The operator or his employee, or agent in charge of the food service establishment premises shall be given an opportunity to accompany the agency official on his inspection and as soon as possible after the inspection, a report of the inspection shall be furnished to him. Refusal to allow an inspection is grounds for revocation of the permit of the operator, provided that the agency official has tendered proper identification prior to the refusal.

A suspension action taken under this section is effective when communicated to the food service establishment operator or any employee or agent of the operator who is in charge of the premises involved. If there is no designated employee or agent in charge of the premises, communication to any employee physically present on the premises is sufficient communication to make the suspension effective. No suspension action taken under this section shall continue beyond the time that the conditions causing the suspension cease to exist, as determined by an inspection by the agency at the request of the food service operator.

The holder of a permit so suspended shall be privileged at any time to apply for the reinstatement of such permit, and the director shall, immediately after prompt hearing and an inspection of the establishment, reinstate such permit if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit as originally issued or as amended.

C. The director shall have access to any factory or establishment, the operator of which holds a permit from the director for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be ground for suspension of the permit until such access is freely given by the operator.

While such a regulation is in effect limiting the quantity of any such substance in the case of any food, such food shall not,
