A. On or before April 1 of each year, the department shall allocate to each school district, state institution or private school not less than ninety percent of its estimated entitlement as determined from the estimated forty-day membership for the next school year. A school district's, state institution's or private school's entitlement is that portion of the total amount of the annual appropriation less a deduction for a reasonable reserve for emergency expenses that its forty-day membership bears to the forty-day membership of the entire state. For the purpose of this allocation, additional pupils shall be counted as six pupils. The allocation for adult basic education shall be based on a full-time equivalency obtained by multiplying the total previous year's enrollment by .25.

B. On or before January 15 of each year, the department shall recompute each entitlement using the forty-day membership for that year, except for adult basic education, and shall allocate the balance of the annual appropriation adjusting for any over- or under-estimation made in the first allocation.

C. An amount not to exceed fifty percent of the allocations attributed to each school district, state institution or adult basic education center may be used for instructional material not included on the multiple list provided for in Section 22-15-8 NMSA 1978, and up to twenty-five percent of this amount may be used for other classroom materials. The local superintendent may apply to the department for a waiver of the use of funds allocated for the purchase of instructional material either included or not included on the multiple list. If the waiver is granted, the school district shall not be required to submit a budget adjustment request to the department. Adult basic education centers may expend up to one hundred percent of their instructional material funds for items that are not on the multiple list.

D. The department shall establish procedures for the distribution of funds directly to school districts, state institutions and adult basic education centers. The department shall provide payment to a publisher or depository on behalf of a private school for instructional material included on the multiple list provided for in Section 22-15-8 NMSA 1978.

E. A school district, state institution or adult basic education center that has funds remaining for the purchase of instructional material at the end of the fiscal year shall retain those funds for expenditure in subsequent years. Any balance remaining in an instructional material account of a private school at the end of the fiscal year shall remain available for reimbursement by the department for instructional material purchases in subsequent years."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

## Chapter 307 Section 1 Laws 2007

Section 1. Section 22-1-1.2 NMSA 1978 (being Laws 2003, Chapter 153, Section 2) is amended to read:

### "22-1-1.2. LEGISLATIVE FINDINGS AND PURPOSE.--

A. The legislature finds that no education system can be sufficient for the education of all children unless it is founded on the sound principle that every child can learn and succeed and that the system must meet the needs of all children by recognizing that student success for every child is the fundamental goal.

B. The legislature finds further that the key to student success in New Mexico is to have a multicultural education system that:

(1) attracts and retains quality and diverse teachers to teach New Mexico's multicultural student population;

(2) holds teachers, students, schools, school districts and the state accountable;

(3) integrates the cultural strengths of its diverse student population into the curriculum with high expectations for all students;

(4) recognizes that cultural diversity in the state presents special challenges for policymakers, administrators, teachers and students;

(5) provides students with a rigorous and relevant high school curriculum that prepares them to succeed in college and the workplace; and

(6) elevates the importance of public education in the state by clarifying the governance structure at different levels.

C. The legislature finds further that the teacher shortage in this country has affected the ability of New Mexico to compete for the best teachers and that, unless the state and school districts find ways to mentor beginning teachers, intervene with teachers while they still show promise, improve the job satisfaction of quality teachers and elevate the teaching profession by shifting to a professional educator licensing and salary system, public schools will be unable to recruit and retain the highest quality teachers in the teaching profession in New Mexico.

D. The legislature finds further that a well-designed, well-implemented and well-maintained assessment and accountability system is the linchpin of public school reform and must ensure that:

(1) students who do not meet or exceed expectations will be given individual attention and assistance through extended learning programs and individualized tutoring;

(2) students have accurate, useful information about their options and the adequacy of their preparation for post-secondary education, training or employment in order to set and achieve high goals;

(3) teachers who do not meet performance standards must improve their skills or they will not continue to be employed as teachers;

(4) public schools make adequate yearly progress toward educational excellence; and

(5) school districts and the state are prepared to actively intervene and improve failing public schools.

E. The legislature finds further that improving children's reading and writing abilities and literacy throughout their years in school must remain a priority of the state.

F. The legislature finds further that the public school governance structure needs to change to provide accountability from the bottom up instead of from the top down. Each school principal, with the help of school councils made up of parents and teachers, must be the instructional leader in the public school, motivating and holding accountable both teachers and students. Each local superintendent must function as the school district's chief executive officer and have responsibility for the day-to-day operations of the school district, including personnel and student disciplinary decisions.

G. It is the purpose of the 2003 public school reform legislation as augmented by this 2007 legislation to provide the framework to implement the legislative findings to ensure student success in New Mexico."

If a dealer wishes to use the plate on a different vehicle, the dealer must reregister that plate to the different vehicle.

D. In lieu of the use of dealer plates pursuant to this section, a dealer may register and title a vehicle included in a dealer's inventory in the name of the dealer upon payment of the registration fee applicable to that vehicle, but without payment of the motor vehicle excise tax, provided the vehicle is subsequently sold or leased in the ordinary course of business in a transaction subject to the motor vehicle excise tax or the leased vehicle gross receipts tax."

F. The determination of alcohol concentration shall be based on the grams of alcohol in one hundred milliliters of blood or the grams of alcohol in two hundred ten liters of breath.

A. C. If a person other than the donor makes an unrevoked anatomical gift of the donor's body or part pursuant to Section 5 of the Jonathan Spradling Revised Uniform Anatomical Gift Act or an amendment to an anatomical gift of the donor's body or part pursuant to Section 6 of that act, another person may not make, amend or revoke the gift of the donor's body or part pursuant to Section 10 of that act.

A revocation of an anatomical gift of a donor's body or part pursuant to Section 6 of the Jonathan Spradling Revised Uniform Anatomical Gift Act by a person other than the donor does not bar another person from making an anatomical gift of the body or part pursuant to Section 5 or 10 of that act.

E. In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift pursuant to Section 4 of the Jonathan Spradling Revised Uniform Anatomical Gift Act, an anatomical gift of a part is neither a refusal to give another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another person.

F. In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift pursuant to Section 4 of the Jonathan Spradling Revised Uniform Anatomical Gift Act, an anatomical gift of a part for one or more of the purposes set forth in Section 4 of that act is not a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or any other person pursuant to Section 5 or 10 of that act.

If there is more than one member of a class listed in Paragraphs (1), (3), (4), (5), (6), (7) and (9) of Subsection A of this section entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift may pass pursuant to Section 11 of the Jonathan Spradling Revised Uniform Anatomical Gift Act knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(2) revoked only if a majority of the reasonably available members agree to the revoking of the gift or if they are equally divided as to whether to revoke the gift.

C. A revocation pursuant to Subsection B of this section is effective only if, before an incision has been made to remove a part from the donor's body or before invasive procedures have begun to prepare the recipient, the procurement organization, transplant hospital or physician or technician knows of the revocation.

## **Chapter 323 Section 11 Laws 2007**

B. If an anatomical gift to an individual pursuant to Paragraph (2) of Subsection A of this section cannot be transplanted into the individual, the part passes in accordance with Subsection G of this section in the absence of an express, contrary indication by the person making the anatomical gift.

C. If an anatomical gift of one or more specific parts or of all parts is made in a document of gift that does not name a person described in Subsection A of this section but identifies the purpose for which an anatomical gift may be used, the following rules apply:

If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

E. If an anatomical gift of one or more specific parts is made in a document of gift that does not name a person described in Subsection A of this section and does not identify the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance with Subsection G of this section.

J. A person may not accept an anatomical gift if the person knows that the gift was not effectively made pursuant to Section 5 or 10 of the Jonathan Spradling Revised Uniform Anatomical Gift Act or if the person knows that the decedent made a refusal pursuant to Section 7 of that act that was not revoked. For purposes of this subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

K. Except as otherwise provided in Paragraph (2) of Subsection A of this section, nothing in the Jonathan Spradling Revised Uniform Anatomical Gift Act affects the allocation of organs for transplantation or therapy.

### Section 14. RIGHTS AND DUTIES OF PROCUREMENT ORGANIZATION AND OTHERS.--

A. When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the motor vehicle division of the taxation and revenue department and any donor registry

that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

B. A procurement organization shall be allowed reasonable access to information in the records of the motor vehicle division of the taxation and revenue department to ascertain whether an individual at or near death is a donor.

C. When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

D. Unless prohibited by law other than the Jonathan Spradling Revised Uniform Anatomical Gift Act, at any time after a donor's death, the person to which a part passes pursuant to Section 11 of that act may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

F. Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

G. Upon referral by a hospital pursuant to Subsection A of this section, a procurement organization shall make a reasonable search for any person listed in Section 9 of the Jonathan Spradling Revised Uniform Anatomical Gift Act having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended or revoked, it shall promptly advise the other person of all relevant information.

H. Subject to the provisions of Subsection I of Section 11 and Section 23 of the Jonathan Spradling Revised Uniform Anatomical Gift Act, the rights of the person to which a part passes pursuant to Section 11 of that act are superior to the rights of all others with respect to the part. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and the Jonathan Spradling Revised Uniform Anatomical Gift Act, a person that accepts an anatomical gift of an entire body may allow embalming, burial or cremation, and use of remains in a funeral

service. If the gift is of a part, the person to which the part passes pursuant to Section 11 of the Jonathan Spradling Revised Uniform Anatomical Gift Act, upon the death of the donor and before embalming, burial or cremation, shall cause the part to be removed without unnecessary mutilation.

I. Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

J. A physician or technician may remove a donated part from the body of a donor that the physician or technician is qualified to remove.

D. Personally identifiable information on a donor registry about a donor or prospective donor may not be used or disclosed without the express consent of the donor, prospective donor or person who made the anatomical gift for any purpose other than to determine, at or near death of the donor or prospective donor, whether the donor or prospective donor has made, amended or revoked an anatomical gift.

## **Chapter 323 Section 22 Laws 2007**

Section 22. COOPERATION BETWEEN OFFICE OF THE STATE MEDICAL INVESTIGATOR AND PROCUREMENT ORGANIZATION.--

A. The office of the state medical investigator shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research or education.

B. If the office of the state medical investigator receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the office of the state medical investigator and a post-mortem examination is going to be performed, unless the office of the state medical investigator denies recovery in accordance with Section 23 of the Jonathan Spradling Revised Uniform Anatomical Gift Act, the office of the state medical investigator or its designee shall conduct a post-mortem examination of the body or the part in a manner and within a period compatible with its preservation for the purposes of the anatomical gift.

C. A part may not be removed from the body of a decedent under the jurisdiction of the office of the state medical investigator for transplantation, therapy, research or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the office of the state medical investigator may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude the office of the state medical investigator from performing the medico-legal investigation upon the body or parts of a decedent under the jurisdiction of the office of the state medical investigator.

## **Chapter 323 Section 23 Laws 2007**

Section 23. FACILITATION OF ANATOMICAL GIFT FROM DECEDENT WHOSE BODY IS UNDER JURISDICTION OF THE OFFICE OF THE STATE MEDICAL INVESTIGATOR.--

A. Upon request of a procurement organization, the office of the state medical investigator shall release to the procurement organization the name, contact information and available medical and social history of a decedent whose body is under the jurisdiction of the office of the state medical investigator. If the decedent's body or part is medically suitable for transplantation, therapy, research or education, the office of the state medical investigator shall release post-mortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the post-mortem examination results or other information received from the office of the state medical investigator only if relevant to transplantation or therapy.

B. The office of the state medical investigator may conduct a medico-legal investigation by reviewing all medical records, laboratory test results, x-rays, other diagnostic results and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the office of the state medical investigator that the office of the state medical investigator determines may be relevant to the investigation.

C. A person that has any information requested by the office of the state medical investigator pursuant to Subsection B of this section shall provide that information as expeditiously as possible to allow the office of the state medical investigator to conduct the medico-legal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research or education.

D. If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the office of the state medical investigator and a post-mortem examination is not required, or the office of the state medical investigator determines that a post-mortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the office of the state medical investigator and the procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research or education.

E. If an anatomical gift of a part from the decedent under the jurisdiction of the office of the state medical investigator has been or might be made, but the office of the state medical investigator initially believes that the recovery of the part could interfere with the post-mortem investigation into the decedent's cause or manner of death, the office of the state medical investigator shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery. After consultation, the office of the state medical investigator may allow the recovery.

F. Following the consultation pursuant to Subsection E of this section, in the absence of mutually agreed-upon protocols to resolve conflict between the office of the state medical investigator and the procurement organization, if the office of the state medical investigator intends to deny recovery, the office of the state medical investigator

or its designee, at the request of the procurement organization, shall attend the removal procedure for the part before making a final determination not to allow the procurement organization to recover the part. During the removal procedure, the office of the state medical investigator or its designee may allow recovery by the procurement organization to proceed, or, if the office of the state medical investigator or its designee reasonably believes that the part may be involved in determining the decedent's cause or manner of death, may deny recovery by the procurement organization.

G. If the office of the state medical investigator or its designee denies recovery pursuant to Subsection F of this section, the office of the state medical investigator or its designee shall:

(1) explain in a record the specific reasons for not allowing recovery of the part;

(2) include the specific reasons in the records of the office of the state medical investigator; and

(3) provide a record with the specific reasons to the procurement organization.

H. If the office of the state medical investigator or its designee allows recovery of a part pursuant to Subsection D, E or F of this section, the procurement organization, upon request, shall cause the physician or technician who removes the part to provide the office of the state medical investigator with a record describing the condition of the part, a biopsy, a photograph and any other information and observations that would assist in the post-mortem examination.

I. If the office of the state medical investigator or its designee is required to be present at a removal procedure pursuant to Subsection F of this section, upon request the procurement organization requesting the recovery of the part shall reimburse the office of the state medical investigator or its designee for the additional costs incurred in complying with the provisions of Subsection F of this section.

## **Chapter 329 Section 2 Laws 2007**

Section 2. Section 3-46-43 NMSA 1978 (being Laws 1965, Chapter 300, Section 14-47-19, as amended) is amended to read:

"3-46-43. ORDINANCES RELATING TO REPAIR, CLOSING AND DEMOLITION OF DWELLINGS UNFIT FOR HUMAN HABITATION--

COMPLAINT--SERVICE OF COMPLAINT--APPEAL.--

A. Whenever a municipality finds that there exist dwellings that are unfit for human habitation due to dilapidation; defects increasing the hazards of fire, accidents or other calamities; lack of ventilation, light or sanitary facilities; or other conditions, including those set forth in Subsection C of this section, rendering the dwellings unsafe and unsanitary or dangerous or detrimental to the health, safety or morals or otherwise inimical to the welfare of the residents of the municipality, power is conferred upon the municipality to require or cause the repair, closing or demolition or removal of the dwellings in the manner provided in this section. "Dwelling" means a building or structure or part thereof used and occupied for human habitation or intended to be so used and includes any appurtenances usually enjoyed in the dwelling.

B. Upon the adoption of an ordinance finding that dwelling conditions of the character described in Subsection A of this section exist, the governing body of the municipality may adopt ordinances relating to the dwellings within the municipality that are unfit for human habitation. The ordinances shall include the following provisions:

(1) a public officer shall be designated or appointed to exercise the powers prescribed by the ordinances;

(2) whenever it appears to the public officer, on the officer's own motion, that a dwelling is unfit for human habitation, the officer shall, if the officer's preliminary investigation discloses a basis for the charges, issue and cause to be served on the owner, every mortgagee of record and all parties in interest in the dwelling, including persons in possession, a complaint stating the charges in that respect. The complaint shall contain a notice that a hearing will be held before the public officer or the officer's designated agent at a place fixed in the complaint not less than ten days nor more than

thirty days after the serving of the complaint; that the owner, mortgagee and parties in interest shall be given the right to file an answer to the complaint and to appear in person or otherwise and give testimony at the place and the time fixed in the complaint; and that the rules of evidence prevailing in courts of law or equity shall not be controlling in hearings before the public officer;

(3) if after the notice and hearing the public officer determines that the dwelling under consideration is unfit for human habitation, the officer shall state in writing findings of fact in support of that determination and shall issue and cause to be served upon the owner an order in writing that advises the owner of the owner's rights under Subsection E of this section and that:

(a) if the repair, alteration or improvement of the dwelling can be made at a reasonable cost in relation to the value of the dwelling, the ordinance of the municipality shall fix a certain percentage of the cost as being reasonable for that purpose and require the owner, within the time specified in the order, to repair, alter or improve the dwelling to render it fit for human habitation or to vacate and close the dwelling as a human habitation; or

(b) if the repair, alteration or improvement of the dwelling cannot be made at a reasonable cost in relation to the value of the dwelling, the ordinance of the municipality shall fix a certain percentage of the cost as being reasonable for the purpose, and require the owner, within the time specified in the order, to remove or demolish the dwelling;

(4) if the owner fails to comply with an order to repair, alter or improve or to vacate and close the dwelling, the public officer may cause the dwelling to be repaired, altered or improved or to be vacated and closed;

(5) if the owner fails to comply with an order to remove or demolish the dwelling, the public officer may cause the dwelling to be removed or demolished; and

(6) the amount of the cost of the repairs, alterations or improvements or the vacating and closing or the removal or demolition by the public officer shall be a lien against the real property upon which the cost was incurred. If the dwelling is removed or demolished by the public officer, the officer shall sell the materials of the dwelling and shall credit the proceeds of the sale against the cost of the removal or demolition. Any balance remaining shall be deposited in the district court by the public officer and shall be secured in the manner as may be directed by the court and shall be disbursed by the court to the persons found to be entitled to the balance by final order or decree of the court.

