken and is unlawfully held in possession, and it shall be the duty of every person having possession or control of game or fish to produce the proper license, game tag,

certificate, permit or invoice when one is required by Chapter 17 NMSA 1978 on demand of any officer, and to permit the same to be copied by such officer. Violation of any provision of this section is a misdemeanor and is punishable as provided by Section 17-2-10 NMSA 1978.

Documentation required. — Since a tag is not the only form of documentation recognized by game and fish laws, and since a tag, even when required, need not be directly affixed to game animal parts stored or displayed within a home, a reasonable officer with a working knowledge of game and fish laws would not have assumed that the game animal parts visible within defendant's home were "unaccompanied" by proper documentation merely because they were untagged. *State v. Moran*, 2008-NMCA-160, 145 N.M. 297, 197 P.3d 1079.

17-3-34. Revocation of license, certificate or permit for violation of law; notice and hearing; judicial review.

If the holder of any license, certificate or permit persistently, flagrantly or knowingly violates or countenances the violation of any of the provisions of Chapter 17 NMSA 1978 or of any regulations referred to in Section 17-2-10 NMSA 1978, the license, certificate or permit shall be revoked by the state game commission after reasonable notice given the accused of the alleged violation and after the accused is afforded an opportunity to appear and show cause against the charges.

B. At the hearing, the state game commission shall cause a record of the hearing to be made and shall allow the person charged to examine witnesses testifying at the hearing. Any person whose license, certificate or permit has been revoked by the commission may appeal to the district court pursuant to the provisions of Section 39-3-1.1 NMSA 1978.

ARTICLE 4 Propagation of Fish and Game

17-4-1. [Power of state game commission to acquire land.]

The state game commission of the state of New Mexico is hereby authorized and empowered to acquire by purchase, gift, bequest or lease; and to hold, develop and improve lands for fish hatcheries, game farms, game refuges, bird refuges, resting and nesting grounds, field stations, dams, lakes, ditches, flumes, waterways, pipelines, canals, rights-of-way, trails, roads and for all purposes incidental to the propagation, preservation, protection and management of the game, birds, fish and wildlife of the state of New Mexico.

History: Laws 1939, ch. 223, § 1; 1941 Comp., § 43-401; Laws 1947, ch. 48, § 1; 1953 Comp., § 53-4-1.

ANNOTATIONS

Commission may pay rentals and charge fees to defray them. — This section is a broad grant of power to the state game commission. First, it includes the express power to acquire lands (including lakes) by lease for fish and game purposes. Such necessarily includes the power to pay rentals (within fiscal limits) to continue the lease, and keeping in mind the nature of the statute, it may be fairly implied that the state game commission would have authority to impose fees or other charges to help defray the expenses necessitated by the lease and operations thereunder, particularly where the fees charged and collected are directly related to the rentals paid the lessor. 1958 Op. Att'y Gen. No. 58-80.

County ordinance cannot limit authority of state game commission. — County land use ordinances attempting to restrict traditional federal and state regulatory authority are preempted by this section which allows the state game commission to acquire land for fish hatcheries, game farms, game refuges, and other relevant purposes and, thus, such county ordinances are of no consequence. 1994 Op. Att'y Gen. No. 94-01.

17-4-2. Eminent domain power; abandonment or relinquishment of property acquired.

Any property or rights-of-way required for use by the state game commission may be acquired as for a public purpose and as a matter of public necessity under the power of eminent domain, by and with the written approval of the board of county commissioners of the county in which the property or rights-of-way sought are located, in an action instituted and prosecuted in the name of the state, according to the procedure for condemnation provided by the Eminent Domain Code [42A-1-1 to 42A-1-33 NMSA 1978]. Provided nevertheless, that any property right acquired under the provisions of this section, if and when the use for which it was acquired has been abandoned for three years or otherwise relinquished, shall revert to the grantor from whom it was derived.

17-4-3. [Exchange, sale, lease, sublease and assignment of lands by commission; proceeds.]

