I. The authority is not subject to the supervision or control of any other board, bureau, department or agency of the state except as specifically provided in the New Mexico Renewable Energy Transmission Authority Act. No use of the terms "state agency" or "instrumentality" in any other law of the state shall be deemed to refer to the authority unless the authority is specifically referred to in the law.

Before entering into a project, the following procedures shall be implemented:

(1) the authority shall provide to each public utility and the public regulation commission and publish one time in a newspaper of general circulation in New Mexico and one time in a newspaper in the area where the eligible facilities are contemplated and on a publicly accessible web page maintained by the authority, an initial notice describing the project that the authority is contemplating, including a detailed description of the existing or anticipated renewable energy sources that justify the determination by the authority that the project facilities are eligible facilities. The description shall contain, at a minimum, the names of all persons that already are or will develop the renewable energy sources, all persons that will own the renewable energy sources and the peak output capacity, source type, location and anticipated connection date of the renewable energy sources;

(2) any person with an interest that may be affected by the proposed project shall have thirty days from the date of the last publication of the initial notice to challenge, in writing, the determination by the authority that the facilities are eligible facilities. If a challenge is received by the authority within the thirty days, the authority shall hold a public hearing no sooner than thirty days after receiving the challenge and after a minimum of two weeks notice in the same newspapers and web page in which the initial notice was given. Following the public hearing, the authority shall make a final determination of eligibility and give notice of the determination pursuant to Section 39-3-1.1 NMSA 1978. Any person or governmental entity participating in the hearing may appeal the final determination by filing a notice of appeal with the district court pursuant to Section 39-3-1.1 NMSA 1978;

(3) public utilities and other persons willing and able to provide money for, acquire, maintain and operate the eligible facilities described in the notice shall have the following time period to notify the authority of intention and ability to provide money for, acquire, maintain and operate the eligible facilities described in the notice:

(a) within ninety days of the date of the last publication of the initial notice if no challenge is received pursuant to Paragraph (2) of this subsection; or

(b) within ninety days of the date of the notice of determination if a challenge is received pursuant to Paragraph (2) of this subsection; and

(4) in the absence of notification by a public utility or other person pursuant to Paragraph (3) of this subsection, or if a person, having given notice of intention to provide money for, acquire, maintain and operate the eligible facilities contemplated by the authority, fails to make a good faith effort to commence the same within twelve months from the date of notification by the authority of its intention, the authority may proceed to finance or plan, acquire, maintain and operate the eligible facilities originally contemplated, provided that a person that, within the time required, has made necessary applications to acquire federal, state, local or private permits, certificates or other approvals necessary to acquire the eligible facilities shall be deemed to have commenced the same as long as the person diligently pursues the permits, certificates or other approvals.

D. In soliciting and entering into contracts for the transmission or storage of electricity, the authority and any person leasing or operating eligible facilities financed or acquired by the authority shall, if practical, give priority to those contracts that will transmit or store electricity to be sold and consumed in New Mexico.

E. The authority and any eligible facilities acquired by the authority are not subject to the supervision, regulation, control or jurisdiction of the public regulation commission; provided that nothing in this subsection shall be interpreted to allow a public utility to include the cost of using eligible facilities in its rate base without the approval of the public regulation commission.

F. In exercising its powers and duties, the authority shall not own or control facilities unless:

(1) the facilities are leased to or held for lease or sale to a public utility or such other person approved by the public regulation commission;

(2) the operation, maintenance and use of the facilities are vested by lease or other contract in a public utility or such other person approved by the public regulation commission;

(3) the facilities are owned or controlled for a period of not more than one hundred eighty days after termination of a lease or contract described in Paragraph (1) or (2) of this subsection or after the authority gains possession of the facilities following a breach of such a lease or contract or as a result of bankruptcy proceedings; or

(4) the facilities do not affect in-state retail rates or electric service reliability.

G. A public utility subject to regulation of the public regulation commission pursuant to the Public Utility Act may recover the capital cost of a project undertaken pursuant to the New Mexico Renewable Energy Transmission Authority Act from its retail customers only if the project has received a certificate of public convenience and necessity from the public regulation commission. A municipal utility exempt from regulation of the public regulation commission may recover such costs only if the project has been approved by the governing body of the municipality. Costs associated with a project undertaken pursuant to the New Mexico Renewable Energy Transmission Authority Act are not recoverable from retail utility customers except to the extent the costs are prudently incurred and the project is used and useful in serving those customers as determined by the public regulation commission.

#### **Section 5. RENEWABLE ENERGY TRANSMISSION BONDS-- APPROPRIATION OF PROCEEDS.--**

A. The authority is authorized to issue and sell revenue bonds, known as "renewable energy transmission bonds", payable solely from the renewable energy transmission bonding fund, in compliance with the New Mexico Renewable Energy Transmission Authority Act, for the purpose of entering into a project when the authority determines that the project is needed.

B. The net proceeds from the bonds are appropriated to the authority for the purpose of financing or acquiring eligible facilities.

### **Chapter 3 Section 6 Laws 2007**

Section 6. RENEWABLE ENERGY TRANSMISSION BONDING FUND  
CREATED--MONEY IN THE FUND PLEDGED.--

A. The "renewable energy transmission bonding fund" is created in the state treasury. The fund shall consist of revenues received by the authority from operating or leasing eligible facilities, fees and service charges collected, and, if the authority has provided financing for eligible facilities, money from payments of principal and interest on loans. Earnings of the fund shall be credited to the fund. Balances in the fund at the end of any fiscal year shall remain in the fund, except as provided in this section.

B. Money in the renewable energy transmission bonding fund is pledged for the payment of principal and interest on all bonds issued pursuant to the New Mexico Renewable Energy Transmission Authority Act. Money in the fund is appropriated to the authority for the purpose of paying debt service, including redemption premiums, on the bonds and the expenses incurred in the issuance, payment and administration of the bonds.

C. On the last day of January and the last day of July of each year, the authority shall estimate the amount needed to make debt service and other payments during the next twelve months from the renewable energy transmission bonding fund on the bonds plus the amount that may be needed for any required reserves. The authority shall transfer to the renewable energy transmission authority operational fund any balance in the renewable energy transmission bonding fund above the estimated amounts.

D. Bonds issued pursuant to the New Mexico Renewable Energy Transmission Authority Act shall be payable solely from the renewable energy transmission bonding fund or, with the approval of the bondholders, such other special funds as may be provided by law and do not create an obligation or indebtedness of the state within the meaning of any constitutional provision. No breach of any contractual obligation incurred pursuant to that act shall impose a pecuniary liability or a charge upon the general credit or taxing power of the state, and the bonds are not general obligations for which the state's full faith and credit is pledged.

E. The state does hereby pledge that the renewable energy transmission bonding fund shall be used only for the purposes specified in this section and pledged first to pay the debt service on the bonds issued pursuant to the New Mexico Renewable Energy Transmission Authority Act. The state further pledges that any law requiring the deposit of revenues in the renewable energy transmission bonding fund or authorizing expenditures from the fund shall not be amended or repealed or otherwise modified so as to impair the bonds to which the renewable energy transmission bonding fund is dedicated as provided in this section.

### **Chapter 3 Section 7 Laws 2007**

Section 7. AUTHORITY TO REFUND BONDS.--The authority may issue and sell at public or private sale bonds to refund outstanding renewable energy transmission

bonds by exchange, immediate or prospective redemption, cancellation or escrow, including the escrow of debt service funds accumulated for payment of outstanding bonds, or any combination thereof, when, in its opinion, such action will be beneficial to the state.

### **Chapter 3 Section 8 Laws 2007**

#### **Section 8. RENEWABLE ENERGY TRANSMISSION BONDS--FORM--EXECUTION.--**

A. The authority, except as otherwise specifically provided in the New Mexico Renewable Energy Transmission Authority Act, shall determine at its discretion the terms, covenants and conditions of the bonds, including, but not limited to, date of issue, denominations, maturities, rate or rates of interest, call features, call premiums, registration, refundability and other covenants covering the general and technical aspects of the issuance of the bonds.

B. The bonds shall be in such form as the authority may determine, and successive issues shall be identified by alphabetical, numerical or other proper series designation.

C. Bonds shall be signed and attested by the executive director of the authority and shall be executed with the facsimile signature of the chair of the authority and the facsimile seal of the authority, except for bonds issued in book entry or similar form without the delivery of physical securities. Any interest coupons attached to the bonds shall bear the facsimile signature of the executive director of the authority, which officer, by the execution of the bonds, shall adopt as the executive director's own signature the facsimile thereof appearing on the coupons. Except for bonds issued in book entry or similar form without the delivery of physical securities, the Uniform Facsimile Signature of Public Officials Act shall apply, and the authority shall determine the manual signature to be affixed on the bonds.