C. An ordinance adopted by a municipality pursuant to this section shall provide that the public officer may determine a dwelling is unfit for human habitation if the officer finds that conditions exist in the dwelling that are dangerous or injurious to the health, safety or morals of the occupants of the dwelling, the occupants of neighboring

dwellings or other residents of the municipality or that have a blighting influence on properties in the area. The conditions may include the following without limitations: defects increasing the hazards of fire, accident or other calamities; lack of adequate ventilation, light or sanitary facilities; dilapidation; disrepair; structural defects; uncleanness; overcrowding; inadequate ingress and egress; inadequate drainage; or any violation of health, fire, building or zoning regulations or any other laws or regulations relating to the use of land and the use and occupancy of buildings and improvements. The ordinance may provide additional standards to guide the public officer or the officer's agents or employees in determining the fitness of a dwelling for human habitation.

D. Complaints or orders issued by a public officer pursuant to an ordinance adopted under the provisions of this section shall be served upon persons either personally or by registered mail. If the whereabouts of the persons are unknown and cannot be ascertained by the public officer in the exercise of reasonable diligence and the public officer makes an affidavit to that effect, the serving of the complaint or order upon the persons may be made by publishing the complaint or order once each week for two consecutive weeks in a newspaper printed and published in the municipality or, in the absence of a newspaper, in one printed and published in the county and circulating in the municipality in which the dwellings are located. A copy of the complaint or order shall be posted in a conspicuous place on the premises affected by the complaint or order. A copy of the complaint or order shall also be filed with the clerk of the county in which the dwelling is located. Filing of the complaint or order shall have the same force and effect as other lis pendens notices provided by law.

E. A person affected by an order issued by the public officer may file an appeal pursuant to the provisions of Section 39-3-1.1 NMSA 1978.

F. An ordinance adopted by the governing body of the municipality may authorize the public officer to exercise powers as may be necessary or convenient to carry out and effectuate the purposes and provisions of this section, including the following powers:

(1) to investigate the dwelling conditions in the municipality in order to determine which dwellings are unfit for human habitation;

(2) to administer oaths and affirmations, examine witnesses and receive evidence;

(3) to enter upon premises for the purpose of making examinations, provided that the entries shall be made in a manner as to cause the least possible inconvenience to the persons in possession, and to obtain an order for this purpose from a court of competent jurisdiction in the event entry is denied or resisted;

(4) to appoint and fix the duties of any officers, agents and employees as the officer deems necessary to carry out the purposes of the ordinances; and

(5) to delegate any functions and powers under the ordinance to officers, agents and employees that the public officer may designate.

G. The governing body of a municipality adopting an ordinance under this section shall, as soon as possible thereafter, prepare an estimate of the annual expenses or costs to provide the equipment, personnel and supplies necessary for periodic examinations and investigations of the dwellings in the municipality for the purpose of determining the fitness of the dwellings for human habitation and for the enforcement and administration of its ordinance or ordinances adopted under this section.

H. Nothing in this section shall be construed to abrogate or impair the powers of the courts or of a department of a municipality to enforce any provisions of its charter or its ordinances or regulations or to prevent or punish violations thereof. The powers conferred by this section shall be in addition and supplemental to the powers conferred by any other law.

I. Nothing in this section shall be construed to impair or limit in any way the power of the municipality to define and declare nuisances and to cause their removal or abatement by summary proceedings or otherwise."

## **Chapter 329 Section 3 Laws 2007**

Section 3. Section 3-60A-2 NMSA 1978 (being Laws 1979, Chapter 391, Section 2) is amended to read:

### **"3-60A-2. FINDINGS AND DECLARATIONS OF NECESSITY.--**

A. It is found and declared that there exist in municipalities of the state slum areas and blighted areas that constitute a serious and growing menace, injurious to the public health, safety, morals and welfare of the residents of the state; that the existence of these areas contributes substantially to the spread of disease and crime, constitutes an economic and social burden, substantially impairs or arrests the sound and orderly development of municipalities and retards the maintenance and expansion of necessary housing accommodations; that economic and commercial activities are lessened in those areas by the slum or blighted conditions, and the effects of these conditions include less employment in the area and municipality, lower property values, less gross receipts tax revenue for the state and municipalities and reduces the use of buildings, residential dwellings and other facilities in the area that the prevention and elimination of slum areas and blighted areas and the prevention and elimination of conditions that impair the sound and orderly development of municipalities is a matter of state policy and concern in order that the state and its municipalities shall not continue to be endangered by these areas that contribute little to the tax income of the state and its municipalities and that consume an excessive proportion of its revenues because of the extra services required for police, fire, accident, hospitalization or other forms of public protection, services and facilities.

B. Certain slum areas and blighted areas or portions thereof may require land acquisition and clearance by the municipality, since prevailing conditions may make impracticable their reclamation or development; other areas or portions of the slum or blighted area may be suitable for conservation or rehabilitation efforts and the conditions and evils enumerated in Subsection A of this section may be eliminated, remedied or prevented by those efforts; and to the extent feasible, salvageable slum and blighted areas should be conserved and rehabilitated through voluntary action, the regulatory process and, when necessary, by government assistance.

C. The powers conferred by the Metropolitan Redevelopment Code regarding the use of public money are for public uses or purposes for which public money may be expended. The individual benefits accruing to persons as the result of the powers conferred by the Metropolitan Redevelopment Code and projects conducted in accordance with its provisions are found and declared to be incidental to the objectives of that code and are far outweighed by the benefit to the public as a whole. Activities authorized and powers granted by the Metropolitan Redevelopment Code are hereby declared not to result in a donation or aid to any person, association or public or private organization or enterprise. The necessity for these provisions and the power is declared to be in the public interest as a matter of legislative determination.

D. The legislature finds that the problems of the large metropolitan areas are unique in this state because of the size and magnitude of the problems when such large numbers of people are affected. The legislature further finds and declares that the strategies and methods for solving these problems in the large metropolitan areas differ from those in the smaller cities and towns and villages of the state, and it is necessary to authorize those home rule metropolitan areas additional powers and flexibility because of the nature and size of their problems and because the governments of such metropolitan areas have sufficient staff to meet and deal with those problems. Further, these authorizations are merely explanations of the powers of home rule communities in these metropolitan areas that can be exercised under home rule authority notwithstanding any limitations contained in the Metropolitan Redevelopment Code."

## **Chapter 329 Section 4 Laws 2007**

Section 4. Section 3-60A-3 NMSA 1978 (being Laws 1979, Chapter 391, Section 3) is amended to read:

### **"3-60A-3. LEGISLATIVE INTENT.--**

A. It is the intent of the legislature by the passage of the Metropolitan Redevelopment Code to authorize municipalities to acquire, own, lease, improve and dispose of properties in a metropolitan redevelopment area to the end that such municipalities may be able to promote industry and develop trade or other economic activity by inducing profit or nonprofit corporations, federal governmental offices, hospitals and manufacturing, industrial, commercial or business enterprises to locate, expand or remain in such area, to mitigate the serious threat of extensive

unemployment in a metropolitan redevelopment area and to secure and maintain a balanced and stable economy in an area declared to be a slum or blighted area.

B. It is the further intent of the legislature to authorize municipalities to acquire, own, lease, improve and dispose of properties so that adequate medical care, residential housing and facilities for the disposal of sewage and solid waste may be provided; and industrial, manufacturing, commercial or business activities may be begun or expanded in these areas; furnishing water, energy and gas may be provided; more adequate facilities for sports events and activities and recreation activities, conventions and trade shows may be provided; more parking facilities or storage or training facilities may be provided; and more adequate research, product-testing and administrative facilities may be provided, all of which promote the public health, welfare, safety, convenience and prosperity.

C. It is, therefore, the intention of the legislature to vest municipalities with all powers, other than the power of eminent domain, that may be necessary to enable them to accomplish such purposes, which powers shall in all respects be exercised for the benefit of the inhabitants of this state and municipalities of the state for the promotion of their health, safety, welfare, convenience and prosperity.

D. It is not intended by the Metropolitan Redevelopment Code to authorize any municipality to operate any manufacturing, industrial, commercial or business enterprise or any research, product-testing or administrative facilities of such enterprise. Nor is it the intent of that code to prohibit the operation by a municipality of residential housing facilities, health care facilities, sewage or solid waste disposal facilities or the furnishing of water, sports or recreation facilities, convention or trade show facilities, airports, public transportation facilities or operations, parking facilities or storage or training facilities by any municipality."

## **Chapter 329 Section 5 Laws 2007**

A. Whenever a municipality finds that there exist dwellings that are unfit for human habitation due to dilapidation; defects increasing the hazards of fire, accidents or other calamities; lack of ventilation, light or sanitary facilities; or other conditions, including those set forth in Subsection C of this section, rendering the dwellings unsafe and unsanitary or dangerous or detrimental to the health, safety or morals or otherwise inimical to the welfare of the residents of the municipality, power is conferred upon the municipality to require or cause the repair, closing or demolition or removal of the dwellings in the manner provided in this section. ## **Chapter 330 Section 3 Laws 2007**

Section 3. Section 3-60A-2 NMSA 1978 (being Laws 1979, Chapter 391, Section 2) is amended to read:

### **"3-60A-2. FINDINGS AND DECLARATIONS OF NECESSITY.--**

A. It is found and declared that there exist in municipalities of the state slum areas and blighted areas that constitute a serious and growing menace, injurious to the public health, safety, morals and welfare of the residents of the state; that the existence of these areas contributes substantially to the spread of disease and crime, constitutes an economic and social burden, substantially impairs or arrests the sound and orderly development of municipalities and retards the maintenance and expansion of necessary housing accommodations; that economic and commercial activities are lessened in those areas by the slum or blighted conditions, and the effects of these conditions include less employment in the area and municipality, lower property values, less gross receipts tax revenue for the state and municipalities and reduces the use of buildings, residential dwellings and other facilities in the area that the prevention and elimination of slum areas and blighted areas and the prevention and elimination of conditions that impair the sound and orderly development of municipalities is a matter of state policy and concern in order that the state and its municipalities shall not continue to be endangered by these areas that contribute little to the tax income of the state and its municipalities and that consume an excessive proportion of its revenues because of the extra services required for police, fire, accident, hospitalization or other forms of public protection, services and facilities.

B. Certain slum areas and blighted areas or portions thereof may require land acquisition and clearance by the municipality, since prevailing conditions may make impracticable their reclamation or development; other areas or portions of the slum or blighted area may be suitable for conservation or rehabilitation efforts and the conditions and evils enumerated in Subsection A of this section may be eliminated, remedied or prevented by those efforts; and to the extent feasible, salvageable slum and blighted areas should be conserved and rehabilitated through voluntary action, the regulatory process and, when necessary, by government assistance.

C. The powers conferred by the Metropolitan Redevelopment Code regarding the use of public money are for public uses or purposes for which public money may be expended. The individual benefits accruing to persons as the result of the powers conferred by the Metropolitan Redevelopment Code and projects conducted in

accordance with its provisions are found and declared to be incidental to the objectives of that code and are far outweighed by the benefit to the public as a whole. Activities authorized and powers granted by the Metropolitan Redevelopment Code are hereby declared not to result in a donation or aid to any person, association or public or private organization or enterprise. The necessity for these provisions and the power is declared to be in the public interest as a matter of legislative determination.

D. The legislature finds that the problems of the large metropolitan areas are unique in this state because of the size and magnitude of the problems when such large numbers of people are affected. The legislature further finds and declares that the strategies and methods for solving these problems in the large metropolitan areas differ from those in the smaller cities and towns and villages of the state, and it is necessary to authorize those home rule metropolitan areas additional powers and flexibility because of the nature and size of their problems and because the governments of such metropolitan areas have sufficient staff to meet and deal with those problems. Further, these authorizations are merely explanations of the powers of home rule communities in these metropolitan areas that can be exercised under home rule authority notwithstanding any limitations contained in the Metropolitan Redevelopment Code."

## **Chapter 330 Section 4 Laws 2007**

Section 4. Section 3-60A-3 NMSA 1978 (being Laws 1979, Chapter 391, Section 3) is amended to read:

### **"3-60A-3. LEGISLATIVE INTENT.--**

A. It is the intent of the legislature by the passage of the Metropolitan Redevelopment Code to authorize municipalities to acquire, own, lease, improve and dispose of properties in a metropolitan redevelopment area to the end that such municipalities may be able to promote industry and develop trade or other economic activity by inducing profit or nonprofit corporations, federal governmental offices, hospitals and manufacturing, industrial, commercial or business enterprises to locate, expand or remain in such area, to mitigate the serious threat of extensive unemployment in a metropolitan redevelopment area and to secure and maintain a balanced and stable economy in an area declared to be a slum or blighted area.

B. It is the further intent of the legislature to authorize municipalities to acquire, own, lease, improve and dispose of properties so that adequate medical care, residential housing and facilities for the disposal of sewage and solid waste may be provided; and industrial, manufacturing, commercial or business activities may be begun or expanded in these areas; furnishing water, energy and gas may be provided; more adequate facilities for sports events and activities and recreation activities, conventions and trade shows may be provided; more parking facilities or storage or training facilities may be provided; and more adequate research, product-testing and administrative facilities may be provided, all of which promote the public health, welfare, safety, convenience and prosperity.

C. It is, therefore, the intention of the legislature to vest municipalities with all powers, other than the power of eminent domain, that may be necessary to enable them to accomplish such purposes, which powers shall in all respects be exercised for the benefit of the inhabitants of this state and municipalities of the state for the promotion of their health, safety, welfare, convenience and prosperity.

D. It is not intended by the Metropolitan Redevelopment Code to authorize any municipality to operate any manufacturing, industrial, commercial or business enterprise or any research, product-testing or administrative facilities of such enterprise. Nor is it the intent of that code to prohibit the operation by a municipality of residential housing facilities, health care facilities, sewage or solid waste disposal facilities or the furnishing of water, sports or recreation facilities, convention or trade show facilities, airports, public transportation facilities or operations, parking facilities or storage or training facilities by any municipality."

## **Chapter 330 Section 5 Laws 2007**

C. The governing body of a municipality may, at the time of enacting an ordinance imposing the tax authorized in Subsection A of this section, dedicate the revenue for a specific purpose or area of municipal government services, including but not limited to police protection, fire protection, public transportation or street repair and maintenance. If the governing body proposes to dedicate such revenue, the ordinance

and, if any election is held, the ballot shall clearly state the purpose to which the revenue will be dedicated, and any revenue so dedicated shall be used by the municipality for that purpose unless a subsequent ordinance is adopted to change the purpose to which dedicated or to place the revenue in the general fund of the municipality.

If the petition is verified by the municipal clerk as containing the required number of signatures of registered voters, the governing body shall adopt an election resolution calling for the holding of a special election on the question of approving or disapproving the ordinance unless the ordinance is repealed before the adoption of the election resolution. An election held pursuant to Subparagraph (a) or (b) of Paragraph (2) of Subsection D of this section shall be called, conducted and canvassed as provided in the Municipal Election Code for special elections, and the election shall be held within seventy-five days after the date the petition is verified by the municipal clerk or it may be held in conjunction with a regular municipal election if such election occurs within seventy-five days after the date of verification by the municipal clerk.

A municipality may by ordinance change the purpose for any rate of tax deemed to be imposed at any time the revenues are not committed to payment of bonds.

H. Any law that imposes or authorizes the imposition of a municipal gross receipts tax or that affects the municipal gross receipts tax, or any law supplemental thereto or otherwise appertaining thereto, shall not be repealed or amended or otherwise directly or indirectly modified in such a manner as to impair adversely any outstanding revenue bonds that may be secured by a pledge of such municipal gross receipts tax unless such outstanding revenue bonds have been discharged in full or provision has been fully made therefor."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

## **Chapter 335 Section 1 Laws 2007**

Section 1. Section 7-2-18.10 NMSA 1978 (being Laws 2003, Chapter 331, Section 7) is amended to read:

### **"7-2-18.10. TAX CREDIT--CERTAIN CONVEYANCES OF REAL PROPERTY.--**

A. There shall be allowed as a credit against the tax liability imposed by the Income Tax Act, an amount equal to fifty percent of the fair market value of land or interest in land that is conveyed for the purpose of open space, natural resource or biodiversity conservation, agricultural preservation or watershed or historic preservation as an unconditional donation in perpetuity by the landowner or taxpayer to a public or private conservation agency eligible to hold the land and interests therein for conservation or preservation purposes. The fair market value of qualified donations made pursuant to this section shall be substantiated by a "qualified appraisal" prepared by a "qualified appraiser", as those terms are defined under applicable federal laws and regulations governing charitable contributions.