The state game commission, except as herein limited, is authorized to exchange, sell, lease, sublease or assign any interest in any lands and leases heretofore or hereafter acquired including but not limited to the sale or lease of timber, oil, gas, minerals or any other severable product of or interest in real estate, when, in the judgment of said commission, such transaction will be in the interest of the state game commission and said lands, leases, products or severable parts thereof, are, in the opinion of such commission, no longer necessary for the purposes for which such lands were acquired or where such lease or sublease will not materially interfere with or conflict with the use of such lands for the purpose for which they were acquired. The proceeds of any such sale, exchange, lease or assignment shall be converted into the game protection fund and disbursed as the other moneys in said fund are disbursed.

History: Laws 1939, ch. 223, § 3; 1941 Comp., § 43-403; 1953 Comp., § 53-4-3; Laws 1955, ch. 86, § 1.

ANNOTATIONS

Whether to lease is left to commission's sole discretion. — Whether or not a lease should be executed is a question to be determined by the judgment and discretion of the game commission. 1957 Op. Att'y Gen. No. 57-149.

Commission may itself conduct sale of lands. — Under this section the state game commission is itself authorized to sell its lands, or interests therein, unfettered by the provisions of the general statute governing the sale of property by state agencies or local public bodies. 1958 Op. Att'y Gen. No. 58-76.

If the commission chooses to itself sell the lands, it could, if it wanted, advertise the proposed sale, or otherwise notify prospective purchasers. But such is a matter to be determined by the commission in its sound discretion. 1958 Op. Att'y Gen. No. 58-76.

17-4-4. [Sale of former state bird farm; mineral rights reserved.]

The sale of the surface and water rights, but not the mineral rights, notwithstanding any other provision of the law, to the highest bidder after advertised for public bid of approximately eighty-seven acres of land and improvements, known as the former state bird farm, located at the northern boundary of the city of Carlsbad in Eddy county, New Mexico is approved. The advertisement for public bid shall be made after the effective date of this act.

History: 1953 Comp., § 53-4-3.1, enacted by Laws 1973, ch. 260, § 1.

17-4-5. [Fish hatcheries established by United States; exemption from state laws.]

In case the United States shall establish one or more fish hatching and fish cultural stations in the state of New Mexico, the United States commissioner of fisheries and his duly authorized agents are hereby accorded the right to conduct fish hatching and fish culture and all operations connected therewith, in any manner and at any time that may be by them considered necessary and proper, any fisheries laws of this state to the contrary notwithstanding.

17-4-6. Hunting and fishing on private property; posting; penalty.

A. Whenever the owner or lessee desires to protect or propagate game birds, animals or fish within the owner's or lessee's enclosure or pasture, the owner or lessee shall publish notices in English and Spanish warning all persons not to hunt or fish within the enclosure or pasture. The notices shall be posted in at least six conspicuous places on the premises and published for three consecutive weeks in a newspaper of general circulation in the county where the premises are situated. In the event a public road enters or crosses the enclosure or pasture, an additional notice shall be posted conspicuously within three hundred yards of the point where each public road enters the posted property.

B. After the publication and posting, it is a misdemeanor for any person to enter the premises for the purpose of hunting or fishing or to kill or injure any bird, animal or fish within the enclosure or pasture without permission of the owner or lessee.

C. No person engaged in hunting, fishing, trapping, camping, hiking, sightseeing, the operation of watercraft or any other recreational use shall walk or wade onto private property through non-navigable public water or access public water via private property unless the private property owner or lessee or person in control of private lands has expressly consented in writing.

D. Nothing in this act shall be interpreted to affect or influence whether a water is a navigable water or a water of the United States for purposes of the federal Clean Water Act of 1977, 33 U.S.C. 1251 et seq.

The 2015 amendment, effective July 1, 2015, prohibited persons engaged in hunting and fishing from entering private property without the consent of the land owner or lessee; in Subsection A, after "within", deleted "his" and added "the owner's or lessee's", and after "pasture," deleted "he" and added "the owner or lessee"; and added Subsections C and D.