### **Chapter 3 Section 9 Laws 2007**

#### **Section 9. PROCEDURE FOR SALE OF RENEWABLE ENERGY TRANSMISSION BONDS.--**

AN ACT

RELATING TO ELECTRIC UTILITIES; ENACTING SECTIONS OF THE RURAL ELECTRIC COOPERATIVE ACT; AMENDING AND ENACTING SECTIONS OF THE RENEWABLE ENERGY ACT; AMENDING SECTIONS OF THE EFFICIENT USE OF ENERGY ACT; PROVIDING FOR INCREASES IN THE RENEWABLE ENERGY PORTFOLIO OF PUBLIC UTILITIES AND RURAL ELECTRIC COOPERATIVES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

### **Chapter 4 Section 1 Laws 2007**

Section 1. A new section of the Rural Electric Cooperative Act is enacted to read:

"RENEWABLE PORTFOLIO STANDARD.--

A. Each distribution cooperative organized under the Rural Electric Cooperative Act shall meet the renewable portfolio standard requirements, as provided in this section, to include renewable energy in its electric energy supply portfolio. Requirements of the renewable portfolio standard are:

(1) no later than January 1, 2015, renewable energy shall comprise no less than five percent of each distribution cooperative's total retail sales to New Mexico customers;

(2) the renewable portfolio standard shall increase by one percent per year thereafter until January 1, 2020, at which time the renewable portfolio standard shall be ten percent of the distribution cooperative's total retail sales to New Mexico customers;

(3) the renewable portfolio standard of each distribution cooperative shall be diversified as to the type of renewable energy resource, taking into consideration the overall reliability, availability, dispatch flexibility and the cost of the various renewable energy resources made available to the distribution cooperative by its suppliers of electric power; and

(4) renewable energy resources that are in a distribution cooperative's energy supply portfolio on January 1, 2008 shall be counted in determining compliance with this section.

B. If a distribution cooperative determines that, in any given year, the cost of renewable energy that would need to be procured or generated for purposes of compliance with the renewable portfolio standard would be greater than the reasonable

cost threshold, the distribution cooperative shall not be required to incur that cost; provided that the existence of this condition excusing performance in any given year shall not operate to delay any renewable portfolio standard in subsequent years. For purposes of the Rural Electric Cooperative Act, "reasonable cost threshold" means an amount that shall be no greater than one percent of the distribution cooperative's gross receipts from business transacted in New Mexico for the preceding calendar year.

C. By March 1 of each year, a distribution cooperative shall file with the public regulation commission a report on its purchases and generation of renewable energy during the preceding calendar year. The report shall include the cost of the renewable energy resources purchased and generated by the distribution cooperative to meet the renewable portfolio standard.

D. A distribution cooperative shall report to its membership a summary of its purchases and generation of renewable energy during the preceding calendar year."

## **Chapter 4 Section 2 Laws 2007**

Section 2. A new section of the Rural Electric Cooperative Act is enacted to read:

"RENEWABLE ENERGY CERTIFICATES--COMMISSION DUTIES.-- The public regulation commission shall establish:

A. a system of renewable energy certificates that can be used by a distribution cooperative to establish compliance with the renewable portfolio standard and that may include certificates that are monitored, accounted for or transferred by or through a regional system or trading program for any region in which a rural electric cooperative is located. The kilowatt-hour value of renewable energy certificates may be varied by renewable energy resource or technology; provided that each renewable energy certificate shall have a minimum value of one kilowatt-hour for purposes of compliance with the renewable portfolio standard; and

B. requirements and procedures concerning renewable energy certificates that include the provisions that:

(1) renewable energy certificates:

(a) are owned by the generator of the renewable energy unless: 1) the renewable energy certificates are transferred to the purchaser of the energy through specific agreement with the generator; 2) the generator is a qualifying facility, as defined by the federal Public Utility Regulatory Policies Act of 1978, in which case the renewable energy certificates are owned by the distribution cooperative purchaser of the renewable energy unless retained by the generator through specific agreement with the distribution cooperative purchaser of the energy; or 3) a contract for the purchase of renewable energy is in effect prior to January 1, 2004, in which case the renewable

energy certificates are owned by the purchaser of the energy for the term of such contract;

(b) may be traded, sold or otherwise transferred by their owner to any other party; provided that the transfers and use of the certificate by a distribution cooperative for compliance with the renewable energy portfolio standard shall require the electric energy represented by the certificate to be contracted for delivery or consumed, or generated by an end-use customer of the distribution cooperative in New Mexico unless the commission determines that the distribution cooperative is participating in a national or regional market for exchanging renewable energy certificates;

(c) that are used for the purpose of meeting the renewable portfolio standard shall be registered, beginning January 1, 2008, with a renewable energy generation information system that is designed to create and track ownership of renewable energy certificates and that, through the use of independently audited generation data, verifies the generation and delivery of electricity associated with each renewable energy certificate and protects against multiple counting of the same renewable energy certificate;

(d) that are used once by a distribution cooperative to satisfy the renewable portfolio standard and are retired or that are traded, sold or otherwise transferred by the distribution cooperative shall not be further used by the distribution cooperative; and

(e) that are not used by a distribution cooperative to satisfy the renewable portfolio standard or that are not traded, sold or otherwise transferred by the distribution cooperative may be carried forward for up to four years from the date of issuance and, if not used by that time, shall be retired by the distribution cooperative; and

(2) a distribution cooperative shall be responsible for demonstrating that a renewable energy certificate used for compliance with the renewable portfolio standard is derived from eligible renewable energy resources and has not been retired, traded, sold or otherwise transferred to another party."

## **Chapter 4 Section 3 Laws 2007**

Section 3. A new section of the Rural Electric Cooperative Act is enacted to read:

"RENEWABLE ENERGY AND CONSERVATION FEE.--

A. A distribution cooperative may collect from its customers a renewable energy and conservation fee of no more than one percent of the customer's bill. In no event shall a distribution cooperative collect more than seventy-five thousand dollars (\$75,000) annually through the renewable energy and conservation fee from any single customer. Money collected through the renewable energy and conservation fee shall be

segregated in a separate renewable energy and conservation account from other distribution cooperative funds and shall be expended only on programs or projects to promote the use of renewable energy, load management or energy efficiency. A distribution cooperative that collects a renewable energy and conservation fee from its customers shall report to the public regulation commission by March 1 of the following year the following information:

(1) the amount of money collected through the renewable energy and conservation fee in the previous calendar year;

(2) the programs or projects on which the funds collected were expended; and

(3) the determination of the distribution cooperative as to whether and in what amount to assess a renewable energy and conservation fee in the next calendar year.

B. Each distribution cooperative that collects a renewable energy and conservation fee from its customers shall deduct from the fees paid to the state pursuant to Section 62-8-8 NMSA 1978 an amount equal to fifty percent of the amount of money collected through the renewable energy and conservation fee during the preceding calendar year. The money shall be included in the account with other money from the renewable energy and conservation fee and expended only on programs or projects to promote the use of renewable energy, load management or energy efficiency."

## **Chapter 4 Section 4 Laws 2007**

## **Chapter 4 Section 8 Laws 2007**

Section 8. Section 62-16-4 NMSA 1978 (being Laws 2004, Chapter 65, Section 4) is amended to read:

### **"62-16-4. RENEWABLE PORTFOLIO STANDARD.--**

A. A public utility shall meet the renewable portfolio standard requirements, as provided in this section, to include renewable energy in its electric energy supply portfolio. Requirements of the renewable portfolio standard are:

(1) for public utilities other than rural electric cooperatives and municipalities:

(a) no later than January 1, 2006, renewable energy shall comprise no less than five percent of each public utility's total retail sales to New Mexico customers;

(b) no later than January 1, 2011, renewable energy shall comprise no less than ten percent of each public utility's total retail sales to New Mexico customers;

(c) no later than January 1, 2015, renewable energy shall comprise no less than fifteen percent of each public utility's total retail sales to New Mexico customers; and

(d) no later than January 1, 2020, renewable energy shall comprise no less than twenty percent of each public utility's total retail sales to New Mexico customers;

(2) the renewable portfolio standard established by this section shall be reduced, as necessary, to provide for the following specific procurement requirements for nongovernmental customers at a single location or facility, regardless of the number of meters at that location or facility, with consumption exceeding ten million kilowatt-hours per year. On and after January 1, 2006, the kilowatt-hours of renewable energy procured for these customers shall be limited so that the additional cost of the renewable portfolio standard to each customer does not exceed the lower of one percent of that customer's annual electric charges or forty-nine thousand dollars (\$49,000). This procurement limit criteria shall increase by one-fifth percent or ten thousand dollars (\$10,000) per year until January 1, 2011, when the procurement limit criteria shall remain fixed at the lower of two percent of that customer's annual electric charges or ninety-nine thousand dollars (\$99,000). After January 1, 2012, the commission may adjust the ninety-nine-thousand-dollar (\$99,000) limit for inflation. Nothing contained in this paragraph shall be construed as affecting a public utility's right to recover all reasonable costs of complying with the renewable portfolio standard, pursuant to Section 62-16-6 NMSA 1978. The commission may authorize deferred recovery of the costs of complying with the renewable portfolio standard, including carrying charges;

(3) the renewable portfolio shall be diversified as to the type of renewable energy resource, taking into consideration the overall reliability, availability, dispatch flexibility and cost of the various renewable energy resources made available by suppliers and generators;

(4) upon a commission motion or application by a public utility, the commission shall open a docket to provide appropriate performance-based financial or other incentives to encourage public utilities to acquire renewable energy supplies that exceed the applicable annual renewable portfolio standard set forth in this section. The commission shall initiate rules by June 1, 2008 to implement this subsection; and

(5) renewable energy resources that are in a public utility's electric energy supply portfolio on July 1, 2004 shall be counted in determining compliance with this section.

