While such a regulation is in effect limiting the quantity of any such substance in the case of any dairy product, the dairy product shall not, by reason of bearing or containing any added amount of the substance, be considered to be adulterated within the meaning of Subsection A of Section 10 of the New Mexico Dairy Product Act. In determining the quantity of the added substance to be tolerated in or on different dairy products, the board shall take into account the extent to which the use of the substance is required or cannot be avoided in the production of each diary product and the other ways in which the consumer may be affected by the same or other poisonous or deleterious substances.

Section 14

Section 14. FALSE ADVERTISING.--

A. An advertisement of a dairy product is deemed to be false if it is false or misleading in any particular manner.

In performing these responsibilities, the council's role shall be strictly advisory, but it may:

(l) make recommendations relating to the adoption of rules and legislation;

(2) make recommendations regarding the method and form of statistical data collections; and

(3) monitor the performance of the workers' compensation and occupational disease disablement system in the implementation of legislative directives.

D. The advisory council on workers' compensation and occupational disease disablement shall appoint a committee composed of three members representing workers and three members representing employers to designate an approved list of health care providers who are authorized to conduct independent medical examinations. The committee shall, to the greatest extent possible, designate only health care providers whose judgments are respected, or not objected to, by recognized representatives of both employer and worker interests and whose judgments are not perceived to favor any particular interest group. Members of the committee shall be immune from personal liability for any official action taken in

establishing the approved list of health care providers. The committee shall review and revise the list annually. The terms of the original members shall be two years, and thereafter the terms of the members shall be staggered so that each year the committee appoints one member who represents workers and one member who represents employers. The members shall annually elect a chairman. No member representing employers or workers shall be an attorney.

E. The workers' compensation administration shall cooperate with the council and shall provide information and staff support as reasonably necessary and required by the council and by the committee appointed pursuant to Subsection D of this section."

Section 2

Section 2. Section 52-1-7 NMSA 1978 (being Laws 1975, Chapter 284, Section 4, as amended) is amended to read:

"52-1-7. APPLICATION OF PROVISIONS OF ACT TO CERTAIN EXECUTIVE EMPLOYEES OR SOLE PROPRIETORS.--

A. Notwithstanding any provisions to the contrary in the Workers' Compensation Act, an executive employee of a professional or business corporation employed by the professional or business corporation as a worker as defined in the Workers' Compensation Act, or a sole proprietor, may affirmatively elect not to accept the provisions of the Workers' Compensation Act.

B. Each executive employee or sole proprietor desiring to affirmatively elect not to accept the provisions of the Workers' Compensation Act may do so by filing an election in the office of the director.

C. Each executive employee or sole proprietor desiring to revoke his affirmative election not to accept the provisions of the Workers' Compensation Act may do so by filing a revocation of the affirmative election with the workers' compensation insurer and in the office of the director. The revocation shall become effective thirty days after filing. An executive employee shall cause a copy of the revocation to be mailed to the board of directors of the professional or business corporation.

D. The filing of an affirmative election not to accept the provisions of the Workers' Compensation Act shall create a conclusive presumption that an executive employee or sole proprietor is not covered by the Workers' Compensation Act until the effective date of a revocation filed pursuant to this section. The filing of an affirmative election not to accept the provisions of the Workers' Compensation Act shall apply to all corporations in which the executive employee has a financial interest.

E. In determining the number of workers of an employer to determine who comes within the act, an executive employee who has filed an affirmative election not to

be subject to the Workers' Compensation Act shall be counted for determining the number of workers employed by such employer.

F. For purposes of this section:

(1) "executive employee" means the chairman of the board, president, vice president, secretary, treasurer or other executive officer, if he owns ten percent or more of the outstanding stock, of a professional or business corporation; and

(2) "sole proprietor" means a single individual who owns all the assets of a business, is solely liable for its debts and employs in the business no person other than himself."

Section 3

Section 3. Section 52-1-30 NMSA 1978 (being Laws 1987, Chapter 235, Section 14) is amended to read:

"52-1-30. PAYMENT OF COMPENSATION BENEFITS--INSTALLMENTS.--Compensation shall be paid by the employer to the worker in installments. The first installment shall be paid not later than fourteen days after the filing of the report required in Section 52-1-58 NMSA 1978. Remaining installments shall be paid twice a month at intervals not more than sixteen days apart in sums as nearly equal as possible."

Section 4

Section 4. Section 52-1-41 NMSA 1978 (being Laws 1959, Chapter 67, Section 20, as amended) is amended to read:

"52-l-41. COMPENSATION BENEFITS--TOTAL DISABILITY.--

A. For total disability, the worker shall receive, during the period of that disability, sixty-six and two-thirds percent of his average weekly wage, not to exceed a maximum compensation of ninety dollars ($90.00) a week, effective July l, 1975; and not to exceed a maximum compensation of sixty-six and two-thirds percent of the average weekly wage in the state, a week, effective January l, 1976; and not to exceed a maximum compensation of seventy-eight percent of the average weekly wage in the state, a week, effective July l, 1976; and not to exceed a maximum compensation of eighty-nine percent of the average weekly wage in the state, a week, effective July l, 1977; and not to exceed a maximum compensation of one hundred percent of the average weekly wage in the state, a week, effective July l, 1978; and not to exceed a maximum compensation of eighty-five percent of the average weekly wage in the state, a week, effective July l, 1987; and to be not less than a minimum compensation of thirty-six dollars ($36.00) a week. Except as provided in Subsections B and C of this section, the worker shall receive compensation benefits for the remainder of his life.

B. For disability resulting from primary mental impairment, the maximum period of compensation is one hundred weeks. For disability resulting in secondary mental impairment, the maximum period of compensation is the maximum period allowable for the disability produced by the physical impairment or one hundred weeks, whichever is greater.

C. For the purpose of paying compensation benefits for death, pursuant to Section 52-l-46 NMSA 1978, the worker's maximum disability recovery shall be deemed to be seven hundred weeks.

D. Where the worker's average weekly wage is less than thirty-six dollars ($36.00) a week, the compensation to be paid the worker shall be his full weekly wage.

E. For the purpose of the Workers' Compensation Act, the average weekly wage in the state shall be determined by the employment security division of the labor department on or before June 30 of each year and shall be computed from all wages reported to the employment security division from employing units, including reimbursable employers, in accordance with the regulations of the division for the preceding calendar year, divided by the total number of covered employees divided by fifty-two.

F. The average weekly wage in the state, determined as provided in Subsection E of this section, shall be applicable for the full period during which compensation is payable when the date of the occurrence of an accidental injury falls within the calendar year commencing January l following the June 30 determination.

G. Unless the computation provided for in Subsection E of this section results in an increase or decrease of two dollars ($2.00) or more, raised to the next whole dollar, the statewide average weekly wage determination shall not be changed for any calendar year."

Section 5

Section 5. Section 52-1-54 NMSA 1978 (being Laws 1987, Chapter 235, Section 24, as amended) is amended to read:

"52-l-54. FEE RESTRICTIONS--APPOINTMENT OF ATTORNEYS BY THE DIRECTOR OR WORKERS' COMPENSATION JUDGE--DISCOVERY COSTS--OFFER OF JUDGMENT--PENALTY FOR VIOLATIONS.--

A. It is unlawful for any person to receive or agree to receive any fees or payment directly or indirectly in connection with any claim for compensation under the Workers' Compensation Act except as provided in this section.

B. In all cases where the jurisdiction of the workers' compensation administration is invoked to approve a settlement of a compensation claim under the

Workers' Compensation Act, the director or workers' compensation judge, unless the claimant is represented by an attorney, may in his discretion appoint an attorney to aid the workers' compensation judge in determining whether the settlement should be approved and, in the event of an appointment, a reasonable fee for the services of the attorney shall be fixed by the workers' compensation judge, subject to the limitation of Subsection I of this section.

C. In all cases where the urisdiction of the workers' compensation administration is invoked to approve a
settlement of a compensation claim under the Workers' Compensation Act and the claimant is represented by an attorney, the total amount paid or to be paid by the employer in settlement of the claim shall be stated in the settlement papers. The workers' compensation judge shall determine and fix a reasonable fee for the claimant's attorney, taking into account any sum previously paid, and the fee fixed by the workers' compensation judge shall be the limit of the fee received or to be received by the attorney in connection with the claim, subject to the limitation of Subsection I of this section.

D. The cost of discovery shall be borne by the party who requests it. If, however, the claimant requests any discovery, the employer shall advance the cost of paying for discovery up to a limit of one thousand dollars ($l,000). If the claimant substantially prevails on the claim, as determined by a workers' compensation judge, any discovery cost advanced by the employer shall be paid by that employer. If the claimant does not substantially prevail on the claim, as determined by a workers' compensation judge, the employer shall be reimbursed for discovery costs advanced according to a schedule for reimbursement approved by a workers' compensation judge.

E. In all cases where compensation to which any person is entitled under the provisions of the Workers' Compensation Act is refused and the claimant thereafter collects compensation through proceedings before the workers' compensation administration or courts in an amount in excess of the amount offered in writing by an employer five business days or more prior to the informal hearing before the administration, then the compensation to be paid the attorney for the claimant shall be fixed by the workers' compensation judge hearing the claim or the courts upon appeal in the amount the workers' compensation judge or courts deem reasonable and proper, subject to the limitation of Subsection I of this section. In determining and fixing a reasonable fee, the workers' compensation judge or courts shall take into consideration:

(1) the sum, if any, offered by the employer:

(a) before the worker's attorney was employed;

(b) after the attorney's employment but before proceedings were commenced; and

(c) in writing five business days or more prior to the informal hearing;

(2) the present value of the award made in the worker's favor; and

(3) any failure of a party to participate in a good-faith manner in informal claim resolution methods adopted by the director.

F. After a recommended resolution has been issued and rejected, but more than ten days before a trial begins, the employer or claimant may serve upon the opposing party an offer to allow a compensation order to be taken against him for the money or property or to the effect specified in his offer, with costs then accrued, subject to the following:

(1) if, within ten days after the service of the offer, the opposing party serves written notice that the offer is accepted, either party may then file the offer and notice of acceptance together with proof of service thereof, and thereupon that compensation order may be entered as the workers' compensation judge may direct. An offer not accepted shall be deemed withdrawn, and evidence thereof is not admissible except in a proceeding to determine costs. If the compensation order finally obtained by the party is not more favorable than the offer, that party must pay the costs incurred by the opposing party after the making of the offer. The fact that an offer has been made but not accepted does not preclude a subsequent offer;

(2) when the liability of one party to another has been determined by a compensation order, but the amount or extent of the liability remains to be determined by further proceedings, the party adjudged liable may make an offer, which shall have the same effect as an offer made before trial if it is served within a reasonable time not less than ten days prior to the commencement of hearings to determine the amount or extent of liability;

(3) if the employer's offer was greater than the amount awarded by the compensation order, the employer shall not be liable for his fifty-percent share of the attorneys' fees to be paid the worker's attorney and the worker shall pay one hundred percent of the attorney's fees due to the workers' attorney; and

(4) if the worker's offer was less than the amount awarded by the compensation order, the employer shall pay one hundred percent of the attorneys' fees to be paid the worker's attorney, and the worker shall be relieved from any responsibility for paying any portion of the worker's fees.

G. In all actions arising under the provisions of Section 52-l-56 NMSA 1978 where the jurisdiction of the workers' compensation administration is invoked to determine the question whether the claimant's disability has increased or diminished and the claimant is represented by an attorney, the workers' compensation judge or courts upon appeal shall determine and fix a reasonable fee for the services of the

claimant's attorney only if the claimant is successful in establishing that his disability has increased or if the employer is unsuccessful in establishing that the claimant's disability has diminished. The fee when fixed by the workers' compensation judge or courts upon appeal shall be the limit of the fee received or to be received by the attorney for services in the action, subject to the limitation of Subsection I of this section.

H. In determining reasonable attorneys' fees for a claimant, the workers' compensation judge shall consider only those benefits to the worker that the attorney is responsible for securing. The value of future medical benefits shall not be considered in determining attorneys' fees.

I. Attorneys' fees, including, but not limited to, the costs of paralegal services, legal clerk services and any other related legal services costs on behalf of a claimant or an employer for a single accidental injury claim, including representation before the workers' compensation administration and the courts on appeal, shall not exceed twelve thousand five hundred dollars ($12,500). This limitation applies whether the claimant or employer has one or more attorneys representing him and applies as a cumulative limitation on compensation for all legal services rendered in all proceedings and other matters directly related to a single accidental injury to a claimant. The workers' compensation judge may exceed the maximum amount stated in this subsection in awarding a reasonable attorneys' fee if he finds that a claimant, an insurer or an employer acted in bad faith with regard to handling the injured worker's claim and the injured worker or employer has suffered economic loss as a result. However, in no case shall this additional amount exceed two thousand five hundred dollars ($2,500). As used in this subsection, "bad faith" means conduct by the claimant, insurer or employer in the handling of a claim that amounts to fraud, malice, oppression or willful, wanton or reckless disregard of the rights of the worker or employer. Any determination of bad faith shall be made by the workers' compensation judge through a separate fact-finding proceeding.

J. Except as provided for in Paragraphs (3) and (4) of Subsection F of this section, the payment of claimant's attorneys' fees determined under this section shall be shared equally by the worker and the employer.

K. It is unlawful for any person except a licensed attorney to receive or agree to receive any fee or payment for legal services in connection with any claim for compensation under the Workers' Compensation Act.

L. Nothing in this section applies to agents, excluding attorneys, representing employers, insurance carriers or the subsequent injury fund in any matter arising from a claim under the Workers' Compensation Act.

M. No attorneys' fees shall be paid until the claim has been settled or adjudged.

N. Every person violating the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined not less than fifty dollars ($50.00) or more than five hundred dollars ($500), to which may be added imprisonment in the county jail for a term not exceeding ninety days.

O. Nothing in this section shall restrict a claimant from being represented before the workers' compensation administration by a nonattorney as long as that nonattorney receives no compensation for that representation from the claimant."

Section 6

Section 6. Section 52-3-20 NMSA 1978 (being Laws 1965, Chapter 299, Section 7, as amended) is amended to read:

"52-3-20. PAYMENT OF BENEFITS IN INSTALLMENTS.--Benefits shall be paid by the employer to the worker in installments. The first installment shall be paid not later than fourteen days after the filing of the report required in Section 52-3-51 NMSA 1978. Remaining installments shall be paid twice a month at intervals not more than sixteen days apart, in sums as nearly equal as possible."

Section 7

Section 7. Section 52-3-47 NMSA 1978 (being Laws 1987, Chapter 235, Section 41, as amended) is amended to read:

"52-3-47. FEE RESTRICTIONS--APPOINTMENT OF ATTORNEYS BY THE DIRECTOR OR WORKERS' COMPENSATION JUDGE--DISCOVERY COSTS--OFFER OF JUDGMENT--PENALTY FOR VIOLATIONS.--

A. It is unlawful for any person to receive or agree to receive any fees or payment directly or indirectly in connection with any claim for compensation under the New Mexico Occupational Disease Disablement Law except as provided in this section.

B. In all cases where the jurisdiction of the workers' compensation administration is invoked to approve a settlement of a compensation claim under the New Mexico Occupational Disease Disablement Law, the director or workers' compensation judge, unless the claimant is represented by an attorney, may in his discretion appoint an attorney to aid the workers' compensation judge in determining whether the settlement should be approved. In the event of such an appointment, a reasonable fee for the services of the attorney shall be fixed by the workers' compensation judge, subject to the limitation of Subsection I of this section.

C. In all cases where the jurisdiction of the workers' compensation administration is invoked to approve a settlement of a compensation claim under the New Mexico Occupational Disease Disablement Law and the claimant is represented by an attorney, the total amount paid or to be paid by the employer in settlement of the

claim shall be stated in the settlement papers, and the workers' compensation judge shall determine and fix a reasonable fee for the claimant's attorney, taking into account any sum previously paid. The fee fixed by the workers' compensation judge shall be the limit of the fee received or to be received by the attorney in connection with the claim, subject to the limitation of Subsection I of this section.

D. The cost of discovery shall be borne by the party who requests it. If, however, the claimant requests any discovery, the employer shall advance the cost of paying for discovery up to a limit of one thousand dollars ($l,000). If the claimant substantially prevails on the claim, as determined by a workers' compensation judge, any discovery cost advanced by the employer shall be paid by that employer. If the claimant does not substantially prevail on the claim, as determined by a workers' compensation judge, the employer shall be reimbursed for discovery costs advanced according to a schedule for reimbursement approved by a workers' compensation judge.

E. In all cases where compensation to which any person is entitled under the provisions of the New Mexico Occupational Disease Disablement Law is refused and the claimant thereafter collects compensation through proceedings before the workers' compensation administration or courts in an amount in excess of the amount offered in writing by an employer five business days or more prior to the informal hearing before the administration, then the compensation to be paid the attorney for the claimant shall be fixed by the workers' compensation judge hearing the claim or the courts upon appeal in the amount the workers' compensation judge or courts deem reasonable and proper, subject to the limitation of Subsection I of this section. In determining and fixing a reasonable fee, the workers' compensation judge or courts shall take into consideration:

(1) the sum, if any, offered by the employer:

(a) before the employee's attorney was employed;

(b) after the attorney's employment but before proceedings were commenced; and

(c) in writing five business days or more prior to the informal hearing;

(2) the present value of the award made in the employee's favor; and

(3) the failure of a party to participate in a good-faith manner in informal claim resolution methods adopted by the director.

F. After a recommended resolution has been issued and rejected, but more than ten days before a trial begins, the employer or claimant may serve upon the

opposing party an offer to allow a compensation order to be taken against him for the money or property or to the effect specified in his offer, with costs then accrued, subject to the following:

(1) if, within ten days after the service of the offer, the opposing party serves written notice that the offer is accepted, either party may then file the offer and notice of acceptance together with proof of service thereof, and thereupon that compensation order may be entered as the workers' compensation judge may direct. An offer not accepted shall be deemed withdrawn, and evidence thereof is not admissible except in a proceeding to determine costs. If
the compensation order finally obtained by the party is not more favorable than the offer, that party must pay the costs incurred by the opposing party after the making of the offer. The fact that an offer has been made but not accepted does not preclude a subsequent offer;

(2) when the liability of one party to another has been determined by a compensation order, but the amount or extent of the liability remains to be determined by further proceedings, the party adjudged liable may make an offer, which shall have the same effect as an offer made before trial if it is served within a reasonable time not less than ten days prior to the commencement of hearings to determine the amount or extent of liability;

(3) if the employer's offer was greater than the amount awarded by the compensation order, the employer shall not be liable for his fifty-percent share of the attorneys' fees to be paid the worker's attorney and the worker shall pay one hundred percent of the attorneys' fees due to the worker's attorney; and

(4) if the worker's offer was less than the amount awarded by the compensation order, the employer shall pay one hundred percent of the attorneys' fees to be paid the worker's attorney, and the worker shall be relieved from any responsibility for paying any portion of the worker's fees.

G. In all actions arising under the provisions of Section 52-3-35 NMSA 1978, where the jurisdiction of the workers' compensation administration is invoked to determine the question of whether the claimant's disablement has terminated and the claimant is represented by an attorney, the workers' compensation judge or courts upon appeal shall determine and fix a reasonable fee for the services of the claimant's attorney only if the employer is unsuccessful in establishing that the claimant's disablement has terminated. The fee when fixed by the workers' compensation judge or courts upon appeal shall be taxed as part of the costs against the employer and shall be the limit of the fee received or to be received by the attorney for services in the action, subject to the limitation of Subsection I of this section.

H. In determining reasonable attorneys' fees for a claimant, the workers' compensation judge shall consider only those benefits to the employee that the attorney

is responsible for securing. The value of future medical benefits shall not be considered in determining attorneys' fees.

I. Attorneys' fees, including, but not limited to, the costs of paralegal services, legal clerk services and any other related legal services costs on behalf of a claimant or an employer for a single disablement claim, including representation before the workers' compensation administration and the courts on appeal, shall not exceed twelve thousand five hundred dollars ($12,500). This limitation applies whether the claimant or employer has one or more attorneys representing him and applies as a cumulative limitation on compensation for all legal services rendered in all proceedings and other matters directly related to a single occupational disease of a claimant. The workers' compensation judge may exceed the maximum amount stated in this subsection in awarding a reasonable attorneys' fee if he finds that a claimant, an insurer or an employer acted in bad faith with regard to handling the disabled employee's claims and the employer or disabled employee has suffered economic loss as a result thereof. However, in no case shall this additional amount exceed two thousand five hundred dollars ($2,500). As used in this subsection, "bad faith" means conduct by the claimant, insurer or employer in the handling of a claim that amounts to fraud, malice, oppression or willful, wanton or reckless disregard of the rights of the employee or employer. Any determination of bad faith shall be made by the workers' compensation judge through a separate fact-finding proceeding.

J. Except as provided for in Paragraphs (3) and (4) of Subsection F of this section, the payment of claimant's attorneys' fees determined under this section shall be shared equally by the employee and the employer.

K. It is unlawful for any person except a licensed attorney to receive or agree to receive any fee or payment for legal services in connection with any claim for compensation under the New Mexico Occupational Disease Disablement Law.

L. Nothing in this section applies to agents, excluding attorneys, representing employers, insurance carriers or the subsequent injury fund in any matter arising from a claim under the New Mexico Occupational Disease Disablement Law.

M. No attorneys' fees shall be paid until the claim has been settled or adjudged.

N. Every person violating the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined not less than fifty dollars ($50.00) or more than five hundred dollars ($500), to which may be added imprisonment in the county jail for a term not exceeding ninety days.

O. Nothing in this section shall restrict a claimant from being represented before the workers' compensation administration by a nonattorney as long as that nonattorney receives no compensation for representation from the claimant."

Section 8

Section 8. Section 52-4-2 NMSA 1978 (being Laws 1990 (2nd S.S.), Chapter 2, Section 50) is amended to read:

"52-4-2. UTILIZATION REVIEW--PENALTIES.--

A. The director shall establish a system of peer group utilization review of selected outpatient and inpatient health care provider services to workers claiming benefits under the Workers' Compensation Act or the New Mexico Occupational Disease Disablement Law. Subject to the provisions of this section, the decisions issued pursuant to the utilization review system shall be binding on the affected health care providers, workers, employers, insurers and their representatives.

B. As used in this section, "utilization review" means an evaluation of the necessity, appropriateness, efficiency and quality of health care services provided to an injured or disabled worker based on medically accepted standards and an objective evaluation of the health care services provided.

C. The director shall also establish a system of pre-admission review of all hospital admissions, except for emergency services. Utilization review shall commence within one working day of all emergency hospital admissions.

D. The director may contract with an independent utilization review organization to provide utilization review, including peer review.

E. Nothing in this section shall prevent an employer from electing to provide his own utilization review; however, if the worker, provider or any other party not contractually bound to the employer's utilization review program disagrees with that employer's utilization review, then that worker, provider or other party shall have recourse to the workers' compensation administration's utilization review program.

F. Pursuant to utilization review conducted by the director, including providing an opportunity for a hearing, any health care provider who imposes excessive charges or renders inappropriate services shall be subject to:

(1) a forfeiture of the right to payment for those services that are found to be excessive or inappropriate or payment of excessive charges;

(2) a fine of not less than one hundred dollars ($100) or more than one thousand dollars ($l,000); or

(3) a temporary or permanent suspension of the right to provide health care services for workers' compensation or occupational disease disablement claims if the health care provider has established a pattern of violations."

Section 9

Section 9. Section 52-4-5 NMSA 1978 (being Laws 1990 (2nd S.S.), Chapter 2, Section 52) is amended to read:

"52-4-5. FEE SCHEDULE.--

A. The director shall adopt and promulgate regulations establishing a schedule of maximum charges as deemed necessary for treatment or attendance, service, devices, apparatus or medicine provided by a health care provider. The rates in the schedules of maximum charges shall not fall below the sixtieth percentile or above the eightieth percentile of current rates for health care providers. In determining current rates for health care providers, the director shall utilize a variety of health care provider charges, including the charges of those providers serving low income, medicare and medicaid patients.

B. A health care provider shall be paid his usual and customary fee for services rendered or the maximum charge established pursuant to Subsection A of this section, whichever is less. However, in no case shall the usual and customary fee exceed the maximum charge allowable.

C. The fee schedule shall be revised annually by the director.

D. No amount in excess of the amount required by Subsection B of this section for a service shall be paid by the employer, the employer's insurer, the worker, a representative of the worker or any other person to a health care provider for rendering that service in connection with an injury or disablement within the purview of the Workers' Compensation Act or the New Mexico Occupational Disease Disablement Law.

E. If it is determined by the person primarily responsible for payment that the charges of a health care provider exceed the amount established pursuant to Subsection B of this section or that a health care provider over-utilized or otherwise rendered or ordered inappropriate health care or health care services, and payment is withheld on those grounds, the health care provider may appeal to the director regarding that determination. The director shall establish by regulation procedures for an appeal by a health care provider.

F. The director shall establish an advisory committee that shall:

(1) be appointed and serve at the pleasure of the director;

(2) consist of members, a majority of whom represent health care providers;

(3) reflect the diversity of authorized licensed health care providers available for workers' compensation and occupational disease disablement cases;

(4) assist in establishing the schedules of maximum charges under Subsection A of this section for any fees that are payable to health care providers;

(5) assist the director in adopting regulations for employers' utilization review procedures and the establishment and conduct of utilization review boards; and

(6) report its findings, upon request, to the director and the advisory council on workers' compensation.

G. The schedule of maximum charges specified in this section shall not apply to hospital charges. The director shall establish a separate schedule of maximum charges for hospital charges no later than April 1, 1991.

H. Nothing in this section shall prevent an employer from contracting with a health care provider for fees less than the maximum charges allowable."

Section 10

Section 10. Section 52-5-5 NMSA 1978 (being Laws 1986, Chapter 22, Section 31, as amended) is amended to read:

"52-5-5. CLAIMS--INFORMAL CONFERENCES.--

A. When a dispute arises under the Workers' Compensation Act or the New Mexico Occupational Disease Disablement Law, any party ay file a claim with the director no sooner than thirty-one days from the date of injury or the occurrence of the disabling disease. The director shall assist workers and employees not represented by counsel in the preparation of the claim document.

B. The director shall prepare a form of claim which shall be available to all parties. The claim shall state concisely in numbered paragraphs the questions at issue or in dispute which the claimant expects to be determined with sufficient particularity that the responding or opposing party may be notified adequately of the claim and its basis, including, if applicable, the specific benefit which is due and not paid.

C. Upon receipt, every claim shall be evaluated by the director or his designee, who shall then contact all parties and attempt to informally resolve the dispute. Within sixty days after receipt of the claim, the director shall issue his recommendations for resolution and provide the parties with a copy by certified mail, return receipt requested. Within thirty days of receipt of the recommendation of the director, each party shall notify the director on a form provided by him of the acceptance or rejection of the recommendation. A party failing to notify the director waives any right

to reject the recommendation and is bound conclusively by the director's recommendation unless, upon application made to the director within thirty days after the foregoing deadline, the director finds that the party's failure to notify was the result of excusable neglect. If either party makes a timely rejection of the director's recommendation, the claim shall be assigned to a workers' compensation judge for hearing.

D. Each party to a dispute shall have a peremptory right to disqualify one workers' compensation judge; provided that:

(1) the employer and his insurer shall constitute a single party for purposes of this subsection;

(2) this peremptory right to disqualify one worker's compensation judge shall not apply to the judge appointed pursuant to Section 52-1-49 NMSA 1978 to render a decision within seven days on a request for a different health care provider; and

(3) no party shall be required to disqualify a workers' compensation judge until a judge has been assigned to a case."

Section 11

Section 11. Section 52-5-7 NMSA 1978 (being Laws 1986, Chapter 22, Section 33, as amended) is amended to read:

"52-5-7. HEARING PROCEDURE.--

A. When matters in dispute cannot be resolved by informal conference or other techniques, the director shall transmit a copy of the claim to the other parties with notice to respond by written answer. The other parties shall respond with a written answer within twenty days after receiving a notice or within such extension of that time as the director may allow. If no timely answer is filed by a party after notice, a workers' compensation judge may, if he determines it to be appropriate, grant the relief sought against that party. However, if, in order to enable the workers' compensation judge to enter an order and carry out its effect, it is necessary to take an account, determine the amount of benefits due, establish the truth of any claims by evidence or make an investigation of any matter, the workers' compensation judge may conduct such hearings as he deems necessary and proper.

B. A hearing shall be held for determining the questions at issue within sixty days of the filing of the answer. All parties in interest shall be given at least twenty days' notice of the hearing and of the issues to be heard, served personally or by mail. Following the presentation of the evidence, the workers' compensation judge shall determine the questions at issue and file the decision with the director within thirty days, unless the time for filing the decision is extended by the mutual agreement of the

parties. At the time of filing, a certified copy of the decision shall be sent by first class mail to all interested parties at the last known address of each. The decision of the workers' compensation judge shall be made in the form of a compensation order, appropriately titled to show its purpose and containing a report of the case, findings of fact and conclusions of law and, if appropriate, an order for the payment of benefits under the Workers' Compensation Act or the New Mexico Occupational Disease Disablement Law.