B. The amount of the credit that may be claimed by a taxpayer shall not exceed one hundred thousand dollars (\$100,000) for a conveyance made prior to January 1, 2008 and shall not exceed two hundred fifty thousand dollars (\$250,000) for a conveyance made on or after that date. In addition, in a taxable year the credit used may not exceed the amount of individual income tax otherwise due. A portion of the credit that is unused in a taxable year may be carried over for a maximum of twenty consecutive taxable years following the taxable year in which the credit originated until fully expended. A taxpayer may claim only one tax credit per taxable year.

C. Qualified donations shall include the conveyance in perpetuity of a fee interest in real property or a less-than-fee interest in real property, such as a conservation restriction, preservation restriction, agricultural preservation restriction or watershed preservation restriction, pursuant to the Land Use Easement Act and provided that the less-than-fee interest qualifies as a charitable contribution deduction under Section 170(h) of the Internal Revenue Code. Dedications of land for open space for the purpose of fulfilling density requirements to obtain subdivision or building permits shall not be considered as qualified donations pursuant to the Land Conservation Incentives Act.

D. Qualified donations shall be eligible for the tax credit if the donations are made to the state of New Mexico, a political subdivision thereof or a charitable organization described in Section 501(c)(3) of the Internal Revenue Code and that meets the requirements of Section 170(h)(3) of that code.

E. To be eligible for treatment as qualified donations under this section, land or interests in lands must be certified by the secretary of energy, minerals and natural resources as fulfilling the purposes as set forth in Section

75-9-2 NMSA 1978. The use and protection of the lands, or interests therein, for open space, natural area protection, biodiversity habitat conservation, land preservation, agricultural preservation, historic preservation or similar use or purpose of the property shall be assured in perpetuity.

F. A taxpayer may apply for certification of eligibility for the tax credit provided by this section from the energy, minerals and natural resources department. If the energy, minerals and natural resources department determines that the application meets the requirements of this section and that the property conveyed will not adversely affect the property rights of contiguous landowners, it shall issue a certificate of eligibility to the taxpayer, which shall include a calculation of the maximum amount of tax credit for which the taxpayer would be eligible. The energy, minerals and natural resources department may issue rules governing the procedure for administering the provisions of this subsection.

G. To receive a credit pursuant to this section, a person shall apply to the taxation and revenue department on forms and in the manner prescribed by the department. The application shall include a certificate of eligibility issued by the energy, minerals and natural resources department pursuant to Subsection F of this section. If all of the requirements of this section have been complied with, the taxation and revenue department shall issue to the applicant a document granting the tax credit. A tax credit or increment of a tax credit may only be transferred once. The credit may be transferred to any taxpayer. A taxpayer to whom a credit has been transferred may use the credit for the taxable year in which the transfer occurred and unused amounts may be carried forward to succeeding taxable years, but in no event may the transferred credit be used more than twenty years after it was originally issued.

I. A tax credit issued pursuant to this section shall be transferred through a qualified intermediary. The qualified intermediary shall, by means of a sworn notarized statement, notify the taxation and revenue department of the transfer and of the date of the transfer within ten days of the transfer. Credits shall only be transferred in increments of ten thousand dollars (\$10,000) or more. The qualified intermediary shall keep an account of the credits and have the authority to issue sub-numbers registered with the taxation and revenue department and traceable to the original credit.

J. If a charitable deduction is claimed on the taxpayer's federal income tax for any contribution for which the credit provided by this section is claimed, the taxpayer's itemized deductions for New Mexico income tax shall be reduced by the amount of the deduction for the contribution in order to determine the New Mexico taxable income of the taxpayer.

K. For the purposes of this section:

(1) "qualified intermediary" does not include a person who has been previously convicted of a felony, who has had a professional license revoked, who is engaged in the practice defined in Section 61-28B-3 NMSA 1978 and who is identified in Section 61-

C. Each application for an absentee ballot shall be subscribed by the applicant and shall require the applicant's printed name, year of birth and unique identifier to be supplied by the applicant, which shall constitute the required form of identification, except for new registrants who have registered by mail and at that time did not provide acceptable identification. The secretary of state shall issue rules to exempt voters from submitting identification only as required by federal law and shall review and, if necessary, update these rules no later than March 15 of even-numbered years.

D. An application for an absentee ballot by a federal qualified elector or an overseas voter shall be accepted at any time preceding the general election."

## **Chapter 336 Section 9 Laws 2007**

Section 9. Section 1-6-5 NMSA 1978 (being Laws 1969, Chapter 240, Section 131, as amended) is amended to read:

"1-6-5. PROCESSING APPLICATION--ISSUANCE OF BALLOT.--

A. The county clerk shall mark each completed absentee ballot application with the date and time of receipt in the clerk's office and enter the required information in the absentee ballot register. The county clerk shall then determine if the applicant is a voter, an absent uniformed services voter or an overseas voter.

B. If the applicant does not have a valid certificate of registration on file in the county and is not a federal qualified elector or if the applicant states that the applicant is a federal qualified elector but the application indicates the applicant is not a federal qualified elector, an absentee ballot shall not be issued and the county clerk shall mark the application "rejected" and file the application in a separate file from those accepted.

C. The county clerk shall notify in writing each applicant of the fact of acceptance or rejection of the application and, if rejected, shall explain why the application was rejected.

D. If the applicant has on file with the county a valid certificate of registration that indicates that the applicant is a voter who is a new registrant and who registered by mail without submitting the required voter identification, the county clerk shall notify the voter that the voter must submit with the absentee ballot the required physical form of identification. The county clerk shall note on the absentee ballot register and signature roster that the applicant's absentee ballot must be returned with the required identification.

E. If the county clerk finds that the applicant is a voter other than a federal qualified elector or overseas voter, the county clerk shall mark the application "accepted" and, beginning twenty-eight days before the election, deliver an absentee ballot to the voter in the county clerk's office or mail to the applicant an absentee ballot and the required envelopes for use in returning the ballot. If the county clerk finds that the applicant is a federal qualified elector or overseas voter, the county clerk shall mark the application "accepted" and beginning forty-five days before the election, mail to the applicant an absentee ballot and the required envelopes for use in returning the ballot. Acceptance of an application of a federal qualified elector constitutes registration for the election in which the ballot is to be cast. Acceptance of an application from an overseas voter who is not an absent uniformed services voter constitutes a request for changing information on the certificate of registration of any such voter. An absent voter shall not be permitted to change party affiliation during those periods when change of party affiliation is prohibited by the Election Code. Upon delivery of an absentee ballot to a voter in the county clerk's office or mailing of an absentee ballot to an applicant who is a voter, an appropriate designation shall be made on the signature line of the signature roster next to the name of the voter who has been provided or mailed an absentee ballot.

F. If an application for an absentee ballot is delivered in person to the county clerk and is accepted, the county clerk shall provide the voter an absentee ballot and it shall be marked by the applicant in a voting booth of a type prescribed by the secretary of state, sealed in the proper envelopes and otherwise properly executed and returned

to the county clerk or the clerk's authorized representative before the voter leaves the office of the county clerk. The act of marking the absentee ballot in the office of the county clerk shall be a convenience to the voter in the delivery of the absentee ballot and does not make the office of the county clerk a polling place subject to the requirements of a polling place in the Election Code other than is provided in this subsection. It is unlawful to solicit votes, display or otherwise make accessible any posters, signs or other forms of campaign literature whatsoever in the clerk's office or alternate voting location. Absentee ballots may be marked in person at the county clerk's office during the regular hours and days of business beginning on the twenty-eighth day preceding the election and from 10:00 a.m. to 6:00 p.m. on the Saturday immediately prior to the date of the election. In marking the absentee ballot, the voter, pursuant to the provisions of Section 1-12-15 NMSA 1978, may be assisted by one person of the voter's choice.

G. Absentee ballots shall be sent to applicants not later than on the Friday immediately prior to the date of the election.

H. An absentee ballot shall not be delivered or mailed by the county clerk to any person other than the applicant for such ballot.

I. The secretary of state and each county clerk shall make reasonable efforts to publicize and inform voters of the times and locations for absentee voting; provided, however, that notice is provided at least ten days before early voting begins.

J. The secretary of state shall establish procedures for the submittal, when required by federal law, of required voter identification with mailed-in absentee ballots."

A. The county clerk shall mark on each completed official mailing envelope the date and time of receipt in the clerk's office, record this information in the absentee ballot register and safely keep the official mailing envelope unopened in a locked and number-sealed ballot box until it is delivered to the proper absent voter precinct board or until it is canceled and destroyed in accordance with law.

B. The county clerk shall accept completed official mailing envelopes until 7:00 p.m. on election day and the county clerk or absent voter precinct board shall accept completed official mailing envelopes from precincts within the county of the voters who turned in their absentee ballots at their precinct by the close of polls on election day. Any completed official mailing envelope received after that time shall not be delivered to a precinct board but shall be preserved by the county clerk until the time for election

contests has expired. In the absence of a restraining order after expiration of the time for election contests, the county clerk shall destroy all late official mailing envelopes without opening or permitting the contents to be examined, cast, counted or canvassed. Before their destruction, the county clerk shall count the numbers of late ballots from voters, federal voters, overseas citizen voters and federal qualified electors and report the number from each category to the secretary of state.

C. At 5:00 p.m. on the Monday immediately preceding the date of election, the county clerk shall record the numbers of the unused absentee ballots and shall publicly destroy in the county clerk's office all such unused ballots. The county clerk shall execute a certificate of destruction, which shall include the numbers on the absentee ballots destroyed. A copy of the certificate of destruction shall be sent to the secretary of state."

shall not be opened but shall be placed in an envelope provided for challenged ballots. The same procedure shall be followed in canvassing and determining the validity of challenged absentee ballots as with other challenged ballots.

D. If the official mailing envelope has been properly subscribed and the voter has not been challenged:

(1) the election clerks shall enter the absent voter's name and residence address as shown on the official mailing envelope in the signature rosters and shall mark the notation "AB" opposite the voter's name in the "Notations" column of the signature rosters; and

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

## **Chapter 338 Section 1 Laws 2007**

Section 1. Section 73-10-5 NMSA 1978 (being Laws 1919, Chapter 20, Section 5) is amended to read:

"73-10-5. BOUNDARIES SET BY PETITION--DIVISIONS--ELECTION CALL--OFFICERS.--

A. When the petition is presented and it appears that the notice of the presentation of the petition has been given as required by law and that the petition has been signed by the requisite number of petitioners as required by Chapter 73, Articles 10 and 11 NMSA 1978, the commissioners shall proceed to define the boundaries of the proposed district from the petition and from the application for the exclusion of lands from it and the inclusion of lands in it as may be made in accordance with the intent of those articles. The commissioners may adjourn the examination from time to time, not exceeding three weeks, and shall by final order duly entered define and establish the

boundaries of the proposed district. The board shall not modify the proposed boundaries described in the petition to change the objects of the petition or to exempt from the provisions of those articles any land within the boundaries proposed by the petition susceptible to irrigation by the same system of water works applicable to other lands in the proposed district; nor shall any land that will not, in the judgment of the board, be benefited by such proposed water system be included in the district if the owner or entryman of the land shall make application at the hearing to withdraw it. The contiguous lands not included in the proposed district as described in the petition may upon application of the owner be included in the district upon the hearing, in the event that it shall be determined that the water supply for the additional lands is available and that in other respects it is feasible for the lands of the petitioners to be included within the district.

B. When the boundaries of any proposed district have been examined and defined, the county commissioners shall make an order allowing the prayer of the petition, defining and establishing the boundaries and designating the name of the proposed district. The commissioners shall, by further order duly entered upon their record, call an election of the qualified electors of the district to be held for the purpose of determining whether the district shall be organized under the provisions of Chapter 73, Articles 10 and 11 NMSA 1978 and by the order shall submit the names of one or more persons from each of the divisions of the district provided by those articles to be voted for as directors. For the purpose of the election, the commissioners shall divide the district into divisions, in number as hereinafter designated, as nearly equal in size as may be practical and shall provide that one qualified elector of each of the divisions shall be elected as a member of the board of directors of the district by the qualified electors of the whole district. The board of county commissioners shall establish and define a convenient number of election precincts and designate polling places, subject to amendment by the board of directors for subsequent elections. Three judges shall be appointed for each of the precincts, one of whom shall act as clerk of the election. In the hearing of any such petition, the board of county commissioners shall disregard any informality in it and in case the commissioners deny it or dismiss it for any reason on account of the provisions of Chapter 73, Articles 10 and 11 NMSA 1978 not having been complied with, which are the only reasons upon which they shall have a right to refuse or dismiss the petition, they shall state their reasons in writing in detail, which shall be entered upon their records. In case these reasons are not well founded, a writ of mandamus shall, upon proper application for it, issue out of the district court of the county, compelling them to act in compliance with Chapter 73, Articles 10 and 11 NMSA 1978, which writ shall be heard within twenty days from the date of its issuance.

C. The officers of the district shall consist of the directors, a secretary and a treasurer. The directors and divisions of irrigation districts shall be in number, for districts having an irrigable area of twenty-five thousand acres or less, three; for districts having an irrigable area of more than twenty-five thousand acres and not more than fifty thousand acres, five; for districts having an irrigable area of more than fifty thousand acres and less than seventy-five thousand acres, seven; and for districts having an irrigable area of seventy-five thousand acres or more, nine directors and divisions;

Application for use or return of state-owned portable classroom buildings shall be submitted by school districts to the council. Expenses of maintenance of the portable classrooms while in the custody of the public school facilities authority shall be paid from the fund; expenses of maintenance

and insurance of the portable classrooms while in the custody of a school district shall be the responsibility of the school district. The council may authorize the permanent disposition of the portable classrooms by the public school facilities authority with prior approval of the state board of finance.

D. Applications for assistance from the fund shall be made by school districts to the council in accordance with requirements of the council. Except as provided in Subsection K of this section, the council shall require as a condition of application that a school district have a current five-year facilities plan, which shall include a current preventive maintenance plan to which the school adheres for each public school in the school district.

E. The council shall review all requests for assistance from the fund and shall allocate funds only for those capital outlay projects that meet the criteria of the Public School Capital Outlay Act.

F. Money in the fund shall be disbursed by warrant of the department of finance and administration on vouchers signed by the secretary of finance and administration following certification by the council that an application has been approved or an expenditure has been ordered by a court pursuant to Section 22-24-5.4 NMSA 1978. At the discretion of the council, money for a project shall be distributed as follows:

(1) up to ten percent of the portion of the project cost funded with distributions from the fund or five percent of the total project cost, whichever is greater, may be paid to the school district before work commences with the balance of the grant award made on a cost-reimbursement basis; or

(2) the council may authorize payments directly to the contractor.

G. Balances in the fund may be annually appropriated for the core administrative functions of the public school facilities authority pursuant to the Public School Capital Outlay Act and, in addition, balances in the fund may be expended by the public school facilities authority, upon approval of the council, for project management expenses; provided that:

(1) the total annual expenditures from the fund pursuant to this subsection shall not exceed five percent of the average annual grant assistance authorized from the fund during the three previous fiscal years; and

(2) any unexpended or unencumbered balance remaining at the end of a fiscal year from the expenditures authorized in this subsection shall revert to the fund.

H. Up to thirty million dollars (\$30,000,000) of the fund may be allocated annually by the council in fiscal years 2006 and 2007 for a roof repair and replacement initiative with projects to be identified by the council pursuant to Section 22-24-4.3 NMSA 1978;

provided that all money allocated pursuant to this subsection shall be expended prior to September 1, 2008.

I. The fund may be expended annually by the council in fiscal years 2006 through 2020 for grants to school districts for the purpose of making lease payments for classroom facilities, including facilities leased by charter schools. The grants shall be made upon application by the school districts and pursuant to rules adopted by the council; provided that an application on behalf of a charter school shall be made by the school district but, if the school district fails to make an application on behalf of a charter school, the charter school may submit its own application. The following criteria shall apply to the grants:

(1) the amount of a grant to a school district shall not exceed:

(a) the actual annual lease payments owed for leasing classroom space for schools, including charter schools, in the district; or

(b) seven hundred dollars (\$700) multiplied by the number of MEM using the leased classroom facilities; provided that in fiscal year 2009 and in each subsequent fiscal year, this amount shall be adjusted by the percentage increase between the penultimate calendar year and the immediately preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor; and provided further that if the total grants awarded pursuant to this paragraph would exceed the total annual amount available, the rate specified in this subparagraph shall be reduced proportionately;

(2) a grant received for the lease payments of a charter school may be used by that charter school as a state match necessary to obtain federal grants pursuant to the federal No Child Left Behind Act of 2001;

(3) at the end of each fiscal year, any unexpended or unencumbered balance of the appropriation shall revert to the fund;

(4) if the lease payments are made pursuant to a financing agreement under which the facilities may be purchased for a price that is reduced according to the lease payments made:

(a) a grant shall not be made unless the council determines that the leased facilities meet the statewide adequacy standards; and

(b) neither a grant nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facilities nor does it create a legal obligation for the state to make subsequent grants pursuant to the provisions of this subsection;

(5) the total amount expended from the fund pursuant to this subsection shall not exceed:

(a) seven million five hundred thousand dollars (\$7,500,000) in fiscal year 2007; and

(b) in fiscal year 2008 and each subsequent fiscal year, the maximum amount for the previous fiscal year adjusted by the percentage increase between the penultimate calendar year and the immediately preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor; and

(6) as used in this subsection:

(a) "MEM" means: 1) the average

full-time-equivalent enrollment using leased classroom facilities on the eightieth and one hundred twentieth days of the prior school year; or 2) in the case of an approved charter school that has not commenced classroom instruction, the estimated full-time-equivalent enrollment that will use leased classroom facilities in the first year of instruction, as shown in the approved charter school application; provided that, after the eightieth day of the school year, the MEM shall be adjusted to reflect the full-time-equivalent enrollment on that date; and

(b) "classroom facilities" or "classroom space" includes the space needed, as determined by the minimum required under the statewide adequacy standards, for the direct administration of school activities.