B. If a public utility finds that, in any given year, the cost of renewable energy that would need to be procured or generated for purposes of compliance with the renewable portfolio standard would be greater than the reasonable cost threshold as established by the commission pursuant to this section, the public utility shall not be required to incur that cost; provided that the existence of this condition excusing performance in

any given year shall not operate to delay the annual increases in the renewable portfolio standard in subsequent years. When a public utility can generate or procure renewable energy at or below the reasonable cost threshold, it shall be required to add renewable energy resources to meet the renewable portfolio standard applicable in the year when the renewable energy resources are being added.

C. By December 31, 2004, the commission shall establish, after notice and hearing, the reasonable cost threshold above which level a public utility shall not be required to add renewable energy to its electric energy supply portfolio pursuant to the renewable portfolio standard. The commission may thereafter modify the reasonable cost threshold as changing circumstances warrant, after notice and hearing. In establishing and modifying the reasonable cost threshold, the commission shall take into account:

- (1) the price of renewable energy at the point of sale to the public utility;
- (2) the transmission and interconnection costs required for the delivery of renewable energy to retail customers;
- (3) the impact of the cost for renewable energy on overall retail customer rates;
- (4) the overall diversity, reliability, availability, dispatch flexibility, cost per kilowatt-hour and life-cycle cost on a net present value basis of renewable energy resources available from suppliers; and
- (5) other factors, including public benefits, that the commission deems relevant; provided that nothing in the Renewable Energy Act shall be construed to permit regulation by the commission of the production or sale price at the point of production of the renewable energy.

D. By September 1, 2007 and July 1 of each year thereafter until 2022, and thereafter as determined necessary by the commission, a public utility shall file a report to the commission on its procurement and generation of renewable energy during the prior calendar year and a procurement plan that includes:

- (1) the cost of procurement for any new renewable energy resource in the next calendar year required to comply with the renewable portfolio standard; and
- (2) testimony and exhibits that demonstrate that the proposed procurement is reasonable as to its terms and conditions considering price, availability, dispatchability, any renewable energy certificate values and diversity of the renewable energy resource; or
- (3) demonstration that the plan is otherwise in the public interest.

E. The commission shall approve or modify a public utility's procurement or transitional procurement plan within ninety days and may approve the plan without a hearing, unless a protest is filed that demonstrates to the commission's reasonable satisfaction that a hearing is necessary. The commission may modify a plan after notice and hearing. The commission may, for good cause, extend the time to approve a procurement plan for an additional ninety days. If the commission does not act within the ninety-day period, the procurement plan is deemed approved.

F. The commission may reject a procurement or transitional procurement plan if it finds that the plan does not contain the required information and, upon the rejection, may suspend the public utility's obligation to procure additional resources for the time necessary to file a revised plan; provided that the total amount of renewable energy to be procured by the public utility shall not change.

G. A public utility may file a transitional procurement plan requesting that the commission determine that the costs of renewable energy resources that the public utility has committed to, or may commit to, prior to the commission's establishing a reasonable cost threshold, are reasonable and recoverable pursuant to Section 62-16-6 NMSA 1978. The requirements of annual procurement plan filings shall be applicable to any transitional procurement plan filing pursuant to this section.

H. The commission shall determine if it is in the public interest for the commission to provide appropriate performance-based financial or other incentives to encourage public utilities to acquire renewable energy supplies in amounts that exceed the requirements of the renewable portfolio standard."

## **Chapter 4 Section 9 Laws 2007**

Section 9. Section 62-16-5 NMSA 1978 (being Laws 2004, Chapter 65, Section 5) is amended to read:

The commission shall establish:

A. a system of renewable energy certificates that can be used by a public utility to establish compliance with the renewable portfolio standard and that may include certificates that are monitored, accounted for or transferred by or through a regional system or trading program for any region in which a public utility is located. The kilowatt-hour value of renewable energy certificates may be varied by renewable energy resource or technology; provided that each renewable energy certificate shall have a minimum value of one kilowatt-hour of renewable energy represented by the certificate for purposes of compliance with the renewable portfolio standard; and

B. requirements and procedures concerning renewable energy certificates that include the provisions that:

(1) renewable energy certificates:

(a) are owned by the generator of the renewable energy unless: 1) the renewable energy certificates are transferred to the purchaser of the energy through specific agreement with the generator; 2) the generator is a qualifying facility, as defined by the federal Public Utility Regulatory Policies Act of 1978, in which case the renewable energy certificates are owned by the public utility purchaser of the renewable energy unless retained by the generator through specific agreement with the public utility purchaser of the energy; or 3) a contract for the purchase of renewable energy is in effect prior to January 1, 2004, in which case the renewable energy certificates are owned by the purchaser of the energy for the term of such contract;

(b) may be traded, sold or otherwise transferred by their owner to any other party; provided that the transfers and use of the certificate by a public utility for compliance with the renewable energy portfolio standard shall require the electric energy represented by the certificate to be contracted for delivery, or consumed or generated by an end-use customer of the public utility in New Mexico unless the commission determines that there is a national or regional market for exchanging renewable energy certificates;

(c) that are used for the purpose of meeting the renewable portfolio standard shall be registered, beginning January 1, 2009, with a renewable energy generation information system that is designed to create and track ownership of renewable energy certificates and that, through the use of independently audited generation data, verifies the generation and delivery of electricity associated with each renewable energy certificate and protects against multiple counting of the same renewable energy certificate;

(d) that are used once by a public utility to satisfy the renewable portfolio standard and are retired or that are traded, sold or otherwise transferred by the public utility shall not be further used by the public utility; and

(e) that are not used by a public utility to satisfy the renewable portfolio standard or that are not traded, sold or otherwise transferred by the public utility may be carried forward for up to four years from the date of issuance and, if not used by that time, shall be retired by the public utility; and

(2) a public utility shall be responsible for demonstrating that a renewable energy certificate used for compliance with the renewable portfolio standard is derived from eligible renewable energy resources and has not been retired, traded, sold or otherwise transferred to another party."

## **Chapter 4 Section 10 Laws 2007**

"62-16-6. COST RECOVERY FOR RENEWABLE ENERGY.--

A. A public utility that procures or generates renewable energy shall recover, through the rate-making process, the reasonable costs of complying with the renewable portfolio standard. Costs that are consistent with commission approval of procurement plans or transitional procurement plans shall be deemed to be reasonable.

B. The commission shall not exclude from such recovery reasonable interconnection and transmission costs incurred by the public utility in order to deliver renewable energy to retail New Mexico customers.

C. Upon a commission motion or application by a public utility, the commission shall open a docket to provide appropriate performance-based financial or other incentives to encourage public utilities to acquire renewable energy supplies that exceed the applicable annual renewable portfolio standard pursuant to the Renewable Energy Act. The commission shall initiate rules by June 1, 2008 to implement this subsection."

"62-16-8. RURAL ELECTRIC COOPERATIVE--VOLUNTARY TARIFFS.--

A. The commission may require that a rural electric cooperative:

(1) offer its retail customers a voluntary program for purchasing renewable energy under rates and terms that are approved by the commission, but only to the extent that the cooperative's suppliers make renewable energy available under wholesale power contracts;

(2) report to the commission the demand for renewable energy pursuant to a voluntary program; and

(3) comply with the requirements for the procurement of renewable energy set forth in the Rural Electric Cooperative Act.

B. The commission shall establish and amend rules and regulations for the implementation of renewable portfolio standards consistent with the Rural Electric Cooperative Act."

## **Chapter 4 Section 12 Laws 2007**

Section 12. Section 62-17-1 NMSA 1978 (being Laws 2005, Chapter 341, Section 1) is amended to read:

"62-17-1. SHORT TITLE.--Chapter 62, Article 17 NMSA 1978 may be cited as the "Efficient Use of Energy Act"."

## **Chapter 4 Section 13 Laws 2007**

Section 13. Section 62-17-5 NMSA 1978 (being Laws 2005, Chapter 341, Section 5) is amended to read:

A. Pursuant to the findings and purpose of the Efficient Use of Energy Act, the commission shall consider public utility investments in cost-effective energy efficiency and load management to be an acceptable use of ratepayer money.

B. The commission shall direct public utilities to evaluate and implement cost-effective programs that reduce energy demand and consumption.

C. Before the commission approves an energy efficiency and load management program for a public utility, it must find that the portfolio of programs is cost-effective and designed to provide every affected customer class with the opportunity to participate and benefit economically. The commission shall determine the cost-effectiveness of energy efficiency and load management measures using the total resource cost test.

D. The commission shall act expeditiously on public utility requests for approval of energy efficiency or load management programs.

E. Public utilities shall obtain commission approval of energy efficiency and load management programs before they are implemented. Public utilities proposing new energy efficiency and load management programs shall, before seeking commission approval, solicit nonbinding recommendations on the design and implementation of the programs from commission staff, the attorney general, the energy, minerals and natural resources department and other interested parties.

F. The commission shall, upon petition or its own motion, open a docket to identify any disincentives or barriers that may exist for public utility expenditures on energy efficiency and load management measures and, if found, ensure that they are eliminated and that an appropriate ratemaking treatment and performance-based, financial or other incentives are considered in order that public utilities are financially neutral in their preference for acquiring demand- or supply-side utility resources.