C. The decision of the workers' compensation judge shall be final and conclusive as to all matters adjudicated by him upon the expiration of the thirtieth day after a copy of the decision has been mailed to the parties, unless prior to that day a party in interest seeks judicial review of the decision pursuant to Section 52-5-8 NMSA 1978.

D. All hearings before the workers' compensation judge shall be open to the public. The director shall by regulation provide for the preparation of a record of each hearing.

E. CHAPTER 209

RELATING TO UNEMPLOYMENT COMPENSATION; AMENDING AND ENACTING SECTIONS OF THE UNEMPLOYMENT COMPENSATION LAW; DECLARING AN EMERGENCY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. Section 51-1-4 NMSA 1978 (being Laws 1969, Chapter 213, Section 1, as amended) is amended to read:

"51-1-4. MONETARY COMPUTATION OF BENEFITS--PAYMENT GENERALLY.--

A. All benefits provided herein are payable from the unemployment compensation fund. All benefits shall be paid in accordance with such regulations as the secretary may prescribe through employment offices or other agencies as the secretary may by general rule approve.

B. Weekly benefits shall be as follows:

(1) an individual's "weekly benefit amount" is an amount equal to one twenty-sixth of the total wages for insured work paid to him in that quarter of his base period in which total wages were highest. No benefit as so computed may be less than ten percent or more than fifty percent of the state's average weekly wage for all insured work. The state's average weekly wage shall be computed from all wages reported to the department from employing units in accordance with regulations of the secretary for the period ending June 30 of each calendar year divided by the total number of covered employees divided by fifty-two, effective for the benefit years commencing on or after the first Sunday of the following calendar year. Any such

individual is not eligible to receive benefits unless his total base-period wages equal at least one and one-fourth times the wages for insured work in that quarter of his base period in which such wages are highest;

(2) each eligible individual who is unemployed in any week during which he is in a continued claims status shall be paid, with respect to such week, a benefit in an amount equal to his weekly benefit amount, less that part of the wages, if any, or earnings from self-employment, payable to him with respect to such week which is in excess of one-fifth of his weekly benefit amount. For purposes of this subsection only, "wages" includes all remuneration for services actually performed in any week for which benefits are claimed, vacation pay for any period for which the individual has a definite return-to-work date, wages in lieu of notice and back pay for loss of employment but does not include payments through a court for time spent in jury service;

(3) notwithstanding any other provision of this section, each eligible individual who, pursuant to a plan financed in whole or in part by a base-period employer of such individual, is receiving a governmental or other pension, retirement pay, annuity or any other similar periodic payment that is based on the previous work of such individual and who is unemployed with respect to any week ending subsequent to April 9, 1981 shall be paid with respect to such week, in accordance with regulations prescribed by the secretary, compensation equal to his weekly benefit amount reduced, but not below zero, by the prorated amount of such pension, retirement pay, annuity or other similar periodic payment that exceeds the percentage contributed to the plan by the eligible individual. The maximum benefit amount payable to such eligible individual shall be an amount not more than twenty-six times his reduced weekly benefit amount. If payments referred to in this section are being received by any individual under the federal Social Security Act, the division shall take into account the individual's contribution and make no reduction in the weekly benefit amount;

(4) in the case of a lump-sum payment of a pension, retirement or retired pay, annuity or other similar payment by a base-period employer that is based on the previous work of such individual, such payment shall be allocated, in accordance with regulations prescribed by the secretary, and shall reduce the amount of unemployment compensation paid, but not below zero, in accordance with Paragraph (3) of this subsection; and

(5) the retroactive payment of a pension, retirement or retired pay, annuity or any other similar periodic payment as provided in Paragraphs (3) and (4) of this subsection attributable to weeks during which an individual has claimed or has been paid unemployment compensation shall be allocated to such weeks and shall reduce the amount of unemployment compensation for such weeks, but not below zero, by an amount equal to the prorated amount of such pension. Any overpayment of unemployment compensation benefits resulting from the application of the provisions of this paragraph shall be recovered from the claimant in accordance with the provisions of Section 51-1-38 NMSA 1978.

C. Any otherwise eligible individual is entitled during any benefit year to a total amount of benefits equal to whichever is the lesser of twenty-six times his weekly benefit amount or sixty percent of his wages for insured work paid during his base period.

D. Any benefit as determined in Subsection B or C of this section, if not a multiple of one dollar ($1.00), shall be rounded to the next lower multiple of one dollar ($1.00).

E. The secretary may prescribe regulations to provide for the payment of benefits that are due and payable to the legal representative, dependents, relatives or next of kin of claimants since deceased. These regulations need not conform with the laws governing successions, and the payment shall be deemed a valid payment to the same extent as if made under a formal administration of the succession of the claimant.

F. The division, on its own initiative, may reconsider a monetary determination whenever it is determined that an error in computation or identity has occurred or that wages of the claimant pertinent to such determination but not considered have been newly discovered or that the benefits have been allowed or denied on the basis of misrepresentation of fact, but no redetermination shall be made after one year from the date of the original monetary determination. Notice of a redetermination shall be given to all interested parties and shall be subject to an appeal in the same manner as the original determination. In the event that an appeal involving an original monetary determination is pending at the time a redetermination is issued, the appeal, unless withdrawn, shall be treated as an appeal from such redetermination."

(4) has been unemployed for a waiting period of one week. No week shall be counted as a week of unemployment for the purposes of this paragraph:

(a) unless it occurs within the benefit year which includes the week with respect to which he claims payment of benefits;

(b) if benefits have been paid with respect thereto; and

(c) unless the individual was eligible for benefits with respect thereto as provided in this section and Section 5l-l-7 NMSA 1978, except for the requirements of this subsection and of Subsection E of Section 5l-l-7 NMSA 1978;

(5) has, during his base period, been paid wages for insured work totaling not less than one and one-fourth his high-quarter wages; and

(6) has reported to an office of the division in accordance with the regulations of the secretary for the purpose of an examination and review of the individual's availability for and search for work, for employment counseling, referral and placement and for participation in a job finding or employability training and development program. No individual shall be denied benefits under this section for any week that he is participating in a job finding or employability training and development program.

B. A benefit year as provided in Section 5l-l-4 NMSA 1978 and Subsection P of Section 5l-l-42 NMSA 1978 may be established; provided no individual may receive benefits in a benefit year unless, subsequent to the beginning of the immediately preceding benefit year during which he received benefits, he performed service in "employment", as defined in Subsection F of Section 5l-l-42 NMSA 1978, and earned remuneration for such service in an amount equal to the lesser of three-thirteenths of the individual's high-quarter wages and six times his weekly benefit amount.

C. Benefits based on service in employment defined in Paragraph (8) of Subsection F of Section 5l-l-42 and Section 5l-l-43 NMSA 1978 are to be paid in the same amount, on the same terms and subject to the same conditions as compensation

payable on the basis of other services subject to the Unemployment Compensation Law; except that:

(1) benefits based on services performed in an instructional, research or principal administrative capacity for an educational institution shall not be paid for any week of unemployment commencing during the period between two successive academic years or terms or, when an agreement provides for a similar period between two regular but not successive terms, during such period or during a period of paid sabbatical leave provided for in the individual's contract, to any individual if such individual performs such services in the first of such academic years or terms and if there is a contract or a reasonable assurance that such individual will perform services in any such capacity for any educational institution in the second of such academic years or terms;

(2) benefits based on services performed for an educational institution other than in an instructional, research or principal administrative capacity shall not be paid for any week of unemployment commencing during a period between two successive academic years or terms if such services are performed in the first of such academic years or terms and there is a reasonable assurance that such individual will perform services for any educational institution in the second of such academic years or terms. If compensation is denied to any individual under this paragraph and the individual was not offered an opportunity to perform such services for the educational institution for the second of such academic years or terms, the individual shall be entitled to a retroactive payment of benefits for each week for which the individual filed a claim and certified for benefits in accordance with the regulations of the division and for which benefits were denied solely by reason of this paragraph;

(3) benefits shall be denied to any individual for any week that commences during an established and customary vacation period or holiday recess if such individual performs any services described in Paragraphs (1) and (2) of this subsection in the period immediately before such period of vacation or holiday recess and there is a reasonable assurance that such individual will perform any such services in the period immediately following such vacation period or holiday recess;

(4) benefits shall not be payable on the basis of services specified in Paragraphs (1) and (2) of this subsection during the periods specified in Paragraphs (1), (2) and (3) of this subsection to any individual who performed such services in or to or on behalf of an educational institution while in the employ of a state or local governmental educational service agency or other governmental entity or nonprofit organization; and

(5) for the purpose of this subsection, to the extent permitted by federal law, "reasonable assurance" means a reasonable expectation of employment in a similar capacity in the second of such academic years or terms based upon a consideration of all relevant factors, including the historical pattern of reemployment in such capacity, a reasonable anticipation that such employment will be available and a

reasonable notice or understanding that the individual will be eligible for and offered employment in a similar capacity.

D. Paragraphs (1), (2), (3), (4) and (5) of Subsection C of this section shall apply to services performed for all educational institutions, public or private, for profit or nonprofit, which are operated in this state or subject to an agreement for coverage under the Unemployment Compensation Law of this state, unless otherwise exempt by law.

E. Notwithstanding any other provisions of this section or Section 5l-l-7 NMSA 1978, no otherwise eligible individual is to be denied benefits for any week because he is in training with the approval of the division nor is such individual to be denied benefits by reason of application of provisions in Paragraph (3) of Subsection A of this section or Subsection C of Section 5l-l-7 NMSA 1978 with respect to any week in which he is in training with the approval of the division. The secretary shall provide, by regulation, standards for approved training and the conditions for approving such training for claimants, including any training approved or authorized for approval pursuant to Section 236(a)(1) and (2) of the Trade Act of 1974, as amended, or required to be approved as a condition for certification of the state's Unemployment Compensation Law by the United States secretary of labor.

F. Notwithstanding any other provisions of this section, benefits shall not be payable on the basis of services performed by an alien unless such alien is an individual who was lawfully admitted for permanent residence at the time such services were performed, was lawfully present for the purposes of performing such services or was permanently residing in the United States under color of law at the time such services were performed, including an alien who was lawfully present in the United States as a result of the application of the provisions of Section 212(d)(5) of the Immigration and Nationality Act; provided that:

(1) any information required of individuals applying for benefits to determine their eligibility for benefits under this subsection shall be uniformly required from all applicants for benefits; and

(2) no individual shall be denied benefits because of his alien status except upon a preponderance of the evidence.

G. Notwithstanding any other provision of this section, benefits shall not be paid to any individual on the basis of any services substantially all of which consist of participating in sports or athletic events or training or preparing to so participate for any week that commences during the period between two successive sport seasons, or similar periods, if such individual performed such services in the first of such seasons, or similar periods, and there is a reasonable assurance that such individual will perform such services in the latter of such seasons or similar periods.

H. Students who are enrolled in a full-time course schedule in an educational or training institution or program, other than those persons in an approved vocational training program in accordance with Subsection E of this section, shall not be eligible for unemployment benefits except as provided by regulations promulgated by the secretary.

I. As used in this subsection, "seasonal ski employee" means an employee who has not worked for a ski area operator for more than six consecutive months of the previous twelve months or nine of the previous twelve months. Any employee of a ski area operator who has worked for a ski area operator for six consecutive months of the previous twelve months or nine of the previous twelve months shall not be considered a seasonal ski employee. The following benefit eligibility conditions apply to a seasonal ski employee:

(1) except as provided in Paragraphs (2) and (3) of this subsection, a seasonal ski employee employed by a ski area operator on a regular seasonal basis shall be ineligible for a week of unemployment benefits that commences during a period between two successive ski seasons unless such individual establishes to the satisfaction of the secretary that he is available for and is making an active search for permanent full-time work;

(2) a seasonal ski employee who has been employed by a ski area operator during two successive ski seasons shall be presumed to be unavailable for permanent new work during a period after the second successive ski season that he was employed as a seasonal ski employee; and

(3) the presumption described in Paragraph (2) of this subsection shall not arise as to any seasonal ski employee who has been employed by the same ski area operator during two successive ski seasons and has resided continuously for at least twelve successive months and continues to reside in the county in which the ski area facility is located.

J. Notwithstanding any other provision of this section, an otherwise eligible individual shall not be denied benefits for any week by reason of the application of Paragraph (3) of Subsection A of this section because he is before any court of the United States or any state pursuant to a lawfully issued summons to appear for jury duty."

Section 3

Section 3. Section 51-1-8 NMSA 1978 (being Laws 1936 (S.S.), Chapter 1, Section 6, as amended) is amended to read:

"51-1-8. CLAIMS FOR BENEFITS.--

A. Claims for benefits shall be made in accordance with such regulations as the secretary may prescribe. Each employer shall post and maintain printed notices, in places readily accessible to employees, concerning their rights to file claims for unemployment benefits upon termination of their employment. Such notices shall be supplied by the division to each employer without cost to him.

B. A representative designated by the secretary as a claims examiner shall promptly examine the application and each weekly claim and, on the basis of the facts found, shall determine whether the claimant is unemployed, the week with respect to which benefits shall commence, the weekly benefit amount payable, the maximum duration of benefits, whether the claimant is eligible for benefits pursuant to Section 51-1-5 NMSA 1978 and whether the claimant shall be disqualified pursuant to Section 51-1-7 NMSA 1978. With the approval of the secretary, the claims examiner may refer, without determination, claims or any specified issues involved therein which raise complex questions of fact or law to a hearing officer for the division for a fair hearing and decision in accordance with the procedure described in Subsection D of this section. The claims examiner shall promptly notify the claimant and any other interested party of the determination and the reasons therefor. Unless the claimant or any such interested party, within fifteen calendar days after the date of notification or mailing of such determination, files an appeal from such determination, such determination shall be the final decision of the division; provided that the claims examiner may reconsider a nonmonetary determination if additional information not previously available is provided or obtained or whenever he finds an error in the application of law has occurred, but no redetermination shall be made more than twenty days from the date of the initial nonmonetary determination. Notice of a nonmonetary redetermination shall be given to all interested parties and shall be subject to appeal in the same manner as the original nonmonetary determination. If an appeal is pending at the time a redetermination is issued, the appeal, unless withdrawn, shall be treated as an appeal from such redetermination.

C. In the case of a claim for waiting period credit or benefits, "interested party", for purposes of determinations and adjudication proceedings and notices thereof, means:

(1) in the event of an issue concerning a separation from work for reasons other than lack of work, the claimant's most recent employer or most recent employing unit;

(2) in the event of an issue concerning a separation from work for lack of work, the employer or employing unit from whom the claimant separated for reasons other than lack of work if he has not worked and earned wages in insured work or bona fide employment other than self-employment in an amount equal to or exceeding five times his weekly benefit amount; or

(3) in all other cases involving the allowance or disallowance of a claim, the secretary, the claimant and any employing unit directly involved in the facts at issue.

D. Upon appeal by any party, a hearing officer designated by the secretary shall afford the parties reasonable opportunity for a fair hearing to be held de novo, and the hearing officer shall issue findings of fact and a decision which affirms, modifies or reverses the determination of the claims examiner or tax representative on the facts or the law, based upon the evidence introduced at such hearing, including the documents and statements in the claim records of the department. All hearings shall be held in accordance with regulations of the secretary and decisions issued promptly in accordance with time lapse standards promulgated by the secretary of the United States department of labor. The parties shall be duly notified of the decision, together with the reasons therefor, which shall be deemed to be the final decision of the department, unless within fifteen days after the date of notification or mailing of such decision further appeal is initiated pursuant to Subsection H of this section.

E. Except with the consent of the paries, no hearing officer or members of the board of review, established in Subsection F of this section, or secretary shall sit in any administrative or adjudicatory proceeding in which:

(1) either of the parties is related to him by affinity or consanguinity within the degree of first cousin;

(2) he was counsel for either party in that action; or

(3) he has an interest which would prejudice his rendering an impartial decision.

The secretary, any member of the board of review or appeal tribunal hearing officer shall withdraw from any proceeding in which he cannot accord a fair and impartial hearing. Any party may request a disqualification of any appeal tribunal hearing officer or board of review member by filing an affidavit with the board of review or appeal tribunal promptly upon discovery of the alleged grounds for disqualification, stating with particularity the grounds upon which it is claimed that the person cannot be fair and impartial. The disqualification shall be mandatory if sufficient factual basis is set forth in the affidavit of disqualification. If a member of the board of review is disqualified or withdraws from any proceeding, the remaining members of the board of review may appoint an appeal tribunal hearing officer to sit on the board of review for the proceeding involved.

F. There is established within the department for the purpose of providing higher level administrative appeal and review of determinations of a claims examiner or decisions issued by a hearing officer pursuant to Subsection B or D of this section a "board of review" consisting of three members. Two members shall be appointed by the governor with the consent of the senate. The members so appointed shall hold office at

the pleasure of the governor for terms of four years. One member appointed by the governor shall be a person who, on account of his previous vocation, employment or affiliation, can be classed as a representative of employers, and the other member appointed by the governor shall be a person who, on account of his previous vocation, employment or affiliation, can be classed as a representative of employees. The third member shall be an employee of the department appointed by the secretary who shall serve as chairman of the board. Either member of the board of review appointed by the governor who has missed two consecutive meetings of the board may be removed from the board by the governor. Actions of the board shall be taken by majority vote. If a vacancy on the board in a position appointed by the governor occurs between sessions of the legislature, the position shall be filled by the governor until the next regular legislative session. The board shall meet at the call of the secretary. Members of the board appointed by the governor shall be paid per diem and mileage in accordance with the Per Diem and Mileage Act for necessary travel to attend regularly scheduled meetings of the board of review for the purpose of conducting the board's appellate and review duties.

G. The board of review shall hear and review all cases appealed in accordance with Subsection H of this section. The board of review may modify, affirm or reverse the decision of the hearing officer or remand any matter to the claims examiner, tax representative or hearing officer for further proceedings. Each member appointed by the governor shall be compensated at the rate of five dollars ($5.00) for each case reviewed up to a maximum compensation of five thousand dollars ($5,000) in any one fiscal year.

H. Any party aggrieved by a final decision of a hearing officer may file, in accordance with regulations prescribed by the secretary, an application for appeal and review of such decision with the secretary. The secretary shall review the application and shall, within fifteen days after receipt of the application, either affirm the decision of the hearing officer, remand the matter to the hearing officer for an additional hearing or refer the decision to the board of review for further review and decision on the merits of the appeal. If the secretary affirms the decision of the hearing officer, that decision shall be the final administrative decision of the department and any appeal therefrom must be taken to the district court in accordance with the provisions of Subsections M and N of this section. If the secretary remands a matter to a hearing officer for an additional hearing, judicial review shall be permitted only after issuance of a final administrative decision. If the secretary refers the decision of the hearing officer to the board of review for further review, the board's decision on the merits of the appeal will be the final administrative decision of the department which may be appealed to the district court in accordance with the provisions of Subsections M and N of this section. If the secretary takes no action within fifteen days of receipt of the application for appeal and review, the decision will be promptly scheduled for review by the board of review as though it had been referred by the secretary. The secretary may request the board of review to review a decision of a hearing officer that the secretary believes to be inconsistent with the law or with applicable rules of interpretation or that is not supported by the evidence, and the board of review shall grant the request if it is filed within fifteen days of the issuance

of the decision of the hearing officer. The secretary may also direct that any pending determination or adjudicatory proceeding be removed to the board of review for a final decision. If the board of review holds a hearing on any matter, the hearing shall be conducted by a quorum of the board of review in accordance with regulations prescribed by the secretary for hearing appeals. The board of review shall promptly notify the interested parties of its findings and decision. A decision of the board of review on any disputed matter reviewed and decided by it shall be based upon the law and the lawful rules of interpretation issued by the secretary, and it shall be the final administrative decision of the department, except in cases of remand. If the board of review remands a matter to a hearing officer, claims examiner or tax representative, judicial review shall be permitted only after issuance of a final administrative decision.

I. Notwithstanding any other provision of this section granting any party the right to appeal, benefits shall be paid promptly in accordance with a determination or a decision of a claims examiner, hearing officer, secretary, board of review or a reviewing court, regardless of the pendency of the period to file an appeal or petition for judicial review that is provided with respect thereto in Subsection D or M of this section or the pendency of any such filing or petition until such determination or decision has been modified or reversed by a subsequent decision. The provisions of this subsection shall apply to all claims for benefits pending on the date of its enactment.

J. If a prior determination or decision allowing benefits is affirmed by a decision of the department, including the board of review or a reviewing court, such benefits shall be paid promptly regardless of any further appeal which may thereafter be available to the parties, and no injunction, supersedeas, stay or other writ or process suspending the payment of such benefits shall be issued by the secretary or board of review or any court, and no action to recover such benefits paid to a claimant shall be taken. If a determination or decision allowing benefits is finally modified or reversed, the appropriate contributing employer's account will be relieved of benefit charges in accordance with Subsection B of Section 51-1-11 NMSA 1978.

K. The manner in which disputed claims shall be presented, the reports thereon required from the claimant and from employers and the conduct of hearings and appeals shall be in accordance with rules prescribed by the secretary for determining the rights of the parties, whether or not such rules conform to common law or statutory rules of evidence and other technical rules of procedure. A hearing officer or the board of review may refer to the secretary for interpretation any question of controlling legal significance, and the secretary shall issue a declaratory interpretation which shall be binding upon the decision of the hearing officer and the board of review. A full and complete record shall be kept of all proceedings in connection with a disputed claim. All testimony at any hearing upon a disputed claim shall be recorded but need not be transcribed unless the disputed claim is appealed to the district court.

L. Witnesses subpoenaed pursuant to this section shall be allowed fees at a rate fixed by the secretary. Such fees and all administrative expenses of proceedings

involving disputed claims shall be deemed a part of the expense of administering the Unemployment Compensation Law.

M. Any determination or decision of a claims examiner or hearing officer or by a representative of the tax section of the department in the absence of an appeal therefrom as provided by this section shall become final fifteen days after the date of notification or mailing thereof, and judicial review thereof shall be permitted only after any party claiming to be aggrieved thereby has exhausted his remedies as provided in Subsection H of this section. The division and any employer or claimant who is affected by the decision shall be joined as a party in any judicial action involving any such decision. All parties shall be served with an endorsed copy of the petition within thirty days from the date of filing and an endorsed copy of the order granting the petition within fifteen days from entry of the order. Service on the department shall be made on the secretary or his designated legal representative either by mail with accompanying certification of service or by personal service. The division may be represented in any such judicial action by an attorney employed by the department or, when requested by the secretary, by the attorney general or any district attorney.

N. The final decision of the secretary or board of review upon any disputed matter may be reviewed both upon the law, including the lawful rules of interpretation issued by the secretary, and the facts by the district court of the county wherein the person seeking the review resides upon certiorari, unless it is determined by the district court where the petition is filed that, as a matter of equity and due process, venue should be in a different county. For the purpose of such review, the division shall return on such certiorari the reports and all of the evidence heard by it on any such reports and all the papers and documents in its files affecting the matters and things involved in such certiorari. The district court shall render its judgment after hearing, and either the department or any other party thereto affected may appeal from such judgment to the supreme court of the state in accordance with the rules governing special statutory proceedings. Such certiorari shall not be granted unless the same is applied for within thirty days from the date of the final decision of the secretary or board of review. Such certiorari shall be heard in a summary manner and shall be given precedence over all other civil cases except cases arising under the Workers' Compensation Act of this state. It shall not be necessary in any proceedings before the division to enter exceptions to the rulings and no bond shall be required in obtaining certiorari from the district court as hereinabove provided, but such certiorari shall be granted as a matter of right to the party applying therefor."

Section 4

Section 4. Section 51-1-11 NMSA 1978 (being Laws 1961, Chapter 139, Section 3, as amended) is amended to read:

"51-1-11. FUTURE RATES BASED ON BENEFIT EXPERIENCE.--

A. The division shall maintain a separate account for each contributing employer and shall credit his account with all contributions paid by him under the Unemployment Compensation Law. Nothing in the Unemployment Compensation Law shall be construed to grant any employer or individuals in his service prior claims or rights to the amounts paid by the employer into the fund.

B. Benefits paid to an individual shall be charged against the accounts of his base-period employers on a pro rata basis according to the proportion of his total base-period wages received from each, except that no benefits paid to a claimant as extended benefits under the provisions of Section 51-1-48 NMSA 1978 shall be charged to the account of any base-period employer who is not on a reimbursable basis and who is not a governmental entity and, except as the secretary shall by regulation prescribe otherwise, in the case of benefits paid to an individual who:

(1) left the employ of a base-period employer who is not on a reimbursable basis voluntarily without good cause in connection with his employment;

(2) was discharged from the employment of a base-period employer who is not on a reimbursable basis for misconduct connected with his work;

(3) received benefits based upon wages earned from a base-period employer who is not on a reimbursable basis for work performed in a work-release program designed to give an inmate of a correctional institution an opportunity to work while serving a term of incarceration if the inmate's separation was caused by his release from prison;

(4) is employed part-time by a base-period employer who is not on a reimbursable basis and who continues to furnish the individual the same part-time work while the individual is separated from full-time work for a nondisqualifying reason; or

(5) received benefits based upon wages earned from a base-period employer who is not on a reimbursable basis while attending approved training under the provisions of Subsection E of Section 51-1-5 NMSA 1978.

C. The division shall not charge a contributing or reimbursing base-period employer's account with any portion of benefit amounts which the division can bill to or recover from the federal government as either regular or extended benefits.

D. All contributions to the fund shall be pooled and available to pay benefits to any individual entitled thereto, irrespective of the source of such contributions. The standard rate of contributions payable by each employer shall be five and four-tenths percent.

E. No employer's rate shall be varied from the standard rate for any calendar year unless, as of the computation date for that year, his account has been chargeable with benefits throughout the preceding thirty-six months, except that:

(1) the provisions of this subsection shall not apply to governmental entities;

(2) subsequent to December 31, 1984, any employing unit that becomes an employer subject to the payment of contributions under the Unemployment Compensation Law or has been an employer subject to the payment of contributions at a standard rate of two and seven-tenths percent through December 31, 1984 shall be subject to the payment of contributions at the reduced rate of two and seven-tenths percent until, as of the computation date of a particular year, the employer's account has been chargeable with benefits throughout the preceding thirty-six months; and

(3) any individual, type of organization or employing unit that acquires all or part of the trade or business of another employing unit, pursuant to Paragraphs (2) and (3) of Subsection E of Section 51-1-42 NMSA 1978, that has a reduced rate of contribution shall be entitled to the transfer of the reduced rate to the extent permitted under Subsection G of this section.

F. The secretary shall, for the year 1942 and for each calendar year thereafter, classify employers in accordance with their actual experience in the payment of contributions and with respect to benefits charged against their accounts, with a view of fixing such contribution rates as will reflect such benefit experience. Each employer's rate for any calendar year shall be determined on the basis of his record and the condition of the fund as of the computation date for such calendar year.

An employer may make voluntary payments in addition to the contributions required under the Unemployment Compensation Law, which shall be credited to his account in accordance with department regulation. The voluntary payments shall be included in the employer's account as of the employer's most recent computation date if they are made on or before the following March 1. Voluntary payments when accepted from an employer will not be refunded in whole or in part.

G. In the case of a transfer of an employing enterprise, the experience history of the transferred enterprise as provided in Subsection F of this section will be transferred from the predecessor employer to the successor under the following conditions and in accordance with the applicable regulations of the secretary:

(1) Definitions:

(a) "employing enterprise" is a business activity engaged in by a contributing employing unit in which one or more persons have been employed within the current or the three preceding calendar quarters;

(b) "predecessor" means the owner and operator of an employing enterprise immediately prior to the transfer of such enterprise;

(c) "successor" means any individual or any type of organization that acquires an employing enterprise and continues to operate such business entity; and

(d) "experience history" means the experience rating record and reserve account, including the actual contributions, benefit charges and payroll experience of the employing enterprise.

(2) For the purpose of this section, two or more employers who are parties to or the subject of any transaction involving the transfer of an employing enterprise shall be deemed to be a single employer and the experience history of the employing enterprise shall be transferred to the successor employer if the successor employer has acquired by the transaction all of the business enterprises of the predecessor; provided that:

(a) all contributions, interest and penalties due from the predecessor employer have been paid;

(b) notice of the transfer has been given in accordance with the regulations of the secretary within four years of the transaction transferring the employing enterprise or the date of the actual transfer of control and operation of the employing enterprise;

(c) in the case of the transfer of an employing enterprise, the successor employer must notify the division of the acquisition on or before the due date of the successor employer's first wage and contribution report. If the successor employer fails to notify the division of the acquisition within this time limit, the division, when it receives actual notice, will effect the transfer of the experience history and applicable rate of contribution retroactively to the date of the acquisition and the successor shall pay a penalty of fifty dollars ($50.00); and

(d) where the transaction involves only a merger, consolidation or other form of reorganization without a substantial change in the ownership and controlling interest of the business entity, as determined by the secretary, the limitations on transfers stated in Subparagraphs (a), (b) and (c) of this paragraph shall not apply. No party to a merger, consolidation or other form of reorganization described in this paragraph shall be relieved of liability for any contributions, interest or penalties due and owing from the employing enterprise at the time of the merger, consolidation or other form of reorganization.