Both publication and posting are required. — Only by publishing a notice in English and Spanish, and by the posting of handbills in English and Spanish in six conspicuous places on the premises does the owner put into effect on his property a penal statute which protects him against trespassers. *State v. Barnett*, 1952-NMSC-065, 56 N.M. 495, 245 P.2d 833.

An appeal does not lie to supreme court from an order overruling a motion to quash an information brought against defendants for violation of this section in the absence of express statutory authority therefor. *State v. Barnett*, 1951-NMSC-084, 56 N.M. 1, 238 P.2d 694.

English notice only is insufficient. — Where the publication and posting were in English only, this section imposing criminal sanctions, did not become operative. *State v. Barnett*, 1952-NMSC-065, 56 N.M. 495, 245 P.2d 833.

Subsection C can be construed to avoid a constitutional question. — Section 17-4-6(C) NMSA 1978 can be interpreted one of two ways: (1) the public cannot walk or wade onto private property (excluding the beds of public water) from public water, and the public cannot gain access to public water by crossing over private property, or (2) the public cannot walk or wade onto private property (including the beds of public water) from public water, and the public cannot gain access to public water by crossing over private property. The former raises no constitutional question; trespass onto privately

owned lands is not permitted. The latter would be an unconstitutional limitation on the public's right to recreate and fish in public waters. Statutes should be construed, if possible, to avoid constitutional questions. *Adobe Whitewater Club v. State Game Comm'n*, 2022-NMSC-020.

New Mexico state game commission lacked the authority to promulgate regulations that limited the public's right to access public waters. — Where petitioners sought a writ of prohibitory mandamus challenging the constitutionality of regulations promulgated by the New Mexico state game commission (commission) which outlined the process for landowners to obtain a certificate allowing them to close public access to segments of public water flowing over private property, the writ of mandamus was granted, because the regulations conflicted with a constitutional reading of § 17-4-6(C) NMSA 1978. The commission lacked the legislative authority to promulgate regulations that place an unconstitutional limitation on the public's right to recreate and fish in public waters. The public has the right to recreate and fish in public waters and this right includes the privilege to do such acts as are reasonably necessary to effect the enjoyment of such right. *Adobe Whitewater Club v. State Game Comm'n*, 2022-NMSC-020.

A tract of land which is not enclosed by fences may not be posted under the terms of this section so as to subject persons who enter for the purpose of hunting and fishing to the penalties therein provided. 1957 Op. Att'y Gen. No. 57-237.

Posting by lessee permitted provided lessee does not conflict with action by commissioner of public lands. — Assuming full and strict compliance with this section, as interpreted, a lessee of state land could not in all cases post under the statute. This section, insofar as this problem is concerned, must be read in light of the peculiar nature of the land involved. It must be borne in mind that under the Enabling Act, the constitution and statutes based thereon, the complete dominion and control over state lands is vested in the commissioner of public lands. In short, the lessee of state lands, even if he acts strictly in accordance with this section, could not do so in a manner in conflict with a duly taken action of the commissioner. 1958 Op. Att'y Gen. No. 58-194.

Posting does not prevent hunting or fishing by owner or permittees. — If posting is duly accomplished, the landowner does not thereby deprive himself of hunting and fishing privileges on these lands. The owner, or those permitted by him to do so, could still hunt or fish so long as done in accordance with the game and fish laws and lawful game fish regulations. 1958 Op. Att'y Gen. No. 58-194.

New Mexico constitution does not permit a law to exclude the public from using public water on, or running through, private property. — The New Mexico supreme court has construed this section to give members of the public the right to use public water in streams and lakes for fishing and other recreational activities, even when those streams and lakes are on private property, and therefore a 2015 amendment to 17-4-6 NMSA 1978, which added a prohibition against accessing private property through

public water or accessing public water through private property without the property owner's consent, is constitutional only to the extent it prohibits a person, absent the required consent, from gaining access to private property from a stream or other public water and gaining access to a stream or other public water from private property. The constitution does not allow a law that would exclude the public from using public water on, or running through, private property for recreational uses if the public water is accessible without trespassing on private property. *Access to Public Waters on Private Property* (8/5/16), [Att'y Gen. Adv. Ltr. 2016-06](#).