G. Public utilities shall set a goal of at least five percent reduction by January 1, 2020 in total retail sales to New Mexico customers, adjusted for load growth."

## **Chapter 4 Section 14 Laws 2007**

Section 14. Section 62-17-6 NMSA 1978 (being Laws 2005, Chapter 341, Section 6) is amended to read:

"62-17-6. COST RECOVERY.--

A. A public utility that undertakes cost-effective energy efficiency and load management programs shall recover the costs of all the programs implemented after the effective date of the Efficient Use of Energy Act through an approved tariff rider. Program costs may be deferred for future recovery through creation of a regulatory asset, provided that the deferred recovery does not cause the tariff rider to exceed the limits imposed by this section. The tariff rider for any utility customer shall not exceed the lower of the commission's approved tariff for that customer's bill or seventy-five thousand dollars (\$75,000) per year except that, upon application by a public utility with the advice and consent of the entity designated by law to represent residential and commercial utility customers, the commission may approve a tariff rider in excess of the commission's approved tariff for customers other than large customers and may approve a tariff rider in excess of the lower of the commission's approved tariff or seventy-five thousand dollars (\$75,000) per year for a large customer that consents to such a rider. The commission shall approve such applications upon finding that the proposed energy efficiency and load management programs are cost-effective and that the cost recovery proposal is just and reasonable.

B. The tariff rider shall provide for the recovery, on a monthly basis or otherwise, of all reasonable costs of approved energy efficiency and load management programs.

C. A tariff rider proposed by a public utility to fund approved energy efficiency and load management programs shall go into effect thirty days after filing, unless suspended by the commission for a period not to exceed one hundred eighty days. If the tariff rider is not approved or suspended within thirty days after filing, it shall be deemed approved as a matter of law. If the commission has not acted to approve or disapprove the tariff rider by the end of an ordered suspension period, it shall be deemed approved as a matter of law. The commission shall approve utility reconciliations of the tariff rider annually based upon recovery of the reasonable costs of the utility's programs.

D. The commission shall ensure that there are no cross-subsidies between a public utility's energy efficiency and load management activities and the public utility's supply-side activities and shall ensure that the existence of a tariff rider does not permit a public utility to earn an excessive rate of return."

The department shall provide additional professional development for K-3 plus teachers in how young children learn to read. Teachers and educational assistants shall be paid at the same rate and under the same terms for K-3 plus as teachers and educational assistants are paid for regular educational programs.

Breakage for interstate common pools shall be calculated in accordance with the rules governing the host track and shall be distributed in a manner agreed upon by the racetrack licensee in New Mexico and the host track;

(2) with the concurrence of the host track, an interstate common pool that excludes the host track may be formed with the racetrack licensee in New Mexico and other locations outside of the host state. When an interstate common pool is formed pursuant to this paragraph, the commission may approve types of wagering, takeout, distribution of winnings, rules of racing and calculation of breakage that are different from those that are in effect in New Mexico; provided that the rules are applied consistently to all persons in the interstate common pool;

B. The board shall issue certifications of findings of suitability for key executives and other persons for whom certification is required.

C. The board shall issue work permits for gaming employees.

D. A licensee shall not be issued more than one type of license, but this provision does not prohibit a licensee from owning, leasing, acquiring or having in the licensee's possession licensed gaming machines if that activity is otherwise allowed by the provisions of the Gaming Control Act. A licensee shall not own a majority interest in, manage or otherwise control a holder of another type of license issued pursuant to the provisions of that act.

E. An applicant for a license, a certification of finding of suitability or a work permit shall apply on forms provided by the board and shall furnish to the board two sets of fingerprint cards and all other information requested by the board. ## **Chapter 39 Section 32 Laws 2007**

Section 32. Section 60-2E-16 NMSA 1978 (being Laws 1997, Chapter 190, Section 18) is amended to read:

"60-2E-16. ACTION BY BOARD ON APPLICATIONS.--

A. A person that the board determines is qualified to receive a license pursuant to the provisions of the Gaming Control Act may be issued a license. The burden of proving qualifications is on the applicant.

B. A license shall not be issued unless the board is satisfied that the applicant is:

(1) a person of good moral character, honesty and integrity;

(2) a person whose prior activities, state and federal criminal records, reputation, habits and associations do not pose a threat to the public interest or to the effective regulation and control of gaming or create or enhance the dangers of unsuitable, unfair or illegal practices, methods and activities in the conduct of gaming or the carrying on of the business and financial arrangements incidental thereto; and

(2) the proposed financing of the applicant is adequate for the nature of the proposed license and from a suitable source; any lender or other source of money or credit that the board finds does not meet the standards set forth in Subsection B of this section shall be deemed unsuitable; and

(3) the applicant is sufficiently capitalized under standards set by the board to conduct the business covered by the license.

D. An application to receive a license, certification or work permit constitutes a request for a determination of the applicant's general moral character, integrity and ability to participate or engage in or be associated with gaming. Any written or oral statement made in the course of an official proceeding of the board or by a witness testifying under oath that is relevant to the purpose of the proceeding is absolutely privileged and does not impose liability for defamation or constitute a ground for recovery in any civil action.

E. The board shall not issue a license or certification to an applicant who has been denied a license or certification in this state or another state, who has had a certification, permit or license issued pursuant to the gaming laws of a state or the United States permanently suspended or revoked for cause or who is currently under suspension or subject to any other limiting action in this state or another state involving gaming activities or licensure for gaming activities.

F. The board shall investigate the qualifications of each applicant before a license, certification or work permit is issued by the board and shall continue to observe and monitor the conduct of all licensees, work permit holders, persons certified as being suitable and the persons having a material involvement directly or indirectly with a licensee.

G. The board has the authority to deny an application or limit, condition, restrict, revoke or suspend a license, certification or permit for any cause.

H. After issuance, a license, certification or permit shall continue in effect upon proper payment of the initial and renewal fees, subject to the power of the board to revoke, suspend, condition or limit licenses, certifications and permits.

I. The board has full and absolute power and authority to deny an application for any cause it deems reasonable. If an application is denied, the board shall prepare and file its written decision on which its order denying the application is based."

B. The attorney general may in appropriate cases delegate the authority to investigate or to bring a civil action to the state agency to which a false claim was made, and when this occurs, the state agency shall have every power conferred upon the attorney general pursuant to the Fraud Against Taxpayers Act.

## **Chapter 40 Section 5 Laws 2007**

Section 5. CIVIL ACTION BY QUI TAM PLAINTIFF--STATE MAY INTERVENE.--

A. A person may bring a civil action for a violation of Section 3 of the Fraud Against Taxpayers Act on behalf of the person and the state. The action shall be brought in the name of the state. The person bringing the action shall be referred to as the qui tam plaintiff. Once filed, the action may be dismissed only with the written consent of the court, taking into account the best interest of the parties involved and the public purposes behind the Fraud Against Taxpayers Act.

B. A complaint filed by a qui tam plaintiff shall be filed in camera in district court and shall remain under seal for at least sixty days. No service shall be made on a defendant and no response is required from a defendant until the seal has been lifted and the complaint served pursuant to the rules of civil procedure.

C. On the same day as the complaint is filed, the qui tam plaintiff shall serve the attorney general with a copy of the complaint and written disclosure of substantially all material evidence and information the qui tam plaintiff possesses. The attorney general on behalf of the state may intervene and proceed with the action within sixty days after receiving the complaint and the material evidence and information. Upon a showing of good cause and reasonable diligence in the state's investigation, the state may move the court for an extension of time during which the complaint shall remain under seal.

D. Before the expiration of the sixty-day period or any extensions of time granted by the court, the attorney general shall notify the court that the state:

(1) intends to intervene and proceed with the action; in which case, the seal shall be lifted and the action shall be conducted by the attorney general on behalf of the state; or

(2) declines to take over the action; in which case, the seal shall be lifted and the qui tam plaintiff may proceed with the action.

E. When a person brings an action pursuant to this section, no person other than the attorney general on behalf of the state may intervene or bring a related action based on the facts underlying the pending action.

## **Chapter 40 Section 6 Laws 2007**

### **Section 6. RIGHTS OF THE QUI TAM PLAINTIFF AND THE STATE.--**

A. If the state proceeds with the action, it shall have the primary responsibility of prosecuting the action and shall not be bound by an act of the qui tam plaintiff. The qui tam plaintiff shall have the right to continue as a party to the action, subject to the limitations of this section.

B. The state may seek to dismiss the action for good cause notwithstanding the objections of the qui tam plaintiff if the qui tam plaintiff has been notified of the filing of the motion and the court has provided the qui tam plaintiff with an opportunity to oppose the motion and to present evidence at a hearing.

C. The state may settle the action with the defendant notwithstanding any objection by the qui tam plaintiff if the court determines, after a hearing providing the qui tam plaintiff an opportunity to present evidence, that the proposed settlement is fair, adequate and reasonable under all of the circumstances.

D. Upon a showing by the state that unrestricted participation during the course of the litigation by the qui tam plaintiff would interfere with or unduly delay the state's prosecution of the case, or would be repetitious, irrelevant or for the purpose of harassment, the court may, in its discretion, impose limitations on the qui tam plaintiff's participation, such as:

- (1) limiting the number of witnesses the qui tam plaintiff may call;
- (2) limiting the length of testimony of such witnesses;
- (3) limiting the qui tam plaintiff's cross examination of witnesses; or
- (4) otherwise limiting the qui tam plaintiff's participation in the litigation.