(3) The applicable experience history may be transferred to the successor in the case of a partial transfer of an employing enterprise if the successor has acquired one or more of the several employing enterprises of a predecessor but not

all of the employing enterprises of the predecessor and each employing enterprise so acquired was operated by the predecessor as a separate store, factory, shop or other separate employing enterprise and the predecessor, throughout the entire period of his contribution with liability applicable to each enterprise transferred, has maintained and preserved payroll records which, together with records of contribution liability and benefit chargeability, can be separated by the parties from the enterprises retained by the predecessor to the satisfaction of the secretary or his delegate. A partial experience history transfer will be made only if:

(a) the successor notifies the division of the acquisition, in writing, not later than the due date of the successor's first quarterly wage and contribution report after the effective date of the acquisition;

(b) the successor files an application provided by the division that contains the endorsement of the predecessor within thirty days from the delivery or mailing of such application by the division to the successor's last known address; and

(c) the successor files with the application a Form ES-903A or its equivalent with a schedule of the name and social security number of and the wages paid to and the contributions paid for each employee for the three and one-half year period preceding the date of computation as defined in Subparagraph (d) of Paragraph (3) of Subsection H of this section or such lesser period as the enterprises transferred may have been in operation. The application and Form ES-903A must be supported by the predecessor's permanent employment records, which must be available for audit by the division. The application and Form ES-903A shall be reviewed by the division and upon approval, the percentage of the predecessor's experience history attributable to the enterprises transferred shall be transferred to the successor. The percentage shall be obtained by dividing the taxable payrolls of the transferred enterprises for such three and one-half year period preceding the date of computation or such lesser period as the enterprises transferred may have been in operation by the predecessor's entire payroll.

H. For each calendar year, adjustments of contribution rates below the standard or reduced rate and measures designed to protect the fund are provided as follows:

(1) The total assets in the fund and the total of the last annual payrolls of all employers subject to contributions as of the computation date for each year shall be determined. These annual totals are here called "the fund" and "total payrolls". For each year, the "reserve" of each employer qualified under Subsection E of this section shall be fixed by the excess of his total contributions over total benefit charges computed as a percentage of his average payroll reported for contributions. The determination of each employer's annual rate, computed as of the computation date for each calendar year, shall be made by matching his reserve as shown in the reserve column with the corresponding rate shown in the applicable rate schedule of the table provided in Paragraph (4) of this subsection.

(2) Each employer's rate for each calendar year commencing January 1, 1979 or thereafter shall be:

(a) the rate in schedule 1 of the table provided in Paragraph (4) of this subsection on the corresponding line as his reserve if the fund equals at least four percent of the total payrolls;

(b) the rate in schedule 2 of the table provided in Paragraph (4) of this subsection on the corresponding line if the fund has dropped to between four percent and three percent;

(c) the rate in schedule 3 of the table provided in Paragraph (4) of this subsection on the corresponding line if the fund has dropped to between three percent and two percent;

(d) the rate in schedule 4 of the table provided in Paragraph (4) of this subsection on the corresponding line if the fund has dropped to between two percent and one and one-half percent;

(e) the rate in schedule 5 of the table provided in Paragraph (4) of this subsection on the corresponding line if the fund has dropped to between one and one-half percent and one percent; or

(f) the rate in schedule 6 of the table provided in Paragraph (4) of this subsection on the corresponding line if the fund has dropped below one percent.

(3) As used in this section:

(a) "annual payroll" means the total amount of remuneration from an employer for employment during a twelve-month period ending on a computation date, and "average payroll" means the average of the last three annual payrolls;

(b) "base-period wages" means the wages of an individual for insured work during his base period on the basis of which his benefit rights were determined;

(c) "base-period employers" means the employers of an individual during his base period; and

(d) "computation date" for each calendar year means the close of business on June 30 of the preceding calendar year.

I. The division shall promptly notify each employer of his rate of contributions as determined for any calendar year pursuant to this section. Such notification shall include the amount determined as the employer's average payroll, the total of all his contributions paid on his own behalf and credited to his account for all past years and total benefits charged to his account for all such years. Such determination shall become conclusive and binding upon the employer unless, within thirty days after the mailing of notice thereof to his last known address or in the absence of mailing, within thirty days after the delivery of such notice, the employer files an application for review and redetermination, setting forth his reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with regulations prescribed by the secretary, but no employer shall have standing, in any proceeding involving his rate of contributions or contribution liability, to contest the chargeability to his account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for him and only in the event that he was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on his application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to his last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

J. The division will provide each contributing employer, within ninety days of the end of each calendar quarter, a written determination of benefits chargeable to

his account. Such determination shall become conclusive and binding upon the employer for all purposes unless, within thirty days after the mailing of the determination to his last known address or in the absence of mailing, within thirty days after the delivery of such determination, the employer files an application for review and redetermination, setting forth his reason therefor. The employer shall be granted an opportunity for a fair hearing in accordance with regulations prescribed by the secretary, but no employer shall have standing in any proceeding involving his contribution liability to contest the chargeability to his account of any benefits paid in accordance with a determination, redetermination or decision pursuant to Section 51-1-8 NMSA 1978, except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for him and only in the event that he was not a party to such determination, redetermination or decision, or to any other proceedings under the Unemployment Compensation Law in which the character of such services was determined. The employer shall be promptly notified of the decision on his application for redetermination, which shall become final unless, within fifteen days after the mailing of notice thereof to his last known address or in the absence of mailing, within fifteen days after the delivery of such notice, further appeal is initiated pursuant to Subsection D of Section 51-1-8 NMSA 1978.

K. The contributions, together with interest and penalties thereon imposed by the Unemployment Compensation Law, shall not be assessed nor shall action to collect the same be commenced more than four years after a report showing the amount of the contributions was due. In the case of a false or fraudulent contribution report with intent to evade contributions or a willful failure to file a report of all contributions due, the contributions, together with interest and penalties thereon, may be assessed or an action to collect such contributions may be begun at any time. Before the expiration of such period of limitation, the employer and the secretary may agree in writing to an extension thereof and the period so agreed on may be extended by subsequent agreements in writing. In any case where the assessment has been made and action to collect has been commenced within four years of the due date of any contribution, interest or penalty, including the filing of a warrant of lien by the secretary pursuant to Section 51-1-36 NMSA 1978, such action shall not be subject to any period of limitation.

L. The secretary shall correct any error in the determination of an employer's rate of contribution during the calendar year to which the erroneous rate applies, notwithstanding that notification of the employer's rate of contribution may have been issued and contributions paid pursuant to the notification. Upon issuance by the division of a corrected rate of contribution, the employer shall have the same rights to review and redetermination as provided in Subsection I of this section.

M. Any interest required to be paid on advances to this state's unemployment compensation fund under Title XII of the Social Security Act shall be paid in a timely manner as required under Section 1202 of Title XII of the Social Security Act and shall not be paid, directly or indirectly, by the state from amounts in the state's unemployment compensation fund."

Section 5

"51-1-38. PENALTIES--LIABILITY FOR BENEFIT OVERPAYMENT.--

A. Whoever makes a false statement or representation knowing it to be false or knowingly fails to disclose a material fact, to obtain or increase any benefit or other payment under the Unemployment Compensation Law either for himself or for any other person, shall be punished by a fine of not more than one hundred dollars ($100) or by imprisonment for not longer than thirty days or by both such fine and imprisonment, and each such false statement or misrepresentation or failure to disclose a material fact shall constitute a separate offense. In any case where, after notice and an opportunity to be heard, any person is found by the secretary to have so obtained or increased the amount of any benefit for himself, he shall, in addition to other penalties provided herein, forfeit all benefit rights under the Unemployment Compensation Law for a period of not more than one year from and after such determination.

B. Any employing unit or any officer or agent of an employing unit or any other person who makes a false statement or representation knowing it to be false or who knowingly fails to disclose a material fact, to prevent or reduce the payment of benefits to any individual entitled thereto, or to avoid becoming or remaining subject hereto or to avoid or reduce any contribution or other payment required from an employing unit under the Unemployment Compensation Law or who willfully fails or refuses to make any such contributions or other payment or to furnish any reports required hereunder or to produce or permit the inspection or copying of records as required hereunder, shall be punished by a fine of not more than one hundred dollars ($100) or by imprisonment for not longer than thirty days or by both such fine and imprisonment, and each such false statement or representation or failure to disclose a material fact and each day of such failure or refusal shall constitute a separate offense.

C. Any person who shall willfully violate any provision of the Unemployment Compensation Law or any rule or regulation thereunder, the violation of which is made unlawful or the observance of which is required under the terms of the Unemployment Compensation Law and for which a penalty is neither prescribed herein nor provided by any other applicable statute, shall be punished by a fine of not more than one hundred dollars ($100) or by imprisonment for not longer than thirty days or by both such fine and imprisonment, and each day such violation continues shall be deemed to be a separate offense.

D. Notwithstanding any other provision of the Unemployment Compensation Law, including the provisions of Subsection J of Section 51-1-8 NMSA 1978, if any individual claiming benefits or waiting period credits shall, in connection with such claim, make any false statement or representation, in writing or otherwise, knowing it to be false or shall knowingly fail to disclose any material fact in order to

obtain or increase the amount of a benefit payment, such claim shall not constitute a valid claim for benefits in any amount or for waiting period credits but shall be void and of no effect for all purposes. The entire amount of the benefits obtained by means of such claim shall be, in addition to any other penalties provided herein, subject to recoupment by deduction from the claimant's future benefits or they may be recovered as provided for the collection of past due contributions in Subsection B of Section 51-1-36 NMSA 1978.

E. Any person who, by reason of the nondisclosure or misrepresentation by him or by another of a material fact (irrespective of whether such nondisclosure or misrepresentation was known or fraudulent), has received any sum as benefits under the Unemployment Compensation Law, while any conditions for the receipt of benefits imposed by the Unemployment Compensation Law were not fulfilled in his case and any person who receives any sum as benefits while he knows or should know that he is not entitled to such benefits because he has received a notice of denial or disqualification or has received a monetary eligibility notice showing erroneous base period employers and wages, shall, in the discretion of the secretary and notwithstanding any action brought pursuant to Subsection A of this section, either be liable to have such sum deducted from any future benefits payable to him under the Unemployment Compensation Law or be liable to repay to the department for the unemployment compensation fund a sum equal to the amount so received by him, and such sum shall be collectible in the manner provided in Subsection B of Section 51-1-36 NMSA 1978 for the collection of past-due contributions.

F. Except as provided in Subsection J of Section 51-1-8 NMSA 1978, any person who has received benefits as a result of a determination or decision of the department or any court that he was eligible and not disqualified for such benefits and such determination or decision is subsequently modified or reversed by a final decision as provided in Section 51-1-8 NMSA 1978, or who has received benefits as a result of administrative error or for any other reason while conditions for the receipt of benefits imposed by the Unemployment Compensation Law were not fulfilled in his case or while he was disqualified from receiving benefits, irrespective of whether such overpayment of benefits was due to any fault of the person claiming benefits, shall, as determined by the secretary or his authorized delegate, either be liable to have such sum deducted from any future benefits payable to him under the Unemployment Compensation Law at a rate to be determined by the secretary but not less than fifty percent of the weekly benefit amount payable to him, or be liable to repay to the department, for the unemployment compensation fund or for credit to the appropriate reimbursable account, a sum equal to the amount of benefits received by him for which he was not eligible or for which he was disqualified or that was otherwise overpaid to him; provided, that for the purposes of this subsection, no determination or decision establishing an overpayment of benefits shall be issued by the department against any person for failure to meet the eligibility conditions of Paragraph (3) of Subsection A of Section 51-1-5 NMSA 1978 more than one year after payment of benefits has been made, unless such condition of eligibility has been appealed or otherwise contested within such year.

H. The individual shall furnish the division with a signed copy of the award or settlement agreement which sets forth his name, the name of the employer, the period of time covered by the award or settlement, and the amount by which the award or settlement was so reduced."

(4) in handling, planting, drying, packing, packaging, processing, freezing, grading, storing or delivery to storage or to market or to a carrier for transportation to market any agricultural or horticultural commodity but only if such service is performed as an incident to ordinary farming operations. The provisions of this paragraph shall not be deemed to be applicable with respect to service performed in connection with commercial canning or commercial freezing or in connection with any agricultural or horticultural commodity after its delivery to a terminal market for distribution for consumption.

As used in this subsection, the term "farm" includes stock, dairy, poultry, fruit, fur-bearing animal and truck farms, plantations, ranches, nurseries, greenhouses, ranges and orchards;

R. "payments in lieu of contributions" means the money payments made into the fund by an employer pursuant to the provisions of Subsection A of Section 51-1-13 NMSA 1978;

S. "department" means the labor department; and

T. "wages" means all remuneration for services, including commissions and bonuses and the cash value of all remuneration in any medium other than cash. The reasonable cash value of remuneration in any medium other than cash shall be established and determined in accordance with regulations prescribed by the secretary; provided, that the term "wages" shall not include:

(1) subsequent to December 31, 1977, that part of the remuneration in excess of the base wage as determined by the secretary for each calendar year. The base wage upon which contribution shall be paid during any calendar year shall be sixty-five percent of the state's average annual earnings computed by the department by dividing total wages reported to the department by contributing employers for the second preceding calendar year before the calendar year the computed base wage becomes effective by the average annual employment reported by contributing employers for the same period rounded to the next higher multiple of one hundred dollars ($100); provided, that the base wage so computed for any calendar year shall not be less than seven thousand dollars ($7,000). Wages paid by an employer to an individual in his employ during any calendar year in excess of the

base wage in effect for that calendar year shall be reported to the department but shall be exempt from the payment of contributions unless such wages paid in excess of the base wage become subject to tax under a federal law imposing a tax against which credit may be taken for contributions required to be paid into a state unemployment fund;

(2) the amount of any payment with respect to services performed after June 30, 1941 to, or on behalf of, an individual in its employ under a plan or system established by an employing unit which makes provision for individuals in its employ generally or for a class or classes of such individuals (including any amount paid by an employing unit for insurance or annuities, or into a fund, to provide for any such payment), on account of:

(a) retirement if such payments are made by an employer to or on behalf of any employee under a simplified employee pension plan that provides for payments by an employer in addition to the salary or other remuneration normally payable to such employee or class of such employees and does not include any payments which represent deferred compensation or other reduction of an employee's normal taxable wages or remuneration or any payments made to a third party on behalf of an employee as part of an agreement of deferred remuneration;

(b) sickness or accident disability if such payments are received under a workers' compensation or occupational disease disablement law;

(d) death;

provided the individual in its employ has not the option to receive, instead of provision for such death benefit, any part of such payment, or, if such death benefit is insured, any part of the premiums (or contributions to premiums) paid by his employing unit and has not the right under the provisions of the plan or system or policy of insurance providing for such death benefit to assign such benefit, or to receive a cash consideration in lieu of such benefit either upon his withdrawal from the plan or system providing for such benefit or upon termination of such plan or system or policy of insurance or of his service with such employing unit;

(3) remuneration for agricultural labor paid in any medium other than cash;

(4) any payment made to, or on behalf of, an employee or an employee's beneficiary under a cafeteria plan within the meaning of Section 125 of the federal Internal Revenue Code of 1986;

(5) any payment made, or benefit furnished to or for the benefit of an employee if at the time of such payment or such furnishing it is reasonable to believe

that the employee will be able to exclude such payment or benefit from income under Section 129 of the federal Internal Revenue Code of 1986; or

(6) any payment made by an employer to a survivor or the estate of a former employee after the calendar year in which such employee died. The provisions of this section shall become effective July 1, 1993."

Section 7

Section 7. Section 51-1-48.1 NMSA 1978 (being Laws 1981, Chapter 354, Section 13, as amended) is amended to read:

"5l-l-48.l. EXTENDED BENEFITS--ELIGIBILITY.--

A. During an extended benefit period in this state, an individual shall be eligible to receive extended benefits with respect to any week of unemployment in his eligibility period only if the secretary finds that with respect to such week:

(1) he is an "exhaustee" as defined in Section 5l-l-48 NMSA l978;

(2) he has been paid wages for insured work during his base period equal to at least one and one-half times the wages paid in that quarter of his base period in which his wages were highest or as otherwise provided by the Federal-State Extended Unemployment Compensation Act of 1970, as amended; and

(3) he has satisfied those provisions of the Unemployment Compensation Law which apply to claims for, and the payment of, regular benefits and which are consistent with the provisions of this section and the Federal-State Extended Unemployment Compensation Act of 1970, as amended.

B. An individual shall be ineligible for payment of extended benefits for any week of unemployment in the individual's extended eligibility period if the secretary finds that during such period the individual failed to accept any offer of suitable work or failed to apply for any suitable work to which the individual was referred by the department or the individual failed to actively engage in seeking work.

(1) For purposes only of this subsection, "suitable work" means any work which is within an individual's capabilities, provided that the gross average weekly remuneration payable for the work must:

(a) exceed the individual's weekly extended benefit amount as determined in Subsection A of Section 5l-l-48.2 NMSA l978 plus the amount of any supplemental unemployment benefits (as defined in Section 50l (c)(l7)(D) of the Internal Revenue Code of l954) payable to the individual;

(b) equal or exceed the higher of: l) the minimum wage required by Section 6(a)(1) of the Fair Labor Standard Act of l938, as amended, without regard to any exemption; or 2) the minimum wage provisions of Section 50-4-22 NMSA l978, as amended; and

(c) the offer of work is a bona fide offer made to the individual in writing or is currently listed with the employment service of the division.

(2) For purposes of this subsection, an individual shall be treated as actively engaged in seeking work during a week of unemployment if the individual furnishes tangible evidence each week, as provided by regulation of the secretary, that he has made a systematic and sustained effort to obtain work which meets the criteria in Paragraph (1) of this subsection.

C. If any individual is ineligible for extended benefits for any week because of his failure to accept any offer of suitable work or to apply for any suitable work when referred by the department or to actively seek new work as provided in this section, the individual shall be ineligible to receive extended benefits for any week during the period beginning with the week following the week in which such failure occurs and until the individual has been employed during at least four weeks and has earned a total remuneration of at least four times his weekly extended benefit amount established during his benefit year.

D. If an individual furnishes evidence satisfactory to the division that such individual's prospects for obtaining work in his customary occupation or trade within a reasonably short period are good, the determination of suitable work with respect to such individual shall be made in accordance with the state law provisions applicable to claimants for regular benefits.

E. The employment service of the division shall refer applicants for extended benefits to suitable work meeting the criteria of Paragraph (1) of Subsection B of this section.

F. An individual shall not be eligible for extended benefits for any week for which such benefits would be payable pursuant to an interstate claim filed under the interstate benefit payment plan if no extended benefit period is in effect for the week in the state in which the interstate claim is filed. The provisions of this subsection shall not apply to the first two weeks for which extended benefits are payable to the individual on an interstate claim from the extended benefit account established for the individual with respect to the benefit year."

Section 8

Section 8. A new section of the Unemployment Compensation Law, Section 51-1-58 NMSA 1978, is enacted to read:

"51-1-58. CONFORMITY WITH FEDERAL LAWS.--If any provisions of this chapter are determined to be in nonconformity with federal statutes, as determined by the United States secretary of labor or his designee, the secretary, with the approval of the governor, is authorized to administer the state law to conform with any mandatory conformity provisions of the federal statutes until such time as the legislature meets in its next regular session and has an opportunity to amend the state law."

Section 9. EMERGENCY.--It is necessary for the public peace, health and safety that this act take effect immediately. SB 453

CHAPTER 210

RELATING TO FINANCIAL INSTITUTIONS; AMENDING AND ENACTING CERTAIN SECTIONS OF THE NMSA 1978.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. Section 58-1-65 NMSA 1978 (being Laws 1963, Chapter 305, Section 53, as amended) is amended to read:

"58-1-65. DIRECTORS AND OFFICERS.--

A. The affairs of a state bank shall be managed by a board of directors, which shall exercise its powers and be responsible for the discharge of its duties. The number of directors, not less than three and not more than twenty-five, shall be fixed by the bylaws and the number so fixed shall be the board, regardless of vacancies. At least three-fourths of the directors shall be citizens of the United States and two-thirds shall be residents of the state. Each director shall have full record and beneficial ownership free of lien or encumbrance on common stock of the bank, or, when a bank is controlled by a bank holding company, either ownership of the common stock of the bank or ownership in a similar manner of shares of common stock of the bank holding company, of the book value of at least one thousand dollars ($1,000). Any director who becomes disqualified shall forthwith resign his office, but, upon removal of the disqualification, he shall be eligible for election. A director who is disqualified may be removed by the board of directors or by the director of the division. No action taken by a director prior to the resignation or removal shall be subject to attack on the ground of his disqualification.

B. Directors shall receive such reasonable compensation as the bylaws may prescribe and shall serve until their successors are elected and qualify.

C. Directors shall be elected by the stockholders at the first meeting and thereafter at the annual meeting or at a special meeting called for that purpose. If the articles of incorporation provide for cumulative voting, the votes of each share may be cast for one person or divided among two or more as the stockholder may choose. The person or persons, according to the number of directors to be elected, having the largest number of votes shall be elected.

D. The term of office of directors shall be one year or, if the bylaws so provide, three years, in which case one-third of the directors, or as near to one-third as possible, shall be elected for each year following the first election of directors. Vacancies at any one time, to the number of one-third of the board, may be filled by vote of the board of directors until the next meeting of the stockholders. The director of the division may designate a director to fill a vacancy that has continued for longer than three months, and a director so designated shall serve until a successor is electe and has qualified.

E. A director may be removed by the stockholders at a meeting. Where cumulative voting for directors is provided in the articles of incorporation, no director shall be removed unless the votes cast against a motion for his removal are less than the total number of shares outstanding divided by the number of authorized directors, but all of the directors shall be removed if a majority of the outstanding shares approves a motion for the removal of all.

F. The officers designated by the bylaws shall be elected by the board of directors. A member of the board of directors shall be elected president. Officers shall be elected or a contract executed for their employment in accordance with the bylaws of the bank. An officer may be removed by the board of directors at any time, but removal shall not prejudice any rights that he may have to damages for breach of contract of employment.

G. A bank shall report promptly to the director of the division any changes among executive officers and directors, including in its report a statement of the business and professional affiliations of new executive officers and directors."

Section 2

Section 2. Section 58-4-1 NMSA 1978 (being Laws 1951, Chapter 37, Section 1) is amended to read:

"58-4-1. ADDITIONAL DEFINITIONS.--As used in this article, unless the context otherwise requires:

A. "association" includes a state or federal savings and loan association unless limited by use of the words "state" or "federal";

B. "converting bank" means a bank converting from a state bank to a national bank or the reverse;

C. "merger" includes consolidation;

D. "merging bank" means a party to a merger;

E. "resulting bank" means the bank resulting from a merger or conversion; and

F. "dissenting stockholder" means a stockholder dissenting and voting his dissent as provided in this article."

Section 3

Section 3. A new section of the Banking Act, Section 58-4-13 NMSA 1978, is enacted to read:

"58-4-13. CONVERSION OF SAVINGS ASSOCIATION TO A STATE BANK.--

A. Any association may convert to a state bank pursuant to this section. A mutual association shall first convert to a stock association before applying for conversion to a state bank. A transaction in which the resulting bank is a subsidiary or an affiliate of a bank holding company or bank that has been in existence for at least two years shall not be subject to the provisions of this section but shall be subject to the approval of the director of the division.

B. Any association, upon a majority vote of its board of directors, may apply to the director of the division for permission to convert to a bank and for certification of appropriate articles of incorporation and bylaws to effect the conversion.

C. The association shall submit a plan of conversion as a part of the application to the director of the division. The director may recommend approval of the plan of conversion with or without amendment. The director shall recommend approval of the plan of conversion if upon examination and investigation he finds that:

(1) the resulting bank will operate in a safe, sound and prudent manner with adequate capital, liquidity and earning prospects;

(2) the directors, officers and other managerial officials of the association are qualified by character and financial responsibility to control and operate in a legal and proper manner the bank proposed to be formed as a result of the conversion;

(3) the interest of the depositors, the creditors and the public generally will not be jeopardized by the proposed conversion; and

(4) the proposed name will not mislead the public as to the character or purpose of the resulting bank, and the proposed name is not the same as one already adopted or appropriated by an existing bank in this state or so similar as to be likely to mislead the public.

D. The director of the division may promulgate rules to govern conversion undertaken pursuant to this section. The requirements for a converting association shall be no more stringent than those provided by rule or regulation applicable to other federal-deposit-insurance-corporation insured commercial banks. The requirements for a converting association shall be no less stringent than those provided by rule or regulation applicable to other federal-deposit-insurance-corporation insured commercial banks, except as may be allowed during transition periods permitted by this section.

E. In the event the director of the division fails to promulgate rules, the conditions to be met for approval of the application for conversion shall include the following:

(1) the applicant's general condition shall reflect adequate capital, liquidity, reserves, earning and asset composition necessary for safe and sound operation of the resulting bank;

(2) the management and the board of directors shall be capable of supervising a sound banking operation and overseeing the changes that must be accomplished in the conversion from an association to a bank;

(3) the director of the division shall determine that the conversion will have a positive impact on the convenience of the public and will not substantially reduce the services available to the public in the market area; and

(4) within a reasonable time after the effective date of the conversion, the resulting bank shall divest itself of all assets and liabilities that do not conform to state banking law or rules. The length of this transition period shall be determined by the director of the division and shall be specified when the application for conversion is approved.

F. In evaluating each of the conditions described in Subsection E of this section, the director of the division shall consider a comparison of the relevant financial ratios of the applicant with the average ratios of New Mexico banks of similar asset size.

G. If the director of the division approves the plan of conversion, then the association shall submit the plan to the stockholders. After approval of the plan of conversion, the director shall supervise and monitor the conversion process and shall

ensure that the conversion is conducted pursuant to law and the association's approved plan of conversion.

H. After lawful notice to the stockholders of the association and full and fair disclosure of the plan of conversion, the plan shall be approved by a majority of the total votes that stockholders of the association are eligible and entitled to cast. Stockholders may vote in person or by proxy. Following the vote of the stockholders, the association shall file with the director of the division the results of the vote certified by an appropriate officer of the association. The director shall then approve the requested conversion, and the association shall file with the state corporation commission articles of incorporation with the certificate of the approval of the director attached. The conversion of the association to a bank shall be effective upon this filing.

I. The director of the division may authorize the resulting bank to:

(1) wind up any activities legally engaged in by the association at the time of conversion but not permitted to state banks; and

(2) retain for a transitional period any assets and deposit liabilities legally held by the association at the effective date of the conversion that may not be held by state banks.

J. Upon conversion of an association to a bank, the legal existence of the association does not terminate, and the resulting bank is a continuation of the association. The conversion shall be a mere change in identity, form or organization. All rights, liabilities, obligations, interest and relations of whatever kind of the association shall continue and remain in the resulting bank. Except as may be authorized during a transitional period by the director of the division, a bank resulting from the conversion of an association shall have only those rights, powers and duties that are authorized for banks by law. All actions and legal proceedings to which the association was a party prior to conversion shall be unaffected by the conversion and shall proceed as if the conversion had not taken place.

K. As used in this section, "conversion" includes:

(1) a transaction in which a state bank assumes all or substantially all of the liabilities and purchases all or substantially all of the assets of an association; and

(2) any other transaction that results in a change of identity of an association to a state bank."

Section 4

Section 4. Section 58-15-3 NMSA 1978 (being Laws 1955, Chapter 128, Section 3, as amended) is amended to read:

"58-15-3. APPLICABILITY OF ACT--EXEMPTIONS--EVASIONS--PENALTY.--

A. No person shall engage in the business of lending in amounts of two thousand five hundred dollars ($2,500) or less without first having obtained a license from the director. Nothing contained in this subsection shall restrict or prohibit a licensee under the New Mexico Small Loan Act of 1955 from making loans in any amount under the New Mexico Bank Installment Loan Act of 1959 in accordance with the provisions of Section 58-7-2 NMSA 1978.

B. Nothing in the New Mexico Small Loan Act of 1955 shall apply to a person making individual advances of two thousand five hundred dollars ($2,500) or less under a written agreement providing for a total loan or line of credit in excess of two thousand five hundred dollars ($2,500) for which real estate is pledged as collateral.

C. Any banking corporation, savings and loan association or credit union operating under the laws of the United States or of New Mexico shall be exempt from the licensing requirements of the New Mexico Small Loan Act of 1955, nor shall that act apply to any business transacted by any such person under the authority of and as permitted by any such law, nor to any bona fide pawnbroking business transacted under a pawnbroker's license, nor to bona fide commercial loans made to dealers upon personal property held for resale. Nothing contained in the New Mexico Small Loan Act of 1955 shall be construed as abridging the rights of any of those exempted from the operations of that act from contracting for or receiving interest or charges not in violation of any existing applicable statute of this state.