17-4-7. Liability of landowner permitting persons to hunt, fish or use lands for recreation; duty of care; exceptions.

A. Any owner, lessee or person in control of lands who, without charge or other consideration, other than a consideration paid to the landowner by the state, the federal government or any other governmental agency, grants permission to any person or group to use the owner's, lessee's or land controller's lands for the purpose of hunting, fishing, trapping, camping, hiking, sightseeing, the operation of aircraft, cave exploring or any other recreational use does not thereby:

- (1) extend any assurance that the premises are safe for such purpose;
- (2) assume any duty of care to keep such lands safe for entry or use;
- (3) assume responsibility or liability for any injury or damage to or caused by such person or group; or
- (4) assume any greater responsibility, duty of care or liability to such person or group than if permission had not been granted and the person or group were trespassers.

B. This section shall not limit the liability of any landowner, lessee or person in control of lands that may otherwise exist by law for injuries to any person granted permission to hunt, fish, trap, camp, hike, sightsee, operate aircraft, explore caves or use the land for recreation in exchange for a consideration, other than a consideration paid to the landowner by the state, the federal government or any other governmental agency.

C. For the purposes of this section, "cave" means a natural, geologically formed void or cavity beneath the surface of the earth, but does not mean a mine, tunnel, aqueduct or other manmade excavation.

History: 1953 Comp., § 53-4-5.1, enacted by Laws 1967, ch. 6, § 1; 2011, ch. 63, § 1; 2019, ch. 24, § 1.

ANNOTATIONS

The 2019 amendment, effective June 14, 2019, limited the liability of landowners permitting persons to explore caves on private property, and defined "cave"; in Subsection A, after "operation of aircraft", added "cave exploring"; in Subsection B, after "operate aircraft", added "explore caves"; and added Subsection C.

The 2011 amendment, effective June 17, 2011, limited the liability of owners, lessees and persons in control of land who, without consideration, permit the use of the land by others for the operation of aircraft.

Organized team sports not a protected activity. — Protections of the statute apply only when landowners allow free public access for a limited range of outdoor activities, and organized team sports do not fall within that range of activities. *Lucero v. Richardson & Richardson, Inc.*, 2002-NMCA-013, 131 N.M. 522, 39 P.3d 739, cert. denied, 131 N.M. 737, 42 P.3d 842.

Comparison with off-highway recreational vehicle use statute. — Since the general recreational land use statute contained in Section 17-4-7 NMSA 1978 broadly immunizes landowners who permit entry upon their lands for "any . . . recreational use", the legislature in adopting Section 66-3-101 NMSA 1978, obviously intended to extend the immunity of landowners as to claims resulting from injuries to operators or passengers of off-highway recreational vehicles beyond that provided by Section 17-4-7 NMSA 1978. *Matthews v. State*, 1991-NMCA-116, 113 N.M. 291, 825 P.2d 224.

United States liability. — The United States was not liable under the New Mexico recreational use statute, Section 17-4-7 NMSA 1978, for the plaintiff's injuries resulting from a diving accident in a national forest since the United States was exempt from liability under the New Mexico statute. *Maldonado v. United States*, 893 F.2d 267 (10th Cir. N.M. 1990).

No person shall have or maintain any park, enclosure, lake or body of water for the purpose of keeping or propagating therein any game or game fish for sale, nor shall any living game or game fish from such park, enclosure, lake or body of water be sold or offered for sale, unless the owner, proprietor or lessee thereof shall first procure a license as hereinafter provided.

17-4-9. [Unlicensed parks or lakes deemed public nuisance; abatement; liberation of game or fish; each day separate offense.]

Any park, enclosure, lake or body of water maintained in violation of this chapter shall be deemed a continuing public nuisance and may be abated as provided by law for the abatement of public nuisances and the game or game fish therein liberated, or any obstruction to the free ingress or egress of fish removed, and each day the same is maintained in violation hereof, shall be a separate offense.