E. Upon a showing by a defendant that unrestricted participation during the course of litigation by the qui tam plaintiff would be for purposes of harassment or would cause the defendant undue burden or unnecessary expense, the court may limit the participation by the qui tam plaintiff in the litigation.

F. If the state elects not to proceed with the action, the qui tam plaintiff shall have the right to conduct the action. If the attorney general so requests, the qui tam plaintiff shall serve the attorney general with copies of all pleadings filed in the action and all deposition transcripts in the case, at the state's expense. When the qui tam plaintiff proceeds with the action, the court, without limiting the status and rights of the qui tam plaintiff, may permit the attorney general to intervene at a later date upon a showing of good cause.

G. Whether or not the state proceeds with the action, upon a showing by the attorney general on behalf of the state that certain actions of discovery by the qui tam plaintiff would interfere with the state's investigation or prosecution of a criminal or civil matter arising out of the same facts, the court may stay such discovery for a period of not more than sixty days. The showing by the state shall be conducted in camera. The court may extend the sixty-day period upon a further showing in camera that the state has pursued the criminal or civil investigation or proceeding with reasonable diligence and any proposed discovery in the civil action will interfere with the ongoing criminal or civil investigation or proceeding.

H. Notwithstanding the provisions of Section 5 of the Fraud Against Taxpayers Act, the attorney general may elect to pursue the state's claim through any alternate remedy available to the state, including an administrative proceeding to determine a civil money penalty. If an alternate remedy is pursued, the qui tam plaintiff shall have the same rights in such a proceeding as the qui tam plaintiff would have had if the action had continued pursuant to this section. A finding of fact or conclusion of law made in the other proceeding that has become final shall be conclusive on all parties to an action under the Fraud Against Taxpayers Act. For purposes of this subsection, a finding or conclusion is final if it has been finally determined on appeal to the appropriate court, if all time for filing an appeal with respect to the finding or conclusion has expired or if the finding or conclusion is not subject to judicial review.

## **Chapter 40 Section 7 Laws 2007**

### **Section 7. AWARDS TO QUI TAM PLAINTIFF AND THE STATE.--**

A. Except as otherwise provided in this section, if the state proceeds with an action brought by a qui tam plaintiff and the state prevails in the action, the qui tam plaintiff shall receive:

(1) at least fifteen percent but not more than twenty-five percent of the proceeds of the action or settlement, depending upon the extent to which the qui tam plaintiff substantially contributed to the prosecution of the action; or

(2) no more than ten percent of the proceeds of the action or settlement if the court finds that the action was based primarily on disclosures of specific information, not provided by the qui tam plaintiff, relating to allegations or transactions in a criminal, civil, administrative or legislative hearing, proceeding, report, audit or investigation or from the news media, taking into account the significance of the information and the role of the qui tam plaintiff in advancing the case to litigation. However, if the attorney general determines and certifies in writing that the qui tam plaintiff provided a significant contribution in advancing the case, then the qui tam plaintiff shall receive the share of proceeds set forth in Paragraph (1) of this subsection.

B. If the state does not proceed with an action brought by a qui tam plaintiff and the state prevails in the action, the qui tam plaintiff shall receive an amount that is not less than twenty-five percent or more than thirty percent of the proceeds of the action or settlement, as the court deems reasonable for collecting the civil penalty and damages.

C. Whether or not the state proceeds with an action brought by a qui tam plaintiff:

(1) if the court finds that the action was brought by a person that planned or initiated the violation of Section 3 of the Fraud Against Taxpayers Act upon which the action was based, the court may reduce the share of the proceeds that the person would otherwise receive under Subsection A or B of this section, taking into account the role of the person as the qui tam plaintiff in advancing the case to litigation and any relevant circumstances pertaining to the violation; or

(2) if the person bringing the action is convicted of criminal conduct arising from that person's role in the violation of Section 3 of the Fraud Against Taxpayers Act upon which the action was based, that person shall be dismissed from the civil action and shall not receive a share of the proceeds. The dismissal shall not prejudice the right of the state to continue the action.

D. Any award to a qui tam plaintiff shall be paid out of the proceeds of the action or settlement, if any. The qui tam plaintiff shall also receive an amount for reasonable expenses incurred in the action plus reasonable attorney fees that shall be paid by the defendant.

E. The state is entitled to all proceeds collected in an action or settlement not awarded to a qui tam plaintiff. The state is also entitled to reasonable expenses incurred in the action plus reasonable attorney fees, including the fees of the attorney general or state agency counsel that shall be paid by the defendant. Proceeds and penalties collected by the state shall be deposited as follows:

(1) proceeds in the amount of the false claim paid and attorney fees and costs shall be returned to the fund or funds from which the money, property or services came;

(2) civil penalties shall be deposited in the current school fund pursuant to Article 12, Section 4 of the constitution of New Mexico; and

(3) all remaining proceeds shall be deposited as follows:

(a) one-half into a fund for the use of the attorney general in furtherance of the obligations imposed upon that office by the Fraud Against Taxpayers Act; and

(b) one-half into the general fund.

## **Chapter 40 Section 8 Laws 2007**

Section 8. AWARD OF ATTORNEY FEES AND COSTS TO DEFENDANT.--If the state does not proceed with the action and the qui tam plaintiff conducts the action, the court may award a defendant reasonable attorney fees and costs if the defendant prevails and the court finds the action clearly frivolous, clearly vexatious or brought primarily for the purpose of harassment.

## **Chapter 40 Section 9 Laws 2007**

Section 9. CERTAIN ACTIONS BARRED.--

A. No court shall have jurisdiction over an action brought pursuant to Section 5 of the Fraud Against Taxpayers Act by a present or former employee of the state unless the employee, during employment with the state and in good faith, exhausted existing internal procedures for reporting false claims and the state failed to act on the information provided within a reasonable period of time.

B. No court shall have jurisdiction over an action brought pursuant to Section 5 of the Fraud Against Taxpayers Act against an elected or appointed state official, a member of the state legislature or a member of the judiciary if the action is based on evidence or information known to the state agency to which the false claim was made or to the attorney general when the action was filed.

C. Unless the attorney general determines and certifies in writing that the action is in the interest of the state, no court shall have jurisdiction over an action brought pursuant to Section 5 of the Fraud Against Taxpayers Act when that action is based on allegations or transactions that are the subject of a criminal, civil or administrative proceeding in which the state is a party.

D. Upon motion of the attorney general, a court may, in its discretion, dismiss an action brought pursuant to Section 5 of the Fraud Against Taxpayers Act if the elements of the alleged false or fraudulent claim have been publicly disclosed in the news media or in a publicly disseminated governmental report at the time the complaint is filed.

## **Chapter 40 Section 10 Laws 2007**

Section 10. STATE NOT LIABLE.--The state shall not be liable for expenses or fees that a qui tam plaintiff may incur in investigating or bringing an action pursuant to the Fraud Against Taxpayers Act.

## **Chapter 40 Section 11 Laws 2007**

Section 11. EMPLOYER INTERFERENCE WITH EMPLOYEE DISCLOSURE--  
PRIVATE ACTION FOR RETALIATION.--

A. An employer shall not make, adopt or enforce a rule, regulation or policy preventing an employee from disclosing information to a government or law enforcement agency or from acting in furtherance of a fraud against taxpayers action, including investigating, initiating, testifying or assisting in an action filed or to be filed pursuant to the Fraud Against Taxpayers Act.

B. An employer shall not discharge, demote, suspend, threaten, harass, deny promotion to or in any other manner discriminate against an employee in the terms and conditions of employment because of the lawful acts of the employee on behalf of the employee or others in disclosing information to a government or law enforcement agency or in furthering a fraud against taxpayers action, including investigating, initiating, testifying or assisting in an action filed or to be filed pursuant to the Fraud Against Taxpayers Act.

C. The state board of finance shall further take the appropriate steps necessary to comply with the Internal Revenue Code of 1986, as amended.

B. Before the spaceport authority may certify for the issuance of the severance tax bonds, the southwest regional spaceport project must be developed sufficiently so that the spaceport authority reasonably expects to:

(2) incur within six months after the applicable bonds have been issued a substantial binding obligation to a third party to expend at least five percent of the bond proceeds for the project; and

If, after all certifications of need for the issuance of severance tax bonds authorized in 2007 have been received by the state board of finance, there remains sufficient severance tax bonding capacity, the state board of finance may issue severance tax bonds authorized in Paragraph (1) of Subsection C of this section in an amount up to thirty-three million dollars (\$33,000,000) to begin the initial infrastructure improvements in Sierra and Dona Ana counties necessary to the development of the spaceport. Nothing in this subsection prohibits the unused bonding authorization from being carried forward pursuant to Subsection E of this section.

E. Any amount of severance tax bonding capacity authorized but not issued in a fiscal year may be carried forward and certified in subsequent fiscal years.

B. Each page or group of pages of a petition shall be accepted for filing by a municipal clerk, a county clerk, a governing body or a board of county commissioners only if:

(1) the municipal clerk has approved the form of petitions to be filed with the municipality prior to circulation of the petition; or

(2) the county clerk has approved the form of petitions to be filed with the county prior to circulation of the petition; and

(3) each page of the petition to be filed contains the approval or facsimile approval of the municipal or county clerk and the petition heading and penalty statement are legible when submitted for filing.

