

TORONTO STOCK EXCHANGE

NOTICE OF HOUSEKEEPING RULE AMENDMENTS TO THE TSX COMPANY MANUAL

Introduction

In accordance with the Process for the Review and Approval of Rules and the Information Contained in Form 21-101F1 (the “**Protocol**”), Toronto Stock Exchange (“**TSX**”) has adopted, and the Ontario Securities Commission (“**OSC**”) has approved, certain housekeeping amendments (the “**Amendments**”) to TSX Company Reporting Form 2E – Change in Transfer Agent & Registrar (“**Reporting Form 2E**”) and Reporting Form 5 – Dividend/Distribution Declaration (“**Reporting Form 5**”) of the TSX Company Manual (the “**Manual**”). The Amendments are Housekeeping Rules under the Protocol and therefore have not been published for comment. The OSC has not disagreed with the categorization of the Amendments as Housekeeping Rules. In accordance with Section 5 of the Protocol, TSX has obtained a waiver from the OSC in connection with the requirements to obtain approval by the board of directors of TSX.

Summary and Rationale of the Non-Public Interest Amendments

	Section of the Manual	Amendment	Rationale
1.	Reporting Form 2E	Amend language to confirm whether the change in transfer agent and registrar applies to all of the issuer’s listed securities, or only to certain securities.	When an issuer reports a change in its transfer agent and registrar, Reporting Form 2E assumes that the issuer has the same transfer agent and registrar for all of its listed securities. However, this is not always the case. Some issuers may have different transfer agents and registrars for its various securities, in which case, issuers subsequently contact TSX Staff to confirm which securities are actually affected by the change reported in the form. The amendment seeks to clarify whether the change in transfer agent and registrar applies to all of the listed securities of the issuer, and if not, which securities the change applies to.
2.	Reporting Form 5	Amend language to confirm, in the case of a regular dividend that is not being declared on a security with TSX for the first time, whether the frequency of such dividend has changed, and if so, what the frequency of such dividend is.	For regular dividends, Reporting Form 5 asks issuers to confirm whether the dividend is being declared on a security with TSX for the first time, and if so, the issuer is required to indicate the frequency of such dividend. If the issuer indicates that the dividend is <i>not</i> being declared on a security with TSX for the first time, the current form does not prompt the issuer to indicate whether the frequency of such dividend has changed. There are cases, however,

			where the frequency of a previously declared dividend on a security has changed. As such, the amendment seeks to clarify whether there are any changes to the frequency of a dividend being declared, and if so, what the frequency is.