17-4-11. [Licensing of private lakes and parks; "proprietor" defined.]

The provisions of this article in relation to private parks and lakes, the licensing thereof for the keeping and propagation of game and game fish therein, and permitting the same thereof, shall apply to every park or lake or such part thereof, as is on land held by private ownership, and to every lake, the water of which, or the right to use of such water, in whole or in part, has been or may hereafter be acquired under the laws of this state or of the United States, for irrigation purposes, and the owner of such land or water right shall be deemed the proprietor of such park or lake, and of the game or fish therein to the extent of his ownership of such land or water right.

ANNOTATIONS

United States held not liable for injuries from dredging canals. — Where the United States, acting through the bureau of reclamation, dredged and removed from the canals and ditches the silt and deposits which had accumulated therein over the years, and as a natural consequence of these dredging operations, the water in appellee's ponds seeped back into the irrigation canals and the ponds were emptied, the trial court, citing this section, concluded that the act of the defendant in draining the plaintiff's property of all water, destroying plaintiff's fish and frogs, and leaving the plaintiff's land an arid desert land, constituted negligence per se. However, the court of appeals held that liability under the federal Tort Claims Act is not carte blanche, that the United States is liable as an individual only in the manner and to the extent to which it has consented, and that the facts fell clearly within the area of the exempted "discretionary function." *United States v. Gregory*, 300 F.2d 11 (10th Cir. 1962).

Bodies of water covered. — All reservoirs, lakes and other bodies of water into which public waters flow are covered by this section. 1947 Op. Att'y Gen. No. 47-5111.

17-4-15. [Game and fish in licensed private parks or lakes property of licensee; hunting or fishing in any licensed park or lake without consent prohibited; reduction of game or fish in private preserve; permit.]

Except as in this division otherwise provided, all game and fish, with the natural increase thereof, held or confined in any private preserve, park or lake, licensed under the provisions of this act shall, during the existence of the license or any renewal thereof, be deemed the property of the licensee of the same to the extent that he may lawfully retain, pursue, capture, kill, use, sell or dispose of the game or fish therein in any quantity, in any manner and at any time of the year, and the pursuit, capture, wounding or killing of any game or fish in any licensed preserve, park or lake, public or private, without the consent of the proprietor, shall be unlawful; provided, that the aggregate number of game animals or fish in any licensed private preserve, park or lake, which contained game or fish belonging to the state at the time or date of the issuing of such license, shall not be lessened by the killing, use, sale or disposition thereof, it being the purpose of this provision to restrict such killing, use, sale and disposition to a number not exceeding in the aggregate the natural increase. In making such rules and regulations and providing when and by what means fur-bearing animals may be hunted, taken, captured, possessed or killed, the state game commission shall give due regard to the zones of temperatures and to the distribution, abundance, economic value and breeding habits of such animals. Provided, nothing in Sections 17-5-1 through 17-5-9 NMSA 1978 shall interfere with the authority granted to the president of New Mexico state university under Sections 77-15-1 through 77-15-5 NMSA 1978, or shall prevent livestock producers without a permit from the taking of bobcats that are doing damage to livestock.

C. No nonresident who resides in a state that does not permit New Mexico residents to procure nonresident trapper's licenses may purchase a New Mexico nonresident trapper's license.

It is a misdemeanor to engage in business as a fur dealer or solicit such business without first procuring a fur dealer license, except that resident fur dealers who buy and sell less than fifty skins or pelts of fur-bearing animals each year need not purchase a fur dealer license.

Att'y Gen. No. 64-91.