D. The provisions of Subsection A of this section apply to any person owning any interest, legal or equitable, in the business or profits of any licensee whose name does not specifically appear on the face of the license, except a stockholder in a corporate licensee, and to any person who seeks to evade its application by any device, subterfuge or pretense whatsoever, including but not thereby limiting the generality of the foregoing: the loan, forbearance, use or sale of credit (as guarantor, surety, endorser, comaker or otherwise), money, goods or things in action; the use of collateral or related sales or purchases of goods or services or agreements to sell or purchase, whether real or pretended; receiving or charging compensation for goods or services, whether or not sold, delivered or provided; and the real or pretended negotiation, arrangement or procurement of a loan through any use or activity of a third person, whether real or fictitious.

E. Any person, copartnership, trust and the trustees or beneficiaries thereof, association or corporation and the several members, officers, directors, agents and employees thereof who violate or participate in the violation of any provision of Subsection A of this section is guilty of a petty misdemeanor and upon conviction shall be sentenced pursuant to the provisions of Section 31-19-1 (B) NMSA 1978. Any contract or loan in the making or collection of which any act is done that violates Subsection A or D of this section is void and the lender has no right to collect, receive or retain any principal, interest or charges whatsoever."

Section 5

Section 5. Section 58-15-5 NMSA 1978 (being Laws 1978, Chapter 6, Section 1, as amended) is amended to read:

"58-15-5. LICENSES--INVESTIGATION OF APPLICATON--ISSUANCE--DENIAL--ISSUANCE OF RENEWAL LICENSE--DENIAL OF RENEWAL LICENSE--FITNESS AND CHARACTER OF APPLICANT--LICENSE FEES--LICENSEE BOUND BY ACT.--

A. Upon the filing of an application, whether it is an original or a renewal, the director shall investigate the facts concerning the application and the requirements provided in this section.

Any applicant for license, upon written notice to do so by the director, shall within twenty days after service of
the notice furnish in writing, under oath, to the director any and all additional information required by the director that may be relevant or, in the opinion of the director, helpful to him in conducting his investigation.

Failure to comply with the director's requirement for supplemental information or the willful furnishing of false information is sufficient ground for denial of license.

False or misleading information willfully and intentionally furnished to the director prior to the issuance of any license is ground for suspension or revocation of any license in accordance with the procedures for suspension or revocation of license in the New Mexico Small Loan Act of 1955.

The director shall grant or deny each application for an original license within sixty days from the filing of the application with the required information and fees, unless the period is extended by written agreement between the applicant and the director.

B. In the event the director finds:

(1) that the financial responsibility, character and general fitness of the applicant for an original license and of the individual members and beneficiaries thereof, if the applicant is a copartnership, association or trust, and of the officers and directors thereof, if the applicant is a corporation, are such as to command the confidence of the public and to warrant belief that the business will be operated lawfully, honestly, fairly and efficiently within the declared purposes and spirit of the New Mexico Small Loan Act of 1955;

(2) that allowing the applicant to engage in business will promote the convenience and advantage of the community in which the business of the applicant is to be conducted; and

(3) that the applicant has available for operation of the business at the specified location cash or its equivalent, convertible securities or receivables of thirty thousand dollars ($30,000) or any combination thereof;
he shall enter an order granting the application, file his findings and, upon payment of the license fee of five hundred dollars ($500), issue and deliver a license to the applicant.

C. If the director does not make the findings enumerated in Subsection B of this section, he shall enter an order denying the application, notify the applicant of the denial and retain the application fee. Within thirty days after the entry of such an order, he shall prepare written findings and shall deliver a copy to the applicant.

D. Written application for renewal licenses shall be filed on or before March 31 of each year, and thereupon the director shall investigate the facts and review his files of examinations of the applicant made by his office and of complaints filed by borrowers, if any. If he finds:

(1) that no valid complaints of violations or abuses of the New Mexico Small Loan Act of 1955 or of the regulations of the director promulgated under that act have been filed by borrowers;

(2) that his examinations of the affairs of the applicant indicate that the business has been conducted and operated lawfully and efficiently within the declared purposes and spirit of the New Mexico Small Loan Act of 1955; and

(3) that the financial responsibility, experience and general fitness and character of the applicant remain such as to command the confidence of the public and to warrant the belief that the business will continue to be operated lawfully and efficiently within the purposes and spirit of the New Mexico Small Loan Act of 1955;
he shall deliver a renewal license to the applicant.

E. If the director does not make the findings enumerated in Subsection D of this section, he may grant a temporary extension of the license not exceeding sixty days pending a hearing; shall enter an order fixing a date for hearing upon the application; shall notify the licensee thereof, specifying the particular complaints, violations or abuses or other reasons for his contemplated refusal to renew the license; and shall afford to the applicant an opportunity to be heard. At the hearing, the director shall produce his evidence to establish the truth of the charges of violation or other grounds specified in the notice, and the applicant shall be accorded the right to produce evidence or other matters of defense. If after the hearing the director finds that the complaints of violations or other grounds specified in the notice are not well founded, he shall issue the renewal license. If he finds that the complaints of violations or other grounds are well founded, he shall enter an order denying the renewal application and notify the applicant of the denial, returning the renewal license fee tendered with the application. Within thirty days after the entry of such an order, he shall prepare written findings and shall deliver a copy of the findings to the applicant. The order shall be

subject to review as provided in Section 58-15-25 NMSA 1978. The court in its discretion and upon proper showing may order a temporary extension of the license pending disposition of the review proceedings.

F. In connection with the determination of fitness and character of an applicant under this section, the fact that the applicant or licensee is a member of or interested financially in, connected or affiliated with, controls or is controlled by or owns or is owned by other corporations, partnerships, trusts, associations or other legal entities engaged in the lending of money whose policies and practices as to rates of interest, charges and fees and general dealing with borrowers are questionable or would constitute violation of the general usury statutes of this state or of the declared purposes and spirit of the New Mexico Small Loan Act of 1955 shall be given such consideration and weight as the director determines.

G. At the time of issuance of original license and each annual renewal thereof, the licensee for each licensed office shall pay to the director as a license fee for the period covered by the license the sum of five hundred dollars ($500) as a minimum, plus an additional seventy-five cents ($.75) for each one thousand dollars ($1,000) or fraction thereof of loans outstanding as of December 31 next preceding, as shown on the applicant's annual report. In the event that the application for annual renewal of the license is delinquent, the licensee shall also pay a delinquency fee of ten dollars ($10.00) per day for each day the licensee is delinquent in filing the application for renewal.

H. Each licensee by accepting any license that is issued or renewed or by continuing to operate any licensed office under the New Mexico Small Loan Act of 1955 shall by such action be deemed to have consented to be bound by the lawful provisions of that act and all lawful requirements, regulations and orders of the director promulgated or issued pursuant to any authorization granted in that act."

Section 6

Section 6. Section 58-15-10 NMSA 1978 (being Laws 1955, Chapter 128, Section 10, as amended) is amended to read:

"58-15-10. BOOKS AND RECORDS--ANNUAL REPORTS--ADDITIONAL INFORMATION.--

A. Each licensee shall keep and use in his business such books, accounts and records in accordance with sound accounting practices as in the director's opinion will enable him to determine whether the licensee is complying with the provisions of the New Mexico Small Loan Act of 1955 and with the orders and regulations lawfully made by the director under that act. Each licensee shall preserve the books, accounts and records for at least two years after making the final entry on any loan recorded therein.

B. Each licensee shall annually on or before March 31 file a report with the director giving such relevant information as he may reasonably require concerning the business and operations during the preceding calendar year for each licensed place of business conducted by the licensee within the state pursuant to the provisions of the New Mexico Small Loan Act of 1955. The report shall be made under oath and shall be in the form prescribed by the director. A summary of the reports shall be included in the published annual report of the director.

C. At the time of filing each annual report, at the time of the annual examination or at any other time when any license is in effect, the director may, upon written notice, require any licensee to furnish within twenty days in writing, and under oath if so specified by any written notice issued and served by the director upon the licensee, any and all additional information as to ownership of any office; operation of any office; books, records, files and papers; and affiliation or relationship with any other person, firm, trust, association or corporation as, in the opinion of the director, may be helpful to him in the discharge of his official duties.

False or misleading information willfully furnished to the director by any licensee in any annual report or pursuant to any notice or requirement of the director is sufficient ground for suspension and revocation of license in accordance with the procedures for suspension or revocation of license set forth in the New Mexico Small Loan Act of 1955."

Section 7

Section 7. Section 58-16-9 NMSA 1978 (being Laws 1990, Chapter 123, Section 9) is amended to read:

"58-16-9. OFF-PREMISES ATM CONSIDERED A FINANCIAL INSTITUTION BRANCH OFFICE.--

A. An off-premises ATM is a branch office of a financial institution. Subject to the limitations contained
in the Remote Financial Service Unit Act, in-state financial institutions are authorized to install one or more off-premises ATMs. Before installing or operating an off-premises ATM, the in-state financial institution shall first obtain the approval of the director to install and operate the off-premises ATM, which written approval shall not be withheld by the director unless good cause is shown. The director, in making this determination, shall take into account, but not by way of limitation, factors such as the financial history and condition of the applicant, the adequacy of its capital structure, its future earnings prospects and the general character of its management, the future earnings prospects of the off-premises ATM and the adequacy of any network, intercept processor or processing computer, if any. The director's approval shall not be given until the director has ascertained to his satisfaction that:

(1) the establishment of the off-premises ATM complies in all respects with all applicable requirements for a branch office of the particular financial institution making application, including but not limited to geographic restrictions, if any;

(2) the proposed location is in the public interest; and

(3) the establishment of the off-premises ATM will meet the needs and promote the convenience of the area to be served by the ATM.

B. An investigation fee of four hundred dollars ($400) shall accompany each application for an off-premises ATM."

Section 8

Section 8. Section 58-17-16 NMSA 1978 (being Laws 1961, Chapter 156, Section 16, as amended) is amended to read:

"58-17-16. VIOLATIONS--PUNISHMENT.--

A. Whoever violates any provision of the Endowed Care Cemetery Act of 1961, except as provided in Subsection B of this section, is guilty of a petty misdemeanor.

B. Whoever fails to establish an irrevocable trust fund, encroaches upon the principal of an irrevocable trust, refuses to cooperate in an examination or investigation or violates the provisions of a trust instrument by willfully failing to deposit to a cemetery's trust fund the amounts provided within the time provided by Section 58-17-6 NMSA
1978, or any greater amounts if the trust instrument provides for greater amounts to be deposited, is guilty of a fourth degree felony and shall be sentenced in accordance with the Criminal Sentencing Act."

Section 9

Section 9. Section 58-21-5 NMSA 1978 (being Laws 1983, Chapter 86, Section 5, as amended) is amended to read:

CHAPTER 214

RELATING TO COMMERCIAL TRANSACTIONS; AMENDING SECTIONS OF THE UNIFORM COMMERCIAL CODE TO CLARIFY AND CORRECT PROVISIONS WITHIN THOSE SECTIONS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. Section 55-1-201 NMSA 1978 (being Laws 1961, Chapter 96, Section 1-201, as amended) is amended to read:

"55-1-201. GENERAL DEFINITIONS.--Subject to additional definitions contained in the subsequent articles of the Uniform Commercial Code which are applicable to specific articles or parts thereof and unless the context otherwise requires, in that act:

(1) "action" in the sense of a judicial proceeding includes recoupment, counterclaim, setoff, suit in equity and any other proceedings in which rights are determined;

(2) "aggrieved party" means a party entitled to resort to a remedy;

(3) "agreement" means the bargain of the parties in fact as found in their language or by implication from other circumstances, including course of dealing or usage of trade or course of performance as provided in Sections 55-1-205, 55-2-208 and 55-2A-207 NMSA 1978. Whether an agreement has legal consequences is determined by the provisions of the Uniform Commercial Code, if applicable; otherwise by the law of contracts (Section 55-1-103 NMSA 1978). (Compare "contract".);

(4) "bank" means any person engaged in the business of banking;

(5) "bearer" means the person in possession of an instrument, document of title or certificated security payable to bearer or indorsed in blank;

(6) "bill of lading" means a document evidencing the receipt of goods for shipment issued by a person engaged in the business of transporting or forwarding goods and includes an airbill. "Airbill" means a document serving for air transportation as a bill of lading does for marine or rail transportation and includes an air consignment note or air waybill;

(7) "branch" includes a separately incorporated foreign branch of a bank;

(8) "burden of establishing" a fact means the burden of persuading the triers of fact that the existence of the fact is more probable than its nonexistence;

(9) "buyer in ordinary course of business" means a person who, in good faith and without knowledge that the sale to him is in violation of the ownership rights or security interest of a third party in the goods, buys in ordinary course from a person in the business of selling goods of that kind but does not include a pawnbroker. All persons who sell minerals or the like (including oil and gas) at wellhead or minehead shall be deemed to be persons in the business of selling goods of that kind. "Buying" may be for cash or by exchange of other property or on secured or unsecured credit and includes receiving goods or documents of title under a pre-existing contract for sale but does not include a transfer in bulk or as security for or in total or partial satisfaction of a money debt;

(10) "conspicuous": A term or clause is conspicuous when it is so written that a reasonable person against whom it is to operate ought to have noticed it. A printed heading in capitals (as: NON-NEGOTIABLE BILL OF LADING) is conspicuous. Language in the body of a form is "conspicuous" if it is in larger or other contrasting type or color. But in a telegram any stated term is "conspicuous". Whether a term or clause is "conspicuous" or not is for decision by the court;

(11) "contract" means the total legal obligation which results from the parties' agreement as affected by this act and any other applicable rules of law. (Compare "agreement".);

(12) "creditor" includes a general creditor, a secured creditor, a lien creditor and any representative of creditors, including an assignee for the benefit of creditors, a trustee in bankruptcy, a receiver in equity and an executor or administrator of an insolvent debtor's or assignor's estate;

(13) "defendant" includes a person in the position of defendant in a cross-action or counterclaim;

(14) "delivery" with respect to instruments, documents of title, chattel paper or certificated securities means voluntary transfer of possession;

(15) "document of title" includes bill of lading, dock warrant, dock receipt, warehouse receipt or order for the delivery of goods and also any other document which in the regular course of business or financing is treated as adequately evidencing that the person in possession of it is entitled to receive, hold and dispose of the document and the goods it covers. To be a document of title a document must purport to be issued by or addressed to a bailee and purport to cover goods in the bailee's possession which are either identified or are fungible portions of an identified mass;

(16) "fault" means wrongful act, omission or breach;

(17) "fungible" with respect to goods or securities means goods or securities of which any unit is, by nature or usage of trade, the equivalent of any other like unit. Goods which are not fungible shall be deemed fungible for the purposes of this act to the extent that under a particular agreement or document unlike units are treated as equivalents;

(18) "genuine" means free of forgery or counterfeiting;

(19) "good faith" means honesty in fact in the conduct or transaction concerned;

(20) "holder", with respect to a negotiable instrument, means the person in possession if the instrument is payable to bearer or, in the case of an instrument payable to an identified person, if the identified person is in possession. "Holder", with respect to a document of title, means the person in possession if the goods are deliverable to bearer or to the order of the person in possession;

(21) to "honor" is to pay or to accept and pay, or where a credit so engages, to purchase or discount a draft complying with the terms of the credit;

(22) "insolvency proceedings" includes any assignment for the benefit of creditors or other proceedings intended to liquidate or rehabilitate the estate of the person involved;

(23) a person is "insolvent" who either has ceased to pay his debts in the ordinary course of business or cannot pay his debts as they become due or is insolvent within the meaning of the federal bankruptcy law;

(24) "money" means a medium of exchange authorized or adopted by a domestic or foreign government and includes a monetary unit of account established by an intergovernmental organization or by agreement between two or more nations;

(25) a person has "notice" of a fact when:

(a) he has actual knowledge of it;

(b) he has received a notice or notification of it; or

(c) from all the facts and circumstances known to him at the time in question he has reason to know that it exists.

A person "knows" or has "knowledge" of a fact when he has actual knowledge of it. "Discover" or "learn" or a word or phrase of similar import refers to knowledge rather

than to reason to know. The time and circumstances under which a notice or notification may cease to be effective are not determined by the Uniform Commercial Code;

(26) a person "notifies" or "gives" a notice or notification to another by taking such steps as may be reasonably required to inform the other in ordinary course whether or not such other actually comes to know of it. A person "receives" a notice or notification when:

(a) it comes to his attention; or

(b) it is duly delivered at the place of business through which the contract was made or at any other place held out by him as the place for receipt of such communications;

(27) notice, knowledge or a notice or notification received by an organization is effective for a particular transaction from the time when it is brought to the attention of the individual conducting that transaction, and in any event from the time when it would have been brought to his attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routines. Due diligence does not require an individual acting for the organization to communicate information unless such communication is part of his regular duties or unless he has reason to know of the transaction and that the transaction would be materially affected by the information;

(28) "organization" includes a corporation, government or governmental subdivision or agency, business trust, estate, trust, partnership or association, two or more persons having a joint or common interest or any other legal or commercial entity;

(29) "party", as distinct from "third party", means a person who has engaged in a transaction or made an agreement within the Uniform Commercial Code;

(30) "person" includes an individual or an organization (see Section 55-1-102 NMSA 1978);

(31) "presumption" or "presumed" means that the trier of fact must find the existence of the fact presumed unless and until evidence is introduced which would support a finding of its nonexistence;

(32) "purchase" includes taking by sale, discount, negotiation, mortgage, pledge, lien, issue or reissue, gift or any other voluntary transaction creating an interest in property;

(33) "purchaser" means a person who takes by purchase;

(34) "remedy" means any remedial right to which an aggrieved party is entitled with or without resort to a tribunal;

(35) "representative" includes an agent, an officer of a corporation or association and a trustee, executor or administrator of an estate or any other person empowered to act for another;

(36) "rights" includes remedies;

(37) "security interest" means an interest in personal property or fixtures which secures payment or performance of an obligation. The retention or reservation of title by a seller of goods notwithstanding shipment or delivery to the buyer (Section 55-2-401 NMSA 1978) is limited in effect to a reservation of a "security interest". The term also includes any interest of a buyer of accounts or chattel paper which is subject to Chapter 55, Article 9 NMSA 1978. The special property interest of a buyer of goods on identification of those goods to a contract for sale under Section 55-2-401 NMSA 1978 is not a "security interest", but a buyer may also acquire a "security interest" by complying with Chapter 55, Article 9 NMSA 1978. Unless a consignment is intended as security, reservation of title thereunder is not a "security interest", but a consignment in any event is subject to the provisions on consignment sales (Section 55-2-326 NMSA 1978).

Whether a transaction creates a lease or security interest is determined by the facts of each case; however, a transaction creates a security interest if the consideration the lessee is to pay the lessor for the right to possession and use of the goods is an obligation for the term of the lease not subject to termination by the lessee, and:

(a) the original term of the lease is equal to or greater than the remaining economic life of the goods;

(b) the lessee is bound to renew the lease for the remaining economic life of the goods or is bound to become the owner of the goods;

(c) the lessee has an option to renew the lease for the remaining economic life of the goods for no additional consideration or nominal additional consideration upon compliance with the lease agreement; or

(d) the lessee has an option to become the owner of the goods for no additional consideration or nominal additional consideration upon compliance with the lease agreement.

A transaction does not create a security interest merely because it provides that:

(a) the present value of the consideration the lessee is obligated to pay the lessor for the right to possession and use of the goods is substantially equal to or is greater than the fair market value of the goods at the time the lease is entered into;

(b) the lessee assumes risk of loss of the goods, or agrees to pay taxes, insurance, filing, recording or registration fees or service or maintenance costs with respect to the goods;

(c) the lessee has an option to renew the lease or to become the owner of the goods;

(d) the lessee has an option to renew the lease for a fixed rent that is equal to or greater than the reasonably predictable fair market rent for the use of the goods for the term of the renewal at the time the option is to be performed; or

(e) the lessee has an option to become the owner of the goods for a fixed price that is equal to or greater than the reasonably predictable fair market value of the goods at the time the option is to be performed.

For purposes of this Subsection (37):

(x) additional consideration is not nominal if: (i) when the option to renew the lease is granted to the lessee the rent is stated to be the fair market rent for the use of the goods for the term of the renewal determined at the time the option is to be performed; or (ii) when the option to become the owner of the goods is granted to the lessee the price is stated to be the fair market value of the goods determined at the time the option is to be performed. Additional consideration is nominal if it is less than the lessee's reasonably predictable cost of performing under the lease agreement if the option is not exercised;

(y) "reasonably predictable" and "remaining economic life of the goods" are to be determined with reference to the facts and circumstances at the time the transaction is entered into; and

(z) "present value" means the amount as of a date certain of one or more sums payable in the future, discounted to the date certain. The discount is determined by the interest rate specified by the parties if the rate is not manifestly unreasonable at the time the transaction is entered into; otherwise, the discount is determined by a commercially reasonable rate that takes into account the facts and circumstances of each case at the time the transaction was entered into;

(38) "send" in connection with any writing or notice means to deposit in the mail or deliver for transmission by any other usual means of communication with postage or cost of transmission provided for and properly addressed and in the case of an instrument to an address specified thereon or otherwise agreed, or if there be none, to any address reasonable under the circumstances. The receipt of any writing or notice within the time at which it would have arrived if properly sent has the effect of a proper sending;

(39) "signed" includes any symbol executed or adopted by a party with present intention to authenticate a writing;

(40) "surety" includes guarantor;

(41) "telegram" includes a message transmitted by radio, teletype, cable, any mechanical method of transmission or the like;

(42) "term" means that portion of an agreement which relates to a particular matter;

(43) "unauthorized" signature means one made without actual, implied or apparent authority and includes a forgery;

(44) "value". Except as otherwise provided with respect to negotiable instruments and bank cllections (Sections 55-3-303, 55-4-210 and 55-4-211 NMSA 1978) a person gives "value" for rights if he acquires them:

(a) in return for a binding commitment to extend credit or for the extension of immediately available credit whether or not drawn upon and whether or not a charge-back is provided for in the event of difficulties in collection;

(b) as security for or in total or partial satisfaction of a pre-existing claim;

(c) by accepting delivery pursuant to a pre-existing contract for purchase; or

(d) generally, in return for any consideration sufficient to support a simple contract;

(45) "warehouse receipt" means a receipt issued by a person engaged in the business of storing goods for hire; and

(46) "written" or "writing" includes printing, typewriting or any other intentional reduction to tangible
form."

(2) A perfected security interest in crops, for new value given to enable the debtor to produce the crops during the production season and given not more than three months before the crops become growing crops by planting or otherwise, takes priority over an earlier perfected security interest to the extent that such earlier interest secures obligations due more than six months before the crops become growing crops by planting or otherwise, even though the person giving new value had knowledge of the earlier security interest.

(3) A perfected purchase money security interest in inventory has priority over a conflicting security interest in the same inventory and also has priority in identifiable cash proceeds received on or before the delivery of the inventory to a buyer if:

(a) the purchase money security interest is perfected at the time the debtor receives possession of the inventory;

(b) the purchase money secured party gives notification in writing to the holder of the conflicting security interest if the holder had filed a financing statement covering the same types of inventory (i) before the date of the filing made by the purchase money secured party, or (ii) before the beginning of the twenty-one-day period where the purchase money security interest is temporarily perfected without filing or possession (Subsection (5) of Section 55-9-304 NMSA 1978);

(c) the holder of the conflicting security interest receives the notification within five years before the debtor receives possession of the inventory; and

(d) the notification states that the person giving the notice has or expects to acquire a purchase money security interest in inventory of the debtor, describing such inventory by item or type.

(4) A purchase money security interest in collateral other than inventory has priority over a conflicting security interest in the same collateral or its proceeds if the purchase money security interest is perfected at the time the debtor receives possession of the collateral or within twenty days thereafter.

(5) In all cases not governed by other rules stated in this section (including cases of purchase money security interests that do not qualify for the special priorities set forth in Subsections (3) and (4) of this section), priority between conflicting security interests in the same collateral shall be determined according to the following rules:

(a) conflicting security interests rank according to priority in time of filing or perfection. Priority dates from the time a filing is first made covering the collateral or the time the security interest is first perfected, whichever is earlier, provided that there is no period thereafter when there is neither filing nor perfection; and

(b) so long as conflicting security interests are unperfected, the first to attach has priority.

(6) For the purposes of Subsection (5) of this section, a date of filing or perfection as to collateral is also a date of filing or perfection as to proceeds.

(7) If future advances are made while a security interest is perfected by filing, by the taking of possession or under Section 55-8-321 on securities, the security interest has the same priority for the purposes of Subsection (5) of this section with respect to the future advances as it does with respect to the first advance. If a commitment is made before or while the security interest is so perfected, the security interest has the same priority with respect to advances made pursuant thereto. In other cases a perfected security interest has priority from the date the advance is made."

CHAPTER 221

RELATING TO CRIMINAL PROCEDURE; AMENDING A CERTAIN SECTION OF THE NMSA 1978 PERTAINING TO VICTIM RESTITUTION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. Section 31-17-1 NMSA 1978 (being Laws 1977, Chapter 217, Section 2, as amended) is amended to read:

"31-17-1. VICTIM RESTITUTION.--

A. It is the policy of this state that restitution be made by each violator of the Criminal Code to the victims of his criminal activities to the extent that the defendant is reasonably able to do so. This section shall be interpreted and administered to effectuate this policy. As used in this section, unless the context otherwise requires:

(1) "victim" means any person who has suffered actual damages as a result of the defendant's criminal activities;

(2) "actual damages" means all damages which a victim could recover against the defendant in a civil action arising out of the same facts or event, except punitive damages and damages for pain, suffering, mental anguish and loss of consortium. Without limitation, "actual damages" includes damages for wrongful death;

(3) "criminal activities" includes any crime for which there is a plea of guilty or verdict of guilty, upon which a judgment may be rendered and any other crime committed after July 1, 1977 which is admitted or not contested by the defendant; and

(4) "restitution" means full or partial payment of actual damages to a victim.

B. If the trial court exercises either of the sentencing options under Section 31-20-6 NMSA 1978, the court shall require as a condition of probation or parole that the defendant, in cooperation with the probation or parole officer assigned to the defendant, promptly prepare a plan of restitution, including a specific amount of restitution to each victim and a schedule of restitution payments. If the defendant is presently unable to make any restitution but there is a reasonable possibility that the defendant may be able to do so at some time during his probation or parole period, the plan of restitution shall also state the conditions under which or the event after which the defendant will make restitution. If the defendant believes that he will not be able to make any restitution, he shall so state and shall specify the reasons. If the defendant believes that no person suffered actual damages as a result of the defendant's criminal activities, he shall so state.

C. The defendant's plan of restitution and the recommendations of his probation or parole officer shall be submitted promptly to the court. The court shall promptly enter an order approving, disapproving or modifying the plan, taking into account the factors enumerated in Subsection D of this section. Compliance with the plan of restitution as approved or modified by the court shall be a condition of the defendant's probation or parole. Restitution payments shall be made to the clerk of the court unless otherwise directed by the court. The court thereafter may modify the plan at any time upon the defendant's request or upon the court's own motion. If the plan as approved or modified does not require full payment of actual damages to all victims or if the court determines that the defendant is not able and will not be able to make any restitution at any time during his probation or parole period or that no person suffered actual damages as a result of the defendant's criminal activities, the court shall file a specific written statement of its reasons for and the facts supporting its action or determination.

D. The probation or parole officer, when assisting the defendant in preparing the plan of restitution, and the court, before approving, disapproving or modifying the plan of restitution, shall consider the physical and mental health and condition of the defendant, his age, his education, his employment circumstances, his potential for employment and vocational training, his family circumstances, his financial

condition, the number of victims, the actual damages of each victim, what plan of restitution will most effectively aid the rehabilitation of the defendant and such other factors as shall be appropriate. The probation or parole officer shall attempt to determine the name and address of each victim and the amount of his pecuniary damages.

E. The clerk of the court shall mail to each known victim a copy of the court's order approving or modifying the plan of restitution, including the court's statement, if any, under Subsection C of this section.

F. At any time during the probation or parole period, the defendant or the victim may request and the court shall grant a hearing on any matter related to the plan of restitution.

G. Failure of the defendant to comply with Subsection B of this section or to comply with the plan of restitution as approved or modified by the court may constitute a violation of the conditions of probation or parole. Without limitation, the court may modify the plan of restitution or extend the period of time for restitution, but not beyond the maximum probation or parole period specified in Section 31-21-10 NMSA 1978.

H. This section and proceedings under this section shall not limit or impair the rights of victims to recover damages from the defendant in a civil action.

I. The rightful owner of any stolen property is the individual from whom the property was stolen. When recovering his property, the rightful owner of the stolen property shall not be civilly liable to any subsequent holder, possessor or retainer of the property for the purchase or sale price of the property or for any other costs or expenses associated with the property. "22-8-25. STATE EQUALIZATION GUARANTEE DISTRIBUTION--DEFINITIONS-- DETERMINATION OF AMOUNT.--

A. The state equalization guarantee distribution is that amount of money distributed to each school district to ensure that the school district's operating revenue, including its local and federal revenues as defined in this section, is at least equal to the school district's program cost.