J. In addition to other authorized expenditures from the fund, up to one percent of the average grant assistance authorized from the fund during the three previous fiscal years may be expended in each fiscal year by the public school facilities authority to reimburse the state fire marshal, the construction industries division of the regulation and licensing department and local jurisdictions having authority from the state to permit and inspect projects for expenditures made to permit and inspect projects funded in whole or in part under the Public School Capital Outlay Act. The authority shall enter into contracts with the state fire marshal, the construction industries division or the appropriate local authorities to carry out the provisions of this subsection.

K. Pursuant to guidelines established by the council, allocations from the fund may be made to assist school districts in developing and updating five-year facilities plans required by the Public School Capital Outlay Act; provided that:

(1) no allocation shall be made unless the council determines that the school district is willing and able to pay the portion of the total cost of developing or updating the plan that is not funded with the allocation from the fund. Except as provided in Paragraph (2) of this subsection, the portion of the total cost to be paid with

the allocation from the fund shall be determined pursuant to the methodology in Paragraph (5) of Subsection B of Section

22-24-5 NMSA 1978; or

(2) the allocation from the fund may be used to pay the total cost of developing or updating the plan if:

(a) the school district has fewer than an average of six hundred full-time-equivalent students on the eightieth and one hundred twentieth days of the prior school year; or

(b) the school district meets all of the following requirements: 1) the school district has fewer than an average of one thousand full-time-equivalent students on the eightieth and one hundred twentieth days of the prior school year; 2) the school district has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) the state share of the total cost, if calculated pursuant to the methodology in Paragraph (5) of Subsection B of Section 22-24-5 NMSA 1978, would be less than fifty percent; and 4) for all educational purposes, the school district has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds.

L. Upon application by a school district, allocations from the fund may be made by the council for the purpose of demolishing abandoned school district facilities, provided that:

(1) the costs of continuing to insure an abandoned facility outweigh any potential benefit when and if a new facility is needed by the school district;

(2) there is no practical use for the abandoned facility without the expenditure of substantial renovation costs; and

(3) the council may enter into an agreement with the school district under which an amount equal to the savings to the district in lower insurance premiums are used to fully or partially reimburse the fund for the demolition costs allocated to the district."

## **Chapter 366 Section 4 Laws 2007**

Section 4. Section 22-24-4.1 NMSA 1978 (being Laws 2001, Chapter 338, Section 6, as amended) is amended to read:

"22-24-4.1. OUTSTANDING DEFICIENCIES--ASSESSMENT--CORRECTION.--

A. No later than September 1, 2001, the council shall define and develop guidelines, consistent with the codes adopted by the construction industries commission pursuant to the Construction Industries Licensing Act, for school districts to use to identify outstanding serious deficiencies in public school buildings and grounds, including buildings and grounds of charter schools, that may adversely affect the health or safety of students and school personnel.

B. A school district shall use these guidelines to complete a self-assessment of the outstanding health or safety deficiencies within the school district and provide cost projections to correct the outstanding deficiencies.

C. The council shall develop a methodology for prioritizing projects that will correct the deficiencies.

D. After a public hearing and to the extent that money is available in the fund for such purposes, the council shall approve allocations from the fund on the established priority basis and, working with the school district and pursuant to the Procurement Code, enter into construction contracts with contractors to correct the deficiencies.

E. In entering into construction contracts to correct deficiencies pursuant to this section, the council shall include such terms and conditions as necessary to ensure that the state money is expended in the most prudent manner possible and consistent with the original purpose.

F. Any deficiency that may adversely affect the health or safety of students or school personnel may be corrected pursuant to this section, regardless of the local effort or percentage of indebtedness of the school district.

G. It is the intent of the legislature that all outstanding deficiencies in public schools and grounds that may adversely affect the health or safety of students and school personnel be identified and awards made pursuant to this section no later than June 30, 2005, and that funds be expended no later than June 30, 2007, provided that the council may extend the expenditure period upon a determination that a project requires the additional time because existing buildings need to be demolished or because of other extenuating circumstances."

## **Chapter 366 Section 5 Laws 2007**

Section 5. Section 22-24-4.4 NMSA 1978 (being Laws 2005, Chapter 274, Section 7) is amended to read:

"22-24-4.4. SERIOUS ROOF DEFICIENCIES--CORRECTION.--

A. To complete the program to correct outstanding deficiencies, those serious deficiencies in the roofs of public school facilities identified pursuant to Section 22-24-4.1 NMSA 1978 as adversely affecting the health or safety of students and school

personnel shall be corrected pursuant to this section, regardless of the local effort or percentage of indebtedness of the school district, subject to the following provisions:

(1) if the council determines that the school district has excess capital improvement funds received pursuant to the Public School Capital Improvements Act, the cost of correcting the deficiencies shall first come from the school district's excess funds, and if the excess funds are insufficient to correct the deficiencies, the difference shall be paid from the public school capital outlay fund; and

(2) if the school district refuses to pay its share of the cost of correcting deficiencies as determined pursuant to Paragraph (1) of this subsection, future distributions from the public school capital improvements fund pursuant to Section 22-25-9 NMSA 1978 shall not be made to the school district but shall be made to the public school capital outlay fund until the public school capital outlay fund is reimbursed in full for the school district's share.

B. It is the intent of the legislature that all awards for correcting outstanding deficiencies in public school roofs that may adversely affect the health and safety of students and school personnel be made pursuant to this section no later than September 30, 2005 and that funds be expended no later than September 30, 2008."

## **Chapter 366 Section 6 Laws 2007**

Section 6. Section 22-24-5 NMSA 1978 (being Laws 1975, Chapter 235, Section 5, as amended) is amended to read:

"22-24-5. PUBLIC SCHOOL CAPITAL OUTLAY PROJECTS--APPLICATION--  
GRANT ASSISTANCE.--

A. Applications for grant assistance, the approval of applications, the prioritization of projects and grant awards shall be conducted pursuant to the provisions of this section.

B. Except as provided in Sections 22-24-4.3, 22-24-5.4 and 22-24-5.6 NMSA 1978, the following provisions govern grant assistance from the fund for a public school capital outlay project not wholly funded pursuant to Section 22-24-4.1 NMSA 1978:

(1) all school districts are eligible to apply for funding from the fund, regardless of percentage of indebtedness;

(2) priorities for funding shall be determined by using the statewide adequacy standards developed pursuant to Subsection C of this section; provided that:

(a) the council shall apply the standards to charter schools to the same extent that they are applied to other public schools; and

(b) in an emergency in which the health or safety of students or school personnel is at immediate risk or in which there is a threat of significant property damage, the council may award grant assistance for a project using criteria other than the statewide adequacy standards;

(3) the council shall establish criteria to be used in public school capital outlay projects that receive grant assistance pursuant to the Public School Capital Outlay Act. In establishing the criteria, the council shall consider:

(a) the feasibility of using design, build and finance arrangements for public school capital outlay projects;

(b) the potential use of more durable construction materials that may reduce long-term operating costs;

(c) concepts that promote efficient but flexible utilization of space;  
and

(d) any other financing or construction concept that may maximize the dollar effect of the state grant assistance;

(4) no more than ten percent of the combined total of grants in a funding cycle shall be used for retrofitting existing facilities for technology infrastructure;

(5) except as provided in Paragraph (6) or (8) of this subsection, the state share of a project approved and ranked by the council shall be funded within available resources pursuant to the provisions of this paragraph. No later than May 1 of each calendar year, a value shall be calculated for each school district in accordance with the following procedure:

(a) the final prior year net taxable value for a school district divided by the MEM for that school district is calculated for each school district;

(b) the final prior year net taxable value for the whole state divided by the MEM for the state is calculated;

(c) excluding any school district for which the result calculated pursuant to Subparagraph (a) of this paragraph is more than twice the result calculated pursuant to Subparagraph (b) of this paragraph, the results calculated pursuant to Subparagraph (a) of this paragraph are listed from highest to lowest;

(d) the lowest value listed pursuant to Subparagraph (c) of this paragraph is subtracted from the highest value listed pursuant to that subparagraph;

(e) the value calculated pursuant to Subparagraph (a) of this paragraph for the subject school district is subtracted from the highest value listed in Subparagraph (c) of this paragraph;

(f) the result calculated pursuant to Subparagraph (e) of this paragraph is divided by the result calculated pursuant to Subparagraph (d) of this paragraph;

(g) the sum of the property tax mill levies for the prior tax year imposed by each school district on residential property pursuant to Chapter 22, Article 18 NMSA 1978, the Public School Capital Improvements Act, the Public School Buildings Act, the Education Technology Equipment Act and Paragraph (2) of Subsection B of Section 7-37-7 NMSA 1978 is calculated for each school district;

(h) the lowest value calculated pursuant to Subparagraph (g) of this paragraph is subtracted from the highest value calculated pursuant to that subparagraph;

(i) the lowest value calculated pursuant to Subparagraph (g) of this paragraph is subtracted from the value calculated pursuant to that subparagraph for the subject school district;

(j) the value calculated pursuant to Subparagraph (i) of this paragraph is divided by the value calculated pursuant to Subparagraph (h) of this paragraph;

(k) if the value calculated for a subject school district pursuant to Subparagraph (j) of this paragraph is less than five-tenths, then, except as provided in Subparagraph (n) or (o) of this paragraph, the value for that school district equals the value calculated pursuant to Subparagraph (f) of this paragraph;

(l) if the value calculated for a subject school district pursuant to Subparagraph (j) of this paragraph is five-tenths or greater, then that value is multiplied by five-hundredths;

(m) if the value calculated for a subject school district pursuant to Subparagraph (j) of this paragraph is five-tenths or greater, then the value calculated pursuant to Subparagraph (l) of this paragraph is added to the value calculated pursuant to Subparagraph (f) of this paragraph. Except as provided in Subparagraph (n) or (o) of this paragraph, the sum equals the value for that school district;

(n) in those instances in which the calculation pursuant to Subparagraph (k) or (m) of this paragraph yields a value less than one-tenth, one-tenth shall be used as the value for the subject school district;

(o) in those instances in which the calculation pursuant to Subparagraph (k) or (m) of this paragraph yields a value greater than one, one shall be used as the value for the subject school district;

(p) except as provided in Section 22-24-5.7 or 22-24-5.8 NMSA 1978 and except as adjusted pursuant to Paragraph (6) or (8) of this subsection, the amount to be distributed from the fund for an approved project shall equal the total project cost multiplied by a fraction the numerator of which is the value calculated for the subject school district in the current year plus the value calculated for that school district in each of the two preceding years and the denominator of which is three; and

(q) as used in this paragraph: 1) "MEM" means the average full-time-

equivalent enrollment of students attending public school in a school district on the eightieth and one hundred twentieth days of the prior school year; 2) "total project cost" means the total amount necessary to complete the public school capital outlay project less any insurance reimbursement received by the school district for the project; and 3) in the case of a state-

chartered charter school that has submitted an application for grant assistance pursuant to this section, the "value calculated for the subject school district" means the value calculated for the school district in which the state-chartered charter school is physically located;

(6) the amount calculated pursuant to Subparagraph (p) of Paragraph (5) of this subsection shall be reduced by the following procedure:

(a) the total of all legislative appropriations made after January 1, 2003 for nonoperating purposes either directly to the subject school district or to another governmental entity for the purpose of passing the money through directly to the subject school district, and not rejected by the subject school district, is calculated; provided that: 1) an appropriation made in a fiscal year shall be deemed to be accepted by a school district unless, prior to June 1 of that fiscal year, the school district notifies the department of finance and administration and the public education department that the district is rejecting the appropriation; 2) the total shall exclude any educational technology appropriation made prior to January 1, 2005 unless the appropriation was on or after January 1, 2003 and not previously used to offset distributions pursuant to the Technology for Education Act; 3) the total shall exclude any appropriation previously made to the subject school district that is reauthorized for expenditure by another recipient; 4) the total shall exclude one-half of the amount of any appropriation made or reauthorized after January 1, 2007 if the purpose of the appropriation or reauthorization is to fund, in whole or in part, a capital outlay project that, when prioritized by the council pursuant to this section either in the immediately preceding funding cycle or in the

current funding cycle, ranked in the top one hundred fifty projects statewide; and 5) unless the grant award is made to the state-chartered charter school or unless the appropriation was previously used to calculate a reduction pursuant to this paragraph, the total shall exclude appropriations made after January 1, 2007 for nonoperating purposes of a specific state-chartered charter school, regardless of whether the charter school is a state-chartered charter school at the time of the appropriation or later opts to become a state-chartered charter school;

(b) the applicable fraction used for the subject school district and the current calendar year for the calculation in Subparagraph (p) of Paragraph (5) of this subsection is subtracted from one;

(c) the value calculated pursuant to Subparagraph (a) of this paragraph for the subject school district is multiplied by the amount calculated pursuant to Subparagraph (b) of this paragraph for that school district;

(d) the total amount of reductions for the subject school district previously made pursuant to Subparagraph (e) of this paragraph for other approved public school capital outlay projects is subtracted from the amount calculated pursuant to Subparagraph (c) of this paragraph; and

(e) the amount calculated pursuant to Subparagraph (p) of Paragraph (5) of this subsection shall be reduced by the amount calculated pursuant to Subparagraph (d) of this paragraph;

(7) as used in Paragraphs (5) and (6) of this subsection, "subject school district" means the school district that has submitted the application for funding and in which the approved public school capital outlay project will be located;

(8) the council may adjust the amount of local share otherwise required if it determines that a school district has used all of its local resources. Before making any adjustment to the local share, the council shall consider whether:

(a) the school district has insufficient bonding capacity over the next four years to provide the local match necessary to complete the project and, for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(b) the school district: 1) has fewer than an average of eight hundred full-time-equivalent students on the eightieth and one hundred twentieth days of the prior school year; 2) has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) has a share of the total project cost, as calculated pursuant to provisions of this section, that would be greater than fifty percent; and 4) for all educational purposes, has a residential property tax rate of at least seven dollars

(\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; or

(c) the school district has: 1) an enrollment growth rate over the previous school year of at least two and one-half percent; 2) pursuant to its five-year facilities plan, will be building a new school within the next two years; and 3) for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; and

(9) no application for grant assistance from the fund shall be approved unless the council determines that:

(a) the public school capital outlay project is needed and included in the school district's

five-year facilities plan among its top priorities;

(b) the school district has used its capital resources in a prudent manner;

(c) the school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978;

(d) the school district has submitted a five-year facilities plan that includes: 1) enrollment projections; 2) a current preventive maintenance plan that has been approved by the council pursuant to Section 22-24-5.3 NMSA 1978 and that is followed by each public school in the district; 3) the capital needs of charter schools located in the school district; and 4) projections for the facilities needed in order to maintain a full-day kindergarten program;

(e) the school district is willing and able to pay any portion of the total cost of the public school capital outlay project that, according to Paragraph (5), (6) or (8) of this subsection, is not funded with grant assistance from the fund; provided that school district funds used for a project that was initiated after September 1, 2002 when the statewide adequacy standards were adopted, but before September 1, 2004 when the standards were first used as the basis for determining the state and school district share of a project, may be applied to the school district portion required for that project;

(f) the application includes the capital needs of any charter school located in the school district or the school district has shown that the facilities of the charter school have a smaller deviation from the statewide adequacy standards than other district facilities included in the application; and

(g) the school district has agreed, in writing, to comply with any reporting requirements or conditions imposed by the council pursuant to Section 22-24-5.1 NMSA 1978.

C. After consulting with the public school capital outlay oversight task force and other experts, the council shall regularly review and update statewide adequacy standards applicable to all school districts. The standards shall establish the acceptable level for the physical condition and capacity of buildings, the educational suitability of facilities and the need for technological infrastructure. Except as otherwise provided in the Public School Capital Outlay Act, the amount of outstanding deviation from the standards shall be used by the council in evaluating and prioritizing public school capital outlay projects.