C. The municipal or county clerk shall approve a petition as to form if the proposed petition form contains:

(1) a heading that complies with a particular form of heading required by law; or

(2) a heading that clearly conveys the purpose for signing the petition if no particular form of heading is required by law;

(3) a place for the person signing the petition to write the date and the person's name (printed), address and signature, unless other requirements are mandated by law and then the petition shall comply with those requirements; and

(4) a statement that any person knowingly providing or causing to be provided any false information on a petition, forging a signature or signing a petition when that person knows that person is not a qualified elector in the municipality is guilty of a fourth degree felony.

D. The requirements of Subsection B of this section shall be deemed complied with if an original form of petition is submitted to a municipal or county clerk for approval prior to circulation and after approval by the clerk that original form is reproduced by photocopying or other similar means so that the form and clerk's approval are unchanged from the original and are legible on each page of the petition to be filed.

E. A petition filed with a municipal clerk, a county clerk, a governing body or a board of county commissioners shall include all individual pages of a petition complying

with the provisions of this section, regardless of whether the pages are filed singly or in a group. Pages complying with the provisions of this section may be filed at different times so long as filing is within the time period allowed by law for the filing of the particular petition to be filed. If no time period is established by law, petition signatures may not span a period of time greater than sixty days from the date of the earliest signature on the petition, and the petition shall be filed within sixty-five days from the date of the earliest signature on the petition.

F. Upon approval of a proposed petition as to form, the municipal clerk shall notify the county clerk of the approval, and the county clerk shall furnish a current voter registration list of qualified electors entitled to vote in municipal elections to the municipal clerk within fourteen days of the notification.

G. When a petition is filed with a municipal clerk, a county clerk, a governing body or a board of county commissioners, the governing body or board of county commissioners shall either certify the petition as valid or order an examination of the petition and the names, addresses and signatures on the petition.

H. When an examination of the petition and the names, addresses and signatures on the petition is ordered, the municipal clerk, county clerk, governing body or board of county commissioners shall:

(1) resolve issues of residency and major infractions in accordance with the rules set forth in the Municipal Election Code;

(2) determine the minimum number of valid names, addresses and signatures, as mandated by law, that must be contained in the particular petition filed in order for it to be declared a valid petition;

(3) examine the petition and the names, addresses and signatures on the petition, purge from the petition the signature of any person who is not shown as a qualified elector of the municipality on the list of registered voters provided by the county clerk, purge any signature that is a forgery or that is illegible, purge any signature that appears more than once or that cannot be matched to the name, address and signature as shown on the voter registration lists and the original affidavit of registration, purge the signature of any person who has not signed within the time limits set by law and purge the signature of any person who does not meet the qualifications for signing the petition as prescribed by law; and

(4) certify, no later than ten days after the petition is filed or after the expiration of the period within which the petition can be filed as prescribed by law, whichever occurs last, whether the petition contains the minimum number of valid names, addresses and signatures as mandated by law.

I. Nothing in this section shall preclude a person with a disability or an illiterate person from causing another person to sign a petition on a person with a disability's or

an illiterate person's behalf, so long as the person signing for the person with a disability or illiterate person executes an affidavit acknowledged before a notary public that the person is authorized to sign the petition for the person with a disability or illiterate person. In order for the signature on behalf of the person with a disability or illiterate person to be counted and not purged, the original affidavit shall be submitted along with the petition containing the signature on behalf of the illiterate person or person with a disability.

J. If the petition is certified as valid pursuant to Subsection G of this section or is certified as containing in excess of the minimum number of valid names, addresses and signatures mandated by law, then such certification shall be recorded as part of the minutes at the next meeting of the governing body or the board of county commissioners.

K. If the petition is certified as containing less than the minimum number of valid names, addresses and signatures mandated by law, then the municipal clerk, county clerk, governing body or board of county commissioners shall:

(1) cause the names, addresses and signatures that were purged from the petition to be posted in the municipal or county clerk's office no later than on the day the petition is certified;

(2) determine the total number of people signing the petition, the number purged, the number that were not purged and the minimum number of valid names, addresses and signatures required by law for such a petition and post this information along with and at the same time as the posting required in Paragraph (1) of this subsection;

(3) publish once, pursuant to the provisions of Subsection J of Section 3-1-2 NMSA 1978, within one week of the certification, the information compiled pursuant to Paragraphs (1) and (2) of this subsection; and

(4) cause the information compiled pursuant to Paragraphs (1) and (2) of this subsection and the date and place of publication pursuant to Paragraph (3) of this subsection to be recorded as part of the minutes at the next meeting of the governing body or the board of county commissioners after publication has occurred.

L. The following rules shall govern reinstatement of purged signatures:

(1) within ten days after the petition is certified as containing less than the minimum number of valid names, addresses and signatures mandated by law, any person whose signature has been purged from a petition may present evidence to the clerk to show that the person's signature has been wrongfully purged;

(2) if the clerk fails to reinstate that person's signature within three days of demand, then that person may, within ten days of the clerk's refusal to reinstate, petition

the district court for an order to reinstate the person's signature on the petition. Upon a prima facie showing by the petitioner of the right to have that person's signature included upon the petition, the district court shall issue an order to the municipal clerk, county clerk, governing body or board of county commissioners to require reinstatement of the signature of the petitioner;

(3) within ten days after receiving the order of the district court, the municipal clerk, county clerk, governing body or board of county commissioners shall reinstate the signature of the petitioner on the petition or show cause why the signature of the petitioner has not been reinstated. Upon hearing, if the district court finds that the person whose signature has been purged meets the qualifications for signing the petition, the district court shall make final its order of reinstatement to the municipal clerk, county clerk, governing body or board of county commissioners; and

(4) if a sufficient number of signatures are reinstated by the clerk, the district court or both to make the petition valid, then the reinstatement by the clerk or the district court, whichever occurs last, shall be deemed the date of certification of the validity of the petition for the purposes of adopting election resolutions, calling elections or for other matters as provided in the Municipal Code or otherwise provided by law.

M. Any petition that contains an insufficient number of signatures after all signatures have been reinstated pursuant to Subsection L of this section is invalid.

N. When a petition governed by this section is filed with the municipal clerk or the governing body of a municipality, the governing body or municipal clerk shall perform or cause to be performed the duties required under this section, except as otherwise prohibited by law. When a petition governed by this section is required to be filed with the county clerk or board of county commissioners, the board of county commissioners or county clerk shall perform or cause to be performed the duties required under this section, except as otherwise prohibited by law.

O. Any person or any municipal or county official knowingly violating the provisions of this section, knowingly providing or causing to be provided any false information on a petition or forging a signature or otherwise signing a petition when that person knows the person is not a qualified elector in the municipality is guilty of a fourth degree felony.

P. The provisions of this section shall not be binding upon a municipality to the extent such provisions are inconsistent with or superseded by the terms and provisions of:

(1) the charter of a municipality incorporated by a special act;

(2) the charter of a municipality adopted pursuant to Article 10, Section 6 of the constitution of New Mexico;

(3) the charter of a municipality adopted pursuant to the Municipal Charter Act; or

"24-1E-5. RECEIVER'S POWERS AND DUTIES.--

A. In addition to the receiver's powers and duties under the Receivership Act, the secretary as receiver and any deputy receiver under the Health Facility Receivership Act shall, except as the district court may otherwise order:

(1) perform all acts that are necessary to:

(a) correct or remedy each condition on which the receiver's appointment was based;

(b) ensure adequate care and necessary services for each resident or other person in the health facility;

(c) bring the facility into compliance with all applicable state and federal laws, rules and regulations; and

(d) manage and operate the health facility, including closing down, expanding or initiating new operations, hiring and firing officers and employees, contracting for necessary services, personnel, supplies, equipment, facilities and all other appropriate things, purchasing, selling, marshaling and otherwise managing its property and assets, paying the facility's obligations that are directly related to the health facility's operations or for providing adequate care and necessary services to residents or for other persons in the health facility, borrowing money and property and giving security for these and expending funds of the facility;

(2) give notice of establishment of the receivership to interested persons and publish notice in a newspaper of general circulation in each county in which the health care facility and any of its satellite facilities is located;

(3) if a resident or other person in the health facility is to be discharged or transferred, discuss the options for alternative placement with the resident, other person in the health facility or the guardian of that resident or other person in the health facility, as applicable, and arrange to transfer the records and personal property of the resident or other person in the health facility to the alternative placement facility; and

(4) with the court's approval, void any lease, mortgage, secured transaction, contract or other agreement made prior to the appointment of the receiver or any transfer of money or property made within one year prior to the filing of the petition if such lease, mortgage, secured transaction, contract, agreement or other transfer of money or property was made without fair consideration, including excessive interest rate, was made with actual intent to hinder, delay or defraud either future or existing creditors, was made with shareholders or owners of the health facility or persons otherwise having an interest in the health facility or was unrelated to the normal and expected maintenance and operation of the health facility.