B. "Local revenue", as used in this section, means ninety-five percent of receipts to the school district derived from that amount produced by a school district property tax applied at the rate of fifty cents ($.50) to each one thousand dollars ($l,000) of net taxable value of property allocated to the school district and to the assessed value of products severed and sold in the school district as determined under the Oil and Gas Ad Valorem Production Tax Act and upon the assessed value of equipment in the school district as determined under the Oil and Gas Production Equipment Ad Valorem Tax Act.

C. "Federal revenue", as used in this section, means ninety-five percent of receipts to the school district, excluding amounts that, if taken into account in the computation of the state equalization guarantee distribution, result, under federal law or regulations, in a reduction in or elimination of federal school funding otherwise receivable by the school district, derived from the following:

(1) the school district's share of forest reserve funds distributed in accordance with Section 22-8-33 NMSA 1978; and

(2) grants from the federal government as assistance to those areas affected by federal activity authorized in accordance with Sections 236 through 240 of Title 20 of the United States Code, commonly known as "PL 874 funds", or an amount equal to the revenue the district was entitled to receive if no application was made for such funds but deducting from those grants the additional amounts to which school districts would be entitled because of the provisions of Subparagraph (D) of Paragraph (2) of Subsection (d) of Section 238 of Title 20 of the United States Code.

D. To determine the amount of the state equalization guarantee distribution, the state superintendent shall:

(1) calculate the number of program units to which each school district is entitled using the membership of the fortieth day of the school year, except for school districts with a MEM of 200 or less where the number of program units shall be calculated on the fortieth day membership of either the prior year or the current year, whichever is greater, for all programs except special education, which shall be calculated by using the membership on December 1 of the school year; or

(2) calculate the number of program units to which a school district operating under an approved variable school calendar is entitled using the membership on an appropriate date established by the state board;

(3) using the results of the calculations in Paragraph (l) or (2) of this subsection and the instructional staff training and experience index from the October report of the prior school year, establish a total program cost of the school district;

(4) calculate the local and federal revenues as defined in this section; and

(5) deduct the sum of the calculations made in Paragraph (4) of this subsection from the program cost established in Paragraph (3) of this subsection.

E. The amount of the state equalization guarantee distribution to which a school district is entitled is the balance remaining after the deduction made in Paragraph (5) of Subsection D of this section.

F. The state equalization guarantee distribution shall be distributed prior to June 30 of each fiscal year. The calculation shall be based on the local and federal revenues specified in this section received from June l of the previous fiscal year through May 31 of the fiscal year for which the state equalization guarantee distribution is being computed. In the event that a district has received more state equalization guarantee funds than its entitlement, a refund shall be made by the district to the state general fund.

G. Notwithstanding the methods of calculating the state equalization guarantee distribution in this section and Laws 1974, Chapter 8, Section 22, if a school district received funds under Section 2391 of Title 42 U.S.C.A. and if the federal government takes into consideration grants authorized by Sections 236 through 240 of Title 20 of the United States Code and all other revenues available to the school district in determining the level of federal support for the school district for the sixty-fourth and succeeding fiscal years, the state equalization guarantee distribution for school districts receiving funds under this subsection shall be computed as follows:

$$\frac{\text{fiscal year program cost excluding special education for the year for which the state equalization guarantee distribution is being computed}}{\text{prior fiscal year state equalization guarantee distribution excluding prior fiscal year program cost excluding special education}} \times$$

plus special education funding in accordance with Paragraphs (l) or (2) and (3) of Subsection D of this section and Section 22-8-21 NMSA 1978 plus an amount that

would be produced by applying a rate of eight dollars forty-two and one-half cents ($8.425) to each one thousand dollars ($l,000) of net taxable value of property as defined in the Property Tax Code for property taxation purposes in the school district and to each one thousand dollars ($l,000) of the assessed value of products severed and sold in the school district as determined under the Oil and Gas Ad Valorem Production Tax Act and upon the assessed value of equipment in the school district as determined under the Oil and Gas Production Equipment Ad Valorem Tax Act equals the fiscal year state equalization guarantee distribution for the year for which the state equalization guarantee distribution is being computed.

If at any time grants from the federal government as assistance to those areas affected by federal activity authorized in accordance with Sections 236 through 240 of Title 20 of the United States Code, commonly known as "PL 874 funds", are reduced or are no longer available, the state equalization guarantee distribution shall be computed by the formula contained in this subsection plus an increase by fifty percent of the amount the prior year's PL 874 funds exceed PL 874 funds for the year for which the state equalization guarantee distribution is being computed."

Section 14

Section 14. Section 22-8-25 NMSA 1978 (being Laws 1981, Chapter 176, Section 5, as amended) is amended to read:

"22-8-25. STATE EQUALIZATION GUARANTEE DISTRIBUTION--DEFINITIONS-- DETERMINATION OF AMOUNT.--

A. The state equalization guarantee distribution is that amount of money distributed to each school district to ensure that the school district's operating revenue, including its local and federal revenues as defined in this section, is at least equal to the school district's program cost.

B. "Local revenue", as used in this section, means ninety-five percent of receipts to the school district derived from that amount produced by a school district property tax applied at the rate of fifty cents ($.50) to each one thousand dollars ($l,000) of net taxable value of property allocated to the school district and to the assessed value of products severed and sold in the school district as determined under the Oil and Gas Ad Valorem Production Tax Act and upon the assessed value of equipment in the school district as determined under the Oil and Gas Production Equipment Ad Valorem Tax Act.

C. "Federal revenue", as used in this section, means ninety-five percent of receipts to the school district, excluding amounts which, if taken into account in the computation of the state equalization guarantee distribution,
result, under federal law or regulations, in a reduction in or elimination of federal school funding otherwise receivable by the school district, derived from the following:

(l) the school district's share of forest reserve funds distributed in accordance with Section 22-8-33 NMSA 1978; and

(2) grants from the federal government as assistance to those areas affected by federal activity authorized in accordance with Sections 236 through 240 of Title 20 of the United States Code (commonly known as "PL 874 funds") or an amount equal to the revenue the district was entitled to receive if no application was made for such funds but deducting from those grants the additional amounts to which school districts would be entitled because of the provisions of Subparagraph (D) of Paragraph (2) of Subsection (d) of Section 238 of Title 20 of the United States Code.

D. To determine the amount of the state equalization guarantee distribution, the state superintendent shall:

(l) calculate the number of program units to which each school district is entitled using the membership of the fortieth day of the school year, except for school districts with a MEM of 200 or less where the number of program units shall be calculated on the fortieth day membership of either the prior year or the current year, whichever is greater, for all programs except special education, which shall be calculated by using the membership on December 1 of the school year; or

(2) calculate the number of program units to which a school district operating under an approved year-round school calendar is entitled using the membership on an appropriate date established by the state board;

(3) using the results of the calculations in Paragraph (l) or (2) of this subsection and the instructional staff training and experience index from the October report of the prior school year, establish a total program cost of the school district;

(4) calculate the local and federal revenues as defined in this section;

(5) deduct the sum of the calculations made in Paragraph (4) of this subsection from the program cost established in Paragraph (3) of this subsection; and

(6) deduct the total amount of guaranteed energy savings contract payments that the state superintendent determines will be made to the school district from the public school energy efficiency fund during the fiscal year for which the state equalization guarantee distribution is being computed.

E. The amount of the state equalization guarantee distribution to which a school district is entitled is the balance remaining after the deductions made in Paragraphs (5) and (6) of Subsection D of this section.

F. The state equalization guarantee distribution shall be distributed prior to June 30 of each fiscal year. The calculation shall be based on the local and federal

revenues specified in this section received from June l of the previous fiscal year through May 31 of the fiscal year for which the state equalization guarantee distribution is being computed. In the event that a district has received more state equalization guarantee funds than its entitlement, a refund shall be made by the district to the state general fund.

G. Notwithstanding the methods of calculating the state equalization guarantee distribution in this section and Laws 1974, Chapter 8, Section 22, if a school district received funds under Section 2391 of Title 42 U.S.C.A. and if the federal government takes into consideration grants authorized by Sections 236 through 240 of Title 20 of the United States Code and all other revenues available to the school district in determining the level of federal support for the school district for the sixty-fourth and succeeding fiscal years, the state equalization guarantee distribution for school districts receiving funds under this subsection shall be computed as follows:

$$\text{state equalization guarantee distribution} = \frac{\text{fiscal year program cost excluding special education for the year for which the state equalization guarantee distribution is being computed}}{\text{prior fiscal year program cost excluding special education}} \times \text{prior fiscal year state equalization guarantee distribution}$$

plus special education funding in accordance with Paragraphs (1) or (2) and (3) of Subsection D of this section and Section 22-8-21 NMSA 1978 plus an amount that would be produced by applying a rate of eight dollars forty-two and one-half cents ($8.425) to each one thousand dollars ($1,000) of net taxable value of property as defined in the Property Tax Code for property taxation purposes in the school district and to each one thousand dollars ($1,000) of the assessed value of products severed and sold in the school district as determined under the Oil and Gas Ad Valorem Production Tax Act and upon the assessed value of equipment in the school district as determined under the Oil and Gas Production Equipment Ad Valorem Tax Act, and then reduced by the total amount of guaranteed energy savings contract payments, if any, that the state superintendent determines will be made to the school district from the public school energy efficiency fund during the fiscal year for which the state equalization guarantee distribution is being computed, equals the fiscal year state equalization guarantee distribution for the year for which the state equalization guarantee distribution is being computed.

If at any time grants from the federal government as assistance to those areas affected by federal activity authorized in accordance with Sections 236 through 240 of Title 20 of the United States Code (commonly known as "PL 874 funds") are reduced or are no longer available, the state equalization guarantee distribution shall be computed by the formula contained in this subsection plus an increase by fifty percent of the amount the

prior year's PL 874 funds exceed PL 874 funds for the year for which the state equalization guarantee distribution is being computed." HB 353

(c) if the defendant is not committed pursuant to Sections 31-9-1 through 31-9-1.5 NMSA 1978, or if the court finds upon its two-year review hearing that the defendant is no longer dangerous, as defined in Subsection C of Section 31-9-1.2 NMSA 1978, the defendant shall be released."

"43-1-1. MENTAL CONDITION OF CRIMINAL DEFENDANTS--EVALUATION--TREATMENT.--

A. Whenever a district court finds it necessary to obtain an evaluation of the mental condition: of a defendant in a criminal case; or a defendant found incompetent to proceed in a criminal case for whom involuntary hospitalization pursuant to the Mental Health and Developmental Disabilities Code is being considered, the court shall order an evaluation from a qualified professional available to the local facilities of the court or from a qualified professional at a local mental health center designated by the secretary of health, and whenever the court finds it desirable to use state personnel or facilities to assist in making the evaluation, the court shall in its order for an evaluation require service upon the secretary of health of the court's order for evaluation. The secretary of health shall arrange for a qualified professional furnished by the state to visit the defendant in local facilities available to the court or shall designate suitable available facilities. If the secretary of health designates a local mental health center or a state facility for the defendant's evaluation within forty-eight hours of service of the evaluation order, the secretary of health shall notify the court of such designation. The court shall then enter an appropriate transport order which also provides for the return of the defendant to the local facilities of the court. The defendant shall be transported by the county to facilities designated by the secretary of health for the purpose of making an evaluation. Misdemeanor defendants shall be evaluated locally.

B. If the secretary of health elects to have the defendant retained at the district court's local facilities, the qualified professional furnished by the state will visit the local facilities not later than two weeks from the time of service of the court's evaluation order upon the secretary of health and:

(1) after the evaluation of the defendant is completed, the qualified professional furnished by the state shall be available for deposition to declare his

findings. The usual rules of evidence governing the use and admission of the deposition shall prevail; and

(2) if the secretary of health finds that the qualified professional will be unable to initiate the evaluation within two weeks from the time of service of the court's evaluation order upon the secretary of health, then the secretary of health shall call upon the county sheriff of the county in which the defendant is incarcerated and have the defendant transported to facilities designated by the secretary of health for the purpose of conducting the evaluation.

C. If the secretary of health elects to have the defendant transported to the facilities designated by the secretary of health for the purpose of evaluation, the evaluation shall be commenced as soon as possible after the admission of the defendant to the facility, but, in no event, shall the evaluation be commenced later than seventy-two hours after the admission. The defendant, at the conclusion of the evaluation, shall be returned by the county sheriff to the local facilities of the court upon not less than three days' notice. After the evaluation is completed, the qualified professional furnished by the state shall be available for deposition to declare his findings. The usual rules of evidence governing the use and admissibility of the deposition shall prevail.

D. Documents reasonably required by the secretary of health to show the medical and forensic history of the defendant shall be furnished by the court when required.

E. After an evaluation and upon reasonable notice, the district court may commit a dangerous defendant pursuant to Section 31-9-1.2 NMSA 1978 or may dismiss the charges without prejudice and refer the defendant to the district attorney for possible initiation of proceedings under the Mental Health and Developmental Disabilities Code. A defendant so committed under the Mental Health and Developmental Disabilities Code shall be treated as any other patient committed involuntarily. When deemed by the secretary of health to be medically appropriate, a dangerous defendant committed pursuant to Section 31-9-1.2 NMSA 1978 may be returned by the county sheriff to the custody of the court upon not less than three days' notice.

F. All acts to be performed by the secretary of health pursuant to this section may be performed by the secretary's designee."

Section 8

Section 8. Section 43-1-15 NMSA 1978 (being Laws 1977, Chapter 279, Section 14, as amended) is amended to read:

"43-1-15. CONSENT TO TREATMENT--ADULT CLIENTS.--

A. No psychosurgery, convulsive therapy, experimental treatment or behavior modification program involving aversive stimuli or substantial deprivations shall be administered to any client without proper consent. If the client is capable of understanding the proposed nature of treatment and its consequences and is capable of informed consent, his consent shall be obtained before the treatment is performed.

B. If the mental health or developmental disabilities professional or physician who is proposing this or any other course of treatment or any other interested person believes that the client is incapable of informed consent, he may petition the court for the appointment of a treatment guardian to make a substitute decision for the client. This petition shall be served on the client and his attorney. A hearing on the petition shall be held within three court days. At the hearing, the client shall be represented by counsel and shall have the right to be present, to present witnesses and to cross-examine opposing witnesses. If after the hearing the court finds that the client is not capable of making his own treatment decisions, the court may order the appointment of a treatment guardian. The treatment guardian shall make a decision on behalf of the client whether to accept treatment, depending on whether the treatment appears to be in the client's best interest and is the least drastic means for accomplishing the treatment objective. In making his decision, the treatment guardian shall consult with the client and consider his expressed opinions, if any, even if those opinions do not constitute valid consent or rejection of treatment. He shall give consideration to any previous decisions made by the client in similar circumstances when the client was able to make treatment decisions. If a client, who is not a resident of a medical facility and for whom a treatment guardian has been appointed, refuses to comply with the decision of the treatment guardian, the treatment guardian may apply to the court for an enforcement order. Such an order may authorize any peace officer to take the client into custody and to transport him to an evaluation facility and may authorize the facility forcibly to administer treatment. The treatment guardian shall consult with the physician or other professional who is proposing treatment, the client's attorney and interested friends or relatives of the client as he deems appropriate in making his decision. If the client, physician or other professional wishes to appeal the decision of the treatment guardian, he may do so, filing an appeal with the court within three calendar days of receiving notice of the treatment guardian's decision. In such a decision, the client shall be represented by counsel. The court may overrule the treatment guardian's decision if it finds that decision to be against the best interest of the client.

C. When the court appoints a treatment guardian, it shall specify the length of time during which he may exercise his powers, up to a maximum period of one year. If at the end of his guardianship period the treatment guardian believes that the client is still incapable of making his own treatment decisions, he shall petition the court for
reappointment or for appointment of a new treatment guardian. The guardianship shall be extended or a new guardian shall be appointed only if the court finds the client is, at the time of the hearing, incapable of understanding and expressing an opinion regarding

treatment decisions. The client shall be represented by counsel and shall have the right to be present and present evidence at all such hearings.

D. If during a period of a treatment guardian's power the treatment guardian, the client, the treatment provider, a member of the client's family or the client's attorney believes that the client has regained competence to make his own treatment decisions, he shall petition the court for a termination of the treatment guardianship. If the court finds the client is capable of making his own treatment decisions, it shall terminate the power of the treatment guardian and restore to the client the power to make his own treatment decisions.

E. A treatment guardian shall only have those powers enumerated in the code, unless the treatment guardian has also been appointed a guardian under the Probate Code pursuant to Section 45-5-303 NMSA 1978. Any person carrying out the duties of a treatment guardian as provided in this section shall not be liable in any civil or criminal action so long as the treatment guardian is not acting in bad faith or with malicious purpose.

F. If a licensed physician believes that the administration of psychotropic medication is necessary to protect the client from serious harm which would occur while the provisions of Subsection B of this section are being satisfied, he may administer the medication on an emergency basis. When medication is administered to a client on an emergency basis, the treating physician shall prepare and place in the client's medical records a report explaining the nature of the emergency and the reason that no treatment less drastic than administration of psychotropic medication without proper consent would have protected the client from serious harm." B. When custody is contested, the court:

(1) shall refer that issue to mediation if feasible unless a party asserts or it appears to the court that domestic violence or child abuse has occurred, in which event the court shall halt or suspend mediation unless the court specifically finds that:

(a) the following three conditions are satisfied: 1) the mediator has substantial training concerning the effects of domestic violence or child abuse on victims; 2) a party who is or alleges to be the victim of domestic violence is capable of negotiating with the other party in mediation, either alone or with assistance, without suffering from an imbalance of power as a result of the alleged domestic violence; and 3) the mediation process contains appropriate provisions and conditions to protect against an imbalance of power between the parties resulting from the alleged domestic violence or child abuse; or

(b) in the case of domestic violence involving parents, the parent who is or alleges to be the victim requests mediation and the mediator is informed of the alleged domestic violence; (2) may order, in addition to or in lieu of the provisions of Paragraph (1) of this subsection, that each of the parties undergo individual counseling in a manner that the court deems appropriate, if the court finds that the parties can afford the counseling; and

(d) that a child has been knowingly or intentionally tortured, cruelly confined or cruelly punished; provided that nothing in this paragraph shall be construed to imply that a child who is or has been provided with treatment by spiritual means alone through prayer, in accordance with the tenets and practices of a recognized church or religious denomination, by a duly accredited practitioner of the church or denomination, is for that reason alone a victim of child abuse within the meaning of this paragraph; and

(2) "domestic violence" means one parent causing or threatening physical harm or assault or inciting imminent fear of physical, emotional or psychological harm to the other parent."

RESPONSIBILITY FOR SOLID WASTE GENERATORS; AMENDING THE SOLID WASTE ACT; DECLARING AN EMERGENCY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. A new section of the Solid Waste Act is enacted to read:

"LEGISLATIVE FINDINGS.--The legislature finds:

A. the federal environmental protection agency, effective April 9, 1994, will require owners and operators of solid waste facilities to meet certain specified financial assurance criteria;

B. the only exceptions allowed will be "owners or operators who are state or federal government entities whose debts and liabilities are the debts and liabilities of a state or the United States";

C. the federal environmental protection agency does not consider political subdivisions of a state to be "state or federal government entities";

D. the Solid Waste Act currently exempts political subdivisions of the state from the requirement to show financial responsibility;

E. if New Mexico fails to require financial assurance from political subdivisions of the state, New Mexico may lose primacy over solid waste control, and political subdivisions of the state will in any event be required in 1994 to provide a showing of financial responsibility; and

F. it is in the best interest of the state to retain primacy in the field of solid waste control."

Section 2

Section 2. A new section of the Solid Waste Act is enacted to read:

"REVIEW OF CONTRACTS AND LEASES.--All leases and contracts for the operation of landfills, transfer stations, recycling facilities and composting facilities between local government entities and private parties shall be reviewed by the attorney general, who shall provide recommendations on legal issues to the department and the local public entity at least fifteen days prior to the approval of the contract or within thirty days after his receipt of the contract, whichever is later."

Section 3

Section 3. Section 74-9-24 NMSA 1978 (being Laws 1990, Chapter 99, Section 24) is amended to read:

A. The director, within one hundred eighty days after the application is deemed complete and after a public hearing, shall issue a permit, issue a permit with terms and conditions or deny a permit application. The director may deny a permit application on the basis of information in the application or evidence presented at the hearing, or both, if he makes a finding that granting the permit would be contradictory to or in violation of the Solid Waste Act or any regulation adopted under it. He may also deny a permit application if the applicant fails to meet the financial responsibility requirements established by the board under Subsection A of Section 74-9-8 NMSA 1978 and Section 74-9-35 NMSA 1978.

B. The director may deny any permit application or revoke a permit if he has reasonable cause to believe that any person required to be listed on the application pursuant to Section 74-9-20 NMSA 1978 has:

(1) knowingly misrepresented a material fact in applicaton for a permit;

(2) refused to disclose or failed to disclose the information required under the provisions of Section 74-9-21 NMSA 1978;

(4) been convicted of a felony, within ten years immediately preceding the date of the submission of the permit application, in any court for any crime defined by state or federal statutes as involving or being restraint of trade, price-fixing, bribery or fraud;

(5) exhibited a history of willful disregard for environmental laws of any state or the United States; or

(6) had any permit revoked or permanently suspended for cause under the environmental laws of any state or the United States.

C. In making a finding under Subsection B of this section, the director may consider aggravating and mitigating factors presented by any party at the hearing.

D. If an applicant whose permit is being considered for denial or revocation on any basis provided in this section has submitted an affirmative action plan that has been approved in writing by the director and plan approval includes a period of operation under a conditional permit or license that will allow the applicant a reasonable opportunity to affirmatively demonstrate its rehabilitation, the director may issue a conditional license for a reasonable period of time of operation. In approving an affirmative action plan intended to affirmatively demonstrate rehabilitation, the director may consider the following factors: implementation by the applicant of formal policies; training programs and management control to minimize and prevent the occurrence of future violations; installation by the applicant of internal environmental auditing programs; the discharge of individuals convicted of any crimes set forth in Subsection B of this section; and such other factors as the director may deem relevant.

E. Within sixty days of the date of the closing of the hearing on a permit application, the director shall notify the applicant by certified mail of the issuance, denial or issuance with conditions of a permit and the reasons therefor. Any person who has made a written request to the director to be notified of the action taken on the application shall be given written notice of the director's action.

F. No permit for the operation of a solid waste facility shall be valid until the permit or a notice of the permit and a legal description of the property on which the facility is located are filed and recorded in the office of the county clerk in each county in which the facility is located.

G. Except as otherwise provided by law:

INVESTIGATION OF SUSPECTED ILLEGAL IMPORTS--OATHS--HEALTH CERTIFICATE OF PERMIT.--Whenever the board, during the continuance in force of any prohibition against the importation into this state of livestock has good reason to believe or suspect that any such livestock against the importation of which prohibition then exists have been or are about to be driven, conveyed or transported into this state in violation of any such prohibition then existing and then in force, it is the duty of the board, either by its own members or through a veterinarian or through one or more of such persons then in their employ as circumstances shall seem to require, to thoroughly investigate the same. The members of the board, a veterinarian and all other persons as aforesaid so in the employ of the board through whom any such investigation shall be made hereby are authorized to administer all oaths and affirmations required in any such investigation. If any such investigation is made by such veterinarian and he is satisfied that the livestock are free from all contagious and infectious disease and will not communicate any disease to any livestock in this state, he shall deliver to the person in charge of the livestock a certificate of health to the effect that the livestock are healthy and entitled to pass into the state, otherwise he shall refuse the same. If such investigation is made by any other persons authorized as specified in this section to make the investigation and they are satisfied that the livestock will not transmit to the livestock in this state any livestock disease and that the facts and circumstances attending their transportation warrant the presumption that such livestock are not from any prohibited areas, a recommendation that the importation of the livestock shall then be permitted, shall be communicated to the board and the board shall upon concurrence give the person in charge of the livestock a written permit to pass the same into the state, otherwise such permit shall be refused."

They shall be held in quarantine for such length of time as the board shall in their opinion deem necessary for the sanitary protection of livestock in this state. If such livestock shall not have been so inspected and an investigation had, then the same shall take place wherever the livestock may be found, and they may be seized and held for that purpose and a certificate of health or permit granted or refused, as the case may require. If refused, the livestock may in like manner be held in quarantine. After seizure, the livestock shall be held in close quarantine until the board is satisfied all danger has passed. Either of the parties above named and empowered to make the arrest may call on any party within a reasonable distance to assist in making the seizure of the livestock, and anyone refusing to assist is guilty of a petty misdemeanor and upon conviction thereof shall be fined not less than twenty-five dollars ($25.00) nor more than one hundred dollars ($100) or be imprisoned in the county jail not to exceed three months. When the board is satisfied that there is no further danger from the seized livestock, they may render a bill of costs to the owner or claimant and upon the payment of the sum release the livestock or they may advertise such livestock in a public newspaper for at least two weeks or in a generally accepted industry publication approved by the board and then sell them to the highest bidder retaining only enough to satisfy all expenses incurred or they may turn loose the livestock on the range or return them to the place of entry. Section 5

Section 5. Section 31-9-1.4 NMSA 1978 (being Laws 1988, Chapter 107, Section 5 and Laws 1988, Chapter 108, Section 5) is amended to read:

Section 6

Section 6. Section 31-9-1.5 NMSA 1978 (being Laws 1988, Chapter 107, Section 6 and Laws 1988, Chapter 108, Section 6) is amended to read:

"31-9-1.5. DETERMINATION OF COMPETENCY--EVIDENTIARY HEARING.--

A. As provided for in Subsection A of Section 31-9-1.4 NMSA 1978, a hearing to determine the sufficiency of the evidence shall be held. Such hearing shall be conducted by the district court without a jury. The state and the defendant may introduce evidence relevant to the question of the defendant's guilt of the crime charged. The district court may admit hearsay or affidavit evidence on secondary matters such as testimony to establish the chain of possession of physical evidence,

laboratory reports, authentication of transcripts taken by official reporters, district court and business records and public documents.

B. If the evidence does not establish by clear and convincing evidence that the defendant committed a crime, the district court shall dismiss the criminal case with prejudice; however, nothing herein shall prevent the state from initiating proceedings under the provisions of the Mental Health and Developmental Disabilities Code.

C. If the district court finds by clear and convincing evidence that the defendant committed a crime and has not made a finding of dangerousness, pursuant to Subsections B and C of Section 39-1-1.2 NMSA 1978, the district court shall dismiss the charges without prejudice. The state may initiate proceedings pursuant to the provisions of the Mental Health and Developmental Disabilities Code.

D. If the district court finds by clear and convincing evidence that the defendant committed a crime and has previously made a finding that the defendant is dangerous pursuant to Subsections B and C of Section 31-9-1.2 NMSA 1978:

(1) the defendant shall be detained by the department of health in a secure, locked facility;

(2) the defendant shall not be released from that secure facility except pursuant to an order of the district court which committed him or upon expiration of the period of time equal to the maximum sentence to which the defendant would have been subject had the defendant been convicted in a criminal proceeding;

(3) significant changes in the defendant's condition, including but not limited to trial competency and dangerousness, shall be reported in writing to the district court, state and defense; and

(4) at least every two years the district court shall conduct a hearing upon notice to the parties and the department of health charged with detaining the defendant. At the hearing the court shall enter findings on the issues of trial competency and dangerousness:

(a) upon a finding that the defendant is competent to proceed in a criminal case, the court shall continue with the criminal proceeding;

(b) if the defendant continues to be incompetent to proceed in a criminal case, the court shall review the defendant's competency and dangerousness every two years until expiration of the period of commitment equal to the maximum sentence to which the defendant would have been subject had he or she been convicted subject in a criminal proceeding; and

(c) if the defendant is not committed pursuant to Sections 31-9-1 through 31-9-1.5 NMSA 1978, or if the court finds upon its two-year review hearing that the defendant is no longer dangerous, as defined in Subsection C of Section 31-9-1.2 NMSA 1978, the defendant shall be released."

Section 7

Section 7. Section 43-1-1 NMSA 1978 (being Laws 1976, Chapter 43, Section 1, as amended by Laws 1989, Chapter 94, Section 2 and also by Laws 1989, Chapter 128, Section 1) is amended to read:

"43-1-1. MENTAL CONDITION OF CRIMINAL DEFENDANTS--EVALUATION--TREATMENT.--

A. Whenever a district court finds it necessary to obtain an evaluation of the mental condition of a defendant in a criminal case or of a defedant found incompetent to proceed in a criminal case in a proceeding for involuntary hospitalization pursuant to the Mental Health and Developmental Disabilities Code, the court shall order an evaluation from a qualified professional available to the local facilities of the court or from a qualified professional at a local mental health center designated by the secretary of health, and whenever the court finds it desirable to use state personnel or facilities to assist in making the evaluation, the court shall in its order for an evaluation require service upon the secretary of health of the court's order for evaluation. The secretary of health shall arrange for a qualified professional furnished by the state to visit the defendant in local facilities available to the court or shall designate suitable available facilities. If the secretary of health designates a local mental health center or a state facility for the defendant's evaluation within forty-eight hours of service of the evaluation order, the secretary of health shall notify the court of such designation. The court shall then enter an appropriate transport order which also provides for the return of the defendant to the local facilities of the court. The defendant shall be transported by the county to facilities designated by the secretary of health for the purpose of making an evaluation. Misdemeanor defendants shall be evaluated locally.