D. The acquisition of a facility by a school district or charter school pursuant to a financing agreement that provides for lease payments with an option to purchase for a price that is reduced according to lease payments made may be considered a public school capital outlay project and eligible for grant assistance under this section pursuant to the following criteria:

(1) no grant shall be awarded unless the council finds that, prior to the purchase of the facility by the school district or charter school, the facility will equal or exceed the statewide adequacy standards and the building standards for public school facilities;

(2) no grant shall be awarded unless the school district and the need for the facility meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act;

(3) the total project cost shall equal the total payments that would be due under the agreement if the school district or charter school would eventually acquire title to the facility;

(4) the portion of the total project cost to be paid from the fund may be awarded as one grant, but disbursements from the fund shall be made from time to time as lease payments become due;

(5) the portion of the total project cost to be paid by the school district or charter school may be paid from time to time as lease payments become due; and

(6) neither a grant award nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facility.

E. In order to encourage private capital investment in the construction of public school facilities, the purchase of a privately owned school facility that is, at the time of

application, in use by a school district may be considered a public school capital outlay project and eligible for grant assistance pursuant to this section if the council finds that:

(1) at the time of the initial use by the school district, the facility to be purchased equaled or exceeded the statewide adequacy standards and the building standards for public school facilities;

(2) at the time of application, attendance at the facility to be purchased is at seventy-five percent or greater of design capacity and the attendance at other schools in the school district that the students at the facility would otherwise attend is at eighty-five percent or greater of design capacity; and

(3) the school district and the capital outlay project meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act; provided that, when determining the deviation from the statewide adequacy standards for the purposes of evaluating and prioritizing the project, the students using the facility shall be deemed to be attending other schools in the school district.

F. It is the intent of the legislature that grant assistance made pursuant to this section allows every school district to meet the standards developed pursuant to Subsection C of this section; provided, however, that nothing in the Public School Capital Outlay Act or the development of standards pursuant to that act prohibits a school district from using local funds to exceed the statewide adequacy standards.

G. Upon request, the council shall work with, and provide assistance and information to, the public school capital outlay oversight task force.

H. The council may establish committees or task forces, not necessarily consisting of council members, and may use the committees or task forces, as well as existing agencies or organizations, to conduct studies, conduct surveys, submit recommendations or otherwise contribute expertise from the public schools, programs, interest groups and segments of society most concerned with a particular aspect of the council's work.

I. Upon the recommendation of the public school facilities authority, the council shall develop building standards for public school facilities and shall promulgate other such rules as are necessary to carry out the provisions of the Public School Capital Outlay Act.

J. No later than December 15 of each year, the council shall prepare a report summarizing its activities during the previous fiscal year. The report shall describe in detail all projects funded, the progress of projects previously funded but not completed, the criteria used to prioritize and fund projects and all other council actions. The report shall be submitted to the public education commission, the governor, the legislative finance committee, the legislative education study committee and the legislature."

## Chapter 366 Section 7 Laws 2007

~~[Section 7. A new section of the Public School Capital Outlay Act, Section 22-24-5.8 NMSA 1978, is enacted to read:~~

~~"22-24-5.8. SUPPLEMENTAL FUNDING FOR PROJECTS IN CERTAIN SCHOOL DISTRICTS.--~~

~~----- A. A school district receiving grant assistance from the fund pursuant to Section 22-~~

~~24-5 NMSA 1978 for a public school capital outlay project shall receive an additional grant from the fund in order for the project to exceed the statewide adequacy standards if the school district and proposed use of the additional grant qualify pursuant to the provisions of Subsection B of this section.~~

~~----- B. A school district shall receive the additional grant if the council determines that:~~

~~----- (1) in calculating the grant assistance from the fund for the project pursuant to Section 22-24-5 NMSA 1978, the value calculated for the school district pursuant to Subparagraph (k), (m), (n) or (o) of Paragraph (5) of Subsection B of that section is equal to or greater than seven-tenths;~~

~~----- (2) averaged over the previous four property tax years, the school district had a residential property tax rate of at least nine dollars (\$9.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;~~

~~----- (3) at least seventy percent of the students in the school district are eligible for free or reduced-fee lunch;~~

~~----- (4) for the next four years, the school district will not have sufficient local resources to expend on the project so it is unlikely that the project will ever exceed the statewide adequacy standards; and~~

~~----- (5) the planned use of the additional grant to exceed the statewide adequacy standards will enhance public school education in the school district, will further the school district's educational plan for student success and is a prudent use of state money.~~

~~----- C. The amount of an additional grant awarded pursuant to this section shall equal the total project cost multiplied by the lesser of:~~

~~\_\_\_\_\_ (1) the value calculated for the school district pursuant to Subparagraph (k), (m), (n) or (o) of Paragraph (5) of Subsection B of Section 22-24-5 NMSA 1978 minus six-~~

~~\_\_\_\_\_ (2) twenty-five hundredths.~~

~~\_\_\_\_\_ D. All provisions of the Public School Capital Outlay Act relating to the expenditure of other grants awarded from the fund, including those provisions relating to reporting, oversight, project access and accountability, apply to the use and expenditure of additional grants made pursuant to this section."~~

## **Chapter 366 Section 8 Laws 2007**

~~[Section 8. A new section of the Public School Capital Outlay Act, Section 22-24-12 NMSA 1978, is enacted to read:~~

~~\_\_\_\_\_ "22-24-12. PUBLIC SCHOOL FACILITY OPPORTUNITY FUND--PURPOSE--  
GRANTS FROM THE FUND.--~~

~~\_\_\_\_\_ A. The legislature finds that for many years, until relatively recently, educational facilities in a few school districts in New Mexico were so inadequate because of a lack of local resources and little support from the state that the quality of education offered to students in those school districts was extremely substandard. The legislature further finds that, even under the current program to bring all public school facilities up to a minimum statewide adequacy standard, because of a continuing shortage in available local resources, some school districts will not be able to exceed that minimum in the foreseeable future and, therefore, will not have the opportunity to provide their students with the same quality of educational facilities as students in school districts that have sufficient local resources to surpass the minimum standards. The purpose of this section is to partially correct those past inequities by providing a program of state support for qualifying school districts so that minimum statewide adequacy standards may be exceeded on stand-alone projects on existing facilities.~~

~~\_\_\_\_\_ B. The "public school facility opportunity fund" is created in the state treasury. The fund shall consist of transfers, appropriations, reversions, gifts, grants, donations and bequests made to the fund. A. Except as provided in Subsection C or G of this section, the secretary shall distribute to any school district that has imposed a tax under the Public School Capital Improvements Act an amount from the public school capital improvements fund that is equal to the amount by which the revenue estimated to be received from the imposed tax, at the rate certified by the department of finance and administration in accordance with Section 22-25-7 NMSA 1978, assuming a one hundred percent collection rate, is less than an amount calculated by multiplying the school district's first forty days' total program units by the amount specified in Subsection B of this section and further multiplying the product obtained by the tax rate approved by the qualified electors in the most recent election on the question of imposing a tax under the Public School Capital Improvements Act. The distribution shall be made each year that the tax is imposed in

accordance with Section 22-25-7 NMSA 1978; provided that no state distribution from the public school capital improvements fund may be used for capital improvements to any administration building of a school district. In the event that sufficient funds are not available in the public school capital improvements fund to make the state distribution provided for in this section, the dollar per program unit figure shall be reduced as necessary.

If, in the sole discretion of the council, the amount available exceeds the amount needed, the council may certify an additional amount pursuant to this paragraph; provided that the sum of the amount calculated pursuant to this paragraph plus the amount in Paragraph (1) of this subsection shall not result in a total statewide distribution that, in the opinion of the council, exceeds one-half of the total revenue estimated to be received from taxes imposed pursuant to the Public School Capital Improvements Act.

C. For any fiscal year notwithstanding the amount calculated to be distributed pursuant to Subsections A and B of this section, except as provided in Subsection G of this section, a school district, the voters of which have approved a tax pursuant to Section 22-25-

3 NMSA 1978, shall not receive a distribution less than the amount calculated pursuant to Subsection E of this section, multiplied by the school district's first forty days' total program units and further multiplying the product obtained by the approved tax rate.

D. For purposes of calculating the distribution pursuant to Subsection B of this section, the amount used in Paragraph (1) of that subsection shall equal seventy dollars (\$70.00) in fiscal year 2008 and in each subsequent fiscal year shall equal the amount for the previous fiscal year adjusted by the percentage increase between the next preceding calendar year and the preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor.

preceding calendar year and the preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor.

"59A-17-2. SCOPE OF ARTICLE--EXEMPTIONS.--

A. The Insurance Rate Regulation Law applies to all kinds and lines of direct insurance written on risks or operations in this state by any authorized insurer, except:

(1) wet marine and transportation insurance, as defined in Section 59A-7-5 NMSA 1978;

(2) life insurance;

(3) variable and fixed annuities; and

(4) health insurance.

B. For purposes of the Insurance Rate Regulation Law, "workers' compensation" insurance includes employer's liability insurance.

## **Chapter 367 Section 3 Laws 2007**

Section 3. Section 59A-17-4 NMSA 1978 (being Laws 1984, Chapter 127, Section 300) is amended to read:

"59A-17-4. DEFINITIONS.--As used in the Insurance Rate Regulation Law:

A. "advisory organization" means an entity, including its affiliates or subsidiaries, that either has two or more member insurers or is controlled either directly or indirectly by two or more insurers, and that assists insurers in the promulgation of policy forms; in ratemaking activities, such as the collection, compilation and furnishing of loss or expense statistics; or in the recommendation, making or filing of rates, prospective loss costs, supplementary rate information, policy forms or endorsements. Two or more insurers having a common ownership or operating in New Mexico under common management or control constitute a single insurer for purposes of this definition;

B. "commercial insurance" means any line or kind of property or casualty insurance not for personal, family or household needs;

C. "market" means any line or kind of insurance or any subdivision thereof or any class of risks or combination of classes;

D. "residual market mechanism" means an arrangement, either voluntary or mandated by law, involving participation by insurers in the equitable apportionment among them of insurance that may be afforded applicants who are unable to obtain insurance through ordinary methods;

E. "reverse competition" means a marketplace situation where the placement of a line, kind or class of insurance with insurers is determined primarily or exclusively by parties other than the policyholders;

F. "supplementary rate information" includes any manual or plan of rates, classification, rating schedule, minimum premium, policy fee, rating rule, underwriting rule and any other information needed to determine the applicable rate in effect or to be in effect; and

G. "supporting information" means:

(1) the experience and judgment of the filer and the experience or data of other insurers or advisory organizations relied upon by the filer;

(2) the interpretation of any other data relied upon by the filer;

(3) descriptions of methods used in making the rates; and

(4) any other information required by the superintendent to be filed."

## **Chapter 367 Section 4 Laws 2007**

Section 4. A new section of the Insurance Rate Regulation Law is enacted to read:

"COMPETITIVE MARKET.--A competitive market is presumed to exist unless the superintendent, after notice and hearing, determines that a reasonable degree of competition does not exist within a market and issues a ruling to that effect. The ruling shall expire three years after issue unless rescinded earlier by the superintendent or unless the superintendent renews the ruling after a hearing and a finding as to the continued lack of a reasonable degree of competition. Any ruling that finds that competition does not exist shall identify the factors that cause the market not to be competitive and may also include a plan for enhancing competition. The superintendent shall monitor the degree and continued existence of competition in New Mexico on an ongoing basis. An interested party may petition the superintendent to initiate a hearing to examine whether a particular market is competitive or whether a particular market is no longer noncompetitive."

## **Chapter 367 Section 5 Laws 2007**

Section 5. A new section of the Insurance Rate Regulation Law is enacted to read:

"REVERSE COMPETITIVE MARKET.--A reverse competitive market for a line, kind or class of insurance is presumed to exist wherever the placement of a line, kind or class of insurance with insurers is determined primarily or exclusively by parties other

than the policyholders. The superintendent may, by notice and hearing, establish rules for determining the specific lines, kinds or classes of insurance that, for the purposes of the Insurance Rate Regulation Law, are reversely competitive."

## **Chapter 367 Section 6 Laws 2007**

Section 6. A new section of the Insurance Rate Regulation Law is enacted to read:

"CONSUMER INFORMATION.--

A. The superintendent shall use, develop or cause to be developed a consumer information system that will provide and disseminate price and other relevant information on a readily available basis to purchasers of homeowners, private passenger non-fleet automobile or property insurance for personal, family or household needs as well as for any other types of personal or commercial insurance designated by the superintendent. To the extent deemed necessary and appropriate by the superintendent, insurers, advisory organizations and other persons or organizations involved in conducting the business of insurance in New Mexico, to which this section applies, shall cooperate in the development and utilization of a consumer information system.

B. An insurer writing homeowners insurance or private passenger non-fleet automobile insurance in New Mexico shall, upon renewal or upon the transfer of a policy to another insurer under the same ownership or management as the transferring insurer, provide its policyholders with written notification of their right to obtain from the insurer a detailed written explanation of the reasons why their policy premium has changed or is about to change."

## **Chapter 367 Section 7 Laws 2007**

Section 7. A new section of the Insurance Rate Regulation Law is enacted to read:

"UNDERWRITING GUIDELINES.--

A. The superintendent may direct an insurer writing homeowners insurance, private passenger non-fleet automobile insurance or other lines, kinds or classes of noncommercial insurance in New Mexico to file with the superintendent underwriting guidelines that determine the acceptance of applicants and tiering guidelines that determine the placement of applicants and insureds into rating tiers, regardless of whether such tiers exist within the insurer or within a group of insurers under common ownership or management.

B. The superintendent, after notice and hearing, may order an insurer to cease using underwriting or tiering guidelines that are unfairly discriminatory or that fail to

place applicants and insureds into tiers in a clear, objective, risk-based and mutually exclusive manner.

C. Filings made pursuant to this section shall be considered confidential trade secrets under the Uniform Trade Secrets Act."

## **Chapter 367 Section 8 Laws 2007**

Section 8. Section 59A-17-6 NMSA 1978 (being Laws 1984, Chapter 127, Section 302) is amended to read:

"59A-17-6. RATE STANDARDS.--

A. Rates shall not be excessive, inadequate or unfairly discriminatory, nor shall an insurer charge any rate that, if continued, will have or tend to have the effect of destroying competition or creating a monopoly.

B. In a competitive market, rates are presumed not to be excessive.

C. In a noncompetitive market, rates are excessive if they are likely to produce a profit that is unreasonably high in relation to the riskiness of the line, kind or class of business, or if expenses are unreasonably high in relation to the services rendered.

D. Rates are inadequate if they are clearly insufficient, together with the investment income attributable to them, to sustain projected losses and expenses in the line, kind or class of business to which they apply.

E. There is unfair discrimination if one rate is unfairly discriminatory in relation to another in the same line, kind or class if it clearly fails to reflect equitably the differences in expected losses and expenses. Rates are not unfairly discriminatory because different premiums result for policyholders with like loss exposures but different expense factors, or like expense factors but different loss exposures, so long as the rates reflect the differences with reasonable accuracy. Rates are not unfairly discriminatory if they are averaged broadly among persons insured under a group, franchise or blanket policy or a mass marketing plan."

## **Chapter 367 Section 9 Laws 2007**

Section 9. Section 59A-17-7 NMSA 1978 (being Laws 1984, Chapter 127, Section 303) is amended to read:

"59A-17-7. RATING METHODS.--In determining whether rates comply with the rate standards, the following criteria shall be applied:

A. due consideration shall be given to past and prospective loss and expense experience within and without this state, to catastrophic hazards and contingencies, to

trends within and without this state, to loadings for leveling premium rates over time or for dividends or savings to be allowed or returned by insurers to their policyholders, members or subscribers and to all other relevant factors, including the judgment of technical personnel;

B. risks may be classified in any reasonable way for the establishment of rates and minimum premiums, except that classifications may not be based on race, color, creed or national origin;

C. the expense provisions included in the rates to be used by an insurer may reflect the operating methods of the insurer and, so far as it is credible, its own expense experience; and

D. the rates may contain an allowance permitting a profit that is not unreasonable in relation to the riskiness of the line, kind or class of business. Profit shall include investment income attributable to such rates."

## **Chapter 367 Section 10 Laws 2007**

Section 10. Section 59A-17-7.1 NMSA 1978 (being Laws 1987, Chapter 80, Section 1) is amended to read:

"59A-17-7.1. MOTOR VEHICLE LIABILITY--NOT-AT-FAULT ACCIDENTS.--

A. The rates of a motor vehicle liability insurer shall not provide for an increase in the premium if based upon an accident in which the insured is not at fault in any manner as determined by either the accident report or the insurer. If the insurer determines that its insured is at fault contrary to the specific finding of an accident report that the insured is not at fault, the insurer shall reach its conclusion only after an investigation.

B. A motor vehicle liability insurer shall not cancel, or use as a basis for nonrenewal, an insurance policy if such cancellation or nonrenewal is based upon an accident in which the insured is not at fault in any manner as determined by either the accident report or the insurer. If the insurer determines that its insured is at fault contrary to the specific finding of an accident report that the insured is not at fault, the insurer shall reach its conclusion only after an investigation.