Permit required whether animals bred or trapped. — All persons, whether dealing in pelts resulting from the commercial enterprise of fur-bearing animal breeding or whether dealing in pelts resulting from the trapping of wild fur-bearing animals, are required by law to secure the permit provided for before engaging in such business. 1954 Op. Compiler's notes. — The law establishing ports of entry was repealed by Laws 1939, ch. 73, § 24, and the equipment and funds of ports of entry were transferred to the board of supervisors of the New Mexico state police by § 8 of said act. Laws 1939, ch. 73, also created a new division of the New Mexico state police named "the division of field administration," the duties of such division being similar to those formerly performed by the ports of entry. The division of field administration of the state police was changed to the division of courtesy and information of the state of New Mexico by Laws 1941, ch. 147, § 24, which act was then superseded by Laws 1943, ch. 125, which created a department of courtesy and information and transferred property used at ports of entry to the new department. However, by Laws 1967, ch. 97, § 41, such property was transferred to the motor transportation department, which has now been abolished by Laws 1977, ch. 250, § 4, and the motor transportation division of the taxation and revenue department has been established and operates the former ports of entry. In addition, the department of game and fish may revoke, for the year in which the violation occurred, the trapper's or fur dealer's license of any person convicted. All skins, pelts or furs involved in the violation remain the property of the state and shall be sold for the benefit of the game protection fund.

B. The wildlife corridors action plan shall contain:

(1) identification of existing highway crossings that pose a risk to successful wildlife migration or that pose a risk to the traveling public because large mammals use the crossing;

(2) identification of other human-caused barriers, especially road segments that negatively affect wildlife habitat and movement;

(3) information about the habitat and movement needs of species of concern with particular attention to large mammals or other species that pose a risk to the traveling public;

(4) projections of anticipated effects that drought and other stressors will have on wildlife habitat, dispersal and movement;

(5) information about the habitat quality needed to support and maintain viable populations of wildlife;

(6) information about how increased movement of species could benefit overused and highly impacted habitat areas;

(7) maps that identify locations of:

(a) existing populations of species of greatest concern;

(b) existing wildlife crossings; and

(c) areas requiring additional monitoring or research;

(8) protocols for post-completion monitoring of wildlife corridors projects in order to assess their effectiveness in establishing, maintaining and promoting wildlife movements;

(9) economic benefits anticipated from preserving wildlife movement patterns, including the potential impact of reduced wildlife-vehicle collisions;

(10) opportunities to collaborate with and enter into joint powers agreements as provided in the Joint Powers Agreements Act [11-1-1 to 11-1-7 NMSA 1978] as necessary with New Mexico Indian nations, tribes or pueblos; relevant agencies or Indian nations, tribes or pueblos in neighboring states; and relevant federal agencies to protect wildlife corridors that cross state or tribal lines;

(11) the wildlife corridors project list; and

(12) additional information that the department of game and fish and the department of transportation deem necessary and appropriate to carry out the intent and purposes of the Wildlife Corridors Act.

C. The department of game and fish and the department of transportation shall consult with and actively seek the involvement of tribal governments in the development of the wildlife corridors action plan.

D. The initial wildlife corridors action plan shall be:

E. The wildlife corridors action plan or the provisions of the Wildlife Corridors Act do not apply to private property or private property owners, unless private property owners choose to participate voluntarily.

B. The department of game and fish and the department of transportation shall prioritize projects within the wildlife corridors project list by assessing the following criteria, listed in order of importance:

(1) the potential to reduce wildlife-vehicle collision and enhance safety to the traveling public;

(2) the relative current population size of select large mammal species and species of concern or the value of proposed infrastructure that will improve wildlife corridors;

(3) the feasibility and constructability of wildlife corridors infrastructure;

(4) the potential costs and economics of wildlife corridors infrastructure, including benefits or other effects on local communities;

(5) local community support for proposed wildlife corridors infrastructure;

(6) the value of the project to native large mammals and other native species;
and

(7) surrounding land-use and ownership, especially tribal lands, and an evaluation of the need for conservation easements or other real estate instrument necessary to maintain the viability of a proposed wildlife corridor.

C. On an annual basis following the issuance of the first wildlife corridors project list, the department of game and fish and the department of transportation shall issue a report to the governor and the legislature stating the progress toward completing the enumerated projects as of the current fiscal year. The report shall represent progress toward completion of a project as a percentage, with a corresponding explanation for the represented number and plans for future progress.