B. If the secretary of health elects to have the defendant retained at the district court's local facilities, the qualified professional furnished by the state will visit the local facilities not later than two weeks from the time of service of the court's evaluation order upon the secretary of health and:

(1) after the evaluation of the defendant is completed, the qualified professional furnished by the state shall be available for deposition to declare his findings. The usual rules of evidence governing the use and admission of the deposition shall prevail; and

(2) if the secretary of health finds that the qualified professional will be unable to initiate the evaluation within two weeks from the time of service of the court's evaluation order upon the secretary of health, then the secretary of health shall

call upon the county sheriff of the county in which the defendant is incarcerated and have the defendant transported to facilities designated by the secretary of health for the purpose of conducting the evaluation.

C. If the secretary of health elects to have the defendant transported to the facilities designated by the secretary of health for the purpose of evaluation, the evaluation shall be commenced as soon as possible after the admission of the defendant to the facility, but, in no event, shall the evaluation be commenced later than seventy-two hours after the admission. The defendant, at the conclusion of the evaluation, shall be returned by the county sheriff to the local facilities of the court upon not less than three days' notice. After the evaluation is completed, the qualified professional furnished by the state shall be available for deposition to declare his findings. The usual rules of evidence governing the use and admissibility of the deposition shall prevail.

D. Documents reasonably required by the secretary of health to show the medical and forensic history of the defendant shall be furnished by the court when required.

E. After an evaluation and upon reasonable notice, the district court may commit a dangerous defendant pursuant to Section 31-9-1.2 NMSA 1978 or may dismiss the charges without prejudice and refer the defendant to the district attorney for possible initiation of proceedings under the Mental Health and Developmental Disabilities Code. A defendant so committed under the Mental Health and Developmental Disabilities Code shall be treated as any other patient committed involuntarily. When deemed by the secretary of health to be medically appropriate, a dangerous defendant committed pursuant to Section 31-9-1.2 NMSA 1978 may be returned by the county sheriff to the custody of the court upon not less than three days' notice.

F. All acts to be performed by the secretary of health pursuant to this section may be performed by the secretary's designee."

Section 8

Section 8. Section 43-1-15 NMSA 1978 (being Laws 1977, Chapter 279, Section 14, as amended) is amended to read:

"43-1-15. CONSENT TO TREATMENT--ADULT CLIENTS.--

A. No psychosurgery, convulsive therapy, experimental treatment or behavior modification program involving aversive stimuli or substantial deprivations shall be administered to any client without proper consent. If the client is capable of understanding the proposed nature of treatment and its consequences and is capable of informed consent, his consent shall be obtained before the treatment is performed.

B. If the mental health or developmental disabilities professional or physician who is proposing this or any other course of treatment or any other interested person believes that the client is incapable of informed consent, he may petition the court for the appointment of a treatment guardian to make a substitute decision for the client. This petition shall be served on the client and his attorney. A hearing on the petition shall be held within three court days. At the hearing, the client shall be represented by counsel and shall have the right to be present, to present witnesses and to cross-examine opposing witnesses. If after the hearing the court finds that the client is not capable of making his own treatment decisions, the court may order the appointment of a treatment guardian. The treatment guardian shall make a decision on behalf of the client whether to accept treatment, depending on whether the treatment appears to be in the client's best interest and is the least drastic means for accomplishing the treatment objective. In making his decision, the treatment guardian shall consult with the client and consider his expressed opinions, if any, even if those opinions do not constitute valid consent or rejection of treatment. He shall give consideration to any previous decisions made by the client in similar circumstances when the client was able to make treatment decisions. If a client, who is not a resident of a medical facility and for whom a treatment guardian has been appointed, refuses to comply with the decision of the treatment guardian, the treatment guardian may apply to the court for an enforcement order. Such an order may authorize any peace officer to take the client into custody and to transport him to an evaluation facility and may authorize the facility forcibly to administer treatment. The treatment guardian shall consult with the physician or other professional who is proposing treatment, the client's attorney and interested friends or relatives of the client as he deems appropriate in making his decision. If the client, physician or other professional wishes to appeal the decision of the treatment guardian, he may do so, filing an appeal with the court within three calendar days of receiving notice of the treatment guardian's decision. In such a decision, the client shall be represented by counsel. The court may overrule the treatment guardian's decision if it finds that decision to be against the best interest of the client.

C. When the court appoints a treatment guardian, it shall specify the length of time during which he may exercise his powers, up to a maximum period of one year. If at the end of his guardianship period the treatment guardian believes that the client is still incapable of making his own treatment decisions, he shall petition the court for reappointment or for appointment of a new treatment guardian. The guardianship shall be extended or a new guardian shall be
appointed only if the court finds the client is, at the time of the hearing, incapable of understanding and expressing an opinion regarding treatment decisions. The client shall be represented by counsel and shall have the right to be present and present evidence at all such hearings.

D. If during a period of a treatment guardian's power the treatment guardian, the client, the treatment provider, a member of the client's family or the client's attorney believes that the client has regained competence to make his own treatment decisions, he shall petition the court for a termination of the treatment guardianship. If

the court finds the client is capable of making his own treatment decisions, it shall terminate the power of the treatment guardian and restore to the client the power to make his own treatment decisions.

E. A treatment guardian shall only have those powers enumerated in the code, unless the treatment guardian has also been appointed a guardian under the Probate Code pursuant to Section 45-5-303 NMSA 1978. Any person carrying out the duties of a treatment guardian as provided in this section shall not be liable in any civil or criminal action so long as the treatment guardian is not acting in bad faith or with malicious purpose.

F. If a licensed physician believes that the administration of psychotropic medication is necessary to protect the client from serious harm which would occur while the provisions of Subsection B of this section are being satisfied, he may administer the medication on an emergency basis. When medication is administered to a client on an emergency basis, the treating physician shall prepare and place in the client's medical records a report explaining the nature of the emergency and the reason that no treatment less drastic than administration of psychotropic medication without proper consent would have protected the client from serious harm." The regulations shall prescribe

areas of specialty or expertise and may require that a certain part of the thirty hours of classroom instruction be devoted to courses in the area of a licensee's specialty or expertise."

Section 2. Section 61-29-11 NMSA 1978 (being Laws 1959, Chapter 226, Section 10, as amended) is amended to read:

"61-29-11. ISSUANCE, RENEWAL AND SURRENDER OF LICENSES.--

A. The commission shall issue to each qualified applicant a permanent license in such form and size as shall be prescribed by the commission.

B. This license shall show the name and address of the licensee and, in the case of a real estate salesperson's license, shall show the name of the real estate broker by whom he is engaged. The license of each real estate salesperson shall be delivered or mailed to the real estate broker by whom such real estate salesperson is engaged and shall be kept in the custody and control of that broker.

C. Every license shall be subject to annual renewal on the last day of the licensee's month of birth. The commission shall certify renewal of each license annually, in the absence of any reason or condition that might warrant the refusal of the renewal of a license, upon written request for renewal by the licensee, proof of compliance with continuing education requirements and receipt of the annual renewal fee. In the event any licensee has not made application for renewal of license, furnished proof of compliance with continuing education requirements and paid the annual renewal fee for the current year within thirty days of his license renewal date of any given year, the license shall expire. The commission may, in its discretion, require the person whose license has expired to apply for a license as if he had not been previously licensed under Chapter 61, Article 29 NMSA 1978 and further require that he be re-examined. The commission shall require the person whose license has expired to pay when he applies for a license, in addition to any other fee, a late fee of one hundred dollars ($100). If, during a period of one year from the date the license expires, the person or his spouse is either absent from this state on active duty military service or the person is suffering from an illness or injury of such severity that the person is physically or mentally incapable of making application for a license, payment of the late fee and re-examination shall not be required by the commission if, within three months of the person's permanent return to this state or sufficient recovery from illness or injury to allow the person to make an application, the person makes application to the commission for a license. A copy of that person or his spouse's military orders or a certificate from the applicant's physician shall accompany the application. Any person excused by reason of active duty military service,
illness or injury as provided for in this subsection may make application for a license without imposition of the late fee. All fees collected pursuant to this subsection shall be

disposed of in accordance with the provisions of Section 61-29-8 NMSA 1978. The revocation of a broker's license shall automatically suspend every real estate salesperson's license granted to any person by virtue of his association with the broker whose license has been revoked, pending a change of broker and the issuance of a new license. Such new license shall be issued without charge if granted during the same year in which the license was granted.

D. Each resident licensed broker shall maintain a fixed office within this state, which shall be so located as to conform with local regulations. Each licensed broker shall maintain a sign on his office of such size and content as the commission shall prescribe. In making application for a license or for a change of address, the licensee shall verify that his office conforms with local regulations.

The commission shall hold the license on inactive status. It is unlawful for any real estate salesperson to perform any of the acts contemplated by Chapter 61, Article 29 NMSA 1978 either directly or indirectly under authority of such license after his association has been terminated and his license as salesperson has been returned to the commission as provided in that article until the appropriate fee has been paid and the license has been reissued by the commission."

Section 2

Section 2. Section 40-4A-4.1 NMSA 1978 (being Laws 1990, Chapter 30, Section 1, as amended) is amended to read:

"40-4A-4.1. IMMEDIATE CHILD SUPPORT INCOME WITHHOLDING.--

A. In any judicial proceeding in which child support is ordered, modified or enforced and which proceeding is brought or enforced pursuant to Title IV-D of the Social Security Act (42 U.S.C. □651 et seq.) as provided in Section 27-2-27 NMSA 1978, the income of the support obligor shall be subject to immediate income withholding regardless of the existence of any child support arrearage or delinquency. Effective January 1, 1994 in proceedings in which child support services are not being provided pursuant to Title IV-D and the initial child support order is issued in the state on or after January 1, 1994, the income of the support obligor shall be subject to immediate income withholding regardless of the existence of any child support arrearage or delinquency.

B. As part of the court or administrative order establishing, modifying or enforcing the child support obligation, the court shall issue the order to withhold.

C. The order to withhold shall state:

(1) the style, docket number and court having jurisdiction of the cause;

(2) the name, address and, if available, the social security number of the obligor;

(3) the amount and duration of the child support payments; and, if any of the ordered amount is toward satisfaction of an arrearage or delinquency up to the date of the order, the amount payable to current and past-due support shall be specified, together with the total amount of the delinquency or arrearage, including judgment interest, if any;

(4) the name and date of birth of the child for whom support is ordered and the name of the obligee;

(5) the name and address of the person or agency to whom the payment is to be made, together with the agency's internal case number; and

(6) any other information deemed necessary to effectuate the order.

D. Payments shall be made through the appropriate public office as defined in the Support Enforcement Act, with the exception of payments provided pursuant to Title IV-D of the Social Security Act which shall be made directly to the department.

E. The maximum amount withheld pursuant to this section and any other garnishment shall not exceed fifty percent of the obligor's income.

F. The order of a withholding shall be mailed by the Title IV-D agency or the support obligee, obligee's attorney or court by certified mail to the payor. The payor shall pay over income as provided by and in compliance with the procedures of Section 40-4A-8 NMSA 1978.

G. The court may provide an exception to the immediate income withholding required by this section if it finds good cause for not ordering immediate withholding. The burden shall be on the party claiming good cause to raise the issue and demonstrate the existence of good cause to the court. In the event of a finding of good cause, the court shall make a written finding in the order specifying the reasons or circumstances justifying the good-cause exception and why income withholding would not be in the best interest of the child. If the order is one modifying a support obligation and immediate income withholding is not ordered, the order must include a finding that the obligor has timely paid support in the past. The order shall provide that the obligor shall be subject to withholding if a one-month support delinquency accrues.

H. The court shall make an exception to the immediate income withholding required by this section if the parties to the proceeding enter into a written agreement providing for alternative means of satisfying the child support obligation. Such an agreement shall be incorporated into the order of the court. For the purposes of this subsection, the support obligee shall be considered to be the department in the case of child support obligations that the state is enforcing pursuant to an assignment of support rights to it as a condition of the assignor's receipt of public assistance. The agreement shall contain the signatures of a representative of the department and the custodial parent.

I. Notwithstanding the provisions of Subsection G of this section, immediate income withholding shall take place if the child support obligor so requests. The notice to withhold shall be filed with the clerk of the district court and the requirements of Subsection C of this section, Subsections D, E and F of Section 40-4A-5, Sections 40-4A-6, 40-4A-8, 40-4A-10 and 40-4A-11 NMSA 1978 shall apply.

J. A court shall order a wage withholding effective on the date on which a custodial parent requests such withholding to begin if the court determines, in accordance with such procedures and standards as it may establish, that the request should be approved notwithstanding:

(1) the absence of a support delinquency of at least one month;

(2) a finding of good cause under Subsection G of this section; or

(3) an agreement under Subsection H of this section.

K. The standards and procedures established for purposes of Subsection J of this section shall provide for the protection of the due process rights of the absent parent, appropriate notices and the right to a hearing under the Support Enforcement Act.

L. Wages not subject to withholding under Subsection J of this section shall still be subject to withholding on an earlier date as provided by law.

M. Notwithstanding any other provision of this section, wages not subject to withholding because of a finding of good cause under Subsection G of this section shall not be subject to withholding at the request of a custodial parent unless the court changes its determination of good cause not to initiate immediate wage withholding.

N. In the event a child support obligor accrues a delinquency in an amount equal to at least one month's support obligation and notwithstanding any previous agreement or court finding to the contrary, income withholding shall issue against the support obligor and the procedures set out in Section 40-4A-4 NMSA 1978 shall be followed. Such withholding shall terminate only upon the termination of all obligations imposed by the order of support and payment in full of all enforceable child support delinquencies."

Section 3

Section 3. Section 40-4A-12 NMSA 1978 (being Laws 1985, Chapter 105, Section 12, as amended) is amended to read:

"40-4A-12. INTERSTATE WITHHOLDING BY REGISTRATION OF FOREIGN SUPPORT ORDER.--

A. Upon filing of a certified copy of a foreign order for support containing an income withholding provision, the clerk of the district court shall docket the case and inform the obligee of this action. The foreign order for support filed in accordance with this section shall constitute a legal basis for income withholding in this state. Upon filing the order, together with a notice to withhold income, the order may b served upon the payor and obligor by prepaid certified mail or by any method provided by law for service

of summons. The payor shall promptly notify the obligor of receipt of service. Proof of service shall be filed with the clerk of the district court. The obligor may contest the validity or enforcement of the income withholding by filing a petition to stay income withholding within twenty days after service of the order and notice. If the obligor files a petition to stay, the court shall hear and resolve the matter no later than forty-five days following service of the order and notice to withhold. The procedure and grounds for contesting the validity and enforcement of the income withholding are the same as those available for contesting an income withholding notice and order in this state. The obligor shall give notice of the petition to stay to the support enforcement agency providing services to the obligee, the person or agency designated to receive payments in the income withholding notice, or if there is no designated person or agency, the obligee.

B. Filing of the order for support shall not confer jurisdiction on the courts of this state for any purpose other than income withholding.

C. If the obligor presents evidence that constitutes a full or partial defense, the court shall, on the request of the obligee, continue the case to permit further evidence relative to the defense to be adduced by either party; provided, however, the court shall order immediate execution as to any undisputed amounts as set forth in Subsection A of Section 40-4A-9 NMSA 1978.

D. In addition to other procedural devices available to a party, any party to the proceeding may adduce testimony of witnesses in another state, including the parties and any of the children, by deposition, written
discovery, photographic discovery such as videotaped depositions, telephone or photographic means. The court on its own motion may direct that the testimony of a person be taken in another state and may prescribe the manner and terms upon which the testimony shall be taken.

E. A court of this state may request the appropriate court or agency of another state to hold a hearing to adduce evidence, to permit a deposition to be taken before the court or agency or to order a party to produce or give evidence under other procedures of that state and may request that certified copies of the evidence adduced in compliance with the request be forwarded to the court of this state.

F. Upon request of a court or agency of another state, a court of this state may order a person in this state to appear at a hearing or deposition before the court to adduce evidence or to produce or give evidence under other procedures available in this state. A certified copy of the evidence adduced, such as a transcript or videotape, shall be forwarded by the clerk of the district court to the requesting court or agency.

G. A person within this state may voluntarily testify by statement or affidavit in this state for use in a proceeding to obtain income withholding outside this state." SB 693

Such deposit shall at all times have a fair market value in an amount of one hundred twenty percent of the health maintenance organization's outstanding liability for uncovered expenditures for enrollees in this state, including incurred but not reported claims, and shall be calculated as of the first day of the month and maintained for the remainder of the month. If a health maintenance organization is not otherwise required

to file a quarterly report, it shall file a report within forty-five days of the end of the calendar quarter with information sufficient to demonstrate compliance with this subsection.

B. The deposit required under Subsection A of this section is in addition to the deposit required under Section 59A-46-13 NMSA 1978 and is an admitted asset of the health maintenance organization in the determination of net worth. All income from such deposits or trust accounts shall be assets of the health maintenance organization and may be withdrawn from such deposit or account quarterly with the approval of the superintendent.

C. A health maintenance organization that has made a deposit may withdraw that deposit or any part of the deposit if a substitute deposit of cash or securities of equal amount and value is made, the fair market value of the deposit exceeds the amount of the required deposit, or the required deposit under Subsection A of this section is reduced or eliminated. Deposits, substitutions or withdrawals may be made only with the prior written approval of the superintendent.

D. The deposit required under Subsection A of this section is in trust and may be used only as provided under this section. Section 15

Section 15. A new Section 59A-46-15 NMSA 1978 is enacted to read:

"59A-46-15. ENROLLMENT PERIOD-- REPLACEMENT COVERAGE IN THE EVENT OF INSOLVENCY.--

A. In the event of an insolvency of a health maintenance organization, upon order of the superintendent, all other carriers that participated in the enrollment

process with the insolvent health maintenance organization at a group's last regular enrollment period shall offer such group's enrollees of the insolvent health maintenance organization a thirty-day enrollment period commencing upon the date of insolvency. Each carrier shall offer such enrollees of the insolvent health maintenance organization the same coverages and rates that it had offered to the enrollees of the group at its last regular enrollment period.

B. If no other carrier had been offered to some groups enrolled in the insolvent health maintenance organization, or if the superintendent determines that the other health benefit plans lack sufficient health care delivery resources to assure that health care services will be available and accessible to all of the group enrollees of the insolvent health maintenance organization, then the superintendent shall allocate equitably the insolvent health maintenance organization's group contracts for such groups among all health maintenance organizations that operate within a portion of the insolvent health maintenance organization's service area, taking into consideration the health care delivery resources and total membership of each health maintenance organization. Each health maintenance organization to which a group or groups are so allocated shall offer such group or groups the health maintenance organization's existing coverage that is most similar to each group's coverage with the insolvent health maintenance organization at rates determined in accordance with the successor health maintenance organization's existing rating methodology.

C. The superintendent shall also allocate equitably the insolvent health maintenance organization's nongroup enrollees that are unable to obtain other coverage among all health maintenance organizations that operate within a portion of the insolent health maintenance organization's service area, taking into consideration the health care delivery resources of each such health maintenance organization. Each health maintenance organization to which nongroup enrollees are allocated shall offer such nongroup enrollees the health maintenance organization's existing coverage for individual or conversion coverage as determined by his type of coverage in the insolvent health maintenance organization at rates determined in accordance with the successor health maintenance organization's existing rating methodology. Successor health maintenance organizations that do not offer direct nongroup enrollment may aggregate all of the allocated nongroup enrollees into one group for rating and coverage purposes.

D. Any carrier providing replacement coverage with respect to group hospital, medical or surgical expense or service benefits within a period of sixty days from the date of discontinuance of a prior health maintenance organization contract or policy providing such hospital, medical or surgical expense or service benefits shall cover immediately all enrollees who were covered validly under the previous health maintenance organization contract or policy at the date of discontinuance and who would otherwise be eligible for coverage under the succeeding carrier's contract, regardless of any provisions of the contract relating to active employment or hospital confinement or pregnancy. For purposes of this section "discontinuance" means the termination of the contract between the group contract holder and a health maintenance organization due to the insolvency of the health maintenance organization, and does not

refer to the termination of any agreement between any individual enrollee and the health maintenance organization.

E. Except to the extent benefits for the condition would have been reduced or excluded under the prior carrier's contract or policy, no provision in a succeeding carrier's contract of replacement coverage that would operate to reduce or exclude benefits on the basis that the condition giving rise to benefits existed before the effective date of the succeeding carrier's contract shall be applied with respect to those enrollees validly covered under the prior carrier's contract or policy on the date of discontinuance."

Section 16

Section 16. A new Section 59A-46-16 NMSA 1978 is enacted to read:

"59A-46-16. FILING REQUIREMENTS FOR RATING INFORMATION.--

A. No premium rate may be used until either a schedule of premium rates or methodology for determining premium rates has been filed with and approved by the superintendent. At the time the health maintenance organization files the rate with the superintendent it shall also file a schedule of benefits to which the rate applies.

B. Either a specific schedule of premium rates, or a methodology for determining premium rates, shall be established in accordance with actuarial principles for various categories of enrollees; provided that the premium applicable to an enrollee shall not be individually determined based on the status of the enrollee's health. A certification by a qualified actuary or other qualified person acceptable to the superintendent as to the appropriateness of the rates or of the use of the methodology, based on reasonable assumptions, shall accompany the filing along with adequate supporting information.

C. The superintendent may disapprove any such rates, or methodology for determining rates, found by him to be excessive, inadequate or unfairly discriminatory, considering the benefits to be provided. If the superintendent disapproves such filing, he shall notify the health maintenance organization, specifying the reasons for his disapproval. A hearing shall be conducted within thirty days after a request in writing by the person filing. The schedule or methodology shall be deemed approved if the superintendent does not disapprove the filing within thirty days, but the superintendent in his sole discretion may postpone taking action for an additional thirty days as necessary for proper consideration of the filing."

(4) any person or the employee of any person who has contracted to provide administrative, management or health care services to a health maintenance organization and who is compensated for those services by the payment of an amount calculated as a percentage of the revenues, net income or profit of the health maintenance organization, if that method of compensation is the sole basis for subjecting that person or the employee of the person to the provisions of the Health Maintenance Organization Law.

C. The superintendent may by rule exempt certain classes of persons from the requirement of obtaining a license if:

(1) the functions they perform do not require special competence, trustworthiness or the regulatory surveillance made possible by licensing; or

(2) other existing safeguards make regulation unnecessary."

B. The superintendent may make or request the secretary of health to make an examination concerning the quality assurance program of the health maintenance organization and of any providers with whom such organization has contracts, agreements or other arrangements as often as is reasonably necessary for the protection of the interests of the people of this state.

C. Every health maintenance organization and provider shall submit its books and records for such examinations and in every way facilitate the completion of the examination. Medical records of individuals and contract providers shall not be subject to such examination. For the purpose of examinations, the superintendent and the secretary
of health may administer oaths to and examine the officers and agents of the health maintenance organization and the principals of such providers concerning their business.

D. The expenses of examinations under this section shall be assessed against the health maintenance organization being examined and remitted to the superintendent.

"59A-46-20. SUSPENSION OR REVOCATION OF CERTIFICATE OF AUTHORITY.--

A. Any certificate of authority issued under the provisions of the Health Maintenance Organization Law may be suspended or revoked, and any application for a certificate of authority may be denied if the superintendent finds that:

(1) the health maintenance organization is operating significantly in contravention of its basic organizational document or in a manner contrary to that described in any other information submitted under Section 59A-46-3 NMSA 1978, unless amendments to such submissions have been filed with and approved by the superintendent;

(3) the health maintenance organization does not provide or arrange for basic health care services;

(4) the secretary of health has certified to the superintendent that:

(b) the health maintenance organization is unable to fulfill its obligations to furnish health care services;

(5) the health maintenance organization is no longer financially responsible and may reasonably be expected to be unable to meet its obligations to enrollees or prospective enrollees;

(6) the health maintenance organization has failed to correct, within the time prescribed by Subsection C of this section, any deficiency occurring due to the health maintenance organization's prescribed minimum net worth being impaired;

(7) the health maintenance organization has failed to implement the grievance procedures required by Section 59A-46-11 NMSA 1978 in a reasonable manner to resolve valid complaints;

(8) the health maintenance organization, or any person on its behalf, has engaged in any practice that under Chapter 59A, Article 16 NMSA 1978 is defined or prohibited as, or determined to be, an unfair method of competition, or an unfair or deceptive act or practice, or fraudulent;

(9) the continued operation of the health maintenance organization would be hazardous to its enrollees; or

(10) the health maintenance organization has otherwise failed substantially to comply with the provisions of the Health Maintenance Organization Law.

B. In addition to or in lieu of suspension or revocation of a certificate of authority pursuant to this section, the applicant or health maintenance organization may be subjected to an administrative penalty of up to five thousand dollars ($5,000) for each cause for suspension or revocation, but if the violation is willful or intentional, the administrative penalty may be up to ten thousand dollars ($10,000).

C. Whenever the superintendent finds that the net worth maintained by any health maintenance organization subject to the provisions of the Health Maintenance Organization Law is less than the minimum net worth required to be maintained pursuant to the provisions of Section 59A-46-13 NMSA 1978, he shall give written notice to the health maintenance organization of the amount of the deficiency and require the health maintenance organization to:

(1) file with the superintendent a plan for correction of the deficiency acceptable to the superintendent; and

(2) correct the deficiency within a reasonable time, not to exceed sixty days, unless an extension of time, not to exceed sixty additional days, is granted by the superintendent.

D. A deficiency found to exist by the superintendent pursuant to the provisions of Subsection C of this section shall be deemed an impairment, and failure to correct the impairment in the prescribed time shall be grounds for suspension or revocation of the certificate of authority of the health maintenance organization or for placing it in conservation, rehabilitation or liquidation.

E. Unless allowed by the superintendent no health maintenance organization or person acting on its behalf may, directly or indirectly, renew, issue or deliver any certificate, agreement or contract of coverage in this state, for which a premium is charged or collected, when the health maintenance organization writing such coverage is impaired, and the fact of such impairment is known to the health maintenance organization or to such person. However, the existence of an impairment shall not prevent the issuance or renewal of a certificate, agreement or contract when the enrollee exercises an option granted under the plan to obtain a new, renewed or converted coverage.

F. A certificate of authority shall not be suspended or revoked or an application for a certificate of authority denied or an administrative penalty imposed unless:

(1) the suspension, revocation, denial or imposition is by written order and is sent to the health maintenance organization or applicant by certified or registered mail; and

(2) the written order states the grounds, charges or conduct on which the suspension, revocation, denial or imposition is based.

G. The health maintenance organization or applicant may in writing request a hearing within thirty days
from the date of mailing of an order suspending or revoking a certificate of authority, denying an application or imposing an administrative penalty. If no written request is made, such order shall be final upon the expiration of the thirty days.

(2) a specific place for the hearing, which may be either in Santa Fe county or in the county where the health maintenance organization's or applicant's principal place of business is located.

I. After a hearing held pursuant to the provisions of Subsection H of this section or upon failure of the health maintenance organization to appear at the hearing, the superintendent shall take whatever action he deems necessary based on written findings and shall mail his decision to the health maintenance organization or applicant.

J. The provisions of Chapter 59A, Article 4 NMSA 1978 shall apply to proceedings under this section to the extent they are not in conflict with Subsection H of this section.

K. When the certificate of authority of a health maintenance organization is suspended, the health maintenance organization shall not, during the period of such suspension, enroll any additional enrollees except newborn children or other newly acquired dependents of existing enrollees, and shall not engage in any advertising or solicitation whatsoever.

L. When the certificate of authority of a health maintenance organization is revoked, that organization shall proceed, immediately following the effective date of the order of revocation, to wind up its affairs, and shall conduct no further business except as may be essential to the orderly conclusion of the affairs of the organization. It shall engage in no further advertising or solicitation whatsoever. The superintendent may, by written order, permit such further operation of the organization as he may find to be in the best interest of enrollees, to the end that enrollees will be afforded the greatest practical opportunity to obtain continuing health care coverage."

The superintendent may apply for an order directing him to rehabilitate, liquidate or conserve a health maintenance organization upon any one or more grounds set out in Chapter 59A, Article 41 NMSA 1978 or when in his opinion the continued operation of the health maintenance organization would be hazardous either to the enrollees or to the people of this state. Enrollees shall have the same priority in the event of liquidation or rehabilitation as the law provides to policyholders of an insurer.

B. For purpose of determining the priority of distribution of general assets, claims of enrollees and enrollees' beneficiaries shall have the same priority as established by Subsection C of Section 59A-41-44 NMSA 1978 for policyholders and beneficiaries of insureds of insurance companies. If an enrollee is liable to any provider for services provided pursuant to and covered by the health care plan, that liability shall have the status of an enrollee claim for distribution of general assets.