C. As used in this section, "motor vehicle liability insurer" means an insurer authorized to transact in this state the business of automobile and motor vehicle bodily injury, property damage liability and physical damage insurance.

D. This section shall not apply if other factors exist, exclusive of the accident in which the insured is not at fault, that allow for a premium increase, cancellation or nonrenewal of an insurance policy under the Insurance Code or rules pursuant to the Insurance Code."

## Chapter 367 Section 11 Laws 2007

Section 11. Section 59A-17-8 NMSA 1978 (being Laws 1984, Chapter 127, Section 304, as amended) is amended to read:

"59A-17-8. MAKING OF RATES--WORKERS' COMPENSATION--RATE CALCULATIONS--RATE CLASSIFICATIONS.--

A. A workers' compensation insurer shall adhere to a uniform classification system and uniform experience rating system filed with the superintendent by an advisory organization designated by the superintendent.

B. A workers' compensation insurer shall report its experience in accordance with the statistical plans and other reporting requirements in use by the advisory organization designated by the superintendent.

C. Workers' compensation premium rates shall be equalized and calculated on a basis that does not discriminate against or penalize employers who pay higher wages than other employers to workers in the same job classification. The legislature finds that calculating workers' compensation premium rates strictly on the basis of an employer's wages paid discriminates against and penalizes higher-paying employers. The legislature accordingly directs that the superintendent shall:

(1) investigate alternatives to the current method of computing workers' compensation premiums, including but not limited to:

- (a) split classification;
- (b) payroll cap;
- (c) hours worked; and
- (d) premium credits;

(2) immediately conduct hearings on the issue, including consideration of other alternatives; and

(3) adopt regulations, to become effective no later than April 1, 1991, to equalize the workers' compensation premium rates employers must pay for workers who perform the same job.

Nothing in this subsection shall be construed to prohibit the use of experience rating or scheduled credits.

D. A workers' compensation insurer may develop subclassifications of the uniform classification system upon which rates may be made. Such subclassifications

and their filing shall be subject to all applicable provisions of the Insurance Rate Regulation Law. Data produced from such subclassifications shall be reported in accordance with the statistical plans, uniform classification system and experience rating system in use by the advisory organization designated by the superintendent.

E. Classification assignments may be changed within sixty days of the effective date or renewal date of the policy, provided the employer is given reasonable prior notice of the proposed change in order to object and provided further that the change is based upon an appropriate audit or investigation. The same provisions apply to initial classification assignments for new operations added by the employer so that they may be changed within sixty days of the date the classification assignments are initially established. No subsequent changes shall be made unless the insurer proves, after conducting an audit or investigation, that:

(1) there has been a substantial change in the nature of the work performed; or

(2) the initial assignment was in error due to withheld or inaccurate material information provided by the employer.

F. A workers' compensation insurer may develop rating plans that identify loss experience as a factor to be used. The rating plans and their filing shall be subject to all applicable provisions of the Insurance Rate Regulation Law.

G. The superintendent shall disapprove subclassifications, rating plans or other variations from supplementary rate information filed by a workers' compensation insurer if the insurer fails to demonstrate that the data produced can be reported consistent with the uniform classification system and experience rating system and in such a fashion so as to allow for the application of experience rating filed by the advisory organization designated by the superintendent."

## **Chapter 367 Section 12 Laws 2007**

Section 12. Section 59A-17-9 NMSA 1978 (being Laws 1984, Chapter 127, Section 305, as amended) is amended to read:

"59A-17-9. FILING OF RATES.--

A. In regard to filings in competitive markets:

(1) for purposes of this section, reverse competitive markets and residual markets are not competitive markets;

(2) for filings by insurers:

(a) an insurer shall file with the superintendent rates and supplementary rate information prior to their use in New Mexico;

(b) rates to be used in a competitive market for commercial insurance other than workers' compensation and medical professional liability need not be filed; and

(c) insurers that wish to use workers' compensation subclassifications, rating plans, loss costs or other supplementary rate information that differs from items filed by the advisory organization designated by the superintendent shall file with the superintendent relevant subclassifications, rating plans, rates, loss costs, other supplementary rate information and supporting information in accordance with the requirements and provisions of Subsection B of this section; and

(3) for filings by advisory organizations:

(a) with the exception of workers' compensation filings, an advisory organization shall file with the superintendent rates, supplementary rate information and supporting information prior to their use in New Mexico; and

(b) regarding workers' compensation filings, the advisory organization designated by the superintendent shall file with the superintendent rates, supplementary rate information and supporting information in accordance with the requirements and provisions of Subsection B of this section.

B. In regard to filings in noncompetitive, reverse competitive and residual markets:

(1) an insurer or advisory organization shall file with the superintendent rates, supplementary rate information and supporting information for noncompetitive, reverse competitive and residual markets at least thirty days before the proposed effective date;

(2) the superintendent may give written or electronic notice, within thirty days of receipt of the filing, that the superintendent needs additional time, not to exceed thirty days from the date of such notice, to consider the filing;

(3) upon written or electronic application of the insurer or advisory organization, the superintendent may authorize rates to be effective before the expiration of the waiting period or an extension of the waiting period;

(4) a filing shall be deemed to meet the requirements of this section and to become effective unless disapproved pursuant to Section 59A-17-13 NMSA 1978 by the superintendent before the expiration of the waiting period or an extension of the waiting period;

(5) the operation of the deemer provision shall be suspended during a period of not more than sixty days upon written or electronic notice to the insurer or advisory organization that made the filing that additional information is needed to complete the review of the filing. The suspension of the deemer provision may occur only once for a filing. Failure of the insurer or advisory organization to provide the requested information within sixty days shall be deemed a request to withdraw the filing from further consideration. The superintendent shall either approve or disapprove the filing within thirty days of receipt of the requested additional information. Failure of the superintendent to act within the thirty-

day period shall result in the filing being deemed to meet the requirements of the Insurance Rate Regulation Law. Neither the insurer nor the superintendent may waive the timeliness requirements of the deemer provisions of this section; and

(6) residual market mechanisms or advisory organizations may file residual market rates.

C. In regard to reference filings; an insurer may file its rates either by filing its final rates or by filing a multiplier and, if applicable, an expense constant adjustment to be applied to prospective loss costs that have been filed by an advisory organization on behalf of the insurer as permitted by Section 59A-17-17 NMSA 1978. Such reference filings shall be made prior to their use or by other methods the superintendent may allow by rule. An insurer that chooses to adopt the prospective loss costs or rates that have been filed by an advisory organization on its behalf for a competitive commercial line other than workers' compensation or medical professional liability need not file."

## **Chapter 367 Section 13 Laws 2007**

Section 13. Section 59A-17-11 NMSA 1978 (being Laws 1984, Chapter 127, Section 307, as amended) is amended to read:

"59A-17-11. FILINGS OPEN TO INSPECTION.--A filing and supporting information filed under Sections 59A-17-9 and 59A-17-10 NMSA 1978 shall, as soon as filed, be open to public inspection at a reasonable time. A copy of a filing and supporting information may be obtained by a person on request to the superintendent and payment of a reasonable charge. If the insurer or advisory organization believes that information contained in the filing contains material that it considers to be a trade secret, it shall include that information in a separate section of the filing and include a request for the superintendent to consider whether that information should be kept confidential."

## **Chapter 367 Section 14 Laws 2007**

Section 14. Section 59A-17-12 NMSA 1978 (being Laws 1984, Chapter 127, Section 308) is amended to read:

"59A-17-12. INSURER MUST ADHERE TO RATES--CONSENT TO RATE.--

A. No insurer shall make or issue a contract or policy of insurance except in accordance with filings or rates that are lawfully in effect for the insurer as provided in the Insurance Rate Regulation Law.

B. Upon written application of the insured stating the underlying reasons that is filed with and approved by the superintendent, a rate in excess of or below that otherwise applicable may be used as to a specific risk."

## **Chapter 367 Section 15 Laws 2007**

Section 15. Section 59A-17-13 NMSA 1978 (being Laws 1984, Chapter 127, Section 309, as amended) is amended to read:

"59A-17-13. GROUNDS AND PROCEDURES FOR DISAPPROVAL OF RATES.--

A. The superintendent shall disapprove a rate for use in a competitive market if the superintendent finds that the rate is inadequate or unfairly discriminatory under the rate standards set forth in Section 59A-17-6 NMSA 1978. The superintendent shall disapprove a rate for use in a noncompetitive, reverse competitive or residual market if the superintendent finds that the rate is excessive, inadequate or unfairly discriminatory under the rate standards set forth in Section 59A-17-6 NMSA 1978.

B. The superintendent may at any time disapprove a filing submitted under the "file and use" provisions of Subsection A of Section 59A-17-9 NMSA 1978 after giving notice of hearing pursuant to the provisions of Subsection A of Section 59A-4-16 NMSA 1978 to every insurer and advisory organization that adopted the rate.

C. The superintendent may disapprove a filing submitted under the "prior approval" provisions of Subsection B of Section 59A-17-9 NMSA 1978:

(1) without a hearing prior to the expiration of the waiting period or an extension of the waiting period. An insurer or advisory organization whose rates are disapproved under this subsection may request a hearing before the superintendent by filing a written request within thirty days of the date of the disapproval notice; or

(2) at any time after the expiration of the waiting period or an extension of the waiting period, after giving notice of hearing pursuant to the provisions of Subsection A of Section 59A-4-16 NMSA 1978 to every insurer and advisory organization that adopted the rate.

D. The superintendent's notice or order of disapproval shall specify the respects in which the rate fails to meet the standards set forth in Section 59A-17-6 NMSA 1978. The notice or order shall state an effective date no sooner than thirty business days after the date of the notice or order when the insurer shall discontinue the use of the

rate. The notice or order shall not affect any policy made before the effective date of the notice or order."

## **Chapter 367 Section 16 Laws 2007**

Section 16. A new section of the Insurance Rate Regulation Law is enacted to read:

"LARGE COMMERCIAL POLICYHOLDERS.--

A. The superintendent may, by rule, establish a class of large commercial policyholders, to be known as exempt commercial policyholders, that shall be exempt from the rate and form requirements of Chapter 59A, Articles 17 and 18 NMSA 1978, except for form provisions relating to workers' compensation mandatory coverage provisions.

B. In the promulgation of this rule, the superintendent shall consider the following factors in establishing an exempt commercial policyholder class:

(1) the characteristics of insureds that are likely to study and understand the details of their business risks, insurance coverages and exclusions;

(2) the characteristics of insureds that are likely to avail themselves of regular price comparisons between competing insurers and are likely to study and understand the differences and details of pricing proposals that they receive;

(3) the characteristics of insureds that are likely to require individually written policies, as contrasted to insureds that can customarily have their coverage needs met through a compilation of forms with applicability to other insureds as well;

(4) the characteristics of insureds for which filed rates and rating plans are less likely to provide the lowest premiums otherwise consistent with the provisions of the Insurance Rate Regulation Law;

(5) the favorable or adverse experiences with exemptions from regulatory requirements, especially the experience in New Mexico;

(6) the extent to which commercial insureds primarily located in another jurisdiction are subject to similar exemptions or waivers in that jurisdiction; and

(7) any other relevant factors.

C. The superintendent may, by rule, waive some or all of the diligent search requirements related to placement of risks in the approved surplus lines market for some or all of the exempt commercial policyholders."

## **Chapter 367 Section 17 Laws 2007**

Section 17. Section 59A-17-13.1 NMSA 1978 (being Laws 1993, Chapter 103, Section 1) is amended to read:

DISCOUNTS ON HOMEOWNERS' POLICIES FOR BURGLARY PROTECTIONS.--Any insurer licensed to write homeowner's insurance, as defined by the superintendent, within the state shall provide a minimum premium discount of ten percent for houses with electronic alarm systems designed to prevent unauthorized entry into the house. The insurer shall also provide a minimum premium discount of five percent for houses with wrought iron bars covering all the doors and windows of the house. These discounts shall apply to comprehensive coverage and shall be part of the insurer's rate filing. Some or all of the premium discounts required by this section may be omitted upon demonstration to the superintendent in an insurer's rate filing that the discounts are duplicative of other discounts provided by the insurer."

## **Chapter 367 Section 18 Laws 2007**

Section 18. Section 59A-17-16 NMSA 1978 (being Laws 1984, Chapter 127, Section 312, as amended) is amended to read:

"59A-17-16. REQUIREMENT FOR SUPPORTING INFORMATION.--

A. By rule, the superintendent may require the filing of supporting data as to any or all kinds or lines of insurance or subdivisions thereof or classes of risks or combinations thereof as the superintendent deems necessary for the proper functioning of the rate monitoring and regulating process. The supporting data shall include:

(1) the experience and judgment of the filer and, to the extent it wishes or the superintendent requires, of other insurers or advisory organizations;

(2) its interpretation of any statistical data relied upon;

(3) descriptions of the actuarial and statistical methods employed in setting the rates; and

(4) any other relevant matters required by the superintendent.

B. Whenever a filing is not accompanied by the information as the superintendent has required under Subsection A of this section, the superintendent may inform the insurer and the filing shall be deemed to be made when the information is furnished."

## **Chapter 367 Section 19 Laws 2007**

Section 19. Section 59A-17-17 NMSA 1978 (being Laws 1984, Chapter 127, Section 313, as amended) is amended to read:

"59A-17-17. USE OF ADVISORY ORGANIZATION FILINGS.--

A. An insurer may itself establish rates and supplementary rate information for a market segment based on the factors set forth in Section 59A-17-7 NMSA 1978 or it may in its rate filing incorporate by reference loss costs and other supplementary rate information prepared by an advisory organization, with modification for its own loss experience as the credibility of that experience allows.

B. Nothing in the Insurance Rate Regulation Law shall be construed as requiring an insurer to become a member of or subscriber to any advisory organization.

C. The superintendent may adopt rules establishing standards and administrative procedures to carry out the provisions of this section."

### **Chapter 367 Section 20 Laws 2007**

Section 20. Section 59A-17-18 NMSA 1978 (being Laws 1984, Chapter 127, Section 314) is amended to read:

"59A-17-18. ADVISORY ORGANIZATIONS--LICENSE REQUIRED--  
OBLIGATION TO PROVIDE SERVICE.--

A. No advisory organization shall provide a service relating to the statistical collection or the rates of an insurance subject to the Insurance Rate Regulation Law, and no insurer shall use the services of the organization for such purposes, unless the organization has obtained a license as required by Section 59A-17-19 NMSA 1978.

B. No advisory organization shall refuse to supply a service for which it is licensed in this state to an authorized insurer offering to pay the fair and usual compensation for the services."

### **Chapter 367 Section 21 Laws 2007**

A. A person, whether domiciled within or outside this state, may apply to the superintendent for license as an advisory organization for the kinds of insurance or subdivisions thereof as are specified in its application. The application shall include:

(5) payment of the license application fee in an amount specified in Section 59A-6-1 NMSA 1978; and

(6) any other relevant information and documents that the superintendent may require.

B. Every advisory organization that has applied for a license shall promptly notify the superintendent in writing of every material change in the facts or in the documents on which its application was based, or of change in name, address of its process agent under Paragraph (3) of Subsection A of this section. No amendment to a document referred to in Paragraph (1) of Subsection A of this section shall be effective until not less than thirty days after the amendment is filed with the superintendent.

C. If the superintendent finds that the applicant and the individuals through whom it acts are competent, trustworthy and technically qualified to provide the services proposed, and that all requirements of law are met, the superintendent shall within sixty days after completion of the application issue a license to the applicant specifying the authorized activity; otherwise, the superintendent shall refuse to issue the license and shall promptly notify the applicant, specifying the grounds for refusal. The superintendent shall not issue a license if the proposed activity would tend to create a monopoly or lessen or destroy price competition.

v) complying with subpoenas or court orders issued by courts of competent jurisdiction.

c) Notwithstanding the foregoing, the Tribe agrees that:

i) the following documents and information may be released by a State entity to the public: the Tribe's gaming ordinance and regulations of the Tribal Gaming Agency; official rulings of the Tribal Gaming Agency in matters not subject to a confidentiality order imposed by the Agency; other information and documents of the Tribal Gaming Agency or the Gaming Enterprise ordinarily available to the public; quarterly Net Win figures used as the basis for computation of the Tribe's revenue sharing payment under the provisions of Section 11 of this Compact; information that exists as a result of the requirements in Section 4(B)(16); and correspondence between the Tribe or a tribal entity and a State entity, unless such correspondence is specifically labeled "Confidential;"

ii) a State entity may release to the public aggregate figures compiled by totaling comparable figures from the annual financial statements of all of the New Mexico gaming tribes; and

iii) the report of the annual audit of the Gaming Enterprise that is provided by the Tribe to the State Gaming Representative shall be available to the public to the same extent that similar information that is required to be provided to the State by non-Indian gaming entities is available to the public, pursuant to the provisions of applicable law and the policies and regulations of the Gaming Control Board, at the time the request for the report of the annual audit is made.