C. Nonpayment by the receiver of any debt of the health facility under a lease, mortgage, secured transaction, contract or other agreement reasonably deemed by the receiver not to be directly related to the health facility's operations or for providing adequate care and necessary services to residents or other persons in the health facility shall not subject the receiver to liability for payment. Nonpayment of any lease, mortgage, secured transaction, contract or other agreement reasonably deemed by the receiver not to be directly related to the health facility's operations or for providing adequate care and necessary services to residents or other persons in the health facility shall not relieve the health facility from any liability upon termination of the receivership for payment of the full amount due under the lease, mortgage, secured transaction, contract or other agreement.

C. A banking corporation, savings and loan association or credit union operating under the laws of the United States or of a state shall be exempt from the licensing requirements of the New Mexico Small Loan Act of 1955, nor shall that act apply to business transacted by any person under the authority of and as permitted by any such law nor to any bona fide pawnbroking business transacted under a pawnbroker's license nor to bona fide commercial loans made to dealers upon personal property held for resale. Nothing contained in the New Mexico Small Loan Act of 1955 shall be construed as abridging the rights of any of those exempted from the operations of that act from contracting for or receiving interest or charges not in violation of an existing applicable statute of this state.

D. The provisions of Subsection A of this section apply to:

(1) a person who owns an interest, legal or equitable, in the business or profits of a licensee and whose name does not specifically appear on the face of the license, except a stockholder in a corporate licensee; and

A contract or loan in the making or collection of which an act is done that violates Subsection A or D of this section is void and the lender has no right to collect, receive or retain any principal, interest or charges whatsoever."

## **Chapter 86 Section 4 Laws 2007**

Section 4. Section 58-15-5 NMSA 1978 (being Laws 1978, Chapter 6, Section 1, as amended) is amended to read:

"58-15-5. LICENSES -- INVESTIGATION OF APPLICATION -- ISSUANCE -- DENIAL -- ISSUANCE OF RENEWAL LICENSE--DENIAL OF RENEWAL LICENSE -- FITNESS AND CHARACTER OF APPLICANT -- LICENSE FEES -- LICENSEE BOUND BY ACT.--

A. Upon the filing of an application, whether it is an original or a renewal, the director shall investigate the facts concerning the application and the requirements provided in this section.

B. An applicant for license, upon written notice to do so by the director, shall, within twenty days after service of the notice, furnish in writing, under oath, to the director all additional information required by the director that may be relevant or, in the opinion of the director, helpful in conducting the investigation.

C. Failure to comply with the director's requirement for supplemental information or the willful furnishing of false information is sufficient grounds for denial of license.

D. False or misleading information willfully and intentionally furnished to the director prior to the issuance of any license is grounds for suspension or revocation of any license in accordance with the procedures for suspension or revocation of license in the New Mexico Small Loan Act of 1955.

E. The director shall grant or deny each application for an original license within sixty days from the filing of the application with the required information and fees, unless the period is extended by written agreement between the applicant and the director.

F. In the event the director finds that:

(1) the financial responsibility, character and general fitness of the applicant for an original license and of the individual members and beneficiaries thereof, if the applicant is a copartnership, association or trust, and of the officers and directors thereof, if the applicant is a corporation, are such as to command the confidence of the public and to warrant belief that the business will be operated lawfully, honestly, fairly and efficiently within the declared purposes and spirit of the New Mexico Small Loan Act of 1955;

(2) allowing the applicant to engage in business will promote the convenience and advantage of the community in which the business of the applicant is to be conducted; and

(3) the applicant has available for operation of the business at the specified location cash or its equivalent, convertible securities or receivables of thirty thousand dollars (\$30,000) or any combination thereof;

the director shall enter an order granting the application, file the director's findings and, upon payment of the license fee of five hundred dollars (\$500), issue and deliver a license to the applicant.

G. If the director does not make the findings enumerated in Subsection F of this section, the director shall enter an order denying the application, notify the applicant of the denial and retain the application fee. Within thirty days after the entry of such an order, the director shall prepare written findings and shall deliver a copy to the applicant.

H. A written application for license renewal shall be filed on or before March 31 of each year, and thereupon the director shall investigate the facts and review the files of examinations of the applicant made by the director's office and of complaints filed by borrowers, if any. The director shall deliver a renewal license to the applicant if the director finds that:

(1) no valid complaints of violations or abuses of the New Mexico Small Loan Act of 1955 or of the regulations of the director promulgated under that act have been filed by borrowers;

(2) examinations of the affairs of the applicant indicate that the business has been conducted and operated lawfully and efficiently within the declared purposes and spirit of the New Mexico Small Loan Act of 1955; and

(3) the financial responsibility, experience and general fitness and character of the applicant remain such as to command the confidence of the public and to warrant the belief that the business will continue to be operated lawfully and efficiently within the purposes and spirit of the New Mexico Small Loan Act of 1955.

I. If the director does not make the findings enumerated in Subsection H of this section, the director may grant a temporary extension of the license not exceeding sixty days pending a hearing; shall enter an order fixing a date for hearing upon the application; shall notify the licensee thereof, specifying the particular complaints, violations or abuses or other reasons for the director's contemplated refusal to renew the license; and shall afford to the applicant an opportunity to be heard. At the hearing, the director shall produce evidence to establish the truth of the charges of violation or other grounds specified in the notice, and the applicant shall be accorded the right to produce evidence or other matters of defense. If after the hearing the director finds that the complaints of violations or other grounds specified in the notice are not well-founded, the director shall issue the renewal license. If the director finds that the complaints of violations or other grounds are well-founded, the director shall enter an order denying the renewal application and notify the applicant of the denial, returning the renewal license fee tendered with the application. Within thirty days after the entry of such an order, the director shall prepare written findings and shall deliver a copy of the findings to the applicant. The order shall be subject to review as provided in Section 58-15-25 NMSA 1978. The court in its discretion and upon proper showing may order a temporary extension of the license pending disposition of the review proceedings.

J. In connection with the determination of fitness and character of an applicant pursuant to the provisions of this section, the fact that the applicant or licensee is a member of or interested financially in, connected or affiliated with, controls or is controlled by or owns or is owned by other corporations, partnerships, trusts, associations or other legal entities engaged in the lending of money whose policies and practices as to rates of interest, charges and fees and general dealing with borrowers are questionable or would constitute violation of the general usury statutes of this state or of the declared purposes and spirit of the New Mexico Small Loan Act of 1955 shall be given such consideration and weight as the director determines.

K. At the time of issuance of original license and each annual renewal thereof, the licensee for each licensed office shall pay to the director as a license fee for the period covered by the license the sum of five hundred dollars (\$500) as a minimum, plus an additional seventy-five cents (\$.75) for each one thousand dollars (\$1,000) or fraction thereof of loans outstanding as of December 31 next preceding, as shown on the applicant's annual report. In the event that the application for annual renewal of the license is delinquent, the licensee shall also pay a delinquency fee of ten dollars (\$10.00) per day for each day the licensee is delinquent in filing the application for renewal.

L. A licensee by accepting a license that is issued or renewed or by continuing to operate a licensed office under the New Mexico Small Loan Act of 1955 shall by such

action be deemed to have consented to be bound by the lawful provisions of that act and all lawful requirements, regulations and orders of the director promulgated or issued pursuant to any authorization granted in that act."

## **Chapter 86 Section 5 Laws 2007**

Section 5. Section 58-15-9 NMSA 1978 (being Laws 1955, Chapter 128, Section 9, as amended) is amended to read:

"58-15-9. EXAMINATION OF LICENSEE'S BOOKS AND RECORDS--  
WITNESSES.--

A. At least once each year, the director or the director's authorized representative shall make an examination of the place of business of each licensee and the loans, transactions, books, papers and records of the licensee insofar as they pertain to the business licensed under the New Mexico Small Loan Act of 1955 as the director may deem necessary. The licensee shall pay to the director for such annual examination a fee of two hundred dollars (\$200).

B. Within a reasonable time after the completion of an examination of a licensed office, the director shall mail to the licensee a copy of the report of the examination, together with any comments, exceptions, objections or criticisms of the director concerning the conduct of the licensee and the operation of the licensed office.

C. For the purpose of discovering violations of the New Mexico Small Loan Act of 1955 or of securing information lawfully required under that act, the director or the director's authorized representative may at any time investigate the business and examine the books, accounts, papers and records used therein, including income tax returns or other reports filed in the office of the director of the revenue processing division of the taxation and revenue department of:

(1) any licensee;

(2) any other person engaged in the business described in Subsection A of Section 58-15-3 NMSA 1978 or participating in such business as principal, agent, broker or otherwise; and

(3) any person whom the director has reasonable cause to believe is violating any provision of the New Mexico Small Loan Act of 1955, whether the person claims to be within the authority or beyond the scope of that act.

D. For the purposes of this section, a person who advertises, solicits or makes any representation as being willing to make loan transactions in any amount, except persons, financial institutions or lending agencies operating under charters or licenses issued by a state or federal agency or under any special statute, shall be subject to investigation under the New Mexico Small Loan Act of 1955 and shall be presumed to

be engaged in the business described in Subsection A of Section 58-15-3 NMSA 1978 as to any loans of two thousand five hundred dollars (\$2,500) or less.

E. To facilitate the examinations and investigations by the director and fully disclose the operations and methods of operation of each licensed office, the licensee shall, in each licensed office, keep on file as part of the records of the office all office manuals, communications or directives containing statements of loan policy to office managers and employees. If the licensee is an individual, corporation, trust or association, the licensee shall keep in at least one office for information of the director a record of the several individuals, firms, beneficiaries of any trust and corporations deriving or receiving any part of the benefits, net income or profits from the operation of the licensee within New Mexico.