C. Any provider who is obligated by statute or agreement to hold enrollees harmless from liability for services provided pursuant to and covered by a health care

plan shall have a priority of distribution of the general assets immediately following that of enrollees and enrollees' beneficiaries as described in Subsection B of this section and immediately preceding the priority of distribution described in Subsection D of Section 59A-41-44 NMSA 1978."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. A new section of the Severance Tax Bonding Act is enacted to read:

"PURPOSE.--It is the purpose of this act to encourage economic development in New Mexico by linking deposit of the severance tax permanent fund in New Mexico financial institutions to an increase in loans to New Mexico businesses and investment in New Mexico government entities and to encourage financial institutions to make the type of loans that meet business needs not addressed by conventional loans and loans guaranteed by federal, state or local agencies."

Section 2

Section 2. A new section of the Severance Tax Bonding Act is enacted to read:

"DEPOSITS IN NEW MEXICO FINANCIAL INSTITUTIONS--LIMITATIONS.--

A. No more than twenty percent of the book value of the severance tax permanent fund may be invested in deposits in New Mexico financial institutions under terms and conditions set by the council in accordance with the provisions of this section.

B. To be eligible for deposits under this section, a financial institution's loans and investments must equal in the aggregate at least one hundred thousand dollars ($100,000). If eligible, a financial institution may qualify for deposits as follows:

(1) a financial institution may qualify for deposits in an amount equal to new loans and investments made by that financial institution after July 1, 1993;

(2) the financial institution shall provide the state investment officer with the necessary documentation and information for each new loan or investment and the state investment officer shall verify that each such loan or investment meets the

requirements of this section and the regulations, guidelines and investment policies adopted pursuant to this section; and

(3) in any calendar year, the state investment officer may increase the deposits in any financial institution only to the extent new loans and investments made by the financial institution have increased over the same period of the prior year.

C. Notwithstanding any other collateral, interest rate or other provisions of law to the contrary governing deposit of public money in Chapter 6, Article 10 NMSA 1978, deposits of the severance tax permanent fund made pursuant to this section shall be governed by the regulations, guidelines and investment policies established by the council and shall not be made until such regulations, guidelines and policies are adopted. Those policies shall provide:

(1) the terms and conditions for pledging of collateral security and the amount and kind of collateral security to be pledged; provided:

(a) no collateral shall be required for deposits of financial institutions rated "A" by the council pursuant to its risk assessment analysis, unless the council in its sole discretion deems it necessary to protect the severance tax permanent fund;

(b) financial institutions not rated "A" by the council shall secure each severance tax permanent fund deposit with security having an aggregate value equal to seventy-five percent of the amount of money deposited by that institution or any greater percentage determined by the council in its sole discretion to be necessary to protect the severance tax permanent fund;

(c) secured deposits shall be secured by: 1) securities of the United States or its agencies or instrumentalities, the state or its agencies or instrumentalities or political subdivisions of the state; 2) securities guaranteed by agencies or instrumentalities of the United States; or 3) New Mexico residential mortgages;

(d) to be rated "A" by the council, a bank must at a minimum have: 1) primary capital at least equal to six percent of assets; 2) net income after taxes at least equal to sixty-one hundredths of one percent of the average assets of the bank for the current quarter and for each of the three previous quarters; and 3) an aggregate amount of nonperforming loans, defined as loans that are at least ninety days past due, that does not exceed thirty-four and nine-tenths percent of primary capital; provided the council in its sole discretion may increase any of the requirements of this paragraph to protect the severance tax permanent fund; and

(e) to be rated "A" by the council, a savings and loan association must have a regulatory net worth equal to at least three percent of total assets and net income after taxes equal to at least thirty hundredths of one percent of

average assets for the current quarter and for each of the previous three quarters; provided the council may increase these requirements or add additional criteria for nonperforming loans as a percentage of primary capital or net worth that are similar to the criteria for banks, as necessary to conform to changing applicable federal regulatory requirements or to protect the severance tax permanent fund;

(2) the rate at which severance tax permanent fund deposits shall bear interest, payable monthly, which shall be at a fixed market rate determined by the council, but in no event shall the rate of interest paid be less than the yield available on comparable maturities of obligations of the United States government, its agencies or instrumentalities or obligations guaranteed by the United States government, its agencies or instrumentalities, whichever is higher;

(3) the terms of maturity, renewal or withdrawal; provided that in no event shall the maturity exceed eight years and the council may withdraw any deposit before maturity without penalty if more than seventy-five percent collateral is required by the rules and regulations adopted by the council; and

(4) such other terms, including the financial condition of the financial institution, as the council deems prudent to protect the severance tax permanent fund and to implement efficiently and effectively the deposit program.

D. In making deposits in New Mexico financial institutions pursuant to this section, the state investment officer shall not deposit from the severance tax permanent fund an amount that exceeds two hundred percent of the total equity capital in the case of banks or two hundred percent of the net worth in the case of savings and loan associations or ten percent of the total of that bank's or the savings and loan association's deposits, whichever is less. These limits shall be based on the most recently published statement of financial condition required by federal or state financial authorities as certified by an authorized officer of the financial institution unless the council has more current reliable information from the financial institution. In the event a financial institution exceeds the limitations set forth in this subsection, the state investment officer may withdraw without penalty the deposits that exceed that limitation. The maximum funds on deposit or the deposit limit in this subsection shall not apply to the state fiscal agent bank as to the funds held by the fiscal agent bank or demand deposits held by a state checking depository bank approved by the state board of finance in accordance with the provisions of Section 6-10-35 NMSA 1978.

E. As used in this section:

For purposes of this paragraph, "business" includes but is not limited to manufacturing; construction; transportation; communications; publishing; wholesale or retail business; restaurants; entertainment; architectural, engineering and other professional services; medical and health services; food processing; farming or ranching; mining and natural resource exploration and development; and research and technology development."

Such deposits may be invested for a term of maturity of eight years or less at an interest rate to be set by the council. Such deposits shall be made and administered by the council and state investment officer in accordance with the law governing deposits of public money, including, but not limited to, Sections 6-10-10, 6-10-16, 6-10-24.1 and 6-10-29 NMSA 1978. As used in this section, "deposit" includes share, share certificate and share draft."

Section 4

Section 4. SAVING CLAUSE.--Notwithstanding the provisions of this act to the contrary, on July 1, 1993, the state investment council may hold to maturity or renew any certificates of deposit in financial institutions, provided such renewals shall mature on or before January 1, 1994, and the provisions of Section 7-27-5.2 NMSA 1978 governing deposits in New Mexico financial institutions shall apply to such certificates prior to maturity and to that renewal. The resolution of reclassification shall not become final and effective until it has been approved by the secretary of interior. Nothing in this subsection shall be construed to limit the authority of the board to prescribe assessments and charges on an ad valorem basis, on an acreage basis or on any other reasonable basis or any combination thereof.

B. As used in this section:

(1) "unitary classification system" means a single system for both irrigable and nonirrigable property in the district; and

(2) "water service charge" means an additional charge levied only against lands which are served by the district's water delivery system."

Section 3

Section 3. A new Section 73-18-8.1 NMSA 1978 is enacted to read:

"73-18-8.1. ASSESSMENTS--APPEALS--CERTAIN DISTRICTS.--

C. In setting water service charges, the board of the district shall assess such charges on a per acre basis on all irrigable acres as they appear on the records of

the district for tracts or rate payers for which water availability under contract occurs and shall set a minimum one-acre charge of at least twenty-eight dollars ($28.00) per acre, but not more than twenty-eight dollars ($28.00) per acre during the first year, and may use the parity index or other cost-of-living index or measure to determine annual adjustments to the water service charges to reflect the increased costs of providing irrigation water. Any landowner seeking irrigation water for land not previously irrigated may request such irrigation water and upon a determination that the water is available and upon execution of a water use contract with the district prior to March 1 of the year in which the water is sought, the landowner upon payment of the water service charge shall receive the irrigation water.

him the sum of money as determined by the court, together with legal interest thereon and costs paid to the court.

H. Not later than September 1 each year, the secretary of the district shall deliver to the county assessor of each county embracing any part of the district a certified copy of the board's annual ad valorem assessment rate.

I. All ad valorem assessments and water service charges of the district constitute prior liens upon the real property on which they are levied as of the date of the action of the board fixing such assessments and charges and such liens shall be enforced in the same manner as assessments of property taxes for state and county purposes are collected and liens thereof are enforced."

For purposes of this provision, in the case of specific property that is subject to a liability for which the recourse of the creditors is limited to such property, only the fair market value of such property in excess of such liability shall be included in the fair market value of the limited liability company's assets.

B. The limited liability company may base a determination that a distribution is not prohibited under Subsection A of this section either on:

(1) financial statements prepared on the basis of accounting practices and principles that are reasonable under the circumstances; or

C. Except as provided in Subsection E of this section, the effect of a distribution under Subsection A of this section is measured as of:

(2) the date distribution is made if it occurs more than one hundred twenty days after the date of authorization.

D. Indebtedness of the limited liability company that it issued as a distribution to its members or the terms of which provide that payment of principal and interest is to be made only if and to the extent that payment of a distribution to members would not be wrongful under this section, is not a liability for purposes of determinations made pursuant to Paragraph (2) of Subsection A of this section.

E. Each payment of principal or interest on indebtedness of a limited liability company that it issued as a distribution shall be treated as a distribution, the effect of which is measured on the date such payment is actually made.

Section 27

Section 27. LIABILITY UPON WRONGFUL DISTRIBUTION.--

A. In addition to any other liabilities, a member or manager who votes for, approves or consents to any distribution that violates any provision of the articles of organization, an operating agreement or Section 26 of the Limited Liability Company Act shall be liable to the limited liability company, jointly but not severally, with all other members or managers so voting, approving or consenting for the amount of the distribution that exceeds what could have been distributed without violating Section 26 of that act, the articles of organization or an operating agreement,
unless the member or manager based his determination that the distribution did not violate such provisions on the statements or other valuation method authorized by Subsection B of Section 26 of that act and had no actual knowledge that rendered his reliance on such statements, valuation or method unwarranted.

B. Each member or manager who is liable pursuant to Subsection A of this section is entitled to contribution:

(1) from each other member or manager who is liable under Subsection A of this section; and

(2) from each member for the amount the member received knowing that the distribution was made in violation of a provision of the articles of organization, an operating agreement or Section 26 of the Limited Liability Company Act.

Section 28

Section 28. RIGHT TO DISTRIBUTION.--At the time a member becomes entitled to receive a distribution, the member has the status of and is entitled, with respect to the distribution, to all remedies available to a creditor of the limited liability company. A member to whom a limited liability company is indebted as a consequence of a

distribution to such member, which is not prohibited by Section 26 of the Limited Liability Company Act, shall be a creditor at parity with the limited liability company's other general unsecured creditors, except to the extent that the limited liability company's indebtedness to such member is subordinated by agreement.

Section 29

Section 29. OWNERSHIP OF PROPERTY BY THE LIMITED LIABILITY COMPANY.--

A. Property transferred to or otherwise acquired by a limited liability company is property of the limited liability company and not of the members. A member has no interest in an item of limited liability company property.

B. Property acquired or owned by the limited liability company shall be acquired, held and conveyed in the name of the limited liability company. A limited liability company may acquire any estate in real or personal property in the name of the limited liability company, and title to any estate so acquired shall vest in the limited liability company rather than in the members.

C. Property may be owned by a limited liability company, even though the property is not acquired or held in its name.

D. Subject to Subsection G of this section, property is presumed to be owned by the limited liability company if it is acquired in the name of the limitd liability company.

E. Subject to Subsection G of this section, property is presumed to be owned by the limited liability company if it is purchased with funds of the limited liability company, even if it is acquired in the name of a member or other person.

F. Subject to Subsection G of this section, property is presumed to be the property of one or more members or other persons if it is acquired in the names of such persons without use of funds of the limited liability company, even though the property is used for purposes of the business of the limited liability company.

G. Real property and other property held of public record otherwise than in the name of the limited liability company, the ownership of which is customarily publicly recorded, shall not be deemed to be owned by the limited liability company to the prejudice of a person who did not have actual knowledge of the limited liability company's ownership.

Section 30

Section 30. TRANSFER OF PROPERTY OF LIMITED LIABILITY COMPANY.--

A. Except as provided in Subsection E of this section, Section 42 or 43 of the Limited Liability Company Act or otherwise in the articles of organization or an operating agreement, title to property of a limited liability company that is held in the name of the limited liability company may be transferred by an instrument of transfer executed by any member in the name of the limited liability company.

B. Title to property of a limited liability company that is held in the name of one or more members or managers with an indication in the instrument transferring title to the property to them of their capacity as members or managers of a limited liability company, or of the existence of a limited liability company, even if the name of the limited liability company is not indicated, may be transferred by an instrument of transfer executed by the one
or more members or managers in whose name title is held.

C. Property transferred under Subsection A or B of this section, or the proceeds of that property, may be recovered by the limited liability company if it proves that the act of the person executing the instrument of transfer did not bind the limited liability company, unless the initial transferee, or a person claiming through the initial transferee, gave value without having notice that the person who executed the instrument on behalf of the limited liability company lacked authority to bind the limited liability company.

D. Title to property of a limited liability company that is held in the name of one or more persons other than the limited liability company without an indication in the instrument transferring title to the property to them of their capacity as members or managers of a limited liability company, or of the existence of a limited liability company, may be transferred free of any claims of the limited liability company or of the members, by the persons in whose name title is held, to a transferee who gives value without having notice that the property transferred is the property of a limited liability company.

E. Unless otherwise provided in the articles of organization or an operating agreement, if the articles of organization provide that management of the limited liability company is vested in a manager:

(1) title to property of the limited liability company that is held in the name of the limited liability company may be transferred by an instrument of transfer executed by any manager in the name of the limited liability company; and

(2) a member, acting solely in his capacity as a member, shall not have such authority.

Section 31

Section 31. NATURE OF MEMBERSHIP INTEREST.--A membership interest is personal property.

Section 32

Section 32. ASSIGNMENT OF INTERESTS.--

A. Except as provided in the articles of organization or an operating agreement:

(1) a membership interest or a limited liability company interest is assignable in whole or in part;

(2) until the assignee becomes a member in accordance with the provisions of Subsection A of Section 33 of the Limited Liability Company Act, an assignment entitles the assignee to receive only the distributions and return of capital to which the assignor would be entitled with respect to the interest he assigned if he had not assigned such interest;

(3) an assignment does not of itself dissolve the limited liability company;

(4) until the assignee of a membership interest becomes a member, the assignor continues to be a member and to have the power to exercise all rights of a member, subject to the provisions of Paragraph (2) of this subsection and the members' right to remove the assignor pursuant to Subparagraph (b) of Paragraph (3) of Subsection A of Section 38 of the Limited Liability Company Act;

(5) until the assignee of a membership interest becomes a member, the assignee has no liability of a member solely as a result of the assignment; and

(6) the assignor is not released from any liability that he may have as a member solely as a result of his assignment.

B. Unless otherwise provided by the articles of organization or an operating agreement, the pledge or granting of a security interest, lien or other encumbrance in or against all or any portion of the interest of a member is not an assignment and shall not cause the member to cease to be a member or to cease to have the power to exercise any rights or powers of a member.

Section 33

Section 33. RIGHT OF ASSIGNEE TO BECOME A MEMBER.--

A. Except as otherwise provided in the articles of organization or an operating agreement, an assignee may become a member only if the other members unanimously consent. Such consent shall be evidenced in the manner specified in the articles of organization or an operating agreement; however, in the absence of such

specification, such consent shall be evidenced by an instrument, dated and signed by the other members.

B. An assignee who becomes a member has the rights and powers, and is subject to the restrictions and liabilities of a member under the articles of organization, any operating agreement and the Limited Liability Company Act. An assignee who becomes a member shall not be liable for the obligations of his assignor under that act to make contributions and to return distributions, except to the extent that the assignor and assignee agree that the assignee is so liable. The assignee shall not, however, be obligated as a result of his agreement with his assignor for liabilities of which the assignee had no knowledge at the time the assignee became a member and which could not be ascertained from the articles of organization or an operating agreement.

C. Whether or not an assignee becomes a member, the assignor is not released from his liability pursuant to Section 21 of the Limited Liability Company Act to make contributions to the limited liability company unless all members consent in writing to such a release.

D. A member who assigns his entire interest in the limited liability company ceases to be a member or to have the power to exercise any rights of a member when any assignee of his interest becomes a member as provided in Subsection A of this section.

Section 34

Section 34. INTEREST OF A DECEASED, INCOMPETENT OR TERMINATED MEMBER.--If a member who is an individual dies or a court adjudges him to be incompetent to manage his person or property, or if a member that is not an individual is dissolved, liquidated or otherwise completely terminated, the member's executor, administrator, guardian, conservator, liquidating trustee or other legal representative has all of the rights of an assignee of the member's limited liability company interest.

Section 35

Section 35. RIGHTS OF JUDGMENT CREDITOR OF MEMBER.--On application to a court by any judgment creditor of a member, the court may charge the interest of the member with payment of the unsatisfied amount of the judgment, with interest. To the extent so charged, the judgment creditor has no more rights than those to which an assignee of the member's limited liability company interest would be entitled under the provisions of Section 32 of the Limited Liability Company Act. That act does not deprive any member of the benefit of any exemption laws applicable to his membership interest.

Section 36

Section 36. ADMISSION OF MEMBERS.--

A. Subject to the provisions of Subsection B of this section, a person may become a member of a limited
liability company:

(1) in the case of a person acquiring a membership interest directly from the limited liability company, upon compliance with the articles of organization or an operating agreement or, if neither the articles nor an operating agreement so provides, upon the written consent of all members; and

(2) in the case of an assignee of a member's interest, as provided in Subsection A of Section 33 of the Limited Liability Company Act.

B. The effective time of admission of a member is the later of:

(1) the date the limited liability company is formed; or

(2) the time provided in the articles of organization or an operating agreement or, if no such time is provided in the articles of organization or an operating agreement, then when the person's admission is reflected in the records of the limited liability company.

Section 37

Section 37. VOLUNTARY WITHDRAWAL OF MEMBERS.--

A. Unless the articles of organization or an operating agreement provide otherwise, a member of a limited liability company with perpetual existence has the right to voluntarily withdraw from such limited liability company at any time by giving thirty days prior written notice to the other members, or such other notice as a provision in the articles of organization or an operating agreement requires.

B. Unless the articles of organization or an operating agreement provide otherwise, a member of a limited liability company for a definite term or particular undertaking has no right to withdraw voluntarily before the expiration of that term or the achievement of that undertaking. If a member of a limited liability company for a definite term or particular undertaking attempts to withdraw voluntarily without a right to do so, such attempt shall be ineffective except that such member shall be deemed to have relinquished by such attempt all of his right and power to vote or to otherwise participate thereafter, in any way, in management or control of the limited liability company.

C. Unless the articles of organization or an operating agreement provide otherwise, a member who elects voluntarily to withdraw pursuant to a right to do so shall be entitled to receive, within a reasonable time following the effective date of such withdrawal, the fair market value of his limited liability company interest. From and after the effective date of such withdrawal he shall cease to be a member and shall be deemed to have relinquished all right and power to vote or to otherwise participate in

any way in the management or control of the limited liability company or to participate in distributions or otherwise to receive a return of capital from the limited liability company.

Section 38

Section 38. EVENTS OF DISSOCIATION.--

A. A member ceases to be a member of a limited liability company upon the occurrence of one or more of the following events:

(3) the member is removed as a member:

(a) in accordance with a provision in the articles of organization or an operating agreement; or

(7) in the case of a member that is an estate, the distribution by the fiduciary of the estate's entire interest in the limited liability company.

C. The members may provide in the articles of organization or an operating agreement for other events the occurrence of which result in a member ceasing to be a member of the limited liability company.

D. A member who ceases to be a member of a limited liability company shall no longer be entitled to vote or to participate in the management or control of the limited liability company or to demand information pursuant to the Limited Liability Company Act, but may, depending upon the circumstances, continue to hold a limited liability company interest in such limited liability company.

"4-62-1. REVENUE BONDS--AUTHORITY TO ISSUE--PLEDGE OF REVENUES--LIMITATION ON TIME OF ISSUANCE.--

A. In addition to any other law authorizing a county to issue revenue bonds, a county may issue revenue bonds pursuant to Chapter 4, Article 62 NMSA 1978 for the purposes specified in this section. The term "pledged revenues", as used in Chapter 4, Article 62 NMSA 1978, means the revenues, net income or net revenues authorized to be pledged to the payment of particular revenue bonds as specifically provided in Subsections B through F of this section.

B. Gross receipts tax revenue bonds may be issued for any one or more of the following purposes:

A county may pledge irrevocably any or all of the revenue from the first one-eighth of one percent increment of the county gross receipts tax for payment of principal and interest due in connection with, and other expenses related to, gross receipts tax revenue bonds. If the county gross receipts tax revenue from the first one-eighth of one percent increment of the county gross receipts tax is pledged for payment of principal and interest as authorized by this subsection, the pledge shall require the revenues received from that increment of the county gross receipts tax to be deposited into a special bond fund for payment of the principal, interest and expenses. At the end of each fiscal year, any money remaining in the special bond fund after the annual obligations for the bonds are fully met may be transferred to any other fund of the county.

C. Fire protection revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing, improving, constructing, purchasing, furnishing, equipping or rehabilitating any independent fire district project or facilities, including, where applicable, purchasing, otherwise acquiring or improving the ground for the project, or any combination of such purposes. A county may pledge irrevocably any or all of the net revenues from the operation of the utility or joint utility for which the particular utility or joint utility bonds are issued to the payment of principal and interest due in connection with, and other expenses related to, utility or joint utility revenue bonds. These bonds may be referred to in Chapter 4, Article 62 NMSA 1978 as "utility revenue bonds" or "joint utility revenue bonds".

G. Project revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing, improving, constructing, purchasing, furnishing, equipping or rehabilitating any revenue-producing project, including, as applicable, purchasing, otherwise acquiring or improving the ground therefor, and including but not limited to acquiring and improving parking lots, or may be issued for any combination of the foregoing purposes. The county may pledge irrevocably any or all of the net revenues from the operation of the revenue-producing project for which the particular project revenue bonds are issued to the payment of the interest on and principal of the project revenue bonds. The net revenues of any revenue-producing project may not be pledged to the project revenue bonds issued for any other revenue-producing project that is clearly unrelated in nature; but nothing in this subsection prevents the pledge to any of the project revenue bonds of any revenues received from any existing, future or disconnected facilities and equipment that are related to and that may constitute a part of the particular revenue-producing project. However, any period of time during which a particular revenue bond issue is in litigation shall not be counted in determining the expiration date of that issue.

I. No bonds may be issued by a county, other than an H class county, to acquire, equip, extend, enlarge, better, repair or construct any utility unless such utility is regulated by the New Mexico public utility commission under the Public Utility Act and the issuance of the bonds is approved by the commission. For purposes of Chapter 4, Article 62 NMSA 1978, a "utility" includes but is not limited to any water, wastewater, sewer, gas or electric utility or
joint utility serving the public. H class counties shall obtain New Mexico public utility commission approvals required by Section 3-23-3 NMSA 1978.

J. Any law that imposes or authorizes the imposition of a county gross receipts tax, a county environmental services gross receipts tax, a county fire protection excise tax or the gasoline tax, or that affects any of those taxes, shall not be repealed or amended in such a manner as to impair any outstanding revenue bonds that are issued pursuant to Chapter 4, Article 62 NMSA 1978 and that may be secured by a pledge of those taxes unless the outstanding revenue bonds have been discharged in full or provision has been fully made therefor.

In order to enforce the rights of custody or visitation, a man presumed to be the father as a result of filing a written acknowledgment shall seek an appropriate judicial order in an action filed for that purpose.

B. If two or more men are presumed under this section to be the child's father, an acknowledgement by one of them may be effective only with the written consent of the other or pursuant to Subsection C of this section.

C. A presumption under this section may be rebutted in an appropriate action only by clear and convincing evidence. If two or more men are presumed under this section to be the father of the same child, paternity shall be established as provided in the Uniform Parentage Act. If the presumption has been rebutted with respect to one man, paternity of the child by another man may be determined in the same action, if he has been made a party.

D. A man is presumed to be the natural father of a child if, pursuant to blood or genetic tests properly performed by a qualified individual and evaluated by an expert, including deoxyribonucleic acid (DNA) probe technique tests under the Uniform Parentage Act, the probability of his being the father is ninety-nine percent or higher."

Section 4

Section 4. Section 40-11-9 NMSA 1978 (being Laws 1986, Chapter 47, Section 9) is amended to read:

"40-11-9. PARTIES.--The child may be made a party to the action. If the child is a party and a minor, he shall be represented by his general guardian or a guardian ad litem appointed by the court, or both. The custodian may act as guardian under this section. The court may align the parties."

"40-11-11. PRE-TRIAL RECOMMENDATIONS.--

A. On the basis of the information produced at the pretrial hearing, the judge, hearing officer or master conducting the hearing shall evaluate the probability of determining the existence or nonexistence of the father and child relationship in a trial. On the basis of the evaluation, an appropriate recommendation for settlement shall be made to the parties. Based upon the evaluation, the judge, hearing officer or master may enter an order for temporary support consistent with the child support guidelines as provided in Section 40-4-11.1 NMSA 1978.

B. If the parties accept a recommendation made in accordance with Subsection A of this section, judgment shall be entered accordingly.

C. If a party refuses to accept a recommendation made in accordance with Subsection A of this section and blood tests have not been taken, the court shall require the parties to submit to blood tests, if practicable.
Thereafter, the judge or master shall make an appropriate final recommendation. If a party refuses to accept the final recommendation, the action shall be set for trial and a party's acceptance or rejection of the recommendation shall be treated as any other offer of settlement with respect to its admissibility as evidence in subsequent proceedings.

D. The child's guardian may accept or refuse to accept a recommendation under this section.

E. The informal hearing may be terminated and the action set for trial if the judge or master conducting the hearing finds it unlikely that all parties would accept a recommendation he might make under Subsection A or C of this section."

Section 6

Section 6. Section 40-11-12 NMSA 1978 (being Laws 1986, Chapter 47, Section 12, as amended) is amended to read:

"40-11-12. BLOOD TESTS.--

B. The court, upon reasonable request by a party, shall order that independent tests be performed by other experts qualified as examiners of blood types or qualified as experts in the administration of genetic tests, including deoxyribonucleic acid (DNA) probe technique tests.

C. In all cases, the court shall determine the number and qualifications of the experts.

D. If a putative father refuses to comply with an order for testing pursuant to this section, the court may enter a judgment of parentage against him.

E. If the mother refuses to comply with an order for testing pursuant to this section, the court may dismiss the case without prejudice."

Section 7

Section 7. Section 40-11-15 NMSA 1978 (being Laws 1986, Chapter 47, Section 15, as amended) is amended to read:

"40-11-15. JUDGMENT OR ORDER.--

A. The judgment or order of the court determining the existence or nonexistence of the parent and child relationship is determinative for all purposes.

B. If the judgment or order of the court is at variance with the child's birth certificate, the court shall order that a new birth certificate be issued.

C. The judgment or order may contain any other provision directed against or on behalf of the appropriate party to the proceeding concerning the duty of past and future support, the custody and guardianship of the child, visitation with the child, the furnishing of bond or other security for the payment of the judgment or any other matter within the jurisdiction of the court. The judgment or order may direct the father to pay the reasonable expenses of the mother's pregnancy, birth and confinement. The court shall order child support retroactive to the date of the child's birth pursuant to the provisions of Sections 40-4-11 through 40-4-11.3 NMSA 1978.

D. Support judgments or orders ordinarily shall be for periodic payments which may vary in amount. In the best interest of the child, a lump sum payment or the purchase of an annuity may be ordered in lieu of periodic payments of support; provided, however, a lump sum payment shall not thereafter deprive a state agency of its right to reimbursement from an appropriate party should the child become a recipient of public assistance.

E. In determining the amount to be paid by a parent for support of the child or children, a court, child support hearing officer or master shall make such determination in accordance with the provisions of the child support guidelines of Section 40-4-11.1 NMSA 1978."HB 656

CHAPTER 288

RELATING TO HORSE RACING; PROVIDING FOR UNCLAIMED WINNING PARI-MUTUEL TICKETS; AMENDING A SECTION OF THE NMSA 1978; DECLARING AN EMERGENCY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. Section 60-1-10 NMSA 1978 (being Laws 1933, Chapter 55, Section 6, as amended) is amended to read:

"60-1-10. PARI-MUTUEL METHOD LEGALIZED--MAXIMUM COMMISSIONS--HORSEMEN'S COMMISSION--GAMBLING STATUTES NOT REPEALED--COMMISSION DISTRIBUTION.--

A. Within the enclosure where any horse races are conducted, either as live on-track horse races or as horse races simulcast pursuant to Section 60-1-25 NMSA 1978, and where the licensee has been licensed to use the pari-mutuel method or system of wagering on races, the pari-mutuel system is lawful, but only within the enclosure where races are conducted.

B. The sale to patrons present on the grounds of pari-mutuel tickets or certificates on the races or the use of the pari-mutuel system shall not be construed to be betting, gambling or pool selling and is authorized under the conditions provided by law.