5. To the fullest extent allowed by State law, the Tribe shall have the right to inspect State records concerning all Class III Gaming conducted by the Tribe; the Tribe shall have the right to copy such State records, with the Tribe bearing the reasonable cost of copying.

6. The Tribe shall reimburse the State for the costs the State incurs in carrying out any functions authorized by the terms of this Compact. The Tribe and the State agree that to require the State to keep track of and account to the Tribe for all such costs would be unreasonably burdensome, and that a fair estimate of the State's costs of such activity as of January 1, 2007, is One Hundred Sixteen Thousand Dollars (\$116,000) per year, and that those costs will increase over time. The Tribe therefore agrees to pay the State the sum of One Hundred Sixteen Thousand Dollars (\$116,000) per year as reimbursement of the State's costs of regulation, which amount shall increase by five percent (5%) as of January 1 of 2012 and as of January 1 of every fifth year thereafter as long as this Compact remains in effect, such sum to be paid in

quarterly payments of one-fourth of the annual amount due each, in advance. The Tribe and the State further agree that such amount fairly reflects the State's costs of regulation.

7. In the event the State believes that the Tribe is not administering and enforcing the regulatory requirements set forth herein, it may invoke the procedures set forth in Section 7 of this Compact.

F. The Tribe shall comply with all applicable provisions of the Bank Secrecy Act, P.L. 91-508, October 26, 1970, 31 U.S.C. §§ 5311-5314, and all reporting requirements of the Internal Revenue Service.

G. At least annually, appropriate representatives of the Tribe shall meet with one or more representatives of the Office of the Governor appointed by the Governor, one or more members of the House of Representatives appointed by the Speaker of the New Mexico House of Representatives, and one or more members of the Senate appointed by the President Pro Tempore of the New Mexico Senate, to discuss matters of mutual interest arising under the terms of this Compact and concerning Indian gaming in New Mexico. Such meeting shall be coordinated so as to involve the representatives of as many New Mexico gaming tribes as possible, and shall be conducted in the context of the government-to-government relationship between the State and the Tribe.

## **SECTION 5. Licensing Requirements.**

A. License Required. The Gaming Facility operator, but not including the Tribe, including its principals, primary management officials, and key employees, the Management Contractor and its principals, primary management officials, and key employees (if the Tribe hires a Management Contractor); any person, corporation, or other entity that has supplied or proposes to supply any gaming device to the Tribe or the Management Contractor; and any person, corporation or other entity providing gaming services within or without a Gaming Facility, shall apply for and receive a license from the Tribal Gaming Agency before participating in any way in the operation or conduct of any Class III Gaming on Indian Lands. The Tribal Gaming Agency shall comply fully with the requirements of this Section and of the Indian Gaming Regulatory Act, especially at 25 U.S.C. §§ 2710-2711, and the regulations issued thereunder at 25 C.F.R. Parts 550-559, as well as the requirements of the Tribe's gaming ordinance and any regulations issued thereunder, in processing license applications and issuing licenses.

B. License Application. Each applicant for a license shall file with the Tribal Gaming Agency a written application in the form prescribed by the Tribal Gaming Agency, along with the applicant's fingerprint card, current photograph and the fee required by the Tribal Gaming Agency.

C. Background Investigations. Upon receipt of a completed application and required fee for licensing, the Tribal Gaming Agency shall conduct or cause to be conducted a background investigation to ensure that the applicant is qualified for licensing.

D. Provision of Information to State Gaming Representative. Whenever the Tribal Gaming Agency is required by federal or tribal law or regulations to provide to the National Indian Gaming Commission ("the Commission") any information, document or notice relating to the licensing of any key employee or primary management official of the Gaming Enterprise, a copy of such information, document or notice shall also be provided to the State Gaming Representative. The State Gaming Representative shall be entitled to the same right to request additional information concerning an applicant licensee, to comment on the proposed licensing of any applicant licensee, and to supply the Tribal Gaming Agency with additional information concerning any applicant licensee, as is enjoyed by the Commission.

## **SECTION 6. Providers of Class III Gaming Equipment or Devices or Supplies.**

A. Within thirty (30) days after the effective date of this Compact, if it has not already done so, the Tribal Gaming Agency will adopt standards for any and all Class III Gaming equipment, devices or supplies to be used in any Gaming Facility, which standards shall be at least as strict as the comparable standards applicable to Class III Gaming equipment, devices or supplies within the State of Nevada. Any and all Class III Gaming equipment, devices or supplies used by the Tribe shall meet or exceed the standards thereby adopted.

B. Prior to entering into any future lease or purchase agreement for Class III Gaming equipment, devices or supplies, the Tribe shall obtain sufficient information and identification from the proposed seller or lessor and all persons holding any direct or indirect financial interest in the lessor or the lease/purchase agreement to permit the Tribe to license those persons in accordance with applicable federal and tribal law.

C. The seller, lessor, manufacturer or distributor shall provide, assemble and install all Class III Gaming equipment, devices or supplies in a manner approved and licensed by the Tribe.

## **SECTION 7. Dispute Resolution.**

A. In the event either party believes that the other party has failed to comply with or has otherwise breached any provision of this Compact, such party may invoke the following procedure:

1. The party asserting noncompliance shall serve written notice on the other party. The notice shall identify the specific Compact provision believed to have been violated and shall specify the factual and legal basis for the allegation of

noncompliance. The notice shall specifically identify the date, time and nature of the alleged noncompliance.

2. In the event an allegation by the complaining party is not resolved to the satisfaction of such party within twenty (20) days after service of the notice set forth in Paragraph A(1) of this section, the complaining party may serve upon the other party a notice to cease conduct of the particular game(s) or activities alleged by the complaining party to be in noncompliance. Upon receipt of such notice, the responding party may elect to stop the game(s) or activities specified in the notice or invoke arbitration and continue the game(s) or activities pending the results of arbitration. The responding party shall act upon one of the foregoing options within ten (10) days of receipt of notice from the complaining party, unless the parties agree to a longer period, but if the responding party takes neither action within such period the complaining party may invoke arbitration by written notice to the responding party within ten (10) days of the end of such period.

3. The arbitrators shall be attorneys who are licensed members in good standing of the State Bar of New Mexico or of the bar of another state. The State will select one arbitrator, the Tribe a second arbitrator, and the two so chosen shall select a third arbitrator. The party that served the written notice of noncompliance shall select its arbitrator within thirty (30) days after the party has invoked arbitration and the responding party shall select its arbitrator within thirty (30) days of the selection of the first arbitrator. If the third arbitrator is not chosen within thirty (30) days after the second arbitrator is selected, the third arbitrator will be chosen by the American Arbitration Association. The arbitrators thereby selected shall permit the parties to engage in reasonable discovery, and shall establish other procedures to ensure a full, fair and expeditious hearing on the matters at issue. The arbitrators shall determine, after hearing from each party, whether the arbitration proceeding or any portions thereof shall be closed to the public, but in the absence of such determination the proceedings shall be open to the public. The arbitrators shall make determinations as to each issue presented by the parties, but the arbitrators shall have no authority to determine any question as to the validity or effectiveness of this Compact or of any provision hereof.

4. All parties shall bear their own costs of arbitration and attorneys' fees.

5. The results of arbitration shall be final and binding, and shall be enforceable by an action for injunctive or mandatory injunctive relief against the State and the Tribe in any court of competent jurisdiction. For purposes of any such action, the State and the Tribe acknowledge that any action or failure to act on the part of any agent or employee of the State or the Tribe, contrary to a decision of the arbitrators in an arbitration proceeding conducted under the provisions of this section, occurring after such decision, shall be wholly unauthorized and ultra vires acts, not protected by the sovereign immunity of the State or the Tribe.

B. Nothing in Subsection 7(A) shall be construed to waive, limit or restrict any remedy that is otherwise available to either party to enforce or resolve disputes

concerning the provisions of this Compact. Nothing in this Section shall be deemed a waiver of the Tribe's sovereign immunity. Nothing in this Section shall be deemed a waiver of the State's sovereign immunity.

## **SECTION 8. Protection of Visitors.**

A. Policy Concerning Protection of Visitors. The safety and protection of visitors to a Gaming Facility is a priority of the Tribe, and it is the purpose of this Section to assure that any such persons who suffer bodily injury or property damage proximately caused by the conduct of the Gaming Enterprise have an effective remedy for obtaining fair and just compensation. To that end, in this Section, and subject to its terms, the Tribe agrees to carry insurance that covers such injury or loss, agrees to a limited waiver of its immunity from suit, and agrees to proceed either in binding arbitration proceedings or in a court of competent jurisdiction, at the visitor's election, with respect to claims for bodily injury or property damage proximately caused by the conduct of the Gaming Enterprise. For purposes of this Section, any such claim may be brought in state district court, including claims arising on tribal land, unless it is finally determined by a state or federal court that IGRA does not permit the shifting of jurisdiction over visitors' personal injury suits to state court.

B. Insurance Coverage for Claims Required. The Gaming Enterprise shall maintain in effect policies of liability insurance insuring the Tribe, its agents and employees against claims, demands or liability for bodily injury and property damages by a visitor arising from an occurrence described in Paragraph A of this Section. The policies shall provide bodily injury and property damage coverage in an amount of at least ten million dollars (\$10,000,000) per occurrence and ten million dollars (\$10,000,000) annual aggregate. The Tribe shall provide the State Gaming Representative annually a certificate of insurance showing that the Tribe, its agents and employees are insured to the required extent and in the circumstances described in this Section.

C. Limitation on Time to Bring Claim. Claims brought pursuant to the provisions of this section must be commenced by filing an action in court or a demand for arbitration within three years of the date the claim accrues.

D. Specific Waiver of Immunity and Choice of Law. The Tribe, by entering into this Compact and agreeing to the provisions of this section, waives its defense of sovereign immunity in connection with any claims for compensatory damages for bodily injury or property damage up to the amount of ten million dollars (\$10,000,000) per occurrence asserted as provided in this section. This is a limited waiver and does not waive the Tribe's immunity from suit for any other purpose. The Tribe shall ensure that a policy of insurance that it acquires to fulfill the requirements of this section shall include a provision under which the insurer agrees not to assert the defense of sovereign immunity on behalf of the insured, up to the limits of liability set forth in this Paragraph. The Tribe agrees that in any claim brought under the provisions of this Section, New Mexico law shall govern the substantive rights of the claimant, and shall be applied, as

applicable, by the forum in which the claim is heard, except that the tribal court may but shall not be required to apply New Mexico law to a claim brought by a member of the Tribe.

E. Election by Visitor. A visitor having a claim described in this section may pursue that claim in any court of competent jurisdiction, or in binding arbitration. The visitor shall make a written election that is final and binding upon the visitor.

F. Arbitration. Arbitration pursuant to an election by a visitor as provided in Subsection E of this section shall be conducted as follows:

1. the visitor shall submit a written demand for arbitration to the Gaming Enterprise, by certified mail, return receipt requested;

2. the visitor and the Gaming Enterprise shall each designate an arbitrator within thirty (30) days of receipt of the demand, and the two arbitrators shall select a third arbitrator, but in the event the two arbitrators cannot agree on the selection of the third arbitrator within thirty (30) days of their appointment, they shall apply to the American Arbitration Association to appoint the third arbitrator;

3. the arbitration panel shall permit the parties to engage in reasonable discovery, and shall establish other procedures to ensure a full, fair and expeditious hearing on the claim; and

4. the award of the arbitration panel shall be final and binding, and may be enforced in a court of competent jurisdiction.

G. Increase in Liability Limits. As of the fifth anniversary of this Compact, and at five-year intervals thereafter, the liability insurance coverage requirements set forth in Paragraph B of this Section, and the limit on the Tribe's waiver of sovereign immunity set forth in Paragraph D of this Section, shall be increased by a percentage equal to the percentage increase in the CPI-U published by the Bureau of Labor Statistics of the United States Department of Labor, for the same period, rounded to the nearest one hundred thousand dollars (\$100,000).

H. Public Health and Safety. The Tribe shall establish for its Gaming Facility health, safety and construction standards that are at least as stringent as the current editions of the National Electrical Code, the Uniform Building Code, the Uniform Mechanical Code, the Uniform Fire Code and the Uniform Plumbing Code, and any and all construction and maintenance of the Gaming Facility shall comply with such standards. Inspections shall be conducted with respect to these standards at least annually. If the State Gaming Representative requests sufficiently in advance of an annual inspection, the State Gaming Representative may be present during such inspection. The Tribe agrees to correct any deficiencies noted in such inspections within a time agreed upon between the State and Tribe. The Tribal Gaming Agency will

provide copies of such inspection reports to the State Gaming Representative, if requested to do so in writing.

## **SECTION 9. Conditions for Execution; Effective Date.**

A. The parties acknowledge that they have been engaged in litigation, captioned State of New Mexico v. Jicarilla Apache Tribe, et al., No. 00-0851 (D.N.M.) (the "Lawsuit"), that was initiated by the State in United States District Court on June 13, 2000, in which the State seeks an injunction against the Tribe's conduct of Class III gaming under the Predecessor Agreements unless the Tribe pays the State the full amount that the State claims it is owed under the revenue sharing provision of the Predecessor Agreements. The Tribe disputes the validity of such provision of the Predecessor Agreements, but the parties have agreed to settle the dispute addressed in the Lawsuit, and have agreed to enter into this new Compact.

B. This Compact may not be executed by the Governor of the State unless and until it has been executed by the appropriate representative of the Tribe, and until the State Attorney General has certified to the Governor in writing that the Tribe and the State have negotiated a complete settlement of the issues in dispute in the Lawsuit (except that such settlement shall be contingent upon this Compact going into effect under the provisions of IGRA), and that the Tribe has either paid in full the amount agreed to by the terms of the settlement, into the registry of the federal court, or has entered into a binding and fully enforceable agreement for the payment of such amount that is acceptable to the Attorney General. Upon receiving such certification, the Governor shall execute the Compact and forward it to the Secretary of the Interior for approval. Upon the Secretary's affirmative approval of this Compact, as set forth in Paragraph C of this Section, such sum, plus interest, shall be immediately paid into the State General Fund. In the event the Secretary fails to affirmatively approve this Compact, such sum, plus interest, shall be immediately repaid to the Tribe.

C. This Compact shall take effect upon publication of notice in the Federal Register of its approval by the Secretary of the Interior, or of the Secretary's failure to act on it within 45

days from the date on which it was submitted to him; provided, however, that notwithstanding its taking effect, the parties expressly agree that the provisions of this Compact shall remain suspended, and shall confer no rights or obligations on either party, and that the terms and provisions of the Predecessor Agreements shall remain fully in force and effect, subject to the Tribe's and the State's claims in the Lawsuit, unless and until the Secretary shall have affirmatively approved this Compact, pursuant to 25 U.S.C. § 2710(d)(8)(A).

D. Upon the publication of notice of the Secretary's affirmative approval of this Compact in the Federal Register, the Predecessor Agreements shall be and become null and void, and of no further effect, and any and all actions as between the Tribe and the State arising out of the Predecessor Agreements, including dispute resolution

proceedings, shall thereafter be dismissed with prejudice with no relief to either party, and the terms and provisions of this Compact shall go into full force and effect, fully supplanting and replacing the Predecessor Agreements.

## **SECTION 10. Criminal Jurisdiction.**

C. The Tribe and the State acknowledge that under the provisions of § 23 of the IGRA, especially that portion codified at 18 U.S.C. § 1166(d), jurisdiction to prosecute violations of State gambling laws made applicable by that section to Indian country is vested exclusively within the United States, unless the Tribe and the State agree in a compact entered into pursuant to the IGRA to transfer such jurisdiction to the State.

D. The Tribe and the State hereby agree that, in the event of any violation of any State gambling law on Indian Lands or any other crime against the Gaming Enterprise or any employee thereof or that occurs on the premises of the Tribe's Gaming Facility, that is committed by any person who is not a member of the Tribe, the State shall have and may exercise jurisdiction, concurrent with that of the United States, to prosecute such person, under its laws and in its courts.

C. Immediately upon becoming aware of any such suspected crime by a nonmember of the Tribe the Gaming Enterprise or the Tribal Gaming Agency shall notify the state attorney general and the district attorney for the district in which the alleged crime occurred, supplying all particulars available to the tribal entity at the time. The Tribe agrees that its law enforcement and gaming agencies shall perform such additional investigation or take such other steps in furtherance of the investigation and prosecution of the violation as the district attorney may reasonably request, and otherwise cooperate fully with the district attorney and any state law enforcement agencies with respect to the matter, but once notice of a suspected violation has been given to the district attorney, the matter shall be deemed to be under the jurisdiction of the State; provided, however, that in the event of emergency circumstances involving a possible violation, the Tribe and its constituent agencies shall have the discretion to act as they see fit, and to call upon such other agencies or entities as they deem reasonable or necessary, in order to protect against any immediate threat to lives or property. The State may, in its discretion, refer the matter to federal authorities, but it shall notify the Tribal Gaming Agency upon doing so.