F. For the purposes of this section, the director or the director's authorized representative shall have and be given free access to the offices and places of business, files, safes and vaults of all licensees and shall have authority to require the attendance of any person and to examine the person under oath relative to such loans or business or to the subject matter of any examination, investigation or hearing as provided in the New Mexico Small Loan Act of 1955. Notices to appear before the director for examination under oath may be served by registered mail. If the party notified to appear is the licensee, any person named on the face of the license being investigated or any agent, employee or manager participating in the licensee's business and the party fails to appear for examination or refuses to answer questions submitted, the director may, forthwith and without further notice to the licensee, suspend the license involved pending compliance with the notice. Upon failure of any other person to appear or to answer questions, the director may apply to and invoke the aid of any district court of New Mexico in compelling the attendance and testimony of any such person and the production of books, records, written instruments and documents relating to the business of the licensee. The district court whose aid is so invoked by the director may, in case of contumacy or refusal to obey any order of the district court issued to compel the attendance of the person or the production of books, records, written instruments and documents, punish the person as for contempt of court.

G. The director shall prescribe rules of procedure for all hearings, examinations or investigations provided for in the New Mexico Small Loan Act of 1955. The director is not bound by the usual common law or statutory rules of evidence or by any technical or formal rules of procedure or pleading and specification of charges other than as specifically provided in the New Mexico Small Loan Act of 1955 but may conduct hearings, examinations and investigations in the manner best calculated to ascertain the substantial rights of the parties interested.

H. The director has the power to administer oaths, certify official acts and records of the director's office, issue subpoenas for witnesses in the name of and under the seal of the director's office and compel the production of papers, books, accounts and documents. The director shall issue subpoenas at the instance of any party to a hearing

before the division upon payment of a fee of two dollars fifty cents (\$2.50) for each subpoena so issued.

I. Depositions may be taken with or without a commission, and written interrogatories may be submitted in the same manner and on the same grounds provided by law for the taking of depositions or submission of written interrogatories in civil actions pending in the district courts of this state.

J. Each witness who appears before the director by the director's order shall receive the fees and mileage provided for witnesses in civil actions in the district court. Fees and mileage shall be paid by the state, but no witness subpoenaed at the instance of parties other than the director is entitled to compensation from the state for attendance or mileage unless the director certifies that the witness' testimony is material.

K. Whenever the director has reasonable cause to believe that a person is violating a provision of the New Mexico Small Loan Act of 1955, the director may, in addition to all actions provided for in that act and without prejudice thereto, enter an order requiring the person to desist or to refrain from the violation. An action may be brought on the relation of the attorney general and the director to enjoin the person from engaging in or continuing the violation or from doing any act in furtherance of the violation. In any such action, an order or judgment may be entered awarding a preliminary or final injunction as may be deemed proper. In addition to all other means provided by law for the enforcement of a temporary restraining order, temporary injunction or final injunction, the court in which such action is brought shall have power and jurisdiction to impound and to appoint a receiver for the property and business of the defendants, including books, papers, documents and records pertaining thereto or so much thereof as the court may deem reasonably necessary to prevent further violations of the New Mexico Small Loan Act of 1955 through or by means of the use of the property and business. The receiver, when appointed and qualified, shall have powers and duties as to custody, collection, administration, winding up and liquidation of the property and business as are from time to time conferred upon the receiver by the court."

## **Chapter 86 Section 6 Laws 2007**

Section 6. Section 58-15-10 NMSA 1978 (being Laws 1955, Chapter 128, Section 10, as amended) is amended to read:

"58-15-10. BOOKS AND RECORDS--ANNUAL REPORTS--ADDITIONAL INFORMATION.--

A. Each licensee shall keep and use in the business such books, accounts and records in accordance with sound accounting practices that will enable the director to determine whether the licensee is complying with the provisions of the New Mexico Small Loan Act of 1955 and with the orders and regulations lawfully made by the

director pursuant to the provisions of that act. Each licensee shall preserve the books, accounts and records for at least two years after making the final entry on a loan recorded therein.

B. Each licensee shall, annually on or before March 31, file a report with the director giving such relevant information as the director may reasonably require concerning the business and operations during the preceding calendar year for each licensed place of business conducted by the licensee within the state pursuant to the provisions of the New Mexico Small Loan Act of 1955. The report shall be made under oath and shall be in the form prescribed by the director. A summary of the reports shall be included in the published annual report of the director.

C. At the time of filing each annual report, at the time of the annual examination or at any other time when a license is in effect, the director may, upon written notice, require a licensee to furnish within twenty days in writing, and under oath if so specified by any written notice issued and served by the director upon the licensee, additional information as to ownership of any office; operation of any office; books, records, files and papers; and affiliation or relationship with any other person, firm, trust, association or corporation as, in the opinion of the director, may be helpful in the discharge of the director's official duties.

D. False or misleading information willfully furnished to the director by a licensee in an annual report or pursuant to a notice or requirement of the director is sufficient grounds for suspension and revocation of license in accordance with the procedures for suspension or revocation of license set forth in the New Mexico Small Loan Act of 1955."

## **Chapter 86 Section 7 Laws 2007**

Section 7. Section 58-15-11 NMSA 1978 (being Laws 1955, Chapter 128, Section 11, as amended) is amended to read:

"58-15-11. REGULATIONS AND ORDERS--CERTIFIED COPIES.--

A. The director has authority to make reasonable regulations and orders for the administration and enforcement of the New Mexico Small Loan Act of 1955 and is expressly authorized to make regulations and orders governing the conduct of all licensees' operations, including the method and manner of selling, handling and writing, in connection with any loan, any form of insurance by the licensee or any agent or employee in the office of the licensee or of any other firm, person or corporation associated or affiliated with the licensee or operating in the same building in which the business of the licensee is conducted. Every regulation shall be promulgated by an order, and any ruling, demand, requirement or similar administrative act may be promulgated by an order. Every order shall be in writing, referenced to the section under which it is issued, shall state its effective date and the date of its promulgation and shall be entered in an indexed permanent book that shall be a public record. A copy of every

order promulgating a regulation and of every other order containing a requirement of general application shall be mailed to each licensee at least fifteen days before the effective date of the order.

B. The director is expressly authorized to make regulations and orders, in accordance with the provisions of Subsection A of this section, governing the conduct of licensees in making loans to consumers. Such regulations may address, consistent with the provisions of Sections 58-15-32 through 58-15-38 NMSA 1978, all aspects of loans to consumers and shall specifically address:

(5) methods of verifying consumer eligibility for loans and licensee compliance with the New Mexico Small Loan Act of 1955 and regulations promulgated pursuant to that act.

C. On application of any person and payment of the cost thereof, the director shall furnish, under the director's seal and signed by the director or the director's deputy, a certified copy of any license, regulation or order. In any court or proceeding, the copy shall be prima facie evidence of the fact of the issuance of a license, regulation or order."

## **Chapter 86 Section 8 Laws 2007**

Section 8. Section 58-15-12 NMSA 1978 (being Laws 1955, Chapter 128, Section 12, as amended) is amended to read:

"58-15-12. ADVERTISING.--A licensee or other person subject to the New Mexico Small Loan Act of 1955 shall not advertise, display, distribute or broadcast or cause or permit to be advertised, displayed, distributed or broadcast in any manner whatsoever a false, misleading or deceptive statement or representation with regard to the charges, terms or conditions for loans in the amount or of the value of two thousand five hundred dollars (\$2,500) or less. The director may require that charges or rates of charge, if stated by a licensee, be stated fully and clearly in such manner as the director deems necessary to prevent misunderstanding by prospective borrowers. The director may permit or require licensees to refer in their advertising to the fact that their business is under state supervision, subject to conditions imposed by the director to prevent erroneous impressions as to the scope or degree of protection provided by the New Mexico Small Loan Act of 1955."

## **Chapter 86 Section 9 Laws 2007**

Section 9. Section 58-15-14.1 NMSA 1978 (being Laws 1983, Chapter 95, Section 2) is amended to read:

However, if part or all of the consideration for a loan contract is the unpaid principal balance of a prior loan, then the principal amount payable under the loan contract may include any unpaid charges that have accrued within sixty days on the prior loan. Such charges shall be computed on the basis of the number of days actually elapsed."

## **Chapter 86 Section 10 Laws 2007**

A licensee may mark and return a copy of the note, promise to pay or any assignment if the copy accurately reproduces the complete original.

B. A licensee shall not take a note or promise to pay that does not disclose the amount of the loan, a schedule of payments, or a description thereof, and the agreed charge or rate of charge or any instrument in which blanks are left to be filled in after execution.

C. If judgment is obtained against a party on a loan made pursuant to the provisions of the New Mexico Small Loan Act of 1955, neither the judgment nor the loan shall carry, from the date of the judgment, charges against a party to the loan other than costs, attorney fees and post-judgment interest as provided by law.

D. Any loan made under the provisions of the New Mexico Small Loan Act of 1955 that is filed and approved as a claim in any bankruptcy proceeding shall, from a date ninety days subsequent to the date of adjudication, bear interest at the rate of ten percent a year only.