C. There shall be for each class A licensee a commission of nineteen percent of the gross amount wagered on win, place and show through the pari-mutuel system, of which eighteen and three-fourths percent shall be retained by a class A licensee and one-fourth of one percent shall be allocated to the general fund. A commission in an amount determined by the licensee of not less than eighteen and six-eighths percent and not greater than twenty-five percent of the gross amount wagered on win, place and show through the pari-mutuel system shall be retained by a class B licensee. Each class B licensee shall advise the state racing commission not less than thirty days in advance of each horse racing meeting of the percentage the licensee shall retain as commission. From that commission, each class A and class B licensee shall allocate five-eighths of one percent to the New Mexico horse breeders' association weekly for distribution pursuant to the provisions of Subsection C of Section 60-1-17 NMSA 1978.

D. Except as otherwise provided in this subsection, a commission shall be retained by the licensee at the election of each class A licensee of not less than twenty-one percent and not greater than twenty-five percent of the gross amount wagered on exotic wagering and at the election of each class B licensee, and with the approval of the state racing commission, of not less than twenty-one percent and not greater than thirty percent of the gross amount wagered on exotic wagering. For the purpose of this subsection, "exotic wagering" means all wagering other than win, place and show, through the pari-mutuel system. Each licensee shall advise the state racing commission not less than thirty days in advance of each horse racing meeting of the amount of the commission of the gross amount wagered on exotic wagering to be retained by the licensee. From that commission, the licensee shall allocate one and three-eighths percent to the New Mexico horse breeders' association weekly for distribution pursuant to the provisions of Subsection C of Section 60-1-17 NMSA 1978.

E. The odd cents of all redistributions to the wagerer over the next lowest multiple of ten from the gross amount wagered through the pari-mutuel system shall be retained by the licensee, with fifty percent of the total being allocated to enhance the race purses of established stake races that include only horses registered as New Mexico bred with the New Mexico horse breeders' association, to be distributed by the New Mexico horse breeders' association pursuant to Paragraph (3) of Subsection C of Section 60-1-17 NMSA 1978 subject to the approval of the state racing commission.

F. All money resulting from the failure of patrons who purchased winning pari-mutuel tickets during the meeting to redeem their winning tickets before the end of the sixty-day period immediately succeeding the closing day of the meeting and all money resulting from the failure of patrons who purchased pari-mutuel tickets that were entitled to refund but were not refunded during the same sixty-day period shall be apportioned as follows:

(1) thirty-three and thirty-three hundredths percent shall be retained by the licensee;

(2) thirty-three and thirty-four hundredths percent shall be distributed to the New Mexico horse breeders' association to enhance each track's established overnight purses for races that include only horses registered as New Mexico bred with the New Mexico horse breeders' association pursuant to Paragraph (3) of Subsection C of Section 60-1-17 NMSA 1978, subject to the approval of the state racing commission; and

(3) thirty-three and thirty-three hundredths percent shall be allocated to horseman's race purses.

G. To promote and improve te quality of horse racing and simulcasting and the participation of interested persons in horse racing in New Mexico, one-half of one percent of the gross amount wagered on simulcast horse races at each licensed racetrack in New Mexico that receives simulcast horse races shall be allocated by each

licensee for distribution to the New Mexico horsemen's association, provided that at least one-quarter of one percent of the gross amount wagered on simulcast races that is so allocated is used solely for medical benefits for the members of the New Mexico horsemen's association, and provided further that the remaining one-quarter of one percent of the gross amount wagered on simulcast races that is so allocated shall be used to enhance purses at each such licensed racetrack. The state racing commission shall by regulation provide for the timing and manner of the distribution required by this subsection and shall audit, or arrange for an independent audit of, the disbursement required by this subsection.

H. Fifty percent of the net retainage of each licensee shall be allocated to race purses. For purposes of this section, "net retainage" of the licensee means the commission retained by the licensee on all forms of wagers minus:

(1) the taxes delineated in Sections 60-1-8 and 60-1-15 NMSA 1978;

(2) money allocated to the New Mexico horse breeders' association by this section and Section 60-1-17 NMSA 1978;

(3) money allocated to the New Mexico horsemen's association by this section;

60-1-25 NMSA 1978, provided that:

(a) the deduction for each licensee shall be a portion of five percent of the gross amount wagered at all the sites receiving the same simulcast horse races;

(b) the deduction portion for each licensee shall be an amount allocated to the licensee by agreement voluntarily reached among all the licensees sending or receiving the same simulcast horse races; and

(c) the deduction portion for each licensee shall be an amount allocated to the licensee by the state racing commission if all the licensees sending or receiving the same simulcast horse races fail to reach a voluntary agreement under Subparagraph (b) of this paragraph; and

(5) a deduction for fees and commissions incurred to receive interstate simulcasts pursuant to Section 60-1-25 NMSA 1978.

I. Existing statutes of this state against horse racing on Sundays or on bookmaking, pool selling or other methods of wagering on the racing of horses are not repealed but are hereby expressly continued in effect, with the exception that the

operation of the pari-mutuel method or system in connection with the racing of horses, when used as provided by law, is lawful.

J. In the event any money paid or allocated to the New Mexico horse breeders' association or the New Mexico Appaloosa racing association pursuant to the Horse Racing Act cannot be paid to or allocated or administered by such associations, then the state racing commission, or such other organization as may be designated, retained or absolutely controlled by the state racing commission, shall receive all such money and shall pay, allocate and administer all such money pursuant to the provisions of Section 60-1-17 NMSA 1978. If the state racing commission or its controlled designee is required to pay, allocate or administer money on behalf of the New Mexico horse breeders' association or the New Mexico Appaloosa racing association pursuant to this subsection, then the maximum percentage of funds set forth in Paragraph (3) of Subsection C of Section 60-1-17 NMSA 1978 shall be paid by the state racing commission to the New Mexico horse breeders' association or the New Mexico Appaloosa racing association as a fee to obtain the certification of the registry of the dam and stud of the New Mexico bred horse.

K. In the event any money paid or allocated to the New Mexico horsemen's association pursuant to the Horse Racing Act cannot be paid to or allocated or administered by the association, then the state racing commission, or such other organization as may be designated, retained or absolutely controlled by the state racing commission, shall receive all such money and shall pay, allocate and administer all such money to achieve the purposes of the provisions of this section."

The standards shall include narrative standards and as appropriate, the designated uses of the waters and the water quality criteria necessary to protect such uses. The standards shall at a minimum protect the public health or welfare, enhance the quality of water and serve the purposes of the Water Quality Act. D. shall adopt, promulgate and publish regulations to prevent or abate water pollution in the state or in any specific geographic area, aquifer or watershed of the state or in any part thereof, or for any class of waters, and to govern the disposal of septage and sludge and the use of sludge for various beneficial purposes. K. shall not require a permit respecting the use of water in irrigated agriculture, except in the case of the employment of a specific practice in connection with such irrigation that documentation or actual case history has shown to be hazardous to public health or the environment; and

L. shall coordinate application procedures and funding cycles for loans an grants from the federal government and from other sources, public or private, with the local government division of the department of finance and administration pursuant to the New Mexico Community Assistance Act."

C. Prior to the issuance of a permit, the constituent agency may require the submission of plans, specifications and other relevant information that it deems necessary.

D. The commission shall by regulation set the dates upon which applications for permits shall be filed and designate the time periods within which the constituent agency shall, after the filing of an administratively complete application for a permit, either grant the permit, grant the permit subject to conditions or deny the permit.

Determination of the discharges' effect on groundwater shall be measured at any place of withdrawal of water for present or reasonably foreseeable future use. Determination of the discharges' effect on surface waters shall be measured at the point of discharge; or

(4) the applicant has, within the ten years immediately preceding the date of submission of the permit application:

(a) knowingly misrepresented a material fact in an application for a permit;

(b) refused or failed to disclose any information required under the Water Quality Act;

(c) been convicted of a felony or other crime involving moral turpitude;

(d) been convicted of a felony in any court for any crime defined by state or federal law as being a restraint of trade, price-fixing, bribery or fraud;

(e) exhibited a history of willful disregard for environmental laws of any state or the United States; or

(f) had an environmental permit revoked or permanently suspended for cause under any environmental laws of any state or the United States.

"45-5-310. TEMPORARY GUARDIANS.--

A. When a petition for guardianship has been filed, but adherence to the procedures set out in this section would cause immediate and irreparable harm to the alleged incapacitated person's physical health, the court may appoint a temporary guardian prior to the final hearing and decision on the petition, subject to the requirements of this section.

B. Upon motion of the petitioner, the court shall schedule a hearing on the appointment of a temporary guardian for the earliest possible date, appoint counsel for the alleged incapacitated person and give notice as provided in Section 45-5-309 NMSA 1978. D. A temporary guardian is entitled to the care and custody of the alleged incapacitated person, and the authority of any permanent guardian previously appointed by the court is suspended as to those specific matters granted to the temporary guardian by the court. A temporary guardian may be removed by the court at any time. A temporary guardian shall make any report the court requires. In all other respects, the provisions of the Probate Code concerning guardians apply to temporary guardians.

E. Appointment of a temporary guardian shall have the effect of limiting the legal rights of the individual as specified in the court order. Appointment of a temporary guardian shall not be evidence of incapacity."

A. Any person deemed to be qualified by the court may be appointed guardian of an incapacitated person, except that no individual who operates or is an employee of a boarding home, residential care home, nursing home, group home or other similar facility in which the incapacitated person resides may serve as guardian for the incapacitated person, except an employee may serve in such capacity when related by affinity or consanguinity.

B. Persons who are not disqualified have priority for appointment as guardian in the following order:

The court shall specify those powers that the limited guardian shall have and may further restrict each power so as to permit the incapacitated person to care for himself commensurate with his ability to do so. A person for whom a limited guardian has been appointed retains all legal and civil rights except those that have been specifically granted to the limited guardian by the court. The limited guardian shall exercise his supervisory powers over the incapacitated person in a manner that is the least restrictive form of intervention consistent with the order of the court.

B. (2) if entitled to custody of the incapacitated person, a guardian shall make provision for the care, comfort and maintenance of the incapacitated person and, whenever appropriate, arrange for his training and education. (3) a guardian may consent or withhold consent that may be necessary to enable the incapacitated person to receive or refuse medical or other professional care, counsel, treatment or service. That decision shall be made in accordance with the values of the incapacitated person, if known, or the best interests of the incapacitated person if the values are not known;

(4) if no conservator for the estate of the incapacitated person has been appointed, the guardian may institute proceedings to compel any person under a duty to support the incapacitated person or to pay sums for the welfare of the incapacitated person;

(6) the guardian shall exercise his supervisory powers over the incapacitated person in a manner that is least restrictive of his personal freedom and consistent with the need for supervision.

C. Any guardian of an incapacitated person for whom a conservator also has been appointed shall control the care and custody of the incapacitated person and is entitled to receive reasonable sums for his services and for room and board furnished to the incapacitated person. The guardian may request the conservator to expend the

incapacitated person's estate by payment to third persons or institutions for the incapacitated person's care and maintenance."

B. Upon receipt of a petition for appointment of a conservator for reasons other than minority, the court shall set a date for hearing. Unless the person to be protected is already represented by an attorney of his own choice, the court shall appoint an attorney to represent him in the proceeding. The court-appointed attorney shall have the duties of a guardian ad litem as set forth in Section 45-5-404.1 NMSA 1978.

Unless otherwise ordered by the court, the appointment of the visitor terminates and the visitor is discharged from his duties upon entry of the order appointing the conservator and acceptance of the appointment by the conservator.

E. The person to be protected shall be present at the hearing on the issues raised by the petition and any response to the petition, unless the court determines it is not in the best interest of the person for whom a conservator is sought to be present because of a threat to the health or safety of the person for whom a conservator is sought or others as determined by the court. The court upon request or its own motion may conduct hearings at the location of the person to be protected if he is unable to be present in court.

I. Alternatively, the court may appoint a full conservator, as requested in the petition, or a limited conservator and confer specific powers of conservatorship after finding in the record based on clear and convincing evidence that:

(1) the person to be protected is totally incapacitated or is incapacitated only in specific areas as alleged in the petition;

(2) the conservatorship is necessary as a means of effectively managing the estate or financial affairs, or both, of the person to be protected;

(3) there are not available alternative resources that enable the effective management of the estate and financial affairs of the person to be protected;

(4) the conservatorship is appropriate as the least restrictive form of intervention consistent with the preservation of the property of the to be protected; and

(5) the proposed conservator is both qualified and suitable and is willing to serve.

J. After hearing, upon finding that a basis for the appointment of a conservator has been established, the court shall make an appointment of a conservator. The court shall appoint a limited conservator if it determines that the incapacitated person is able to manage some but not all aspects of his estate and financial affairs. The court shall specify those powers that the limited conservator shall have and may further restrict each power so as to permit the incapacitated person to care for his estate and financial affairs commensurate with his ability to do so.

K. A person for whom a conservator has been appointed retains all legal and civil rights except those that have been specifically granted to the conservator by the court. The conservator shall exercise his supervisory powers over the estate and financial affairs of the incapacitated person in a manner that is the least restrictive form of intervention consistent with the order of the court.

L. The rules of evidence shall apply and no hearsay evidence that is not otherwise admissible in a court shall be admitted into evidence except as otherwise provided in the Probate Code.

M. A record of the proceedings shall be made if requested by the person to be protected, his attorney or when ordered by the court. Records, reports and evidence submitted to the court or recorded by the court shall be confidential.

O. Upon request of the petitioner or person to be protected, the court shall schedule a jury trial.

P. Upon entry of an order appointing a conservator, a copy of the order shall be furnished to the person for whom the conservator was appointed and that person's counsel. The order shall contain the name and address of the conservator as well as notice to the person for whom the conservator was appointed of that person's right to appeal the appointment and of that person's right to seek alteration or termination of the conservatorship at any time."

B. Upon motion of the petitioner, the court shall schedule a hearing on the appointment of a temporary conservator for the earliest possible date, appoint counsel for the person to be protected and give notice as provided in Section 45-5-405 NMSA 1978. Upon a finding that serious, immediate and irreparable harm to the estate and financial interests of the person to be protected would result during the pendency of petition, the court shall appoint a temporary conservator and shall specify the temporary conservator's powers in order to prevent serious, immediate and irreparable harm to the property of the person to be protected. The duration of the temporary conservatorship shall not exceed sixty days, except that upon order of the court, the temporary conservatorship may be extended for no more than thirty days.

C. A temporary conservator may be appointed without notice to the person to be protected only if it clearly appears from specific facts shown by affidavit or sworn testimony that serious, immediate and irreparable harm will result to the estate or financial interests of the person to be protected before a hearing on the appointment of

a temporary conservator can be held. The person to be protected shall be notified in a writing by the petitioner within twenty-four hours of the appointment of a temporary conservator in substantial accordance with the provisions of Subsection B of Section 45-5-405 NMSA 1978. On two days' notice to the party who obtained the appointment of a temporary conservator without notice or on such shorter notice to that party as the court may prescribe, the person to be protected may appear and move for dissolution or modification of the court's order, and, in that event, the court shall proceed to hear and determine such motion as expeditiously as the ends of justice require.

D. Appointment of a temporary conservator shall have the effect of limiting the legal rights of the person to be protected. Appointment of a temporary conservator shall not be evidence of incapacity."

C. The proceeds of refunding bonds, including any accrued interest and premium appertaining to the sale of refunding bonds, shall either be immediately applied to the retirement of the bonds being refunded or be placed in escrow in a commercial bank or trust company that possesses and is exercising trust powers and that is a member of the federal deposit insurance corporation, to be applied to the payment of the principal of, interest on and any prior redemption premium due in connection with the bonds being refunded; provided that such refunding bond proceeds including any accrued interest and any premium appertaining to a sale of refunding bonds may be applied to the establishment and maintenance of a reserve fund and to the payment of expenses incidental to the refunding and the issuance of the refunding bonds, the interest on the refunding bonds and the principal of the refunding bonds or both interest and principal as the county may determine. Nothing in this section requires the establishment of an escrow if the refunded bonds become due and payable within one year from the date of the refunding bonds and if the amounts necessary to retire the refunded bonds within that time are deposited with the paying agent for the refunded bonds. Any such escrow shall not necessarily be limited to proceeds of refunding bonds but may include other money available to retire the refunded bonds. Any proceeds in escrow pending such use may be invested or reinvested in bills, certificates of indebtedness, notes or bonds that are direct obligations of or the principal and interest

"66-6-23. DISPOSITION OF FEES.--

A. After the necessary disbursements for refunds and other purposes have been made, the money remaining, except for remittances received within the previous two months that are unidentified as to source or disposition, shall be distributed as follows:

(1) to each municipality, county or fee agent operating a motor vehicle field office, an amount equal to six dollars ($6.00) per driver's license and three dollars ($3.00) per identification card, registration or title transaction performed;

(3) to the state road fund:

(a) an amount equal to one-half of each fee received from motorcycle endorsements; and

(b) an amount equal to the fees provided for in Subsection C of Section 66-5-44 NMSA 1978 and Subsection B of Section 66-5-408 NMSA 1978.

B. The balance, exclusive of unidentified remittances, after having been reduced by the distributions required by Subsection A of this section, shall be further reduced by a distribution of forty-three percent of the balance to the state road fund, and the remainder of the balance shall be transferred or distributed by the state treasurer on or before the last day of the month next after its receipt, as follows:

(1) forty-one and three-tenths percent shall be distributed to the state road fund;

(2) seventeen and six-tenths percent shall be transferred to each county in the proportion, determined by the department in accordance with Subsection C of this section, that the registration fees for vehicles in that county are to the total registration fees for vehicles in all counties;

(3) seventeen and six-tenths percent shall be transferred to the counties, each county receiving an amount equal to the proportion, determined by the secretary of highway and transportation in accordance with Subsection E of this section, that the mileage of public roads maintained by the county is to the total mileage of public roads maintained by all counties of the state. Amounts distributed to each county

in accordance with this paragraph shall be credited to the respective county road fund and be used for the improvement and maintenance of the public roads in the county and to pay for the acquisition of rights-of-way and material pits. For this purpose, the board of county commissioners of each of the respective counties shall certify by April 1 of each year to the secretary of highway and transportation the total mileage as of April 1 of that year; provided that in their report the boards of county commissioners shall identify each of the public roads maintained by them, by name, route and location. Amounts transferred to incorporated municipalities under the provisions of this paragraph shall be used for the construction, maintenance and repair of streets within the municipality and for payment of paving assessments against property owned by federal, county or municipal governments. In any county in which there are no incorporated municipalities, the amount allocated under this paragraph shall be transferred to the county road fund and used in accordance with the provisions of Paragraph (3) of this subsection; and

(5) fourteen and one-tenth percent shall be allocated among the counties in the proportion, determined by the department in accordance with Subsection C of this section, that the registration fees for vehicles in that county are to the total registration fees for vehicles in all counties. The amount allocated to each county shall be transferred to the county and incorporated municipalities within the county in the proportion, determined by the department of finance and administration in accordance with Subsection C of this section, that the computed taxes due for the county and each incorporated municipality within the county bear to the total computed taxes due for the county and incorporated municipalities within the county; for the purposes of this paragraph, the term "computed taxes due" for any jurisdiction means the sum of the net taxable value, as that term is defined in the Property Tax Code, plus the assessed value, as that term is used in the Oil and Gas Ad Valorem Production Tax Act and in the Oil and Gas Production Equipment Ad Valorem Tax Act, for that jurisdiction multiplied by an average of the rates for residential and nonresidential property imposed for that jurisdiction pursuant to Subsection B of Section 7-37-7 NMSA 1978.

C. To carry out the provisions of this section, during the month of June of each year:

(1) the department shall determine and certify to the department of finance and administration the proportions that the department is required to determine by Subsection B of this section using information for the preceding calendar year on the number of vehicles registered in each county based on the address of the owner or place where the vehicle is principally located, the registration fees for the vehicles registered in each county, the total number of vehicles registered in the state and the total registration fees for all vehicles registered in the state; and

(2) the department of finance and administration shall determine the proportions that the department of finance and administration is required to determine by Subsection B of this section based upon the net taxable values, as that term is defined in the Property Tax Code, and assessed values, as that term is used in the Oil and Gas Ad Valorem Production Tax Act and the Oil and Gas Production Equipment Ad Valorem Tax Act, for the preceding tax year and the tax rates imposed pursuant to Subsection B of Section 7-37-7 NMSA 1978 in the preceding September.

D. By June 30 of each year, the department of finance and administration shall determine the appropriate percentage of money to be transferred to each county and municipality for each purpose in accordance with Subsection A of this section based upon the proportions determined by or certified to the department of finance and administration. The percentages determined shall be used to compute the amounts to be transferred to the counties and municipalities during the succeeding fiscal year.

E. The board of county commissioners of each of the respective counties shall, by May 1, 1988 and by April 1 of every year thereafter, certify reports to the secretary of highway and transportation of the total mileage of public roads maintained by each county as of May 1, 1988 and by April 1 of every year thereafter; provided that in their reports the boards of county commissioners shall identify each of the public roads maintained by them by name, route and location. By July 1 of every year, the secretary of highway and transportation shall verify the reports of the counties and revise, if necessary, the total mileage of public roads maintained by each county and the mileage verified by the secretary of highway and transportation shall be the official mileage of public roads maintained by each county. After August 1, 1988, distribution of amounts to any county for road purposes shall be made in accordance with this section.

F. If a county has not made the required mileage certification pursuant to Section 67-3-28.3 NMSA 1978 by May 1, 1988 and by April 1 of every year thereafter, the secretary of highway and transportation shall estimate the mileage maintained by those counties for the purpose of making distribution to all counties, and the amount calculated to be distributed each month to those counties not certifying mileage shall be reduced by one-third each month for that fiscal year and that amount not distributed to those counties shall be distributed equally to all counties which have certified mileages."

"4-62-1. REVENUE BONDS--AUTHORITY TO ISSUE--PLEDGE OF REVENUES--LIMITATION ON TIME OF ISSUANCE.--

A. In addition to any other law authorizing a county to issue revenue bonds, a county may issue revenue bonds pursuant to Chapter 4, Article 62 NMSA 1978 for the purposes specified in this section. The term "pledged revenues", as used in Chapter 4, Article 62 NMSA 1978, means the revenues, net income or net revenues authorized to be pledged to the payment of particular revenue bonds as specifically provided in Subsections B through F of this section.

B. Gross receipts tax revenue bonds may be issued for any one or more of the following purposes:

(1) constructing, purchasing, furnishing, equipping, rehabilitating, making additions to or making

A county may pledge irrevocably any or all of the revenue from the first one-eighth of one percent increment of the county gross receipts tax for payment of principal and interest due in connection with, and other expenses related to, gross receipts tax revenue bonds. If the county gross receipts tax revenue from the first one-eighth of one percent increment of the county gross receipts tax is pledged for payment of principal and interest as authorized by this subsection, the pledge shall require the revenues received from that increment of the county gross receipts tax to be deposited into a special bond fund for payment of the principal, interest and expenses. At the end of each fiscal year, any money remaining in the special bond fund after the annual obligations for the bonds are fully met may be transferred to any other fund of the county.

C. Fire protection revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing, improving, constructing, purchasing, furnishing, equipping or rehabilitating any independent fire district project or facilities, including, where applicable, purchasing, otherwise acquiring or improving the ground for the project, or any combination of such purposes. A county may pledge irrevocably any or all of the net revenues from the operation of the utility or joint utility for which the particular utility or joint utility bonds are issued to the payment of principal and interest due in connection with, and other expenses related to, utility or joint utility revenue bonds. These bonds may be referred to in Chapter 4, Article 62 NMSA 1978 as "utility revenue bonds" or "joint utility revenue bonds".

G. Project revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing, improving, constructing, purchasing, furnishing, equipping or rehabilitating any revenue-producing project, including, as applicable, purchasing, otherwise acquiring or improving the ground therefore, and including but not limited to acquiring and improving parking lots, or may be issued for any combination of the foregoing purposes. The county may pledge irrevocably any or all of the net revenues from the operation of the revenue-producing project for which the partiular project revenue bonds are issued to the payment of the interest on and principal of the project revenue bonds. The net revenues of any revenue-producing project may not be pledged to the project revenue bonds issued for any other revenue-producing project that is clearly unrelated in nature; but nothing in this subsection prevents the pledge to any of the project revenue bonds of any revenues received from any existing, future or disconnected facilities and equipment that are related to and that may constitute a part of the particular revenue-producing project. Any general determination by the governing body that any facilities or equipment are reasonably related to and shall constitute a part of a specified revenue-producing project shall be conclusive if set forth in the proceedings authorizing the project revenue bonds. However, any period of time during which a particular revenue bond issue is in litigation shall not be counted in determining the expiration date of that issue.

I. No bonds may be issued by a county, other than an H class county or a class B county as defined in Section 4-36-8 NMSA 1978, to acquire, equip, extend, enlarge, better, repair or construct any utility unless such utility is regulated by the New Mexico public service commission under the Public Utility Act and the issuance of the bonds is approved by the commission. For purposes of Chapter 4, Article 62 NMSA 1978, a "utility" includes but is not limited to any water, wastewater, sewer, gas or electric utility or joint utility serving the public. H class counties shall obtain New Mexico public service commission approvals required by Section 3-23-3 NMSA 1978.

J. Any law that imposes or authorizes the imposition of a county gross receipts tax, a county environmental services gross receipts tax, a county fire protection excise tax or the gasoline tax, or that affects any of those taxes, shall not be repealed or amended in such a manner as to impair any outstanding revenue bonds that are issued pursuant to Chapter 4, Article 62 NMSA 1978 and that may be secured by a pledge of those taxes unless the outstanding revenue bonds have been discharged in full or provision has been fully made therefor.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1

Section 1. Section 67-3-28.2 NMSA 1978 (being Laws 1986, Chapter 20, Section 125, as amended) is amended to read:

"67-3-28.2. LOCAL GOVERNMENTS ROAD FUND CREATED--USES.--

A. There is created in the state treasury the "local governments road fund" to be administered by the department. All income received from investment of the fund shall be credited to the fund. No money in the fund shall be used by the department to administer any program, and no entity receiving a distribution pursuant to a program requiring matching funds shall use another distribution made pursuant to this section to meet the match required.

B. No more than five hundred thousand dollars ($500,000) annually from the local governments road fund shall be used by the department to purchase at fair market value, for municipalities and counties that can demonstrate financial hardship as determined by the department, automotive, major road and miscellaneous equipment that would otherwise be sold at auction by the department as unusable for department purposes. The department shall adopt rules setting the procedure to carry out the purposes of this subsection.

C. Except for the amount in Subsection B of this section, money in the local governments road fund shall be distributed in the following amounts for the specified purposes:

(1) forty-two percent for the cooperative agreements program to be used solely for the cooperative agreements entered into pursuant to Section 67-3-28 NMSA 1978 and in accordance with the match authorized pursuant to Section 67-3-32 NMSA 1978; provided, however, that distribution amounts made pursuant to this paragraph in each year shall be based on the following allocations:

(a) thirty-three percent for agreements entered into with counties;

(b) forty-nine percent for agreements entered into with municipalities;

(c) fourteen percent for agreements entered into with school districts; and

(d) four percent for agreements entered into with other entities;

(2) sixteen percent for the municipal arterial program to be used solely for the necessary project development, construction, reconstruction, improvement, maintenance, repair and right-of-way and material acquisition of and for those streets which are principal extensions of rural state highways and of other streets

not on the state highway system but which qualify under the designated criteria established by the department. In entering into agreements with municipalities to provide funds for any project qualifying for the municipal arterial program, the department shall give preference to municipalities which contribute an amount equal to at least twenty-five percent of the project cost;

(3) sixteen percent for school bus routes to be used solely for acquiring rights of way and constructing, maintaining, repairing, improving and paving school bus routes and public school parking lots; and

(4) twenty-six percent for the county arterial program to be used for project development, construction, reconstruction, improvement, maintenance, repair and right-of-way and material acquisition of and for county roads for which individual counties have prioritized road projects. Prior to entering into any agreements for projects with the counties for the following fiscal year, in June of each year the department shall determine and certify the amount to which each county is entitled pursuant to the following schedule:

Road Mileage Category Based on Number of Miles Maintained By a County:	Entitlement to County:
400 miles or under	$250 for each mile
401 to 800 miles	$100,000 plus $200 for each mile over 400 miles
801 to 1,200 miles	$180,000 plus $150 for each mile over 800 miles
1,201 to 1,600 miles	$240,000 plus $100 for each mile over 1,200 miles
Over 1,600 miles	$300,000 plus $50 for each mile over 1,600 miles.

If in any year there is an insufficient amount in the fund of the county arterial program to certify the total amount to which all counties are entitled, the department shall decrease the entitlement amount due to each county in the same proportion as the insufficiency is to the total entitlements to all counties. Distribution of an entitlement amount and an agreement entered into with a county for any of the purposes for which the money may be spent requires an amount from the county equal to at least twenty-five percent of the entitlement. Any uncommitted or unencumbered balance remaining in the county arterial program fund at the end of a fiscal year shall be transferred to the cooperative agreement program specified in Paragraph (1) of this subsection for additional funding of that program in the next fiscal year.

C. The department may transfer funds from the state road fund to the local governments road fund to facilitate cash flow for the funding of these local governments

road projects. The administrator of the local governments road fund shall reimburse the state road fund in a timely manner for any such transfers." HB 1004