D. The State agrees that no less frequently than annually it will provide the Tribal Gaming Agency with a written report of the status and disposition of each matter referred to it under the provisions of this section since the last report or that was still pending at the time of the last report. In the event the district attorney to whom a matter is referred under the provisions of this section decides not to prosecute such matter, the district attorney shall promptly notify the Tribal Gaming Agency of such decision in writing. The Tribal Gaming Agency may in that event ask the attorney general of the state to pursue the matter.

E. The district attorney for a district in which the Tribe conducts Class III Gaming may decline to accept referrals of cases under the provisions of this section unless and until the Tribe has entered into a Memorandum of Understanding with the office of the district attorney to which Memorandum of Understanding the United States Attorney for the District of New Mexico may also be a party addressing such matters as the specific procedures by which cases are to be referred, participation of the Tribal Gaming Agency and tribal law enforcement personnel in the investigation and prosecution of any such case, payments by the Tribe to the office of the district attorney to defray the costs of handling cases referred under the provisions of this section, and related matters.

## **SECTION 11. Revenue Sharing.**

A. Consideration. The Tribe shall pay to the State a portion of its Class III Gaming revenues identified in and under procedures of this Section, in return for which the State agrees that the Tribe has the exclusive right within the State to conduct all types of Class III Gaming described in this Compact, with the sole exception of the use of Gaming Machines, which the State may permit on a limited basis for racetracks and for veterans' and fraternal organizations as such organizations are described in 1997 Laws ch. 190, §5(FF).

B. Revenue to State. The parties agree that, after the effective date hereof, the Tribe shall make the quarterly payments provided for in Paragraph C of this Section. Each payment shall be made to the State Treasurer for deposit into the General Fund of the State.

### **C. Calculation of Payment Amounts.**

1. As used in this Compact, "Net Win" means the total amount wagered in Class III Gaming at a Gaming Facility, on all Gaming Machines less:

(a) the amount paid out in prizes to winning patrons, including the cost to the Tribe of noncash prizes, won on Gaming Machines. The phrase "won on Gaming Machines" means the patron has made a monetary wager, and as a result of that wager, has won a prize of any value. Any rewards, awards or prizes, in any form, received by or awarded to a patron under any form of a players' club program (however denominated) or as a result of patron-related activities, are not deductible. The value of any complimentary given to patrons, in any form, are not deductible;

(b) the amount paid to the State by the Tribe under the provisions of Section 4(E)(6) of this Compact; and

(c) the sum of two hundred seventy-five thousand dollars (\$275,000) per year as an amount representing tribal regulatory costs, which amount shall increase by three percent (3%) each year beginning on the first day of January occurring after the Compact has been in effect for at least twelve months.

2. The Tribe shall pay the State a percentage of its Net Win, determined in accordance with this chart:

Annual Net Win (July 1 - June 30)	2015 - 2030	2007 - 2015	2030 - 2037
Under \$15 million:	3% of the first \$5 million, and 9.25%	3% of the first \$5 million, and 9.50% on the rest	3% of the first million, and 10.25% on the rest
\$15 - \$50 million:	9.25%	9.50%	10.25%
More than \$50 million:	9.75%	10.00%	10.75%

3. Payments due pursuant to these terms shall be paid quarterly, no later than twenty-five (25) days after the last day of each calendar quarter, and shall be based upon the Net Win during the preceding quarter. The Tribe shall ascertain the applicable revenue sharing percentage in Section 11(C)(2) above and shall base its quarterly payments on the following factors: (1) the prior year's total "Net Win" amount and the applicable revenue sharing percentage; and (2) its best good faith estimate of its annual "Net Win" for the July 1 June 30 period. In the event its total "Net Win" for any such period varies from such estimate, such that the amount due the State for the first three quarters as set forth in Section 11(C)(2), above, is different from the amount paid, the payment due for the fourth quarter shall include any additional amounts due for the first three quarters, or shall reflect a credit for any overpayment. Any payment or any portion thereof that is not made within ten (10) days of the due date shall accrue interest at the rate of ten percent (10%) per annum, from the original due date until paid. The Tribe shall accompany any payment to the State with a detailed breakdown of the particular obligation to which such payment applies, and the basis for the calculation of such payment on a form provided by the State Gaming Representative.

4. For purposes of calculating "Net Win," the Tribe shall combine the total amount wagered on all Class III Gaming Machines at all of its gaming locations on its Indian [ands].

D. Limitations.

1. The Tribe's obligation to make the payments provided for in Paragraphs B and C of this Section shall apply and continue only so long as this Compact remains in effect; and provided that that obligation shall terminate altogether in the event the State:

a) passes, amends, or repeals any law, or takes any other action, that would directly or indirectly attempt to restrict, or has the effect of restricting, the scope or extent of Indian gaming;

b) licenses, permits or otherwise allows any person or entity other than six licensed horse racetracks and veterans and fraternal organizations as described in 1997 [aws, ch. 190, §5(FF) to operate Gaming Machines;

c) permits any licensed horse racetrack to operate a larger number of Gaming Machines, or to operate any Gaming Machines for longer hours, than is set forth in subsection (D)(2)(e), below, or to operate any Gaming Machines outside of its licensed premises, or to operate any Table Game;

d) licenses, permits or otherwise allows any non-Indian person or entity to engage in any other form of Class III gaming other than a state-sponsored lottery, parimutuel betting on horse racing and bicycle racing, operation of Gaming Machines, and limited fundraising by non-profit organizations, as set forth in subsection (D)(2), below.

2. The parties agree that the State's allowance of the following forms of Class III Gaming, subject to the limitations expressly set forth herein, shall not be considered an expansion of nontribal Class III gaming for purposes of this agreement, and shall have no effect on the Tribe's obligation to make the payments provided for in Paragraphs B and C of this Section:

(a) the operation of a State lottery;

(b) the operation of Gaming Machines by any fraternal or veterans organization as described in 1997 [aws ch. 190, § 5(FF) but only for the benefit of such organization's members;

(c) limited fundraising activities conducted by nonprofit tax exempt organizations;

(d) the conduct by licensed horse racetracks and bicycle tracks of parimutuel betting on races at such tracks, and on simulcast races at other tracks elsewhere in the country; and

(e) the operation by a licensed horse racetrack of Gaming Machines on days on which live or simulcast horse racing occurs, provided that such operation is limited to no more than eighteen (18) hours in any one day, and to no more

than a total of one hundred twelve (112) hours in any calendar week, and provided further that no licensed horse racetrack shall have more than six hundred (600) licensed Gaming Machines, nor be authorized to operate more than seven hundred and fifty (750) Gaming Machines.

3. The limitations set forth in this Section shall not prohibit a horse racetrack from relocating, selling, transferring or assigning its operations in accordance with applicable procedures and authorizations set forth in New Mexico law.

4. Prior to granting the approval of an application for a racing license for a horse racetrack other than the five horse racetracks holding such licenses as of January 1, 2007, or the approval of an application by a licensed horse racetrack to move its racing and gaming facilities to a new location after January 1, 2007, the State Racing Commission shall adopt, put into effect, and shall have substantially complied with regulations requiring the Commission to solicit and consider the Tribe's views on the application.

E. Third-Party Beneficiaries. The provisions of this Section are not intended to create any third-party beneficiaries and are entered into solely for the benefit of the Tribe and the State.

## **SECTION 12. Duration; Termination for Non-Payment.**

A. This Compact shall have a term commencing on the date on which it goes into full force and effect as provided in Section 9, and ending at midnight on June 30, 2037.

B. Notwithstanding the provisions of Paragraph A of this Section, if the Tribe fails to comply with any of its payment obligations to the State under Sections 4(E)(5), 9(B) or 11 of this Compact, and persists in such failure for a period of thirty (30) days after receipt, by certified mail, of a Notice of Noncompliance sent by the State Gaming Representative, which Notice shall specify the amount due and the provision of the Compact under which such payment is required, this Compact, and the conduct of Class III Gaming by the Tribe hereunder, shall terminate automatically as of the end of the thirty (30)-day period, unless within such thirty (30)-day period the Tribe shall have invoked arbitration on a matter of fact as provided in Section 7(A)(2) of this Compact, and simultaneously shall have placed into escrow, in an institution that is unaffiliated with either the Tribe or the State, a sum of money equal to the amount claimed due by the State, with instructions to the escrow agent specifying that such sum shall not be released except by direction of the arbitration panel or pursuant to a settlement agreement of the parties. The Tribe shall give written notice to the State of the deposit of the amount in dispute into escrow, and of the escrow instructions. At the conclusion of the arbitration proceeding, or, in the event the parties reach a settlement, immediately after execution of the settlement agreement, the escrow agent shall disburse the sum deposited by the Tribe in accordance with the settlement agreement or arbitration award, as applicable. In the event the Tribe invokes arbitration, this Compact and the

Tribe's right to conduct Class III gaming shall terminate automatically at the end of the thirtieth (30th) day after the entry of a final, nonappealable decision by the arbitrators or by a court having jurisdiction of the dispute, unless the full amount determined by the arbitrators or by such court to be due the State, if any, has been paid by such date. The Tribe shall not be entitled to avoid any pre-existing contractual obligations accruing to third parties under this Compact solely by virtue of the termination of the Compact.

### **SECTION 13. Notice to Parties.**

Unless otherwise indicated, all notices, payments, requests, reports, information or demand that any party hereto may desire or may be required to give to the other party hereto, shall be in writing and shall be personally delivered or sent by first-class mail sent to the other party at the address provided in writing by the other party. Every notice, payment, request, report, information or demand so given shall be deemed effective upon receipt or, if mailed, upon receipt or the expiration of the third day following the day of mailing, whichever occurs first, except that any notice of change of address shall be effective only upon receipt by the party to whom said notice is addressed.

### **SECTION 14. Entire Agreement.**

This Compact is the entire agreement between the parties and supersedes all prior agreements, whether written or oral, with respect to the subject matter hereof. Neither this Compact nor any provision herein may be changed, waived, discharged or terminated orally, but only by an instrument, in writing, signed by the Tribe and the State and approved by the Secretary of the Interior. This Compact shall not be amended without the express approval of the Tribe, the Governor of the State and the State Legislature, as provided in the Compact Negotiation Act.

### **SECTION 15. Filing of Compact with State Records Center.**

Upon the effective date of this Compact, a copy shall be filed by the Governor with the New Mexico Records Center. Any subsequent amendment or modification of this Compact shall be filed with the New Mexico Records Center.

### **SECTION 16. Counterparts.**

This Compact may be executed by the parties in any number of separate counterparts with the same effect as if the signatures were upon the same instrument. All such counterparts shall together constitute one and the same document.

### **SECTION 17. Severability.**

Should any provision of this Compact be found to be invalid or unenforceable by any court, such determination shall have no effect upon the validity or enforceability of

any other portion of this Compact, and all such other portions shall continue in full force and effect, except that this provision shall not apply to Sections 4, 5, 6, 9 and 11 hereof, or to any portions thereof, which the parties agree are nonseverable.

WHEREAS, the Tribes and the State have engaged in negotiations leading to amendments to the 2001 Compact to be submitted for approval by the 2007 legislature.

WHEREAS, the parties wish to submit for approval certain details concerning certain aspects of their agreement to be made an integral part of the 2007 Compact, but to be designated as the Appendix to the Compact;

NOW, THEREFORE, the State and the Tribe agree to the following terms and conditions:

1. Section 2 (F) and Section 2(R) of the Compact provide definitions for gaming machines and table games. The definition of a gaming machine is intended to encompass the traditional slot machine. The definition of a table game is intended to encompass traditional games that use cards such as poker, Pai-gow and blackjack, wheel games such as roulette and the Big Wheel, and dice games such as craps.

However, technology is constantly changing in the area of casino gaming and the once clear line between slot machines and table games is becoming less clear. It is the intention of the parties to accommodate and clarify revenue sharing requirements of new games that blur the line between traditional games. Generally, games that are predominantly mechanical, electromechanical or electronic are subject to revenue sharing and games that rely significantly on a casino attendant (a live person) to play the game are not subject to that obligation. Casino attendant involvement ranges from minimal interaction such as initiating the game and taking bets and/or making payout to substantial interaction such as participating in the game as a player (e.g. blackjack) or being involved in nearly every aspect of the game (e.g. craps). The greater the involvement of the casino attendant, the more likely the game is a table game. For example, a casino attendant may have some minimal involvement in an electromechanical slot machine game, such as making a pay-out, but that is not a significant enough involvement to exclude it from revenue sharing obligations. Similarly, although roulette has a mechanical aspect, it is not significant enough to make it subject to revenue sharing obligations.

Recognizing the dynamic nature of gaming technology, the parties shall attempt to agree on whether new mechanical, electromechanical or electronic games that utilize traditional components of table games, e.g. cards, wheels or dice, are subject to revenue sharing on a case by case basis. In the event the parties are unable to agree, the matter shall be submitted to arbitration pursuant to section 7.

2. Section 4 (B)(13) of the Compact provides that the Tribe shall make available to the SGR, unaltered data from all gaming machines. The information shall be downloadable from the Tribe's "slot account system." The parties agree that access to such data shall be made available as follows:

A. The SGR or designee shall have access to the gaming machine accounting data from the production side of the Tribe's "slot accounting system." The gaming machine accounting data consists of the raw, unaltered, data used by the Tribe to calculate "Net Win." This information shall not be in an altered, processed or manipulated format. This information shall be accessible by the SGR, as the SGR shall from time to time determine is required, on a per machine and/or aggregate basis based on a full game day cycle. The purpose of this information is to allow the SGR to verify the Tribe's "Net Win" calculation. A system for electronic access to the Tribe's gaming machine accounting data shall be constructed and installed at the State's cost.

B. The security codes for log-in by the SGR or designee shall be defined collectively by the TGA , the manufacturer of the "slot accounting system", and the SGR.

C. Access to the gaming machine accounting data shall be limited to the SGR or designee solely for purposes authorized in the Compact.

D. Any part of the gaming machine accounting data obtained herein is designated as confidential under the Compact and shall not be made available for public inspection by the SGR.

E. The information referred to herein shall be transferred over secure telecommunications lines.

F. The TGA shall ensure that the systems and connections necessary to provide access to the gaming machine accounting data are in place and operating as required under the Compact.

G. The TGA shall ensure that the SGR or designee is notified promptly either by electronic mail or telephone of any technical problems related to the generation, transfer or access of the gaming machine accounting data.

H. The TGA shall ensure that the SGR has access to the gaming machine accounting data on a periodic basis as determined from time to time by the SGR, but in no event shall access be more often than once in a 24 hour period and the SGR shall strive to access such information in a reasonable manner and only to the extent necessary to meet his obligations under the Compact.

I. The TGA shall at all times designate a person and an alternate as the daily contact person of the SGR or designee.

3. Section 4 (E)(2) provides that the TGA will certify annually to the SGR that the TGA has met its obligations under this compact.

A. The TGA shall annually certify to the SGR that the Tribe is in compliance with the provisions of the Compact by completing and submitting a Compliance Report.

B. The Compliance Report is a checklist of the applicable sections of the Compact outlined in form A provided at the end of this Appendix. The Compliance Report shall serve as an annual attestation to certify that the Tribe, TGA and Tribal Gaming Enterprise have met the obligations under the Compact.

C. The TGA shall complete and submit to the SGR its Compliance Report within thirty days of the end of the Tribe's fiscal year.

D. The TGA shall rely upon its records in preparing the Compliance Report. As evidence that the elements or requirements of the Compact have been met, the TGA shall conduct a comprehensive review of their gaming operations, which may include sample testing. The TGA shall determine the sample size to be used and will provide the methodology of the chosen sample size to the SGR. The TGA shall maintain all records relied upon in preparing the Compliance Report. The records shall be made available for review by the SGR or agent as requested.

E. The TGA shall attach a written explanation of the course of action taken to remedy or explain any portions of the audit checklist that are listed as non-compliant or partially compliant.

F. The SGR reserves the right to review the audit or compliance review and request additional documentation if necessary.

G. The SGR reserves the right of inspection pursuant to section 4(E)(3) of the 2007 Compact.

4. Section 4 (E)(3) of the Compact provides authorization for the SGR to inspect a Gaming Facility, Class III Gaming activity, individual gaming machines and all records relating to Class III Gaming of the Tribe. The parties agree that the protocol for inspection of gaming machines shall include the following:

A. The SGR shall have access to inspect individual gaming machines upon the terms and conditions set forth in Section 4 (E) (3) of the 2007 Compact.

B. The SGR recognizes that the Tribal gaming enterprise is a business and will take reasonable steps to not interfere with the normal conduct of gaming business.

C. The SGR recognizes that the TGA has primary responsibility to administer and enforce the regulatory requirements of the compact and does so through internal controls, direct control of the gaming media and the security and access of the gaming media in a gaming machine.

D. The TGA shall be present at any inspection, upon having been given notice as set out in section 4 (E) (3) (d), and testing of the gaming media shall be conducted by the TGA representative and verified by the SGR.

E. The SGR's inspection of individual gaming machines shall be limited to purposes authorized by the Compact.
